

Exhibit 110

TO OUR SHAREHOLDERS,

This year, Nike celebrates our 50th anniversary. It's been a moment to honor our past and look with excitement to our future. It also serves as a reminder that for 50 years now, Nike has been a growth company. For five decades, we have innovated for athletes, redefining sport for generation after generation.

That focus continued in FY22, driving strong financial results amidst a truly dynamic operating environment. Our talented and resilient team united and delivered, steadfastly serving the athlete* with creativity and resilience. Fueled by our unique competitive advantages, our strong FY22 results offer definitive proof that our strategy is working.

Our financial performance for the fiscal year was led by strong double-digit growth in our owned digital business. Nike-owned digital continues to increase market share, even as physical retail returns. These results are driven by our core belief in having a direct connection with the consumer, either through Nike-owned retail or one of our wholesale partners. It's clear that the power we have across the marketplace – without sacrificing either digital or physical – continues to fuel our momentum with consumers.

Another key competitive advantage for us is the strength of our global portfolio, with Nike, Jordan and Converse three of the most connected brands across diverse markets worldwide. Our strong brands and our rich authenticity in sport continue to create even deeper and more direct consumer relationships, driving differentiation for us all over the globe.

And as we look ahead, the structural changes we see give us confidence in our strategy and growth outlook. These tailwinds – including the societal movement toward health & wellness and the fundamental shift in consumer behavior toward digital – represent a consumer-led transformation that continues to create energy for us.

All this momentum is fueled by Nike's remarkable underlying strengths. Ultimately, we drive lifelong relationships with consumers thanks to:

- a culture of innovation,
- a true digital advantage, and
- a brand that inspires as we remain the champion for athletes and sport.

As always, at Nike, everything starts with **innovation**. In FY22, our leadership in performance innovation could be felt across our consumer construct of Men's, Women's and Kids. For instance, we're fueling apparel growth for Women's, led by our yoga business that features multiple industry-leading innovations including Dri-FIT and Infinalon. And in Kids, the popular Dynamo Go uses FlyEase to help our youngest athletes quickly get their shoes on and off. We also continue to drive our sustainability innovation agenda as we strategically grow Space Hippy to global scale through deliberate franchise and innovation management. Today, there are more than 40 styles using Space Hippy innovations across four sports, three brands and our full consumer construct.

Our work to innovate the future can also be felt across the **marketplace**. We continue to bring to life our vision of giving consumers personalized digital experiences regardless of channel. We know consumers expect us to know them online or offline – and across the full array of monobrand stores, Nike Digital and our wholesale partners. In FY22, we were laser-focused on building a better shopping experience through online-to-offline services that drive growth. Today, 100% of our North America stores offer at least one element of

O2O. In addition to our owned physical retail, we continue to innovate and co-design partner experiences and business models to better know and serve consumers. We started this journey through connected inventory, and increasingly we're serving our consumers as Nike members even when shopping through our retail partners. This is an exciting step on our journey within our marketplace strategy because it continues to prove how powerful it is when brands and retailers work together.

Finally, our mission of **inspiration** for athletes everywhere connects all that we do. The values we share with consumers are a major reason why they continuously seek relationships with our brand, and why Nike is again the #1 favorite brand in all 12 of our key cities. We maintain these deep connections thanks to the investments we make. This past year, we furthered our 25-year commitment to the WNBA by becoming an equity investor in the league, as we work together to bring more girls into basketball at the local level. FY22 also saw the debut collection of the Serena Williams Design Crew, our apprenticeship program that advances diversity in design. And we began the next chapter of our relationship with Kobe Bryant and his family with a launch with deep global resonance across all four of our geographies. As our values continue to move us forward, we stay close with our consumers as we write the future together.

As we look to FY23 and beyond, Nike will stay on the offense. We're excited by what we see as we look at the vast growth opportunities ahead of us. We have the right team and the right strategy in place, all fueled by a culture of innovation and creativity that will extend our leadership position for many years to come. The possibilities are endless, and I can't wait for what's next.

Respectfully,

John

Fiscal Years 2018-2022

* Performance of the S&P 500 and NIKE stock is calculated by comparing the total returns of each assuming the reinvestment of dividends over the time period of 5/31/2017 to 5/31/2022.

^ Fiscal 2020 reflects the material adverse impacts to NIKE, Inc.'s business from COVID-19. Refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's FY20 Annual Report on Form 10-K for additional information on the impacts of COVID-19 to the Company's results.

† Fiscal 2018 reflects the impacts of the U.S. Tax Cuts and Jobs Act. Refer to Note 9 - Income Taxes in the Company's FY20 Annual Reporting on Form 10-K for additional information on the impact of the U.S. Tax Cuts and Jobs Act.

2022 NOTICE OF ANNUAL MEETING

MESSAGE FROM OUR EXECUTIVE CHAIRMAN

To Our Shareholders:

Fiscal 2022 was a pivotal year at NIKE. The Board of Directors oversaw significant transformations in support of the Consumer Direct Acceleration strategy, which NIKE executed in a dynamic operating environment. Through COVID-related disruptions, geopolitical tensions, and more, NIKE continued to deliver strong results and champion athletes and sport. And as many employees returned to the workplace, the Board celebrated NIKE's 50th anniversary by honoring the Company's past and overseeing its growth for the future.

The Board brought that same spirit of growth to corporate governance. We know that strong governance helps create long-term value for NIKE's shareholders—enabling responsible, sustainable growth, even in complex conditions. During fiscal 2022, the Board holistically assessed and enhanced our governance documents, including our Corporate Governance Guidelines and committee charters. We also continued to evolve as a Board, aligning committee rosters and refreshing our membership as we continue maintaining an appropriate balance of tenure, experience, and perspectives.

As we look ahead to our Annual Meeting of Shareholders, we are pleased to share our proxy statement with you. We continue to further enhance our disclosures in pursuit of transparency, clarity, and readability and in response to shareholder feedback. Changes this year include increased detail on director diversity, a new section highlighting Board oversight of ESG, and the addition of the Fiscal 2022 Annual Direct Compensation Table. This addition, which can be found in the Compensation Discussion and Analysis section, clarifies how we view executive compensation in light of our evolved long-term incentive compensation program.

We are pleased to invite you to attend the Annual Meeting of Shareholders of NIKE, Inc. to be held virtually on Friday, September 9, 2022, at 10:00 A.M. Pacific Time. Whether or not you plan to attend, the prompt execution and return of your proxy card will both assure that your shares are represented at the meeting and minimize the cost of proxy solicitation. Thank you for your continued support.

Sincerely,

MARK G. PARKER, EXECUTIVE CHAIRMAN

July 21, 2022

"...the Board celebrated NIKE's 50th anniversary by honoring the Company's past and overseeing its growth for the future."

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

TO THE SHAREHOLDERS OF NIKE, INC.

You are cordially invited to the Annual Meeting of Shareholders of NIKE, Inc., an Oregon corporation:

DATE AND TIME:

Friday, September 9, 2022,
at 10:00 A.M. Pacific Time

LOCATION:

This year's meeting will be a virtual Annual Meeting at
www.virtualshareholdermeeting.com/NKE2022

ITEMS OF BUSINESS:

PROXY STATEMENT

We are furnishing proxy materials to our shareholders primarily via the Internet, by mailing a Notice Regarding the Availability of Proxy Materials, or "Notice", instead of mailing printed copies of those materials to each shareholder. The Notice directs shareholders to a website where they can access our proxy materials, including our proxy statement and our annual report, and view instructions on how to vote online or by telephone. If you would prefer to receive a paper copy of our proxy materials, please follow the instructions included in the Notice. If you have previously elected to receive our proxy materials electronically, you will continue to receive access to these materials electronically unless you elect otherwise.

The enclosed proxy is solicited by the Board of Directors (the "Board") of NIKE, Inc. ("NIKE" or the "Company") for use at the annual meeting of shareholders to be held on September 9, 2022, and at any adjournment thereof (the "Annual Meeting"). Our principal executive offices are located at One Bowerman Drive, Beaverton, Oregon 97005-6453. This proxy statement is first being made available to shareholders on or about July 28, 2022. Shareholders may submit a proxy to vote at the Annual Meeting by following the instructions on the Notice, online or by telephone, or (if they have received paper copies of the proxy materials) by returning a proxy card.

The Company will bear the cost of soliciting proxies. In addition to soliciting proxies by mail, certain officers and employees of the Company, without extra compensation, may also solicit proxies personally or by telephone. Copies of proxy solicitation materials will be furnished to fiduciaries, custodians, and brokerage houses for forwarding to the beneficial owners of shares held in their names. We may retain Georgeson, Inc. to solicit proxies at a cost we anticipate will not exceed \$17,500.

Shares that are properly voted online or by telephone or for which proxy cards are properly executed and received by the Company prior to the Annual Meeting will be voted in accordance with the instructions specified in such proxies. Where no instructions are given, shares will be voted "FOR" the election of each of the named nominees for director (Proposal 1), "FOR" the proposal regarding an advisory vote to approve executive compensation (Proposal 2), "FOR" the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm (Proposal 3), "FOR" the approval of the amendment of the NIKE, Inc. Employee Stock Purchase Plan to increase the authorized shares (Proposal 4), and "AGAINST" the shareholder proposal regarding a policy on China sourcing (Proposal 5).

A shareholder giving the enclosed proxy has the power to revoke it at any time before it is exercised by affirmatively electing to vote at the meeting or by delivering to the Corporate Secretary of NIKE, Inc. either an instrument of revocation or an executed proxy bearing a later date.

VIRTUAL MEETING

Due to the public health impact of the COVID pandemic and to support the well-being of our employees and shareholders, we have decided to hold this year's Annual Meeting in a virtual meeting format only. Shareholders of record at the close of business on July 8, 2022 may attend the Annual Meeting, vote, and submit questions in advance of and during the meeting. To attend, vote at, and submit questions during the Annual Meeting, visit www.virtualshareholdermeeting.com/NKE2022 and enter the 16-digit control number included in your Notice, voting instructions form, or proxy card. Online access to the webcast will open approximately 15 minutes prior to the start of the Annual Meeting to allow time for you to log in and test the computer audio system. To submit questions in advance of the Annual Meeting, visit www.proxyvote.com before 11:59 P.M. Eastern Time on September 8, 2022 and enter the 16-digit control number included in your Notice, voting instructions form, or proxy card.

VOTING SECURITIES AND VOTE REQUIRED

Holders of record of NIKE's Class A Common Stock ("Class A Stock") and holders of record of NIKE's Class B Common Stock ("Class B Stock" and together with the Class A Stock, the "Common Stock") at the close of business on July 8, 2022 will be entitled to vote at the Annual Meeting. On that date, 304,903,252 shares of Class A Stock and 1,263,652,653 shares of Class B Stock were issued and outstanding. Neither class of Common Stock has cumulative voting rights.

Each share of Class A Stock and each share of Class B Stock is entitled to one vote. The holders of our Common Stock will vote together on all matters at the Annual Meeting except for the election of directors, for which the holders of Class A Stock and holders of Class B Stock will vote separately. Holders of Class B Stock are currently entitled to elect 25 percent of the Board, rounded up to the next whole number, and holders of Class A Stock are currently entitled to elect the remaining directors. Under this formula, holders of Class B Stock will elect three directors at the Annual Meeting and holders of Class A Stock will elect seven directors.

For Proposal 1, the election of directors, a majority of the votes entitled to be cast by each of the Class A Stock and Class B Stock separately constitutes a quorum of Class A Stock and Class B Stock, respectively. Under Oregon law and our Bylaws, if a quorum of each class of Common Stock is present at the meeting, the three director nominees who receive the greatest number of votes cast by holders of Class B Stock and the seven director nominees who receive the greatest number of votes cast by

holders of Class A Stock will be elected directors. For Proposals 2, 3, 4, and 5, a majority of the votes entitled to be cast by both of the Class A Stock and Class B Stock together constitutes a quorum. If a quorum is present at the meeting, Proposals 2, 3, 4, and 5 will be approved if the votes cast in favor of the proposal exceed the votes cast against the proposal.

Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists. Abstentions and broker non-votes are not included as votes cast and will not affect the outcome of any of the proposals. Broker non-votes occur when a person holding shares in street name, such as through a brokerage firm, does not provide instructions as to how to vote those shares and the broker does not then vote those shares on the shareholder's behalf.

CORPORATE GOVERNANCE

PROPOSAL 1

ELECTION OF DIRECTORS

A Board of 10 directors will be elected at the Annual Meeting. Directors will hold office until the next annual meeting of shareholders or until their successors are elected and qualified. All of the nominees were elected at the 2021 annual meeting of shareholders.

Mr. Alan B. Graf, Jr., Dr. Peter B. Henry, and Ms. Michelle A. Peluso are nominated by the Board for election by the holders of Class B Stock. The other seven nominees are nominated by the Board for election by the holders of Class A Stock.

Under Oregon law and our Bylaws, if a quorum of each class of shareholders is present at the Annual Meeting, the seven director nominees who receive the greatest number of votes cast by holders of Class A Stock and the three director nominees who receive the greatest number of votes cast by holders of Class B Stock will be elected directors. Abstentions and broker non-votes will have no effect on the results of the vote. Unless otherwise instructed, proxy holders will vote the proxies they receive for the nominees listed below. If any nominee becomes unable to serve, the holders of the proxies may, in their discretion, vote the shares for a substitute nominee or nominees designated by the Board.

The Bylaws and the Corporate Governance Guidelines of the Company provide that any nominee for director in an uncontested election who receives a greater number of votes "withheld" from his or her election than votes "for" such election shall tender his or her resignation for consideration by the Corporate Responsibility, Sustainability & Governance Committee. The committee will recommend to the Board the action to be taken with respect to the resignation. The Board will publicly disclose its decision within 90 days after the certification of the election results.

Background information on the nominees as of July 21, 2022, including certain of the attributes that led to their selection, appears below. The Corporate Responsibility, Sustainability & Governance Committee has determined that each director meets the qualification standards described below under "Individual Board Skills Matrix—Director Nominations". In addition, the Board firmly believes that the experience, attributes, and skills of any single director nominee should not be viewed in isolation, but rather in the context of the experience, attributes, and skills that all director nominees bring to the Board as a whole, each of which contributes to the function of an effective Board.

BOARD RECOMMENDATION

The Board of Directors recommends that the Class A Shareholders vote **FOR** the election of nominees to the Board of Directors

The Board of Directors recommends that the Class B Shareholders vote **FOR** the election of nominees to the Board of Directors

NIKE, INC. BOARD OF DIRECTORS

BOARD OVERVIEW

Our director nominees consist of 10 individuals selected on the basis of numerous criteria, including experience and achievements, fields of significant knowledge, good character, sound judgment, and diversity. We view the effectiveness of our Board both through an individual and collective lens and believe that our Board is optimized to support and guide the Company.

DIVERSITY

AGE

TENURE

BOARD SKILLS, EXPERIENCES, AND QUALIFICATIONS

DIVERSITY 5/10

Gender or racial or ethnic diversity that adds a range of perspectives and expands the Board's understanding of the needs and viewpoints of consumers, employees, and other stakeholders worldwide.

FINANCIAL EXPERTISE 10/10

Financial expertise assists our Board in overseeing our financial statements, capital structure, and internal controls.

CEO EXPERIENCE 7/10

CEO experience brings leadership qualifications and skills that help our Board to capably advise, support, and oversee our management team, including regarding our strategy to drive long-term value.

INTERNATIONAL 7/10

International exposure yields an understanding of diverse business environments, economic conditions, and cultural perspectives that informs our global business and strategy and enhances oversight of our multinational operations.

DIGITAL/TECHNOLOGY 4/10

Technology experience helps our Board oversee cybersecurity and advise our management team as we seek to enhance the consumer experience and further develop our multi-channel strategy.

RETAIL INDUSTRY 5/10

Retail experience brings a deep understanding of factors affecting our industry, operations, business needs, and strategic goals.

MEDIA 1/10

Media experience provides the Board with insight about connecting with consumers and other stakeholders in a timely and impactful manner.

ACADEMIA 1/10

Academia provides organizational management experience and knowledge of current issues in academia and thought leadership.

HR/TALENT MANAGEMENT 6/10

HR and talent management experience assists our Board in overseeing executive compensation, succession planning, and employee engagement.

GOVERNANCE 7/10

Public company board experience provides insight into new and best practices which informs our commitment to excellence in corporate governance.

CORPORATE GOVERNANCE HIGHLIGHTS

- ✓ 7 out of 10 director nominees are independent
- ✓ Separate Chair, CEO, and Lead Independent Director positions with clearly defined roles
- ✓ "Evergreen" approach to Board refreshment, with 3 new independent directors added in last 4 fiscal years
- ✓ Director nominees selected based on robust qualification standards, including the desire to represent and serve the interests of all shareholders, and a holistic approach to Board composition
- ✓ Retirement policy generally requires that directors do not stand for election after reaching the age of 72

<div>  <div> SKILLS, EXPERIENCES AND QUALIFICATIONS <div>  FINANCIAL EXPERTISE </div> <div>  CEO EXPERIENCE </div> <div>  MEDIA </div> </div> </div>				

Mr. Knight is the President and Chief Executive Officer of the animation studio, LAIKA, LLC ("LAIKA"), which specializes in feature-length films.

- Mr. Knight has been involved in all principal creative and business decisions at LAIKA since its founding in 2003, serving in successive management positions as Lead Animator, Vice President of Animation, and then as President and Chief Executive Officer in 2009.
- Mr. Knight was Producer and Director of the feature film *Kubo and the Two Strings* (2017) which was nominated for an Academy Award and winner of the BAFTA award for Best Animated Film.
- Mr. Knight has served as Producer and Lead Animator on Academy Award-nominated feature-length films *The Boxtrolls* (2014) and *ParaNorman* (2012), for which he won an Annie Award for Outstanding Achievement in Character Animation, and Lead Animator for *Coraline* (2009).
- Prior to his work at LAIKA, Mr. Knight held various animation positions at Will Vinton Studios from 1998 to 2002, and as a stop-motion animator for television series, commercials, and network promotions. He has been recognized for his work on the Emmy Award-winning stop-motion animated television series *The PJs*.

Mr. Knight serves on the Board of Directors of LAIKA. He is the son of NIKE's co-founder, Mr. Philip Knight, who currently serves as Chairman Emeritus. In addition to his skills and qualifications described above, Mr. Travis Knight was selected to serve on the Board because he has a significant role in the management of the Class A Stock owned by Swoosh, LLC, strengthening the alignment of the Board with the interests of NIKE shareholders.

MARK G. PARKER, EXECUTIVE CHAIRMAN OF THE BOARD

AGE	DIRECTOR SINCE	COMMITTEE	OTHER CURRENT PUBLIC DIRECTORSHIPS	FAVORITE NIKE PRODUCTS
66	2006	Executive, Chair	The Walt Disney Company	Nike Pegasus, Nike Air Max, and Nike React Infinity Run
<div>  <div> <div>SKILLS, EXPERIENCES AND QUALIFICATIONS</div> <div> <div>  FINANCIAL EXPERTISE </div> <div>  CEO EXPERIENCE </div> </div> <div> <div>  INTERNATIONAL </div> <div>  RETAIL INDUSTRY </div> </div> <div> <div>  HR/TALENT MANAGEMENT </div> <div>  GOVERNANCE </div> </div> </div> </div>				

Mr. Parker is Executive Chairman of the Board of Directors of the Company. He served as President and Chief Executive Officer of the Company from 2006 to January 2020.

- Mr. Parker has been employed by NIKE since 1979 with primary responsibilities in product research, design and development, marketing, and brand management.
- Mr. Parker was appointed:
 - President and Chief Executive Officer in 2006,
 - President of the NIKE Brand in 2001,
 - Vice President of Global Footwear in 1998,
 - General Manager in 1993,
 - Corporate Vice President in 1989, and
 - Divisional Vice President in charge of product development in 1987.

Mr. Parker is a member of the Board of Directors of The Walt Disney Company. In addition to his skills and qualifications described above, Mr. Parker was selected to serve on the Board because the experience gained while serving as the Company's Chief Executive Officer makes his position as Executive Chairman of the Board instrumental.

JOHN W. ROGERS, JR.

AGE	DIRECTOR SINCE	COMMITTEE	OTHER CURRENT PUBLIC DIRECTORSHIPS	FAVORITE NIKE PRODUCTS
64	2018	Corporate Responsibility, Sustainability & Governance	McDonald's Corporation, The New York Times Company, and Ryan Specialty Group Holdings, Inc.	Nike KD and Nike LeBron Basketball Shoes

Mr. Rogers is Chairman, Co-Chief Executive Officer, and Chief Investment Officer of Ariel Investments, LLC, a privately-held money management firm he founded in 1983, which serves individual and institutional investors through its mutual funds and separate accounts. Mr. Rogers is a Trustee of Ariel Investment Trust, the investment company consisting of the five mutual funds his firm manages.

- In 2008, Mr. Rogers was awarded Princeton University's highest honor, the Woodrow Wilson Award, presented each year to the alumnus whose career embodies a commitment to national service.
- Mr. Rogers served as co-chair for the Presidential Inaugural Committee 2009, and more recently, joined the Barack Obama Foundation's Board of Directors.

Mr. Rogers is a member of the Board of Directors of McDonald's Corporation, The New York Times Company, and Ryan Specialty Group Holdings, Inc. In addition to this public company board service, he also serves as trustee of the University of Chicago, a member of the Board of Directors of the Robert F. Kennedy Human Rights, and the National Association of Basketball Coaches (NABC) Foundation, Inc., and a life trustee of the Chicago Symphony Orchestra. Mr. Rogers served on the Board of Directors of Exelon Corporation from October 2000 until April 2019.

BOARD RECOMMENDATION

The Board of Directors recommends that the Class A Shareholders vote **FOR** the election of the nominees above to the Board of Directors.

Ms. Peluso is Executive Vice President and Chief Customer Officer at CVS Health, a diversified health services company, and has direct oversight for CVS Health's marketing and brand strategy, digital transformation, and the end-to-end consumer experience.

- Prior to joining CVS Health, Ms. Peluso was Senior Vice President, Digital Sales and Chief Marketing Officer at IBM from 2016 to 2021. She oversaw marketing and brand strategy and execution, digital sales, and the commercial business, globally. She was also responsible for the company's client experience.
- Prior to her work at IBM, Ms. Peluso served as Chief Executive Officer of online shopping destination Gilt Groupe, Inc. ("Gilt") from 2013 until its sale to Hudson's Bay Company in February 2016 and was on Gilt's Board of Directors from 2009 to 2016.
- From 2009 to 2013, Ms. Peluso served as Global Consumer Chief Marketing and Internet Officer of Citigroup Inc.
- From 2002 to 2009, Ms. Peluso held senior management positions at Travelocity.com LP ("Travelocity"), being appointed Chief Operating Officer in March 2003, and President and Chief Executive Officer in December 2003.
- Prior to joining Travelocity, in 1999 Ms. Peluso founded Site59, an online travel site, serving as its Chief Executive Officer until its acquisition by Travelocity in 2002.

Ms. Peluso is a member of the Board of Directors at the Ad Council and is on the Executive Council of the Board of Directors of the Association of National Advertisers. She is also a director of the nonprofit TechnoServe.

BOARD RECOMMENDATION

DIRECTOR NOMINATIONS

The Board of Directors takes an "evergreen" approach to Board refreshment, cultivating relationships with top talent on an ongoing basis. The Corporate Responsibility, Sustainability & Governance Committee identifies potential director candidates through a variety of means, including recommendations from members of the Corporate Responsibility, Sustainability & Governance Committee or the Board, suggestions from Company management, and shareholder recommendations. The committee may, in its discretion, engage director search firms to identify candidates. Shareholders may recommend director candidates for consideration by the Corporate Responsibility, Sustainability & Governance Committee by submitting a written recommendation to the committee, c/o Corporate Secretary, NIKE, Inc., One Bowerman Drive, Beaverton, Oregon 97005-6453. The recommendation should include the candidate's name, age, qualifications (including principal occupation and employment history), and written consent to be named as a nominee in the Company's proxy statement and to serve as a director, if elected.

The Board of Directors has adopted qualification standards for the selection of non-management nominees for director, which can be found at our corporate website: <http://investors.nike.com>. As provided in these standards and the Company's corporate governance guidelines, nominees for director are selected on the basis of, among other things, distinguished business experience or other non-business achievements; education; significant knowledge of international business, finance, marketing, technology, human resources, diversity & inclusion, law, or other fields which are complementary to, and balance the knowledge of, other Board members; a desire to represent and serve the interests of all shareholders; independence; good character; ethics; sound judgment; diversity; and ability to devote substantial time to discharge Board responsibilities.

The Corporate Responsibility, Sustainability & Governance Committee identifies qualified potential candidates without regard to their age, gender, race, national origin, sexual orientation, or religion. While the Board has no policy regarding Board member diversity, the Corporate Responsibility, Sustainability & Governance Committee considers and discusses diversity in selecting nominees for director and in the re-nomination of an incumbent director. The committee views diversity broadly to include, among other things, differences in backgrounds, qualifications, experiences, viewpoint, geographic location, education, skills and expertise (including financial, accounting, compliance, corporate social responsibility, public policy, cybersecurity, or other expertise relevant to service on the Board), professional and industry experience, and personal characteristics (including gender, ethnicity/race, and sexual orientation). The Board believes that a variety and balance of perspectives on the Board results in more thoughtful and robust deliberations, and ultimately, better decisions.

In considering the re-nomination of an incumbent director, the Corporate Responsibility, Sustainability & Governance Committee reviews the director's overall service to the Company during his or her term, including the number of meetings attended, level of participation, and quality of performance, as well as any special skills, experience, or diversity that such director brings to the Board. All potential new director candidates, whether recommended by shareholders or identified by other means, are initially screened by the Chair of the Corporate Responsibility, Sustainability & Governance Committee, who may seek additional information about the background and qualifications of the candidate, and who may determine that a candidate does not have qualifications that merit further consideration by the full committee. With respect to new director candidates who pass the initial screening, the Corporate Responsibility, Sustainability & Governance Committee meets to discuss and consider each candidate's qualifications and potential contributions to the Board, and determines by majority vote whether to recommend such candidate to the Board. The final decision to either appoint a candidate to fill a vacancy between annual meetings or include a candidate on the slate of nominees proposed at an annual meeting is made by the Board. Ms. Comstock, who has served on the Board since 2011, has announced that she will not stand for re-election to the Board at the Annual Meeting.

It is the general policy of the Board that directors will not stand for re-election after reaching the age of 72.

DIRECTOR INDEPENDENCE

Pursuant to New York Stock Exchange ("NYSE") listing rules, in order for a director to qualify as "independent", the Board of Directors must affirmatively determine that the director has no material relationship with the Company that would impair the director's independence. The Board affirmatively determined that commercial or charitable relationships below the following thresholds will not be considered material relationships that impair a director's independence: (1) if a NIKE director or immediate family member is an executive officer of another company that does business with NIKE and the annual sales to, or purchases from, NIKE are less than one percent of the annual revenues of the other company; and (2) if a NIKE director or immediate family member serves as an officer, director, or trustee of a charitable organization, and NIKE's contributions to the organization are less than one percent of that organization's total annual charitable receipts. After applying this categorical standard and the applicable NYSE independence standards, the Board has determined that the following directors who served during fiscal 2022—Cathleen A. Benko, Elizabeth J. Comstock, John G. Connors, Timothy D. Cook, Thasunda B. Duckett, Alan B. Graf, Jr., Peter B. Henry, Michelle A. Peluso, and John W. Rogers, Jr.—have no material relationship with the Company and, therefore, are independent. Messrs. John J. Donahoe II, Travis A. Knight, and Mark G. Parker were not independent pursuant to NYSE rules. Messrs. Donahoe and Parker were not independent pursuant to NYSE rules because they were employed by the Company during fiscal 2022. Mr. Knight was not independent pursuant to NYSE rules because he is the son of NIKE's co-founder and former Chairman

of the Board, Mr. Philip Knight, who received compensation in excess of the threshold set forth in applicable NYSE rules for his position as Chairman Emeritus. The compensation paid to Mr. Philip Knight is described in the section below titled "Stock Ownership Information—Transactions with Related Persons".

BOARD STRUCTURE AND RESPONSIBILITIES

The Board is currently composed of eight independent directors and three directors who are not independent under the NYSE listing rules. Ms. Comstock, who is independent, will not stand for re-election to the Board at the Annual Meeting. During fiscal 2022, there were six meetings of the Board and all of our directors attended at least 75 percent of the total number of meetings of the Board and committees on which he or she served. The Company encourages all directors to attend each annual meeting of shareholders, and 11 of the 12 directors then standing for election attended the 2021 annual meeting.

BOARD LEADERSHIP STRUCTURE

NIKE's governing documents provide the Board with flexibility to select the appropriate leadership structure of the Company. In determining the leadership structure, the Board considers many factors, including the specific needs of the business, fulfilling the duties of the Board, and the best interests of the Company's shareholders. Effective January 2020, the Company separated the position of Chair of the Board from the position of President and CEO, although this is not a permanent policy of the Board. The Executive Chairman, Mr. Mark G. Parker, presides over meetings of the Board of Directors and shareholders. The President and CEO, Mr. John J. Donahoe II, is in charge of the general supervision, direction, and control of the business and affairs of the Company, subject to the overall direction and supervision of the Board and its committees.

Given the particular experience and tenure of Messrs. Parker and Donahoe, the Board believes this leadership structure is appropriate for the Company because it separates the leadership of the Board from the duties of day-to-day leadership of the Company. This structure permits Mr. Donahoe to primarily focus his time and attention on the business, while Mr. Parker directs his attention to the broad strategic issues considered by the Board of Directors. This structure works particularly well given the talent, experience and professional relationship of Messrs. Donahoe and Parker established during Mr. Donahoe's service on the Board beginning in 2014.

In 2016, the Corporate Responsibility, Sustainability & Governance Committee established the position of lead independent director to ensure strong independent leadership of the Board. The position of Lead Independent Director is entrusted to execute the following functions:

- serve as a liaison between the Chair and the independent directors;
- approve the meeting agendas for the Board;
- advise the Chair regarding the sufficiency, quality, quantity, and timeliness of information provided to the Board;
- ensure that meeting schedules permit sufficient time for discussion of all agenda items;
- provide consultation and direct communication with major shareholders, if requested;
- preside at meetings of the Board at which the Chair is not present, including executive sessions; and
- perform other duties specified in the Lead Independent Director Charter.

In June 2022, the Board re-appointed Mr. Tim Cook to serve as Lead Independent Director for a term of three years. Mr. Cook continues to serve as Lead Independent Director of the Company working in collaboration with Messrs. Parker and Donahoe.

The chairs of Board committees also play an active role in the leadership structure of the Board. The Corporate Responsibility, Sustainability & Governance Committee and the Board endeavor to select independent committee chairs who will provide strong leadership to guide the important work of the Board committees. Committee chairs work with the Company's senior executives to ensure the committees are discussing the key strategic risks and opportunities of the Company. In the absence of the Lead Independent Director, a presiding director is appointed to chair executive sessions of non-management directors (consisting of all directors other than Messrs. Parker and Donahoe). The position of presiding director is rotated among the chairs of the various Board committees, other than the Executive Committee. Executive sessions are regularly scheduled and held at least once each year.

Mr. Philip Knight, co-founder and former Chairman of the Company, serves as Chairman Emeritus, with a standing invitation to attend meetings of the Board and its committees as a non-voting observer. The Board believes that it benefits from the valuable experience and insights of the Company's co-founder and former Chairman of the Board.

For all of these reasons, the Board believes this leadership structure is optimal.

BOARD COMMITTEES

The Board's current standing committees are an Audit & Finance Committee; a Compensation Committee; a Corporate Responsibility, Sustainability & Governance Committee; and an Executive Committee. The Board may appoint other committees from time to time. Each standing committee has a written charter and all such charters, as well as the Company's corporate governance guidelines, are available at the Company's corporate website, <http://investors.nike.com>, and will be provided in print to any shareholder who submits a request in writing to NIKE Investor Relations, One Bowerman Drive, Beaverton, Oregon 97005-6453.

AUDIT & FINANCE COMMITTEE

MEMBERS:

Cathleen A. Benko*
Alan B. Graf, Jr., Chair
Peter B. Henry

MEETINGS IN FY '22: 12

ROLES AND RESPONSIBILITIES:

The Audit & Finance Committee provides assistance to the Board in fulfilling its legal and fiduciary obligations with respect to:

- Matters involving the Company's accounting, auditing, financial reporting, and internal controls, information security (including risks related to cyber security), data protection, and overseeing the Company's financial policies and activities;
- The integrity of the Company's financial statements and activities of the Company that may have a material impact on the financial position of the Company;
- The Company's compliance with legal and regulatory requirements;
- The independent auditor's qualifications and independence, and the performance of the Company's internal audit function and independent auditor;
- The Company's risk assessment and risk management processes and practices; and
- Considering long-term financing options, long-range tax, financial regulatory and foreign currency issues facing the Company, and management's recommendations concerning capital deployment strategy, major capital expenditures, and material acquisitions or divestitures.

The Board has determined that each member of the Audit & Finance Committee meets all independence and financial literacy requirements applicable to audit committees under the NYSE listing standards and applicable regulations adopted by the U.S. Securities and Exchange Commission (the "SEC"). The Board has also determined that Mr. Alan B. Graf, Jr. is an "audit committee financial expert" as defined in regulations adopted by the SEC.

* Ms. Benko was appointed to the Audit & Finance Committee effective January 1, 2022, following the retirement of John Connors from the Board effective December 31, 2021.

COMPENSATION COMMITTEE

MEMBERS:

Cathleen A. Benko
Elizabeth J. Comstock*
Timothy D. Cook, Chair

MEETINGS IN FY '22: 3

ROLES AND RESPONSIBILITIES:

The Compensation Committee discharges the Board's responsibilities regarding executive and director compensation and senior leadership succession, and its duties include the following:

- Evaluate the performance of the CEO;
- Review and approve the compensation of each executive officer;
- Grant equity incentive awards under the NIKE, Inc. Stock Incentive Plan, and determine targets and awards under the NIKE, Inc. Executive Performance Sharing Plan and the NIKE, Inc. Long-Term Incentive Plan;
- Review and provide guidance to management regarding Company policies, programs, and practices related to talent management and development for executive officers and senior management; and
- Make recommendations to the Board regarding the compensation of directors.

The Board has determined that each member of the Compensation Committee meets all independence requirements applicable to compensation committees under the NYSE listing standards.

* Ms. Comstock will not stand for re-election to the Board at the Annual Meeting.

CORPORATE RESPONSIBILITY, SUSTAINABILITY & GOVERNANCE COMMITTEE

MEMBERS:

Thasunda B. Duckett
Michelle A. Peluso, Chair
John W. Rogers, Jr.

MEETINGS IN FY '22: 4

ROLES AND RESPONSIBILITIES:

The Corporate Responsibility, Sustainability & Governance Committee sets the tone and pace for corporate governance and oversees our Purpose, which consists of the three pillars of People, Planet, and Play. Its duties include the following:

- Review and evaluate NIKE's significant strategies, activities, policies, investments, and programs regarding social purpose, corporate responsibility, and sustainability;
- Provide oversight of management's efforts to ensure that the Company's dedication to sustainability is reflected in its business operations;
- Monitor the Company's progress towards its diversity, equity and inclusion objectives and compliance with the Company's responsibilities as an equal opportunity employer;
- Review and evaluate the social, political, and environmental impact, trends, and issues in connection with the Company's business activities and make recommendations to the Board;
- Provide oversight of the Company's community and social impact efforts;
- Oversee protection of the Company's corporate reputation and other matters of importance to the Company and its stakeholders;
- Continue to identify individuals qualified to become Board members and recommend director nominees for election at each annual shareholder meeting;
- Review and reassess the Company's corporate governance framework, and make recommendations to the Board regarding proposed changes; and
- Oversee the annual self-evaluations of the Board and its committees and make recommendations to the Board concerning the structure and membership of the Board committees.

The Board has determined that each member of the Corporate Responsibility, Sustainability & Governance Committee meets all independence requirements applicable to nominating/corporate governance committees under the NYSE listing standards.

EXECUTIVE COMMITTEE

MEMBERS:

John J. Donahoe II
Travis A. Knight
Mark G. Parker, Chair

MEETINGS IN FY '22: 0

ROLES AND RESPONSIBILITIES:

The Executive Committee is authorized to act on behalf of the Board on all corporate actions for which applicable law does not require participation by the full Board.

- In practice, the Executive Committee acts in place of the full Board only when emergency issues or scheduling conflicts make it difficult or impracticable to assemble the full Board.
- All actions taken by the Executive Committee must be reported at the next Board meeting, or as soon thereafter as practicable.

The Executive Committee held no formal meetings during fiscal 2022, but took action by unanimous written consent.

THE BOARD'S ROLE IN RISK OVERSIGHT

While the Company's management team is responsible for day-to-day management of the various risks facing the Company, the Board takes an active role in the oversight of the management of critical business risks. The Board does not view risk in isolation. Risks are considered in virtually every business decision and as part of NIKE's business strategy. The Board recognizes it is neither possible nor prudent to eliminate all risk. Purposeful and appropriate risk-taking is essential for the Company to be competitive on a global basis and to achieve its strategic objectives.

THE BOARD OF DIRECTORS

The Board implements its risk oversight function both as a whole and through committees, which play a significant role in carrying out risk oversight. While the Audit & Finance Committee is responsible for oversight of management's risk management policies, oversight responsibility for particular areas of risk is allocated among the Board committees according to the committee's area of responsibility as reflected in the committee charters.

BOARD COMMITTEES

The **AUDIT & FINANCE COMMITTEE** oversees risks related to the Company's financial statements, the financial reporting process, accounting, legal matters, investments, access to capital and capital deployment, currency risk and hedging programs, information security (including risks related to cyber security), and data protection. The committee oversees the internal audit function, reviews a risk-based plan of internal audits, and reviews a risk-based integrated audit of internal controls over financial reporting. The committee meets separately with the Vice President of Global Audit and Chief Risk Officer, representatives of the independent registered public accountants, and senior management.

The **COMPENSATION COMMITTEE** oversees risks associated with the Company's compensation philosophy and programs and executive succession and development.

The **CORPORATE RESPONSIBILITY, SUSTAINABILITY & GOVERNANCE COMMITTEE** oversees risks associated with corporate social purpose and company governance, including NIKE's Code of Conduct and its compliance programs, and the structure and performance of the Board and its committees. The committee also oversees protection of the Company's corporate reputation including issues that involve social and community engagement, workplace diversity, equity, and inclusion, and sustainability relating to the Company's products, its supply chain (including labor practices), and the environment.

EXECUTIVE LEADERSHIP TEAM

Each committee chair works with one or more senior executives assigned to assist the committee in: developing agendas for the year and for each meeting, paying particular attention to areas of business risk identified by management, Board members, internal and external auditors, and in their committee charter; and scheduling agenda topics, presentations, and discussions regarding business risks within their area of responsibility. At meetings, the committees discuss areas of business risk, the potential impact, and management's initiatives to manage business risk, often within the context of important business decisions. Through this process, key business risk areas are reviewed at appropriate times, with some topics reviewed on multiple occasions throughout the year. At every Board meeting, each committee chair provides a report to the full Board outlining the committee's discussions and actions, including those affecting the oversight of various risks.

The Company believes its leadership structure, discussed in detail above, supports the risk oversight function of the Board. Strong directors chair the various committees involved in risk oversight, there is open communication between management and directors, and all directors are involved in the risk oversight function.

THE BOARD'S ROLE IN ESG OVERSIGHT

The Board takes an active role overseeing NIKE's commitment to, and progress on, environmental, social, and governance ("ESG") matters. The Board oversees ESG matters primarily through the Corporate Responsibility, Sustainability & Governance

Committee. In addition to overseeing corporate governance (generally, the "G" in "ESG"), this committee also oversees the risks and opportunities associated with NIKE's Purpose work, which covers the three pillars of People, Planet, and Play (generally, the "E" and "S" in "ESG"). The committee's responsibilities include reviewing and providing guidance to management regarding significant Purpose strategies, activities, policies, investments, and programs; reviewing the development of NIKE's five-year Purpose targets and long-term sustainability targets, and monitoring the Company's progress towards those targets; and reviewing and providing guidance to management regarding NIKE's annual Impact Report, which describes our progress towards our Purpose targets for our shareholders and other stakeholders. The Compensation Committee also plays a key role with respect to ESG by overseeing talent management and development for executive officers and senior management, including with respect to employee engagement and workplace diversity, equity, and inclusion. More information about Purpose, including NIKE's annual Impact Report, is available on the Impact section of our website.

SHAREHOLDER COMMUNICATIONS WITH DIRECTORS

Shareholders or interested parties desiring to communicate directly with the Board or with any individual director may do so in writing addressed to the intended recipient or recipients, c/o Corporate Secretary, NIKE, Inc., One Bowerman Drive, Beaverton, Oregon 97005-6453. The Office of the Corporate Secretary reviews all such communications and refers relevant correspondence directly to a director, as appropriate. In addition, the Office of the Corporate Secretary regularly summarizes for the Board all communications that relate to the functions of the Board or its committees or that otherwise warrant Board attention.

CODE OF CONDUCT

The NIKE Code of Conduct is available at the Company's corporate website, <http://investors.nike.com>, and will be provided in print without charge to any shareholder who submits a request in writing to NIKE Investor Relations, One Bowerman Drive, Beaverton, Oregon 97005-6453. The Code of Conduct applies to all of the Company's employees and directors, including our CEO and all other executive officers. The Code of Conduct provides that any waiver of the Code of Conduct for executive officers or directors may be made only by the Board or a committee of the Board. Any such waiver will be publicly disclosed, when required by law. The Company plans to disclose amendments to, and waivers from, the Code of Conduct on the Company's corporate website: <http://investors.nike.com>.

Michelle A. Peluso	120,000	179,453	—	20,000	319,453
John W. Rogers, Jr.	100,000	179,453	—	20,000	299,453

(1) Represents the grant date fair value of restricted stock awards granted in fiscal 2022 computed in accordance with accounting guidance applicable to stock-based compensation. The grant date fair value is based on the closing market price of our Class B Stock on the grant date. As of May 31, 2022, Mr. Connors held 0 shares of unvested restricted stock and each other non-employee director held 1,206 shares of unvested restricted stock.

(2) As of May 31, 2022, Mr. Cook held options for 14,000 shares of our Class B Stock, and no other non-employee director held outstanding options.

(3) Consists of matched contributions to charities in the following amounts: Ms. Benko, \$20,000; Ms. Comstock, \$20,000; Mr. Cook, \$20,000; Ms. Duckett, \$20,000; Dr. Henry, \$12,500; Ms. Peluso, \$20,000; and Mr. Rogers \$20,000.

(4) Ms. Benko was appointed to the Audit & Finance Committee effective January 1, 2022, therefore her annual retainer for Audit & Finance Committee membership was prorated.

(5) Mr. Connors retired from the Board effective December 31, 2021. Amounts reflect pro-rated annual retainer payments. Mr. Connors' stock award was forfeited upon his retirement.

DIRECTOR FEES AND ARRANGEMENTS

Under our director compensation program in effect for fiscal 2022, non-employee directors receive:

- An annual retainer of \$100,000, paid in quarterly installments.
- Upon appointment to the Board, a one-time, sign-on restricted stock award valued at \$185,000 on the date of grant, generally, the date of appointment. The one-time, sign-on restricted stock award is subject to forfeiture in the event that service as a director terminates prior to the first anniversary of the date of grant.
- An annual restricted stock award valued at \$185,000 on the date of grant, generally, the date of each annual meeting of shareholders. The number of restricted shares granted to each director for fiscal 2022 was determined by dividing the director's award value by the average closing price of our Class B Stock for the 20-trading day period ending on the date of grant. The annual restricted stock award is subject to forfeiture in the event that service as a director terminates prior to the earlier of the next annual meeting and the last day of the 12th full calendar month following the date of grant.
- For the Lead Independent Director, an annual retainer of \$30,000, paid in quarterly installments.
- For chairs of Board committees (other than the Executive Committee), an annual retainer of \$20,000 for each committee chaired (\$25,000 for the chair of the Audit & Finance Committee), paid in quarterly installments.
- For Audit & Finance Committee members, an additional annual retainer of \$5,000, paid in quarterly installments.
- Payment or reimbursement of travel and other expenses incurred in attending Board meetings.
- Matching charitable contributions under the NIKE Matching Gift Program, under which directors are eligible to contribute to qualified charitable organizations and the Company provides a matching contribution to the charities in an equal amount, up to \$20,000 in the aggregate, for each director annually.

Neither Mr. Donahoe nor Mr. Parker received any additional compensation for services provided as a director in fiscal 2022.

Effective June 1, 2022, the Company updated the director compensation program for non-employee directors by increasing the value of each of the annual restricted stock award and the one-time, sign-on restricted stock award to \$200,000, increasing the Lead Independent Director annual retainer to \$40,000, and increasing the Audit & Finance Committee chair annual retainer to \$30,000 and the Compensation Committee chair and Corporate Responsibility, Sustainability & Governance Committee chair annual retainers to \$25,000. All other components of director compensation remain the same.

STOCK OWNERSHIP GUIDELINES FOR DIRECTORS

NIKE maintains stock ownership guidelines for all non-employee directors. Under these guidelines, directors are required to hold NIKE stock valued at five times their annual cash retainer. New directors are required to attain these ownership levels within five years of their election to the Board. Each of our directors has met or is on track to meet the specified ownership level.

DIRECTOR PARTICIPATION IN DEFERRED COMPENSATION PLAN

Under our Deferred Compensation Plan, non-employee directors may elect in advance to defer up to 100 percent of the director fees paid by the Company. For a description of the plan, see the section below titled "Executive Compensation Tables—Non-Qualified Deferred Compensation in Fiscal 2022—Non-Qualified Deferred Compensation Plans".

COMPENSATION DISCUSSION AND ANALYSIS

PROPOSAL 2

SHAREHOLDER ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

In accordance with the requirements of Section 14A of the Securities Exchange Act of 1934, we are submitting to shareholders our annual "say-on-pay proposal", an advisory vote to approve the compensation of our Named Executive Officers as described in this proxy statement.

At our 2021 annual meeting of shareholders, approximately 72% of the votes cast on the say-on-pay proposal were voted in favor of the proposal, which was an improvement from our 2020 vote, but indicated that there was an opportunity to further understand our shareholders' feedback and take action to be responsive. Therefore, as further described in this section, during fiscal 2022 members of management and the Board continued to engage with shareholders to better understand and address their concerns.

As discussed in this section, our executive compensation program is designed to attract and retain top-tier talent and maximize shareholder value. To achieve the objectives of our executive compensation program and emphasize pay-for-performance principles, the Compensation Committee has continued to employ strong governance practices, including:

- basing a majority of total compensation on performance and retention incentives;
- setting incentive award targets based on clearly disclosed, objective performance measures;
- mitigating undue risk associated with compensation by using multiple performance targets, caps on potential incentive payments, and a clawback policy; and
- requiring executive officers to hold NIKE stock through published stock ownership guidelines.

Because your vote is advisory, it will not be binding on the Board. However, the Board values shareholder opinions, and the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements.

BOARD RECOMMENDATION

The Board of Directors recommends that shareholders vote **FOR** approval of the following resolution:

RESOLVED, that the shareholders approve the fiscal 2022 compensation paid to the Named Executive Officers as disclosed in this proxy statement pursuant to the SEC's compensation disclosure rules (which disclosure includes the Compensation Discussion and Analysis, the compensation tables, and the narrative disclosures that accompany the compensation tables).

INTRODUCTION

This Compensation Discussion and Analysis ("CD&A") describes our compensation program, philosophy, decisions, and process for the compensation of our "Named Executive Officers" (also referred to as our "NEOs") for fiscal 2022:

NAMED EXECUTIVE OFFICER	TITLE
John Donahoe II	President and Chief Executive Officer
Mark Parker	Executive Chairman
Matthew Friend	Executive Vice President and Chief Financial Officer
Andrew Campion	Chief Operating Officer
Heidi O'Neill	President, Consumer and Marketplace

This CD&A is organized into four sections:

- Executive Summary (page 28)
- Compensation of Our Named Executive Officers (page 32)
- Our Compensation Process (page 39)
- Other Compensation Practices (page 40)

EXECUTIVE SUMMARY

SAY-ON-PAY RESULTS AND RESPONSE

Our annual say-on-pay vote is one of our opportunities to receive feedback from shareholders regarding our executive compensation program, and as such is taken very seriously by the Compensation Committee and Board. In 2021, our executive compensation program received the support of approximately 72% of the total votes cast at our annual meeting of shareholders. This reflected an increase in support compared to the 2020 say-on-pay vote, but indicated that there was an opportunity to further understand our shareholders' feedback and take action to be responsive. As a result, we continued to actively seek feedback from shareholders and build on our record of responsiveness, reaching out to shareholders owning approximately 51% of outstanding shares of our Class B Stock and speaking with shareholders owning approximately 49% of outstanding shares of our Class B Stock, to better understand what motivated their votes and attempt to address any ongoing concerns. Our Lead Independent Director and Compensation Committee Chair, Timothy D. Cook, and our Corporate Responsibility, Sustainability & Governance Committee Chair, Michelle A. Peluso, participated in conversations with shareholders owning approximately 13% of outstanding shares of our Class B Stock. All feedback was shared with the Board and helped to shape the changes made to our executive compensation program and related disclosure, as set forth in this year's CD&A.

Through this engagement, we learned that shareholders were largely supportive of the executive compensation program design for fiscal 2021. Furthermore, shareholders appreciated the Company's responsiveness to their feedback regarding the 2020 say-on-pay vote, especially the replacement of cash-based incentive awards under the Long-Term Incentive Plan ("LTIP") with performance-based restricted stock units ("PSUs") and the enhanced disclosures regarding fiscal 2021 payout determinations and the annual incentive structure. However, shareholders wanted to further understand Mr. Parker's total fiscal 2021 compensation following his transition into the Executive Chairman role in fiscal 2020. During these conversations, we discussed the components of Mr. Parker's compensation, including the payout of the fiscal 2019 – 2021 LTIP award and the transition-period cash incentive award that was granted in connection with the fiscal 2020 CEO transition, and the ongoing evolution of Mr. Parker's compensation since transitioning into the Executive Chairman role. As of fiscal 2022, Mr. Parker did not have any further

outstanding awards related to the CEO transition. His fiscal 2020 – 2022 LTIP award, which is reflected in this year's Summary Compensation Table, was granted to Mr. Parker when he was NIKE's CEO. Furthermore, in light of Mr. Parker's reduced responsibilities as Executive Chairman, the Compensation Committee significantly decreased Mr. Parker's compensation over the course of fiscal years 2021 and 2022 by not granting him any new LTIP or PSU awards and by reducing each other component of his annual direct compensation.

We also discussed with shareholders the structure of our long-term incentive program in light of replacing cash-based LTIP awards with stock-based PSU awards beginning in fiscal 2022 for the fiscal 2022 – 2024 performance period. We confirmed that the fiscal 2022 PSU awards maintain the same general features and structure as the fiscal 2021 cash-based LTIP awards, including the same performance metric and a similar "People & Planet" modifier. The fiscal 2022 PSUs are described in the section below titled "Compensation of our Named Executive Officers—Long-Term Incentive—Fiscal 2022 Award Grants—Fiscal 2022 – 2024 PSUs". While shareholders supported the design of the PSU awards, they recommended increasing the proportion of total long-term incentive compensation granted in the form of PSUs. We are incorporating this feedback by evolving the long-term incentive compensation mix to be delivered 50% in the form of PSUs for all executive officers. This change will be phased in over multiple years, beginning with fiscal 2023 award grants.

These shareholder engagements also provided an opportunity to highlight the short-term disclosure impact of replacing cash-based LTIP awards with PSUs beginning in fiscal 2022. Because SEC rules require that we report cash-based incentive awards in the Summary Compensation Table for the year earned but report stock-based incentive awards in the Summary Compensation Table for the year granted, for fiscal 2022 the Summary Compensation Table reflects both the payout of LTIP awards for the 2020 – 2022 performance period (which were awarded as part of fiscal 2020 annual compensation) and the grant of PSUs for the 2022 – 2024 performance period (which were awarded as part of fiscal 2022 annual compensation). Shareholders recognized that the shift to PSUs would temporarily and artificially inflate values in the Summary Compensation Table, and supported the evolution of our long-term incentive program structure despite the short-term disclosure complications.

The Board and Compensation Committee greatly value these engagements with shareholders and are committed to maintaining ongoing dialogue and incorporating shareholder feedback into the design of the executive compensation program going forward.

The following table summarizes feedback themes we heard from shareholders and actions taken to be responsive:

WHAT WE HEARD	HOW WE RESPONDED
Shareholders were supportive of replacing the cash-based LTIP awards with PSUs and understood that doing so would artificially inflate fiscal 2022 values in the Summary Compensation Table due to SEC rules	<ul style="list-style-type: none"> Beginning in fiscal 2022, replaced the cash-based LTIP awards with PSUs In this proxy statement, provided enhanced disclosure in the Fiscal 2022 Annual Direct Compensation Table to clearly communicate how the Compensation Committee views compensation awarded for fiscal 2022
Shareholders recommended increasing PSUs as a proportion of the total long-term incentive mix (PSUs, stock options, and RSUs)	<ul style="list-style-type: none"> Evolving the long-term incentive compensation mix for all executive officers by committing to increase the percentage of the total award delivered in the form of PSUs to 50%, phased in over multiple years beginning with fiscal 2023 award grants
Shareholders expressed support for incorporating the "People & Planet" modifier into long-term incentive awards beginning with the fiscal 2021 – 2023 LTIP awards, and expressed interest in understanding the rationale and methodology underlying long-term incentive award payout determinations	<ul style="list-style-type: none"> Continued incorporating "People & Planet" modifier in fiscal 2022 – 2024 PSU awards Commitment to provide robust disclosure regarding the rationale and methodology underlying payout determinations in proxy statements (beginning with the 2023 proxy statement)
Shareholders shared their expectation that Executive Chairman compensation should be decreased to correspond with reduced responsibilities	<ul style="list-style-type: none"> Actions taken to significantly decrease Executive Chairman's compensation over the course of fiscal years 2021 and 2022 No new LTIP or PSU awards were granted to Mr. Parker in fiscal 2021 or 2022 Each component of Mr. Parker's annual direct compensation was decreased in fiscal 2022 Mr. Parker's target total annual direct compensation for fiscal 2022 was \$3 million, approximately 32% of his fiscal 2021 target total annual direct compensation

GUIDING COMPENSATION PRINCIPLES

- To drive business results and maximize shareholder value, our executive compensation is highly incentive-based.
- To emphasize long-term performance, increase alignment between executives and shareholders, and support retention, incentive compensation is weighted towards long-term awards.
- To foster teamwork and ensure internal pay equity, we utilize a cohort approach by aligning compensation across certain executive roles.
- To ensure that our executive compensation program supports our business strategy and talent plan, we determine cohort compensation levels by holistically considering factors relating to our business, the competitive market for top-tier talent, and the applicable executives.

ANNUAL DIRECT COMPENSATION ELEMENTS

NIKE's annual direct compensation for the Named Executive Officers generally consists of the following elements:

ELEMENT		KEY CHARACTERISTICS	PURPOSE
Base Salary		Fixed cash compensation	Provides market competitive baseline compensation to attract and retain top-tier talent
Annual Cash Incentive Award – Executive Performance Sharing Plan ("PSP")		Variable cash incentive compensation earned at 0% – 150% based on Company performance over a 1-year performance period	Motivates and rewards achievement of sustainable and profitable growth
Long-Term Incentive Awards – Stock Incentive Plan ("SIP")	*NEW* Performance-Based Restricted Stock Units ("PSUs") ⁽¹⁾	Variable stock-based incentive compensation earned at 0% – 200% based on Company performance over a 3-year performance period; value dependent upon achievement of performance metrics and our stock price	Aligns NEOs' interests with those of our shareholders by motivating and rewarding achievement of long-term shareholder value and growth; promotes retention
	Stock Options	Stock-based incentive compensation that generally vests in 4 equal annual installments; only provides value if our stock price appreciates	Aligns NEOs' interests with those of our shareholders by rewarding achievement of upside potential; promotes retention
	Restricted Stock Units ("RSUs")	Stock-based incentive compensation that generally vests in 3 equal annual installments; value tied to our stock price	Aligns NEOs' interests with those of our shareholders by rewarding long-term value creation; promotes retention

(1) Prior to fiscal year 2022, this portion of annual direct compensation was delivered in the form of cash-based awards under our Long-Term Incentive Plan ("LTIP"). LTIP awards granted in fiscal 2020 were earned based on Company performance over fiscal years 2020 – 2022; their payout is described in the section below titled "Compensation of our Named Executive Officers—Long-Term Incentive—Fiscal 2020 Award Results" and included in the Summary Compensation Table as part of fiscal 2022 compensation due to SEC rules. LTIP awards granted in fiscal 2021 will be earned based on Company performance over fiscal years 2021 – 2023; their payout will be described in next year's proxy statement and included in next year's Summary Compensation Table as part of fiscal 2023 compensation due to SEC rules. There are no other outstanding LTIP awards.

FISCAL 2022 ANNUAL DIRECT COMPENSATION TABLE

Beginning in fiscal 2022, the Compensation Committee replaced the cash-based LTIP award portion of the long-term incentive compensation mix with PSUs. Both types of awards are earned based on Company performance over a three-year performance period. Because SEC rules require that we report cash-based incentive awards in the Summary Compensation Table for the year earned but report stock-based incentive awards in the Summary Compensation Table for the year granted, for fiscal 2022 the Summary Compensation Table reflects both the payout of LTIP awards for the fiscal 2020 – 2022 performance period (which were awarded as part of fiscal 2020 annual compensation) and the grant of PSUs for the fiscal 2022 – 2024 performance period (which were awarded as part of fiscal 2022 annual compensation). The table below supplements the Summary Compensation

Table, which appears on page 42. By excluding (1) the payout of LTIP awards for the fiscal 2020 – 2022 performance period and (2) perquisites, including the enhanced charitable match benefits provided to Messrs. Donahoe and Parker that are not actually received by these executives, we believe that the table below more accurately reflects how the Compensation Committee views annual direct compensation awarded for fiscal 2022.

NAME ⁽¹⁾	SALARY	PSP ⁽²⁾	PSUs ⁽³⁾	RSUs ⁽⁴⁾	STOCK OPTIONS ⁽⁴⁾	TOTAL
John Donahoe II	\$1,500,000	—	\$7,727,491	\$4,334,321	\$6,782,995	\$20,344,807
Mark Parker	\$1,134,615	—	—	—	\$2,153,362	\$3,287,977
Matthew Friend	\$1,056,731	\$1,056,000	\$1,545,548	\$1,238,401	\$1,938,030	\$6,834,710
Andrew Campion	\$1,221,154	\$1,200,000	\$1,545,548	\$1,444,774	\$2,261,028	\$7,672,504
Heidi O'Neill	\$1,221,154	\$1,200,000	\$1,545,548	\$1,444,774	\$2,261,028	\$7,672,504

- (1) The above table is not a substitute for the Summary Compensation Table set forth on page 42 of this proxy statement. The amounts in this table differ from the amounts determined under SEC rules as reported for fiscal 2022 in the Summary Compensation Table.
- (2) Reflects fiscal 2022 awards under our Executive Performance Sharing Plan, which were paid based on Company performance during fiscal 2022. As described in the section below titled "Compensation of our Named Executive Officers—Annual Cash Incentive", Mr. Donahoe's PSP award was paid at 0%, Mr. Parker did not receive a fiscal 2022 PSP award due to the evolution of his responsibilities as Executive Chairman, and the PSP award for each other NEO was paid at 80%.
- (3) Reflects fiscal 2022 grants of PSUs, computed in accordance with accounting guidance applicable to stock-based compensation using a Monte Carlo simulation based on the probable outcome of the performance condition as of the grant date. As described in the section below titled "Compensation of our Named Executive Officers—Long-Term Incentive—Fiscal 2022 Award Grants", the Compensation Committee determined PSU awards as a dollar value which was then converted into a target number of shares by dividing the award dollar value by the average closing price of our Class B Stock for the 20-trading day period ending on the date of grant. Fiscal 2022 PSUs will be earned between 0% and 200% of target based on Company performance during the fiscal 2022 – 2024 performance period.
- (4) Reflects fiscal 2022 grants of RSUs and stock options, in each case computed in accordance with accounting guidance applicable to stock-based compensation. As described in the section below titled "Compensation of our Named Executive Officers—Long-Term Incentive—Fiscal 2022 Award Grants", the Compensation Committee determined stock-based awards as a dollar value which was then converted into a number of shares (for RSUs, by dividing the award dollar value by the average closing price of our Class B Stock for the 20-trading day period ending on the date of grant, and for stock options, by dividing the award dollar value by the Black-Scholes value).

EXECUTIVE COMPENSATION GOVERNANCE PRACTICES

WHAT WE DO

- ✓ Base a majority of total compensation on performance and retention incentives
- ✓ Mitigate undue risk by using multiple performance periods and metrics, incentive payment caps, and a clawback policy
- ✓ Base incentive awards on clearly disclosed, objective performance goals
- ✓ Maintain robust stock ownership guidelines
- ✓ Vest stock-based awards over time to promote long-term performance and retention
- ✓ Provide only double-trigger change-in-control acceleration for stock-based awards

WHAT WE DON'T DO

- ✗ No retirement acceleration for PSUs or RSUs
- ✗ No dividend equivalents paid on PSUs or RSUs unless and until shares are earned
- ✗ No repricing of stock options
- ✗ No hedging transactions or short sales permitted
- ✗ No pension or supplemental executive retirement plan
- ✗ No tax gross-ups for perquisites
- ✗ No cash-based change-in-control benefits
- ✗ No excise tax gross-ups upon change of control

COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

COMPENSATION OBJECTIVES AND STRUCTURE

Our executive compensation program is designed to attract and retain top-tier talent in a competitive marketplace and to maximize shareholder value by rewarding NEOs for strong Company performance. The program generally consists of annual direct compensation, with a focus on incentive compensation, and competitive benefits that are generally consistent with the benefits offered to our other U.S.-based employees.

We structure our executive compensation program in the context of our business strategy and talent plan. To foster teamwork and ensure internal pay equity, we utilize a segmented cohort approach that aligns compensation across certain executive roles. Cohort compensation levels are determined by holistically considering factors such as future potential, individual performance, market insights, succession planning, retention, and leadership continuity. New executives are phased into a cohort by taking into consideration their relative experience, expected contributions, and market position.

Our philosophy is to "pay for performance" in order to drive business results and maximize shareholder value. As a result, executive compensation is highly incentive-based and weighted towards long-term awards to emphasize long-term performance and support retention. Our executive compensation program balances performance incentives, including by using different performance metrics and performance periods, and through a mixture of cash- and stock-based compensation elements. Stock-based compensation—which consists of PSUs, stock options, and RSUs—is also structured to pay for performance by linking the majority of each NEO's target total annual direct compensation directly to our stock price. The following chart illustrates the mix of components that make up fiscal 2022 target total annual direct compensation for our CEO.

**CEO Fiscal 2022 Target Total
Annual Direct Compensation Mix**

Incentive Compensation

- Incentive compensation constitutes approximately 93% of the CEO's total target annual direct compensation
- To emphasize long-term performance, incentive compensation is weighted towards long-term awards, which constitute approximately 84% of our CEO's total target incentive compensation
- Stock awards constitute 100% of our CEO's long-term incentive awards, and performance-based awards (PSUs and stock options) constitute approximately 73% of our CEO's stock awards

BASE SALARY

Base salary is a fixed element of compensation that serves to attract and retain top-tier talent. Generally, the Compensation Committee reviews and determines base salaries for our Named Executive Officers in June, with any adjustments becoming effective in August of the same year. After generally keeping base salaries flat across all employee levels, including our NEOs, for fiscal 2021, the Company returned to permitting base salary increases for fiscal 2022. Therefore, for fiscal 2022 the Compensation Committee granted a base salary increase to each of Messrs. Friend and Campion and Ms. O'Neill to ensure that their base salary levels remain positioned competitively relative to the market. The Compensation Committee also decreased Mr. Parker's base salary to reflect his reduced responsibilities as Executive Chair. Mr. Donahoe's base salary remained unchanged compared to fiscal 2021.

NAMED EXECUTIVE OFFICER	FISCAL 2022 BASE SALARY	% CHANGE ⁽¹⁾
John Donahoe II	\$1,500,000	0%
Mark Parker	\$1,000,000	-41.2%
Matthew Friend	\$1,100,000	25.7%
Andrew Campion	\$1,250,000	13.6%
Heidi O'Neill	\$1,250,000	13.6%

(1) Represents the change in base salary compared to fiscal 2021.

ANNUAL CASH INCENTIVE

Annual cash incentive awards are paid to the Named Executive Officers under our Executive Performance Sharing Plan ("PSP"). PSP awards reflect our "pay for performance" philosophy: they are earned between 0% and 150% of target based on Company performance during the fiscal year. The Compensation Committee retains discretion to adjust PSP metrics and award payouts based on individual or Company performance. To align employees and reinforce our one-team culture, the same compensation philosophy and metrics that underlie our PSP awards generally apply to all global employees who are eligible to participate in the Company's success through annual incentive bonuses.

Historically, PSP awards were earned based on Company earnings before interest and taxes (as adjusted to exclude the impact of certain non-operational events) measured over the fiscal year. In response to the disruption and uncertainty caused by the COVID pandemic, for fiscal 2021 the Compensation Committee implemented a more flexible annual incentive award structure based on two equally-weighted, six-month performance periods, each with multiple metrics, and taking into consideration the Company's year-long revenue performance. For fiscal 2022, the Compensation Committee transitioned the annual cash incentive awards back to our historical structure and set year-long targets for multiple, equally-weighted metrics selected to support our strategic priorities and drive sustainable, profitable growth, as described in further detail below.

In setting fiscal 2022 PSP target awards, the Compensation Committee considered the evolution of Mr. Parker's responsibilities as Executive Chairman and determined not to grant Mr. Parker a PSP award. With respect to each other Named Executive Officer, the Compensation Committee maintained the fiscal 2022 PSP target award at the same level as his or her fiscal 2021 annual cash incentive target award. Therefore, the fiscal 2022 PSP target awards were:

NAMED EXECUTIVE OFFICER	FISCAL 2022 PSP TARGET AWARD (% OF BASE SALARY)
John Donahoe II	200%
Mark Parker	0%
Matthew Friend	120%
Andrew Campion	120%
Heidi O'Neill	120%

In June 2021, the Compensation Committee selected three equally-weighted metrics and corresponding performance goals for the fiscal 2022 PSP awards. The metrics consisted of: (1) Company revenue ("Revenue"), to drive topline income; (2) Company revenue generated through sales on NIKE digital platforms ("Digital Revenue"), to support digital growth in connection with our Consumer Direct Acceleration strategy; and (3) earnings before interest and taxes ("EBIT"), to manage overall profitability. To help drive and reward organic growth, each metric excluded the impact of the following non-operational events: acquisitions, divestitures, changes in accounting principles, unanticipated restructurings, unanticipated exchange rate fluctuations, and other extraordinary, unusual, or infrequently occurring items (we refer to these metrics, as adjusted, as "Adjusted Revenue", "Adjusted Digital Revenue", and "Adjusted EBIT", respectively).

As illustrated below, the Compensation Committee set challenging performance goals for each metric at levels designed to incentivize strong growth over fiscal 2021 performance. The Adjusted Revenue target goal represented an increase of 15% compared to actual fiscal 2021 Revenue and the Adjusted EBIT target goal represented an increase of 16% compared to actual fiscal 2021 EBIT, in each case with threshold and maximum goals set equidistant from the target goal to balance stretch and risk. The Adjusted Digital Revenue goal represented an increase of 31% compared to actual fiscal 2021 Digital Revenue, with additional stretch built into the maximum goal in light of momentum in our digital business and continued growth potential.

In June 2022, at the end of our fiscal year, the Compensation Committee considered the Company's performance for fiscal 2022 in light of two unexpected and extraordinary COVID-related challenges. First, during the first quarter, government-mandated factory closures in Vietnam and Indonesia resulted in the Company losing approximately three months of production. This production loss reduced available for sale inventory supply during the second, third, and fourth quarters, which impacted fiscal 2022 Revenue. Then, during the fourth quarter, widespread COVID-related lockdowns in China impacted physical retail traffic, which resulted in lower fourth quarter Revenue and EBIT. The Compensation Committee first considered actual achievement for fiscal 2022 Adjusted Revenue, Adjusted Digital Revenue, and Adjusted EBIT, as illustrated below:

FISCAL 2022 PERFORMANCE GOALS

(Dollars in millions)

Each metric was achieved below the designated threshold, resulting in an overall achievement of 0% of target. Notwithstanding the below-threshold performance, the Compensation Committee noted that achievement still represented year-over-year growth for each metric compared to actual fiscal 2021 results (6% for Adjusted Revenue, 19% for Adjusted Digital Revenue, and 1% for Adjusted EBIT). The committee therefore considered Company performance excluding the impact of the COVID-related Vietnam and Indonesia factory closures and China lockdowns.

To adjust for these discrete, extraordinary events, the performance period was split into two equally-weighted, six-month periods. For the first six-month period (June 2021 – December 2021, "1H"), performance was calculated at 28% of target based on 1H achievement of Adjusted Revenue, Adjusted Digital Revenue, and Adjusted EBIT compared to targets equal to half of the year-long performance goals established in June 2021. For the second six-month period (January 2022 – May 2022, "2H"), performance was calculated at 139% of target based on 2H achievement (adjusted to exclude the impact of COVID-related lockdowns in China during the fourth quarter) of Adjusted Revenue, Adjusted Digital Revenue, and Adjusted EBIT compared to targets based on mid-year forecasting that reflected the 1H factory closures in Vietnam and Indonesia. Averaging together 1H and 2H performance resulted in performance of 83.5% of target, which the Compensation Committee rounded down to 80%—consistent with the payout of the similarly-structured annual bonus for employees below the executive officer level.

The Compensation Committee considered the strength of the Company's performance under both the unadjusted and adjusted scenarios as well as our one-team culture. For Mr. Donahoe, the Compensation Committee determined a fiscal 2022 PSP payout of 0%, reflecting the highest level of accountability for the Chief Executive Officer despite strong performance during extraordinary challenges. For each of Messrs. Friend and Campion and Ms. O'Neill, the committee determined a fiscal 2022 PSP payout of 80%, reflecting strong Company performance despite extraordinary challenges and aligned with the annual bonus for employees below the executive officer level to reinforce our one-team culture. As described above, Mr. Parker was not granted a fiscal 2022 PSP award.

LONG-TERM INCENTIVE

Long-term incentive compensation incentivizes and rewards long-term Company performance, aligns executives' interests with those of our shareholders, and promotes retention in a highly competitive talent marketplace. Therefore, this element of our executive compensation program forms the largest portion of our Named Executive Officers' annual direct compensation, constituting 78% of fiscal 2022 target total annual direct compensation for Mr. Donahoe (67% for Mr. Parker, and 62% for each other NEO). For fiscal 2022, long-term incentive compensation consisted of three components: performance-based restricted stock units ("PSUs"), stock options, and restricted stock units ("RSUs"), each granted under our Stock Incentive Plan. We consider PSUs and stock options to be performance-based awards, because PSUs are not earned unless performance conditions are satisfied, and stock options have no value unless our stock price increases. Consistent with our "pay for performance" philosophy, we deliver a majority of each NEO's long-term incentive compensation in the form of performance-based awards (73% for Mr. Donahoe, 100% for Mr. Parker, 70% for Mr. Friend, and 69% for Mr. Campion and Ms. O'Neill).

The Compensation Committee introduced PSUs as a new vehicle for our long-term incentive compensation in fiscal 2022. Prior to fiscal 2022, this component of executive compensation was delivered in the form of cash-based awards under our Long-Term Incentive Plan ("LTIP"). In recognition of the significant shift from cash-based awards to stock-based awards, the Compensation Committee determined to otherwise maintain stability for this component, including keeping target award values the same and retaining a similar award structure, including metrics and performance goals.

FISCAL 2022 AWARD GRANTS

The Compensation Committee determined the fiscal 2022 long-term incentive awards in June 2021. As noted above, the Compensation Committee determined to keep fiscal 2022 – 2024 PSU target award values at the same level as fiscal 2021 – 2023 LTIP target awards for each Named Executive Officer, to maintain consistency for this component in light of the shift from cash-based to stock-based awards. With respect to stock option and RSU award values, the Compensation Committee considered multiple factors, including performance, evolving responsibilities, our cohort compensation approach, the highly competitive talent marketplace, and the fact that cohort-level long-term incentive awards were not increased in fiscal 2021. Accordingly, the Compensation Committee decreased Mr. Parker's stock option award by \$4,000,000 and maintained his RSU award at \$0. For each other Named Executive Officer, the Compensation Committee determined to increase the stock option award (by \$900,000 for Mr. Donahoe, \$60,000 for Mr. Friend, and \$360,000 for each of Mr. Campion and Ms. O'Neill) and the RSU award (by \$600,000 for Mr. Donahoe, \$40,000 for Mr. Friend, and \$240,000 for each of Mr. Campion and Ms. O'Neill). The fiscal 2022 long-term incentive award values were:

NAMED EXECUTIVE OFFICER	TARGET PSUs	STOCK OPTIONS	RSUs	TOTAL FISCAL 2022 LONG-TERM INCENTIVE AWARDS
John Donahoe II	\$5,000,000	\$6,300,000	\$4,200,000	\$15,500,000
Mark Parker	—	\$2,000,000	—	\$2,000,000
Matthew Friend	\$1,000,000	\$1,800,000	\$1,200,000	\$4,000,000
Andrew Campion	\$1,000,000	\$2,100,000	\$1,400,000	\$4,500,000
Heidi O'Neill	\$1,000,000	\$2,100,000	\$1,400,000	\$4,500,000

FISCAL 2022 – 2024 PSUs

PSUs align our Named Executive Officers' interests with those of our shareholders by motivating and rewarding achievement of long-term shareholder value and growth. PSU awards reflect our "pay for performance" philosophy: they are earned between 0% and 200% of target based on Company performance during a three-year performance period.

In June 2021, the Compensation Committee selected the metric, corresponding performance goals, and award terms for the fiscal 2022 – 2024 PSU awards. As noted above, the committee chose to keep the structure of these awards similar to the structure of the 2021 – 2023 LTIP awards to maintain consistency for this component in light of the shift from cash-based to stock-based awards. The Compensation Committee will determine the earnout of the fiscal 2022 – 2024 PSU awards following the completion of the three-year performance period, and any PSUs that are earned will vest on August 1, 2024.

The Compensation Committee selected as the metric for the fiscal 2022 – 2024 PSU awards the Company's total shareholder return ("Absolute TSR") for fiscal 2022 – 2024 relative to total shareholder return over the same period for the other companies in the S&P 500 ("Relative TSR"), and continued to target above-median performance as shown in the table below:

FISCAL 2022 – 2024 PERFORMANCE GOALS

% PAYOUT	THRESHOLD 25%	TARGET 100%	MAXIMUM 200%
Relative TSR ⁽¹⁾	25 th percentile	55 th percentile	85 th percentile

(1) Relative TSR for fiscal years 2022, 2023, and 2024, calculated using the 20-trading day average stock price and assuming that dividends paid during the performance period are reinvested in the applicable company's stock.

PSUs will be earned at 100% of target if the Company's Relative TSR for the performance period is at the 55th percentile, and will be earned at 0% if the Company's Relative TSR for the performance period is below the 25th percentile. PSU earnout based on Relative TSR performance is subject to a cap of 100% of target if Absolute TSR for the performance period is negative. The Compensation Committee selected three-year Relative TSR as the performance metric because it is an objective and transparent measure of long-term shareholder value, especially in the context of a volatile market. Furthermore, the cap on payout if Absolute TSR is negative incentivizes NEOs to pursue long-term growth.

The fiscal 2022 – 2024 PSU awards also contain a "People & Planet" modifier designed to support our commitment to Purpose, which is a key component of our long-term strategy. If Relative TSR meets or exceeds the threshold performance goal, the "People & Planet" modifier permits the Compensation Committee to adjust the earnout upwards or downwards by up to 20 percentage points (subject to both the 200% maximum earnout and the 100% Absolute TSR cap) based on a holistic assessment of the Company's performance with respect to employee engagement and inclusion, leadership diversity, and sustainability. Structuring the modifier as a holistic assessment ensures that the final earnout comprehensively balances these broad and disparate issues and appropriately reflects the spirit of our Purpose commitment. In determining the "People & Planet" modifier,

the Compensation Committee will consider the Company's progress towards achieving certain of the five-year Purpose goals described in our fiscal 2021 Impact Report, including goals regarding increasing representation of women in our global corporate workforce and leadership positions; increasing representation of U.S. racial and ethnic minorities in our U.S. corporate workforce and at the Director level and above; employee feedback with respect to engagement and inclusion; foundational expectations related to responsible manufacturing in our supply chain; and operating more sustainably with respect to carbon, waste, water, and chemistry.

The target number of PSUs granted to each Named Executive Officer for fiscal 2022 was determined by dividing the NEO's target award value by the average closing price of our Class B Stock for the 20-trading day period ending on the date of grant. PSUs accumulate dividend equivalents that are paid only when, and to the extent, they vest. To promote retention, PSU awards generally provide that any unvested PSUs are forfeited if the Named Executive Officer leaves the Company. Forfeiture is subject to partial accelerated vesting upon termination of employment in connection with a divestiture or reduction in force (as described in the section below titled "Executive Compensation Tables—Potential Payments Upon Termination or Change-in-Control").

STOCK OPTIONS

Stock options align our Named Executive Officers' interests with those of our shareholders by rewarding the achievement of upside potential, and they reflect our "pay for performance" philosophy because they provide value to the NEOs only if the price of our Class B Stock appreciates.

The number of stock options granted to each NEO for fiscal 2022 was determined by dividing the NEO's award value by the Black-Scholes value (calculated based on a twenty-day average stock price and the available five-year and seven-year interest rates) of a stock option on the date of grant. Options granted to the Named Executive Officers vest in equal annual installments over four years and have an exercise price equal to the closing market price of our stock on the date of grant (or the trading day immediately prior to the grant date, if the grant date is not a trading day). To promote retention, stock options generally provide that if a Named Executive Officer leaves the Company, they forfeit any unvested stock options. Forfeiture is subject to a limited retirement provision designed to encourage executives to delay retirement and partial accelerated vesting upon termination of employment in connection with a divestiture or reduction in force (each as described in the section below titled "Executive Compensation Tables—Potential Payments Upon Termination or Change-in-Control").

RSUs

RSUs align our Named Executive Officers' interests with those of our shareholders by rewarding the achievement of long-term value creation, and they reflect our "pay for performance" philosophy because their value is directly tied to our Class B Stock price.

The number of RSUs granted to each NEO for fiscal 2022 was determined by dividing the NEO's award value by the average closing price of our Class B Stock for the 20-trading day period ending on the date of grant. RSUs granted to the Named Executive Officers as part of long-term incentive compensation vest in equal annual installments over three years and accumulate dividend equivalents that are paid only upon vesting. To promote retention, RSU awards generally provide that any unvested RSUs are forfeited if the Named Executive Officer leaves the Company. Forfeiture is subject to partial accelerated vesting upon termination of employment in connection with a divestiture or reduction in force (as described in the section below titled "Executive Compensation Tables—Potential Payments Upon Termination or Change-in-Control").

FISCAL 2020 AWARD RESULTS

As previously disclosed in our 2020 proxy statement, the fiscal 2020 – 2022 LTIP awards granted in June 2019 were to be earned between 0% and 200% of target based on Relative TSR over a three-year performance period (subject to a payout cap of 100% if Absolute TSR was negative). As illustrated below, NIKE's Relative TSR for fiscal years 2020 – 2022 was at the 50th percentile, corresponding to an earnout of 89%, and Absolute TSR for that period was positive. Relative TSR was calculated in comparison to the companies that were included in the S&P 500 as of May 31, 2022, using the 20-trading day average stock price and assuming that dividends paid during the performance period were reinvested in the applicable company's stock. In June 2022, the Compensation Committee determined that a payout of 89% under these awards was earned by each NEO.

FISCAL 2020 – 2022 PERFORMANCE RESULTS

FISCAL 2023 LONG-TERM INCENTIVE COMPENSATION CHANGES

For fiscal 2023 the Compensation Committee reviewed the total mix of long-term incentive compensation components—PSUs, stock options, and RSUs. After considering shareholder feedback, including feedback received during our extensive shareholder engagement, and evolving market practice, the Compensation Committee determined to increase the proportion of total long-term incentive compensation granted in the form of PSUs to 50% for all executive officers, which change will be phased in over multiple years, beginning with fiscal 2023 awards.

OTHER COMPENSATION

PROFIT SHARING AND RETIREMENT PLANS

We maintain a U.S. tax qualified retirement savings plan—the 401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc. (the "401(k) Plan")—under which all eligible U.S. employees, including the Named Executive Officers, are able to make pre-tax and after-tax contributions from their cash compensation. We make annual matching contributions for all participants equal to 100% of their pre-tax contributions up to 5% of their total eligible compensation.

We also may make annual profit sharing contributions to the accounts of eligible U.S. employees, including the Named Executive Officers, under the 401(k) Plan. The aggregate profit sharing contribution amount, if any, is determined each year by the Board of Directors. This aggregate contribution is allocated among eligible employees based on an equal percentage of their total salary and annual cash incentive award for the year. For fiscal 2022, the profit sharing contribution percentage for each eligible employee was 0%.

The Internal Revenue Code limits the amount of compensation that can be deferred under the 401(k) Plan, and also limits the amount of salary and annual cash incentive award (\$290,000 for fiscal 2022) that may be taken into account when determining contributions under that plan. Accordingly, we provide our Named Executive Officers and other highly compensated employees with the opportunity to defer their compensation, including amounts in excess of the tax law limit, under our nonqualified Deferred Compensation Plan. We do not match deferrals to the Deferred Compensation Plan. If we make an annual profit sharing contribution under the 401(k) Plan, we also make equivalent profit sharing contributions under the Deferred Compensation Plan with respect to salary and annual cash incentive award of any eligible employee that exceeds the tax law limit; these contributions under the Deferred Compensation Plan allow our Named Executive Officers and other highly compensated employees to receive profit sharing contributions in the same percentage as our other employees. Because we did not make a profit sharing contribution under the 401(k) Plan for fiscal 2022, we did not make any profit sharing contributions under the Deferred Compensation Plan either. Balances in the Deferred Compensation Plan, including the balances of the Named Executive Officers, are unsecured and at-risk, meaning that the balances may be forfeited in the event of the Company's financial distress, such as bankruptcy.

Fiscal 2022 matching and profit sharing contributions to the Named Executive Officers under the qualified and nonqualified plans are included in the All Other Compensation column in the Summary Compensation Table on page 42.

EMPLOYEE STOCK PURCHASE PLAN

Our Employee Stock Purchase Plan allows eligible employees in the United States and in many countries outside of the United States, including the Named Executive Officers, to purchase Class B Stock through payroll deductions at a 15% discount to the market price on the first or last trading day of the six-month purchase period, depending on which day the stock price was lower. In fiscal 2022, all of our Named Executive Officers participated in our Employee Stock Purchase Plan, with the exception of Messrs. Donahoe and Parker.

PERQUISITES AND OTHER BENEFITS

Our executive compensation program includes limited perquisites and other personal benefits for our Named Executive Officers, which generally consist of home security and financial planning services. Given the nature of our business, from time to time certain Company employees, including certain executive officers, may also receive Company product, event tickets, or travel benefits that are not generally offered to all employees.

In addition, Mr. Donahoe and Mr. Parker are entitled to limited personal use of Company aircraft, primarily pursuant to time sharing agreements, which is intended to increase the security, availability, and productivity of these individuals, and enhanced charitable gift matching under our Employee Matching Gift Program, with an annual executive contribution limit of \$1,000,000 and Company matching on a 4:1 basis. Our Employee Matching Gift Program does not match employee contributions that benefit the employee, including contributions to the employee's personal or family foundation or to a non-profit organization that is managed or led by, or provides compensation or assistance to, the employee or a member of their family. For fiscal 2022, Mr. Donahoe and Mr. Parker each donated to a range of charitable causes.

We do not provide any tax gross-ups on perquisites to our executive officers. Greater detail about the perquisites and personal benefits provided to our Named Executive Officers in fiscal 2022 is provided in the footnotes to the Summary Compensation Table on page 42.

NON-COMPETITION AGREEMENTS

In exchange for non-competition agreements from each of our Named Executive Officers, we have agreed to provide monthly payments during the non-compete period following termination of employment, as described in the section below titled "Executive Compensation Tables—Potential Payments upon Termination or Change-in-Control". We believe that it is appropriate to compensate individuals to refrain from working with competitors following termination, and that compensation enhances the enforceability of such agreements.

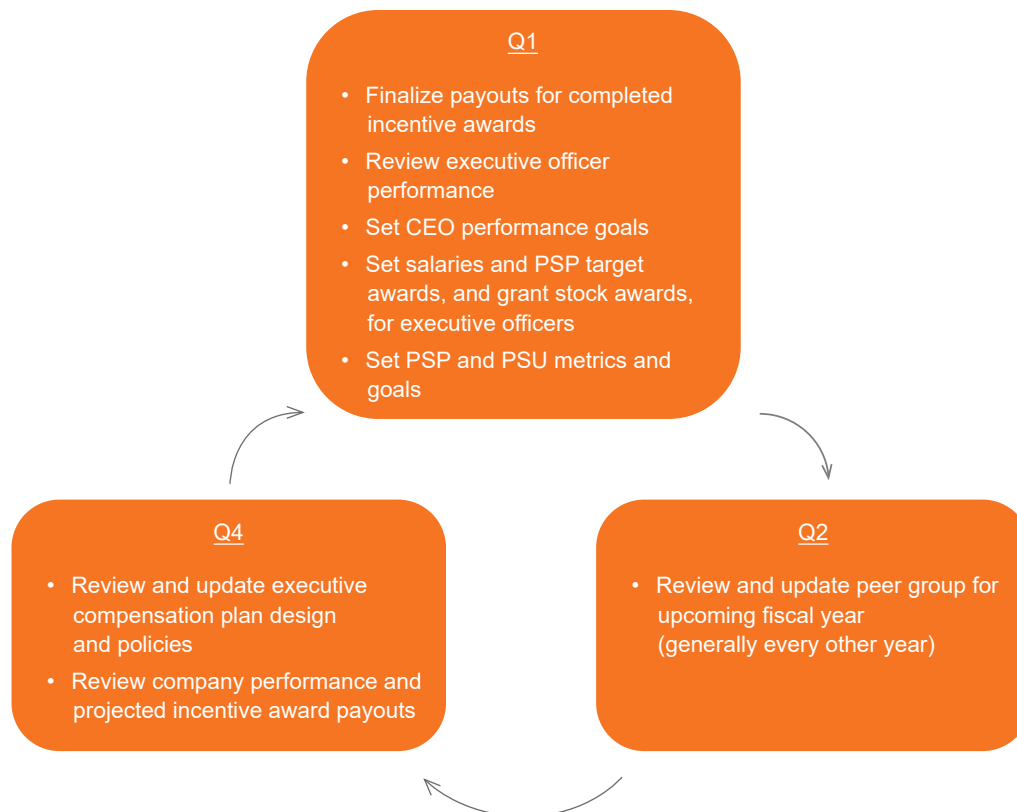

LETTER AGREEMENTS

In connection with the CEO transition in fiscal 2020, we entered into letter agreements with each of Messrs. Donahoe and Parker that provide, among other things, for the enhanced charitable gift matching under our Employee Matching Gift Program as described in the section above titled "Perquisites and Other Benefits". Other than these two letter agreements, we do not have employment contracts with any of our executive officers.

OUR COMPENSATION PROCESS

COMPENSATION COMMITTEE

The Compensation Committee oversees our executive compensation program, including determining the value and composition of the compensation package for each of our executive officers and setting annual performance goals for the CEO. In addition to any special actions the Compensation Committee may take throughout the year, the committee generally acts with respect to compensation for our Named Executive Officers during the fiscal year as follows:

PEER GROUP

Given the competitive market for top-tier talent, the Compensation Committee uses a peer group (consisting of companies with similar revenue size, market capitalization, brand value, products, or markets, or with which we compete for executive talent, or which are aligned with our evolving business and talent strategies) to provide a reference for assessing executive compensation levels and practices. Based on the criteria, the following peer group was considered for purposes of setting fiscal 2022 executive compensation:

American Express Company	Kellogg Company	Pepsico, Inc.
Best Buy Company, Inc.	Kimberly-Clark Corporation	Procter & Gamble Company
The Coca-Cola Company	McDonald's Corporation	Starbucks Corporation
Colgate-Palmolive Company	Microsoft Corporation	Target Corporation
Comcast Corporation	Mondelez International, Inc.	TJX Companies
The Gap, Inc.	Oracle Corporation	The Walt Disney Company

In November 2021, the Compensation Committee further refined our peer group for purposes of setting fiscal 2023 executive compensation to include Lowe's Companies, Inc., Netflix, Inc., salesforce.com, inc., and Walmart Inc., and to remove Colgate-Palmolive Company, Comcast Corporation, The Gap, Inc., and Kellogg Company.

In addition to considering our peer group, the Compensation Committee also uses market survey data from third parties, including Aon, Willis Towers Watson, and Mercer, about a broader range of companies. The Compensation Committee generally does not set executive compensation at or near any particular percentile of peer group, or market, compensation. Instead, the committee considers compensation to be competitive if it is generally within a reasonable range of market median.

ROLE OF MANAGEMENT

The CEO makes compensation recommendations to, and participates in discussions with, the Compensation Committee regarding the compensation of each executive officer other than himself. In addition, our human resources staff regularly provides data, analysis, and recommendations to the committee regarding executive compensation.

The Compensation Committee meets regularly in executive session without the CEO or other management present to discuss our executive compensation program. Such executive sessions include discussions about, among other topics, the CEO's performance and compensation and the design and operation of our executive compensation plans.

ROLE OF COMPENSATION CONSULTANT

The Compensation Committee has the authority, in its sole discretion, to retain compensation consultants to assist the committee in overseeing our executive compensation program. The Compensation Committee chose not to retain any such consultants in fiscal 2022. However, in connection with the committee's analysis and decision-making regarding the fiscal 2022 executive compensation program, the Compensation Committee supplemented peer group data with information from surveys and reports containing competitive market data from Aon, Willis Towers Watson, and Mercer, which are obtained by our human resources staff.

OTHER COMPENSATION PRACTICES

STOCK OWNERSHIP GUIDELINES

We maintain stock ownership guidelines for executive officers that are designed to further align the interests of our executive officers with those of our shareholders. Under the guidelines, for fiscal 2022 each executive officer was required to hold NIKE stock valued at the following multiple of their annual base salary:

POSITION	OWNERSHIP LEVEL	
Chief Executive Officer		8X Base Salary
Other Executive Officers (including NEOs)		3X Base Salary

New executive officers are required to attain these ownership levels within five years of their appointment. As of May 31, 2022, the CEO and each of our other executive officers, including each other Named Executive Officer, has met or is on track to meet the applicable ownership guideline within the requisite period.

HEDGING AND PLEDGING

The Company's Blackout and Pre-clearance Policy (which supplements our Insider Trading Policy) prohibits directors, executive officers, and other designated insiders (based on seniority and department) from engaging in transactions involving hedging, monetization, or short sales of NIKE stock, including zero-cost collars and forward sale contracts. The policy also requires directors and executive officers, along with members of their families and households, to obtain pre-approval from the Company's Chairman or CEO before pledging NIKE stock. Before any such approval is granted, the Company's Clearance Director considers the size of the pledge relative to the individual's other holdings, both direct and indirect, and NIKE's shares outstanding; the risk of foreclosure given the nature of the associated transaction; protections against the appearance of insider trading, including prohibitions on sales during trading blackouts; and the ability to timely report sales on Form 4.

CHANGE-IN-CONTROL PROVISIONS

Neither PSP nor LTIP awards are subject to acceleration upon a change in control. PSU, stock option, and RSU awards are subject only to "double-trigger" accelerated change-in-control vesting (with PSUs vesting at 100% of target), meaning that vesting is accelerated only if there is a change in control of the Company, and within the following two years, either the acquiring entity fails to assume the awards or the employee's employment is terminated by the acquirer without cause or by the employee for good reason. This double-trigger acceleration is intended to encourage executive retention through a period of uncertainty. The Compensation Committee believes that this approach will enhance shareholder value in the context of an acquisition and align executives' interests with those of investors. The effect of change-in-control transactions on stock-based awards is described further in the section below titled "Executive Compensation Tables—Potential Payments Upon Termination or Change-in-Control".

CLAWBACK

We maintain a clawback policy for the recoupment of incentive compensation. Under the clawback policy, an executive officer who is involved in wrongful conduct that results in a restatement of the Company's financial statements must repay to the Company up to the full amount of any incentive compensation that was paid based on the financial statements that were subsequently restated. The clawback policy covers PSP awards, LTIP awards, stock-based awards (based on excess proceeds from pre-restatement sales of stock acquired pursuant to the stock-based awards), and profit sharing contributions to the Deferred Compensation Plan. In addition to the clawback policy, the PSP, LTIP and Stock Incentive Plan also specify that the Committee may apply further clawback requirements to awards through additional clawback policies or award agreement provisions, and that all awards are subject to clawback requirements under applicable law and regulation.

RISK ASSESSMENT

At the Compensation Committee's request, in fiscal 2022, management prepared and discussed with the committee an assessment of potential risks associated with the Company's compensation programs, including any risk that would be reasonably likely to have a material adverse effect on the Company. This included an assessment of risks associated with each element of employee compensation. The assessment considered certain design features of the compensation program that reduce the likelihood of excessive risk taking, such as reasonable performance targets, capped incentive compensation payouts, a balance of short- and long-term incentives, a balance of cash- and stock-based incentives, vesting of awards over time, and the potential for clawback of incentive compensation. In addition, for stock-based compensation, we have adopted stock ownership guidelines, provided for limited accelerated vesting of PSUs, stock options, and RSUs upon termination of employment, and provided for only double-trigger accelerated vesting of stock-based awards upon a change in control.

TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the Internal Revenue Code generally places a \$1 million limit on the amount of compensation a company can deduct in any one year for "covered employees". While the Compensation Committee seeks to preserve tax deductibility in developing and implementing our executive compensation program, the committee also believes that it is important to maintain flexibility in administering compensation programs in a manner designed to promote varying corporate goals and the interests of our shareholders. Accordingly, we have not adopted a policy that all compensation must qualify as deductible for tax purposes and retain the ability to provide compensation that may not qualify as deductible under Section 162(m).

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors has reviewed and discussed with management the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K. Based on the review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

Members of the Compensation Committee:

- Timothy D. Cook, Chair
- Cathleen A. Benko
- Elizabeth J. Comstock

EXECUTIVE COMPENSATION TABLES

SUMMARY COMPENSATION TABLE

The following table sets forth information concerning the total compensation of each Named Executive Officer for fiscal years 2022, 2021, and 2020.

NAME AND PRINCIPAL POSITION	YEAR	SALARY (\$)	BONUS ⁽¹⁾ (\$)	STOCK AWARDS ⁽²⁾ (\$)	OPTION AWARDS ⁽³⁾ (\$)	NON-EQUITY INCENTIVE PLAN COMPENSATION ⁽⁴⁾ (\$)	ALL OTHER COMPENSATION ⁽⁵⁾ (\$)	TOTAL ⁽⁶⁾ (\$)
John Donahoe II President and Chief Executive Officer	2022	1,500,000	—	12,061,812	6,782,995	4,450,000	4,043,253	28,838,060
	2021	1,500,000	13,600,000	3,602,980	5,402,416	4,500,000	4,315,312	32,920,708
	2020	548,077	6,750,000	21,275,073	23,241,515	—	1,685,315	53,499,980
Matthew Friend Executive Vice President and Chief Financial Officer	2022	1,056,731	1,056,000	2,783,949	1,938,030	890,000	14,500	7,739,210
	2021	875,000	1,260,000	7,161,045	1,740,792	900,000	14,250	11,951,087
	2020	659,092	1,576,800	400,057	661,621	—	14,000	3,311,570
Andrew Campion Chief Operating Officer	2022	1,221,154	1,200,000	2,990,322	2,261,028	890,000	15,241	8,577,745
	2021	1,100,000	1,584,000	11,161,060	1,740,792	900,000	14,250	16,500,102
	2020	1,092,308	2,070,000	1,160,023	1,606,771	—	9,375	5,938,477
Heidi O'Neill⁽⁷⁾ President, Consumer and Marketplace	2022	1,221,154	1,200,000	2,990,322	2,261,028	890,000	26,618	8,589,122
	2021	1,100,000	1,584,000	7,161,045	1,740,792	900,000	14,250	12,500,087
Mark Parker Executive Chairman	2022	1,134,615	—	—	2,153,362	4,450,000	4,096,391	11,834,368
	2021	1,700,000	12,040,000	—	6,002,675	4,500,000	3,235,307	27,477,982
	2020	1,700,000	6,025,000	4,000,067	5,540,572	—	930,634	18,196,273

- (1) For fiscal 2022, represents awards under our Executive Performance Sharing Plan which were earned based on Company performance during fiscal 2022. As described in the section titled "Compensation Discussion and Analysis—Compensation of our Named Executive Officers—Annual Cash Incentive", Mr. Donahoe's PSP award was paid at 0%, Mr. Parker did not receive a fiscal 2022 PSP award in light of his reduced responsibilities as Executive Chairman, and the PSP award for each other NEO was paid at 80%. For fiscal 2021, represents annual cash incentive awards which were paid at 120% of target to each executive officer, as well as transition-period cash incentive awards paid to Messrs. Donahoe and Parker. For fiscal 2020, represents cash bonuses awarded to executive officers to approximate the short- and long-term cash incentive payouts received by non-executive officers.
- (2) Represents the grant date fair value of RSU and PSU awards granted in fiscal 2022, and RSU awards granted in fiscal 2021 and 2020, in each case computed in accordance with accounting guidance applicable to stock-based compensation. For RSUs, the grant date fair value was computed based on the closing market price of our Class B Stock on the grant date. For PSUs, the grant date fair value was computed using a Monte Carlo simulation based on the probable outcome of the performance condition as of the grant date. The assumptions made in determining the grant date fair value of PSUs under applicable accounting guidance are disclosed in Note 11 of Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended May 31, 2022. For fiscal 2022, the grant date fair value of the PSU awards was: \$7,727,491 for Mr. Donahoe; \$1,545,548 for Messrs. Friend and Campion and Ms. O'Neill; and \$0 for Mr. Parker. Assuming that the maximum level of performance conditions is achieved, the PSU award values would be: \$10,319,956 for Mr. Donahoe; \$2,064,058 for Messrs. Friend and Campion and Ms. O'Neill; and \$0 for Mr. Parker.
- (3) Represents the grant date fair value of options granted in the applicable fiscal year computed in accordance with accounting guidance applicable to stock-based compensation. The grant date fair value of the options was estimated using the Black-Scholes option pricing model. The assumptions made in determining the grant date fair value of options under applicable accounting guidance are disclosed in Note 11 of Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended May 31, 2022.
- (4) Represents awards under our Long-Term Incentive Plan which were earned for Company performance during the three-year period ending with the applicable fiscal year.
- (5) For fiscal 2022, includes Company matching contributions to the 401(k) Plan in the amount of \$14,500 for each of the Named Executive Officers. The amount for Mr. Donahoe also includes \$4,000,000 in charitable matching contributions made by the Company, \$27,472 in aggregate incremental cost to the Company for personal use of the Company's aircraft, as well as the value of Company-related merchandise, security services, food and beverage, and books. The amount for Ms. O'Neill also includes the incremental cost to the Company for personal use of the Company's aircraft as well as the value of security services, financial advisory services, and books. The amount for Mr. Parker also includes \$4,000,000 in charitable matching contributions made by the Company, \$61,574 in aggregate incremental cost to the Company for personal use of the Company's aircraft, as well as the value of Company-related merchandise, security services, and books. The aggregate incremental cost for personal use of the Company's aircraft is determined based on the variable operating cost to the Company, including the cost of fuel, maintenance, crew travel expenses, landing fees, parking fees, in-flight food and beverage, and other smaller variable costs associated with each flight. The amounts for Mr. Donahoe and Mr. Parker exclude the aggregate incremental cost to the Company for personal use of the Company's aircraft for which Mr. Donahoe or Mr. Parker, as applicable, reimbursed the Company in accordance with a time sharing agreement and as allowed under Federal Aviation Regulation 91.501(c) and (d).
- (6) Includes the value of both the grant of PSUs for the fiscal 2022 – 2024 performance period (which were awarded as part of fiscal 2022 compensation) and the payout of LTIP awards for the fiscal 2020 – 2022 performance period (which were awarded as part of fiscal 2020 compensation).
- (7) Because Ms. O'Neill was a Named Executive Officer for only fiscal 2022 and 2021, no disclosure is included as to Ms. O'Neill for fiscal 2020.

GRANTS OF PLAN-BASED AWARDS IN FISCAL 2022

The following table sets forth information concerning the performance-based annual cash incentive opportunities and PSUs, RSUs, and stock options granted to the Named Executive Officers in fiscal 2022.

NAME	GRANT DATE	ESTIMATED FUTURE PAYOUTS UNDER NON-EQUITY INCENTIVE PLAN AWARDS			ESTIMATED FUTURE PAYOUTS UNDER EQUITY INCENTIVE PLAN AWARDS			ALL OTHER STOCK AWARDS: NUMBER OF SHARES OF STOCK OR UNITS ⁽³⁾	ALL OTHER OPTION AWARDS: NUMBER OF SECURITIES UNDERLYING OPTIONS ⁽⁴⁾	EXERCISE OR BASE PRICE OF OPTION AWARDS	GRANT DATE FAIR VALUE OF STOCK AND OPTION AWARDS ⁽⁵⁾

	8/1/2021							—			—
	8/1/2021								48,521	167.51	2,153,362

- (1) These amounts represent the potential performance-based annual cash incentive awards payable for performance during fiscal 2022 under our PSP. Under this plan, the Compensation Committee approved target awards for fiscal 2022 based on a percentage of the executive's base salary paid during fiscal 2022 as follows: Mr. Donahoe, 200%; Mr. Friend, 120%; Mr. Campion, 120%; Ms. O'Neill, 120%; and Mr. Parker, 0%. Fiscal 2022 PSP awards are earned between 0% and 150% of target based on Company performance on three equally-weighted metrics—Adjusted Revenue, Adjusted Digital Revenue, and Adjusted EBIT—during fiscal 2022. Actual award payouts earned in fiscal 2022 and paid in fiscal 2023 are shown in the Summary Compensation Table.
- (2) These amounts represent grants of PSUs under the Stock Incentive Plan which are earned between 0% and 200% of target based on Relative TSR for fiscal 2022 – 2024, subject to a cap of 100% of target if Absolute TSR for the performance period is negative. If Relative TSR is at or above the threshold performance goal, the Compensation Committee may adjust the earnout upwards or downwards by up to 20 percentage points based on a holistic assessment of the Company's performance during the three-year performance period with respect to employee engagement and inclusion, representation of diverse individuals in leadership positions, and sustainability. Earned PSUs will vest in August 2024 and are generally subject to continued employment through the vesting date. Vesting will be accelerated in certain circumstances as described in the section "Potential Payouts Upon Termination or Change-in-Control". The PSUs accumulate cash dividend equivalents that are paid only when, and to the extent, they vest.
- (3) Amounts reported in this column represent grants of RSUs under the Stock Incentive Plan which vest in three equal installments on the first three anniversaries of the grant date. Vesting will be accelerated in certain circumstances as described in the section "Potential Payouts Upon Termination or Change-in-Control". The RSUs accumulate cash dividend equivalents that are only paid upon vesting.
- (4) Amounts reported in this column represent stock options granted under the Stock Incentive Plan which become exercisable in four equal installments on the first four anniversaries of the grant date. Options become exercisable in certain circumstances as described in the section "Potential Payouts Upon Termination or Change-in-Control". Each option has a maximum term of 10 years, subject to earlier termination in the event of the optionee's termination of employment.
- (5) For stock awards, represents the grant date fair value of (a) RSUs based on the closing market price of our Class B Stock on the grant date and (b) PSUs computed using a Monte Carlo simulation based on the probable outcome of the performance condition as of the grant date. For option awards, represents the grant date fair value of stock options granted based on a value of \$44.38 per share, calculated using the Black-Scholes option pricing model. These are the same values for the equity awards under accounting guidance applicable to stock-based compensation. The assumptions made in determining PSU and option values are disclosed in Note 11 to Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended May 31, 2022.

OUTSTANDING EQUITY AWARDS AT MAY 31, 2022

The following table sets forth information concerning outstanding stock options, PSUs, and RSUs held by the Named Executive Officers at May 31, 2022.

(1) Stock options generally become exercisable in four equal installments on each of the first four anniversaries of the grant date.

(2) Reflects RSUs that vest as described in the table below:

NAME	FISCAL YEAR OF GRANT	NUMBER OF UNVESTED UNITS	VESTING SCHEDULE
John Donahoe II	2022	25,875	RSUs subject to three-year pro-rata vesting on 8/1/2022, 8/1/2023, and 8/1/2024
	2021	24,607	RSUs subject to three-year pro-rata vesting, 50% of the remaining units vest on 8/1/2022 and 50% vest on 8/1/2023
	2020	68,845	RSUs subject to three-year pro-rata vesting, 100% of the remaining units vest on 1/13/2023
Matthew Friend	2022	7,393	RSUs subject to three-year pro-rata vesting on 8/1/2022, 8/1/2023, and 8/1/2024
	2021	7,929	RSUs subject to three-year pro-rata vesting, 50% of the remaining units vest on 8/1/2022 and 50% vest on 8/1/2023
	2021	45,208	RSUs subject to four-year pro-rata vesting, 33.3% of the remaining units vested on 6/1/2022, 33.3% vest on 6/1/2023, and 33.3% vest on 6/1/2024
	2020	1,604	RSUs subject to three-year pro-rata vesting, 100% of the remaining units vest on 8/1/2022
Andrew Campion	2022	8,625	RSUs subject to three-year pro-rata vesting on 8/1/2022, 8/1/2023, and 8/1/2024
	2021	7,929	RSUs subject to three-year pro-rata vesting, 50% of the remaining units vest on 8/1/2022 and 50% vest on 8/1/2023
	2021	75,347	RSUs subject to four-year pro-rata vesting, 33.3% of the remaining units vested on 6/1/2022, 33.3% vest on 6/1/2023, and 33.3% vest on 6/1/2024
	2020	4,651	RSUs subject to three-year pro-rata vesting, 100% of the remaining units vest on 8/1/2022
Heidi O'Neill	2022	8,625	RSUs subject to three-year pro-rata vesting on 8/1/2022, 8/1/2023, and 8/1/2024
	2021	7,929	RSUs subject to three-year pro-rata vesting, 50% of the remaining units vest on 8/1/2022 and 50% vest on 8/1/2023
	2021	45,208	RSUs subject to four-year pro-rata vesting, 33.3% of the remaining units vested on 6/1/2022, 33.3% vest on 6/1/2023, and 33.3% vest on 6/1/2024
	2020	2,726	RSUs subject to three-year pro-rata vesting, 100% of the remaining units vest on 8/1/2022
Mark Parker	2020	16,041	RSUs subject to three-year pro-rata vesting, 100% of the remaining units vest on 8/1/2022

(3) Reflects PSUs that vest as described in the table below. PSUs will be earned between 0% and 200% based on Relative TSR and subject to the People & Planet modifier, each over the applicable three-year performance period.

NAME	FISCAL YEAR OF PERFORMANCE PERIOD	NUMBER OF UNVESTED UNITS	VESTING SCHEDULE
John Donahoe II	2022 – 2024	30,804	Earned units will cliff vest on 8/1/2024
Matthew Friend	2022 – 2024	6,161	Earned units will cliff vest on 8/1/2024
Andrew Campion	2022 – 2024	6,161	Earned units will cliff vest on 8/1/2024
Heidi O'Neill	2022 – 2024	6,161	Earned units will cliff vest on 8/1/2024

(4) 50% will vest on January 13, 2023, and 50% will vest on January 13, 2024.

(5) Represents sign-on performance stock options scheduled to vest in three equal installments on each of the first three anniversaries of the grant date, subject to satisfaction of a performance condition based on a 20% increase in the value of our Class B Stock from the value on the grant date (based on a 30-trading day average closing price divided by the closing price of a share on the grant date). The performance condition was satisfied in fiscal 2021. 100% will vest on January 13, 2023.

(6) 33.3% of these options will vest on August 1, 2022, 33.3% will vest on August 1, 2023, and 33.3% will vest on August 1, 2024.

(7) 25% of these options will vest on August 1, 2022, 25% will vest on August 1, 2023, 25% will vest on August 1, 2024, and 25% will vest on August 1, 2025.

(8) 100% of these options will vest on August 1, 2022.

(9) 50% of these options will vest on August 1, 2022 and 50% will vest on August 1, 2023.

OPTION EXERCISES AND STOCK VESTED DURING FISCAL 2022

The following table sets forth information concerning stock option exercises and vesting of RSUs during fiscal 2022 for each of the Named Executive Officers on an aggregated basis.

NAME	OPTION AWARDS		STOCK AWARDS	
	NUMBER OF SHARES ACQUIRED ON EXERCISE (#)	VALUE REALIZED ON EXERCISE (\$)	NUMBER OF SHARES ACQUIRED ON VESTING (#)	VALUE REALIZED ON VESTING (\$)
John Donahoe II	—	—	81,151	12,375,142
Matthew Friend	43,000	4,884,800	35,173	4,915,142
Andrew Campion	—	—	38,677	5,666,772
Heidi O'Neill	32,500	2,693,250	69,122	9,466,137
Mark Parker	660,000	88,788,655	37,535	6,334,031

EQUITY COMPENSATION PLAN INFORMATION

The following table summarizes information regarding outstanding awards and shares available for future issuance under equity compensation plans approved by shareholders and equity compensation plans that were not approved by shareholders as of May 31, 2022. The table does not reflect issuances made during fiscal 2023.

PLAN CATEGORY	NUMBER OF SECURITIES TO BE ISSUED UPON EXERCISE OF OUTSTANDING OPTIONS, WARRANTS AND RIGHTS	WEIGHTED- AVERAGE EXERCISE PRICE OF OUTSTANDING OPTIONS, WARRANTS AND RIGHTS ⁽¹⁾	NUMBER OF SECURITIES REMAINING AVAILABLE FOR FUTURE ISSUANCE UNDER EQUITY COMPENSATION PLANS (EXCLUDING SECURITIES REFLECTED IN COLUMN (a))
	(a)	(b)	(c)
Equity compensation plans approved by shareholders	74,715,806 ⁽²⁾	\$88.6637	109,975,651 ⁽³⁾
Equity compensation plans not approved by shareholders	—	—	4,218,758 ⁽⁴⁾
Total	74,715,806	\$88.6637	114,194,409

(1) Weighted-average exercise prices do not reflect the shares that will be used upon the payment of outstanding awards of RSUs.

(2) Consists of 74,715,806 shares subject to awards of options, RSUs, PSUs (based on performance at 100% of target), and stock appreciation rights outstanding under the Stock Incentive Plan.

(3) Includes 105,885,427 shares available for future issuance under the Stock Incentive Plan and 4,090,224 shares available for future issuance under the Employee Stock Purchase Plan.

(4) Consists of 4,218,758 shares available for future issuance under the Foreign Subsidiary Employee Stock Purchase Plan, pursuant to which shares are offered and sold to employees of selected non-U.S. subsidiaries of the Company on substantially the same terms as those offered to U.S. employees under the shareholder-approved Employee Stock Purchase Plan as described above under "Compensation Discussion and Analysis—Compensation of our Named Executive Officers—Other Compensation—Employee Stock Purchase Plan".

NON-QUALIFIED DEFERRED COMPENSATION IN FISCAL 2022

NAME	PLAN NAME	EXECUTIVE CONTRIBUTIONS IN FISCAL 2022 ⁽¹⁾	AGGREGATE EARNINGS IN FISCAL 2022	AGGREGATE WITHDRAWALS/DISTRIBUTIONS IN FISCAL 2022	AGGREGATE BALANCE AT MAY, 31 2022 ⁽¹⁾
John Donahoe II	DCP	—	\$(143,890)	—	\$787,895
Matthew Friend	DCP	—	\$(40,228)	—	\$578,864
Andrew Campion	DCP	\$390,385	\$(103,813)	—	\$3,363,300
Heidi O'Neill	DCP	\$462,600	\$(333,225)	—	\$4,178,948
Mark Parker	DCP	\$1,591,654	\$(64,163)	—	\$26,861,591

(1) All amounts reported in the Executive Contributions column are also included in amounts reported in the Summary Compensation Table. Of the amounts reported in the Aggregate Balance column, the following amounts have been reported in the Summary Compensation Tables in this proxy statement or in prior year proxy statements: Mr. Donahoe, \$63,695; Mr. Parker, \$21,045,929; Mr. Friend, \$9,503; Mr. Campion, \$1,983,894; and Ms. O'Neill, \$805,406.

NON-QUALIFIED DEFERRED COMPENSATION PLANS

The Named Executive Officers are eligible to participate in our Deferred Compensation Plan (the "DCP"). Participants in the DCP may elect in advance to defer up to 75 percent of their annual base salary, and up to 100 percent of their bonus and long-term cash incentive payments.

We may make annual profit sharing contributions to defined contribution retirement plans. The contributions are allocated among eligible employees based on a percentage of their total salary and bonus for the year. To the fullest extent permitted under Internal Revenue Code limitations, these contributions are made to employees' accounts under our qualified 401(k) Savings and Profit Sharing Plan. Contributions based on salary and bonus in excess of the tax law limit (\$290,000 for fiscal 2022) are made as NIKE contributions under the DCP.

Amounts deferred under the DCP are credited to a participant's account under the DCP. Each participant may allocate his or her account among any combination of the investment options available under the DCP. Participants' accounts are adjusted to reflect the investment performance of the investment options selected by the participants. Participants can change the allocation of their account balances daily. The investment options available under the DCP consist of 18 mutual funds with a variety of investment objectives and five risk-based portfolios. The investment options had annual returns in fiscal 2022 ranging from -28.55% to 8.12%. Amounts credited to participants' accounts are invested by us in actual investments matching the investment options selected by the participants to ensure that we do not bear any investment risk related to participants' investment choices.

The portion of a participant's account attributable to elective deferrals, including investment returns, is fully vested at all times. The portion of a participant's account attributable to NIKE contributions, including investment returns, is fully vested after the participant has been employed by us for five years. All of the Named Executive Officers, other than Mr. Donahoe, are fully vested in their NIKE contributions.

Each time they elect to defer compensation, participants make an election regarding distribution of the compensation deferred under the election (as adjusted to reflect investment performance). A participant may elect for distribution to be made in a lump sum at the beginning of a predetermined year while the participant is still employed or in service (but no sooner than the fourth year after the year in which the distribution election is submitted). Alternatively, a participant may elect for distribution to be made in a lump sum or in quarterly installments over five, ten or fifteen years after termination of employment or service. Participants have limited rights to change their distribution elections. Participants may make a hardship withdrawal under certain circumstances. Subject to certain limitations, a participant may also at any time request to withdraw amounts from his or her account balance that were vested as of December 31, 2004 (and any subsequent investment returns on such amount). If such request is approved, the participant may withdraw 90% of the amount requested, and the remaining 10% will be permanently forfeited.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

CHANGE-IN-CONTROL COMPENSATION — ACCELERATION OF EQUITY AWARDS

All unvested stock option, RSU, and PSU awards are subject to accelerated vesting upon the occurrence of two events (a "double-trigger"): there is a "change-in-control"; and the Named Executive Officer's employment is terminated by us without "cause" or by the Named Executive Officer for "good reason", in each case between the change-in-control (or shareholder approval of the change-in-control, if earlier) and the second anniversary of the change-in-control. Stock options will be exercisable for four years following termination of employment, but not beyond each option's original 10-year term. PSUs will vest at 100% of target. Accelerated vesting of stock options, RSUs, and PSUs will also occur if we are acquired and the acquiring company does not assume the outstanding options, RSUs, or PSUs. For purposes of our stock awards, "change-in-control" is generally defined to include:

- the acquisition by any person of 50% or more of our outstanding Class A Stock or, if the Class A Stock no longer elects a majority of directors, the acquisition by any person of 30% or more of our total outstanding Common Stock,
- the nomination (and subsequent election) in a two-year period of a majority of our directors by persons other than the incumbent directors,
- a sale of all or substantially all of our assets, and
- an acquisition of NIKE through a merger, consolidation or share exchange.

For purposes of our stock awards, "cause" generally includes willful and continued failure to substantially perform assigned duties and willful engagement in illegal conduct materially injurious to us, and "good reason" generally includes a material diminution in position or duties, a salary reduction or material reduction in other benefits, and a home office relocation of over 50 miles.

The following table shows the estimated benefits that would have been received by the Named Executive Officers if double-trigger accelerated vesting had occurred on May 31, 2022, when the closing price of our Class B Stock was \$118.85 per share.

NAME	STOCK AWARD ACCELERATION ⁽¹⁾	STOCK OPTION ACCELERATION ⁽²⁾	TOTAL
John Donahoe II	\$17,843,069	\$10,062,956	\$27,906,025
Matthew Friend	\$8,116,861	\$2,236,014	\$10,352,875
Andrew Campion	\$12,207,440	\$3,621,906	\$15,829,346
Heidi O'Neill	\$8,396,634	\$2,842,303	\$11,238,937
Mark Parker	\$1,906,473	\$11,447,791	\$13,354,264

(1) Information regarding unvested RSUs and PSUs held by each Named Executive Officer is set forth in the Outstanding Equity Awards table above. The amounts in the table above represent the number of unvested RSUs and PSUs (at 100% of target) multiplied by the closing price of our Class B Stock on May 31, 2022.

(2) Information regarding outstanding unvested stock options held by each Named Executive Officer is set forth in the Outstanding Equity Awards table above. The amounts in the table above represent the aggregate value as of May 31, 2022 of those options using the excess of the per share closing price of our Class B Stock on May 31, 2022 over the per share exercise price, multiplied by the number of unvested option shares for each Named Executive Officer.

BENEFITS TRIGGERED ON CERTAIN EMPLOYMENT TERMINATIONS

STOCK OPTION ACCELERATION AND EXTENSION

As of May 31, 2022, each Named Executive Officer held stock options as listed in the Outstanding Equity Awards table above. Under the terms of the stock options held by each Named Executive Officer, upon the death or disability of the holder (or with respect to Mr. Donahoe's performance-based stock options, his termination without "cause"), all unvested options will vest and will be exercisable for four years following termination of employment, but not beyond each option's original 10-year term. If death or disability (or with respect to Mr. Donahoe's performance-based stock options, a termination without "cause") of a Named Executive Officer had occurred on May 31, 2022, the aggregate value of those options is as set forth in the "Stock Option Acceleration" column of the Change-in-Control Compensation – Acceleration of Equity Awards table above.

Under the terms of the stock options held by each Named Executive Officer that were granted after fiscal 2020, upon a termination of employment due to a "divestiture" or "reduction in force" that occurs at least six months following the grant date, and subject to the holder signing a general waiver and release of claims, options that are scheduled to vest within one year following the termination will vest and all vested options will be exercisable for one year following termination of employment, but not beyond each option's original 10-year term. The value of the unvested stock options held by each Named Executive Officer as of May 31, 2022 that would have become vested if a termination due to a "divestiture" or "reduction in force" had occurred on that date is \$1,272,149 for Mr. Donahoe, \$409,911 for each of Messrs. Friend and Campion and Ms. O'Neill, and \$1,413,501 for Mr. Parker.

Under the terms of Mr. Donahoe's performance-based stock options, if he retires with at least 5 years of service (disregarding his years of service as a non-employee director prior to his employment), unvested options will be forfeited and vested options will be exercisable for four years following termination of employment, but not beyond the option's original 10-year term. Under the terms applicable to all other stock options held by the Named Executive Officers, options that have been outstanding for at least one year will be subject to continued vesting if the holder retires after reaching age 55 with at least 5 years of service (or accelerated vesting if the holder retires after reaching age 60 with at least 5 years of service), and vested options will be exercisable for four years following termination of employment, but not beyond each option's original 10-year term. If the Named Executive Officers had retired on May 31, 2022, the aggregate value of stock options subject to retirement vesting would have been \$5,792,870 for Mr. Donahoe, \$2,842,303 for Ms. O'Neill, and \$11,447,791 for Mr. Parker. Messrs. Friend and Campion are not eligible for retirement vesting because these Named Executive Officers have not reached age 55.

STOCK AWARD ACCELERATION

As of May 31, 2022, the Named Executive Officers held unvested RSUs and PSUs as set forth in the Outstanding Equity Awards table above. Under the terms of their award agreements, all unvested RSUs and PSUs will immediately vest upon the death or disability of the holder, with PSUs vesting at 100% of target. The value of the unvested RSUs and PSUs held by each Named Executive Officer as of May 31, 2022 that would have become vested if death or disability had occurred on that date is as set forth in the "Stock Award Acceleration" column of the Change-in-Control Compensation — Acceleration of Equity Awards table above.

Under the terms of the RSUs that were granted to the Named Executive Officers after fiscal 2020 (excluding the stock-based transition awards granted to Messrs. Friend and Campion and Ms. O'Neill) and all PSUs held by the Named Executive Officers, upon a termination of employment due to a "divestiture" or "reduction in force" that occurs at least six months following the grant date, and subject to the holder signing a general waiver and release of claims, RSUs and PSUs that are scheduled to vest within one year following the termination will vest, with PSUs vesting at 100% of target. The value of the unvested RSUs and PSUs held by each Named Executive Officer as of May 31, 2022 that would have become vested if a termination due to a "divestiture" or "reduction in force" had occurred on that date is \$2,487,530 for Mr. Donahoe, \$764,205 for Mr. Friend, \$813,053 for each of Mr. Campion and Ms. O'Neill, and \$0 for Mr. Parker.

PAYMENTS UNDER NONCOMPETITION AGREEMENTS

We have a noncompetition agreement with Mr. Donahoe that extends for eighteen months following the termination of his employment with us and a noncompetition agreement with Mr. Parker that extends for two years following the termination of his employment with us. Under these agreements, if Mr. Donahoe's employment is terminated by us without "cause" (as defined in his agreement), or if Mr. Parker's employment is terminated by us, we will make monthly payments to the executive during the noncompetition period in an amount equal to one-twelfth of his then current annual salary and target PSP award ("Annual NIKE Income"). The agreements provide further that if the executive voluntarily resigns, we will make monthly payments to him during the noncompetition period in an amount equal to one-twenty-fourth of his then current Annual NIKE Income. However, commencement of the above-described monthly payments will be delayed until after the six-month period following the executive's separation from service, and all payments that he would otherwise have received during that period will be paid in a lump sum promptly following the end of the period, together with interest at the prime rate. If employment is terminated without "cause" (as defined in the applicable agreement), the parties may mutually agree to waive the covenant not to compete, and if employment is terminated for "cause", we may unilaterally waive the covenant. If the covenant is waived, we will not be required to make the payments described above for the months as to which the waiver applies. Assuming that Mr. Donahoe's employment had been terminated on May 31, 2022 and the covenant was not waived, during the 18-month period ending November 30, 2023 we would have been required to pay Mr. Donahoe \$375,000 per month if the termination was by us without "cause", or \$187,500 per month if he had voluntarily resigned. Assuming that Mr. Parker's employment had been terminated on May 31, 2022 and the covenant was not waived, during the 24-month period ending May 31, 2024 we would have been required to pay Mr. Parker \$83,333 per month if the termination was by us, or \$41,667 per month if he had voluntarily resigned.

We have noncompetition agreements with each of the other Named Executive Officers on generally the same terms as Mr. Donahoe, except that the noncompetition period is one year, we may unilaterally waive the covenant in all cases (including a termination without "cause"), the monthly payments are one-twelfth or one-twenty-fourth of the executive's then current annual

salary (instead of their Annual NIKE Income), and payments may commence on termination. Assuming that the employment of each of these Named Executive Officers had been terminated by us without "cause" on May 31, 2022 and the covenants were not waived, we would have been required to pay Mr. Friend \$91,667, Mr. Campion \$104,167, and Ms. O'Neill \$104,167, each on a monthly basis for the 12-month period ending May 31, 2023. Assuming that each of these Named Executive Officers had voluntarily resigned on May 31, 2022 and the covenants were not waived, we would have been required to pay Mr. Friend \$45,833, Mr. Campion \$52,083, and Ms. O'Neill \$52,083, each on a monthly basis for the 12-month period ending May 31, 2023.

CEO PAY RATIO

NIKE's pay and benefits are designed to be competitive and equitable, meet the diverse needs of our global teammates, and reinforce our values. We pay for performance and impact by linking incentive pay to Company performance and seek to invest in positive experiences that have the greatest impact on the engagement and well-being of our employees. The executive compensation program is highly incentive-based and weighted towards long-term awards to emphasize long-term performance and support retention. Our executive compensation program is designed to attract and retain top-tier talent in a competitive market and to "pay for performance" in order to drive business results and maximize shareholder value.

For fiscal 2022, our last completed fiscal year:

- The employee identified at the median of all NIKE employees (other than our CEO) was a retail store employee in Canada;
- The annual total compensation of the median employee was \$37,410;
- The annual total compensation of our CEO, Mr. Donahoe, was \$28,838,060; and
- The estimated ratio of the annual total compensation of our CEO to the median annual total compensation of all other NIKE employees was 771 to 1.

This pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules based on the methodology described below. The SEC rules for identifying the median compensated employee and calculating the pay ratio allow companies to adopt a variety of methodologies, apply certain exclusions, and make reasonable estimates and assumptions that reflect their compensation practices. As such, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies may utilize different methodologies, exclusions, estimates, and assumptions in calculating their own pay ratios.

METHODOLOGY

Consistent with our past practice, we used the first business day in May as the date to determine the median employee. This year, the first business day in May was May 2, 2022. At that time, we had approximately 77,239 employees globally. After applying the "de minimis exemption" under the SEC rules, which permits us to exclude non-U.S. employees accounting for 5% or less of our total employee population, we excluded the 3,656 employees in the jurisdictions identified below, and our employee population consisted of approximately 73,583 employees.

Slovenia	1	Denmark	68	Malaysia	206
Sri Lanka	4	Uruguay	71	Thailand	206
United Arab Emirates	5	Czech Republic	73	South Africa	207
Croatia	6	Hungary	82	Vietnam	252
Philippines	19	Indonesia	85	Israel	266
Macau	42	Ireland	87	Poland	276
New Zealand	44	Switzerland	113	Chile	285
Norway	45	Greece	135	Hong Kong	323
Sweden	55	Portugal	148	Turkey	340
Brazil	61	Austria	151		

Of the 73,583 employees included in the CEO Pay Ratio calculation, approximately 75% were full-time, 49% were in retail jobs, and 51% were located in the United States.

To identify our median employee we calculated annual compensation for fiscal 2022 based on base salary or hourly wages, as applicable. For the majority of our employees, base salary or hourly wages comprise the majority of their compensation. To determine wages for hourly employees, we used each individual's pay rate and estimated scheduled hours in the applicable Human Resources system of record.

After determining the annual compensation for our employee population as described above, we identified a subset of approximately 100 individuals representing the potential median employee population. For this subset, we calculated each employee's annual total compensation in U.S. dollars for fiscal 2022 based on the Summary Compensation Table rules used for our Named Executive Officers (in accordance with Item 402(c)(2)(x) of Regulation S-K). Compensation for permanent employees hired during the fiscal year was annualized, compensation for non-U.S. employees was converted into U.S. dollars using the applicable currency conversion rate as reported in the Human Resources system of record for the median employee determination date, and the median employee was then selected from this subset.

AUDIT MATTERS

PROPOSAL 3

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit & Finance Committee of the Board of Directors has sole authority to retain, with shareholder ratification, the Company's independent registered public accounting firm. The Audit & Finance Committee directly oversees the firm's work with respect to the annual audit of the Company's consolidated financial statements and internal control over financial reporting and approves all audit engagement fees and terms. At least annually, the Audit & Finance Committee evaluates the independent registered public accounting firm's qualifications, performance, and independence, including a review and evaluation of its lead partner. The Audit & Finance Committee is also involved in the selection of the new lead engagement partner following mandated rotation of the firm's lead partner, and is responsible for considering the benefits of rotation of the Company's independent registered public accounting firm.

The Audit & Finance Committee has appointed PricewaterhouseCoopers LLP to audit the Company's consolidated financial statements and internal control over financial reporting for the fiscal year ending May 31, 2023 and to render other professional services as required.

PricewaterhouseCoopers LLP has served as the Company's independent registered public accounting firm for many years. The Audit & Finance Committee and the Board of Directors believe that the continued retention of PricewaterhouseCoopers LLP as the independent registered public accounting firm is in the best interests of the Company and its shareholders.

Accordingly, the Audit & Finance Committee is submitting the appointment of PricewaterhouseCoopers LLP to shareholders for ratification. If the appointment is not ratified by our shareholders, the Audit & Finance Committee may reconsider whether it should appoint another independent registered public accounting firm.

Representatives of PricewaterhouseCoopers LLP will be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to questions.

Aggregate fees billed by the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, for audit services related to the most recent two fiscal years, and for other professional services incurred in the most recent two fiscal years, were as follows:

TYPE OF SERVICE	2022	2021
Audit Fees ⁽¹⁾	\$18.1 million	\$19.3 million
Audit-Related Fees ⁽²⁾	0.3 million	0.4 million
Tax Fees ⁽³⁾	0.1 million	0.1 million
All Other Fees ⁽⁴⁾	0.8 million	0.3 million
Total	\$19.3 million	\$20.1 million

(1) Comprises the audits of the Company's annual financial statements and internal controls over financial reporting, and reviews of the Company's quarterly financial statements, as well as statutory audits of Company subsidiaries, attest services and consents to SEC filings.

(2) Comprises services including consultations regarding financial accounting and reporting.

(3) Comprises services for tax compliance, tax planning and tax advice. Tax compliance includes services for compliance related tax advice, as well as the preparation and review of both original and amended tax returns for the Company and its consolidated subsidiaries. Tax compliance related fees represented \$0.1 million of the tax fees for fiscal 2022 and \$0.1 million of the tax fees for fiscal 2021. The remaining tax fees primarily include tax advice.

(4) Comprises other miscellaneous services.

In accordance with the Sarbanes-Oxley Act of 2002, the Audit & Finance Committee established policies and procedures under which all audit and non-audit services performed by the Company's independent registered public accounting firm must be approved in advance by the Audit & Finance Committee. During fiscal 2022 and fiscal 2021, all such services performed by, and fees paid to, PricewaterhouseCoopers LLP were approved in advance.

BOARD RECOMMENDATION

The Board of Directors recommends that shareholders vote **FOR** ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending May 31, 2023.

REPORT OF THE AUDIT & FINANCE COMMITTEE

The Audit & Finance Committee has:

- Reviewed and discussed the audited financial statements with management.
- Discussed with the independent auditors the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board ("PCAOB") and the SEC.
- Received the written disclosures and the letter from the independent accountants required by applicable requirements of the PCAOB regarding the independent accountants' communications concerning independence, and has discussed with the independent accountant the independent accountant's independence.
- Based on the review and discussions above, recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the last fiscal year for filing with the Securities and Exchange Commission.

Members of the Audit & Finance Committee:

- Alan B. Graf, Jr., Chair
- Cathleen A. Benko
- Peter B. Henry

EMPLOYEE STOCK PURCHASE PLAN

PROPOSAL 4

APPROVAL OF AMENDMENT OF NIKE, INC. EMPLOYEE STOCK PURCHASE PLAN TO INCREASE AUTHORIZED SHARES

The Board of Directors is asking our shareholders to approve an amended and restated version of the NIKE, Inc. Employee Stock Purchase Plan (the "ESPP"). The ESPP was initially adopted by the Board and shareholders in 2001 and was most recently amended in 2016 (the "Current ESPP"). On the recommendation of the Compensation Committee, the Board unanimously approved an amended and restated version of the ESPP (the "Amended ESPP") on June 16, 2022, subject to shareholder approval at the Annual Meeting. The Amended ESPP would increase the number of shares of Class B Stock ("Shares") authorized for issuance thereunder by 11 million Shares to a total of 62 million Shares.

The ESPP is intended to provide a convenient and practical means by which employees may participate in stock ownership of the Company. The ESPP serves the best interests of our shareholders by:

- aligning employees' interests with those of our shareholders;
- reinforcing a culture of ownership; and
- enhancing the Company's ability to attract and retain highly qualified and motivated employees in a competitive marketplace.

We recommend that shareholders approve the Amended ESPP to ensure that the number of Shares available for issuance under the ESPP is sufficient in light of the expected levels of ongoing participation and to help the Company meet the goals of its compensation strategy.

BOARD RECOMMENDATION

The Board of Directors recommends that shareholders vote **FOR** approval of the following resolution:

RESOLVED, that the shareholders approve the NIKE, Inc. Employee Stock Purchase Plan as amended and restated.

SUMMARY OF THE EMPLOYEE STOCK PURCHASE PLAN

The following summary of the Amended ESPP is qualified in its entirety by reference to the complete text of the Amended ESPP, which is attached to this proxy statement as Exhibit A. The Amended ESPP is intended to qualify as an "employee stock purchase plan" under Section 423 of the Internal Revenue Code of 1986, as amended (the "Code").

The Amended ESPP increases the number of Shares authorized for issuance thereunder by 11 million Shares to 62 million Shares; it does not make any other changes to the Current ESPP. If this proposal is rejected by shareholders, the total number of Shares authorized and reserved for issuance under the ESPP will remain at 51 million, of which approximately 4,090,538 remained available for issuance as of July 8, 2022. Based on our current forecasts and estimated participation rates, if the Amended ESPP is not approved, it is anticipated that the Current ESPP will run out of available Shares in approximately fiscal year 2024.

We believe that the ESPP furthers the interests of the Company and our shareholders by aligning employees' interests with those of our shareholders, reinforcing a culture of ownership, and enhancing the Company's ability to attract and retain highly qualified and motivated employees in a competitive marketplace. To continue to provide employees with benefits under the ESPP, we believe that additional Shares must be authorized because the number of Shares remaining available for issuance under the Current ESPP will not be sufficient in light of the expected levels of ongoing participation.

In considering its recommendation to seek shareholder approval for the addition of 11 million Shares to the ESPP, the Board considered the historical number of Shares purchased under the ESPP in the past 5 fiscal years. The Board also considered the Company's expectation that the additional Shares should last through approximately fiscal year 2027. However, the additional

Shares could last for a longer or shorter period of time based on various factors which cannot be predicted, including the growth of our employee population, future ESPP offering practices, our Share price, and prevailing market conditions. In the event that more Shares are required for the ESPP in the future, the prior approval of our shareholders will be required.

DESCRIPTION OF THE AMENDED ESPP

ELIGIBILITY

The Amended ESPP is a broad-based plan in which almost all active employees of the Company and its participating subsidiaries are eligible to participate, except for the following: (a) any employee who has been employed less than one month when an offering commences, (b) any employee whose customary employment is less than 20 hours per week, and (c) any employee who would, immediately after the purchase right grant for an offering, own or be deemed to own stock (including any stock the employee may purchase under outstanding purchase rights) representing five percent or more of the total combined voting power or value of all classes of stock of the Company or any subsidiary of the Company. As of July 8, 2022, approximately 36,540 employees, including all 7 executive officers, were eligible to participate in the ESPP.

SHARES AUTHORIZED FOR ISSUANCE

As noted above, if shareholders approve this proposal, the total number of Shares authorized and reserved for issuance under the Amended ESPP will be 62 million Shares. Such number of Shares is subject to adjustment in the event of any stock dividend, stock split, combination of shares, recapitalization, or other change in the outstanding Shares. As of July 8, 2022, the closing price of our Shares on the New York Stock Exchange was \$107.93 per Share.

ADMINISTRATION

The Board has delegated to the Company's senior human resources executive (the "Authorized Officer") all authority for administration of the Amended ESPP and such Authorized Officer may delegate some or all of his or her duties and authority to one or more Company employees. The Authorized Officer may promulgate rules and regulations, adopt forms for use in connection with the Amended ESPP, decide any question of interpretation or rights arising under, and generally supervises the administration of, the Amended ESPP. Unless otherwise determined by the Board, all determinations and decisions of the Authorized Officer or the Board will be conclusive. The Company pays all expenses of the Amended ESPP.

OFFERINGS

The Amended ESPP is implemented by a series of six-month offerings, with a new offering commencing on April 1 and October 1 of each year. The first day of each offering is the "offering date" for that offering, and the last day of each offering is the "purchase date" for that offering. An eligible employee who joins the Amended ESPP (a "participant") may purchase Shares only through payroll deductions permitted under the Amended ESPP. Payroll deductions must be not less than 1% nor more than 10% of the participant's eligible compensation.

The maximum number of Shares that any participant may purchase in any single offering is 500 Shares. In addition, the terms of an offering may not allow a participant's right to purchase Shares under all stock purchase plans of the Company and its subsidiaries to which Section 423 of the Code applies to accrue at a rate that exceeds \$25,000 of fair market value of Shares, as determined on the offering date, in any calendar year.

Eligible employees voluntarily elect whether or not to enroll in the Amended ESPP by submitting a subscription and payroll deduction authorization to the Company or its agent in a form and manner and by the deadline set by the Authorized Officer. A participant may terminate participation in the Amended ESPP by written notice to the Company submitted no later than the "change deadline" for that offering, which is the number of days before the purchase date established by the Authorized Officer. Participation in the Amended ESPP will also terminate when a participant ceases to be an eligible employee for any reason, including death or retirement. An employee may not reinstate participation in the Amended ESPP with respect to a particular offering after terminating participation in the Amended ESPP with respect to that offering, but may participate in subsequent offerings. Generally, upon termination of a participant's participation in the Amended ESPP, all amounts deducted from the participant's pay that had not yet been used to purchase Shares will be returned to the employee. The rights of participants under the Amended ESPP are not transferable.

PURCHASE PRICE

The price at which Shares may be purchased in an offering is the lower of (a) 85 percent of the fair market value of a Share on the offering date of the offering or (b) 85 percent of the fair market value of a Share on the purchase date of the offering. The fair market value of a Share on any date is the closing price on the immediately preceding trading day of the Share on the New York

Stock Exchange or, if the Share is not traded on the New York Stock Exchange, such other reported value of the Share as may be specified by the Board.

PURCHASE OF SHARES; CUSTODIAN

All participant payroll deductions will be credited to the participant's account under the Amended ESPP. No interest will be paid on such accounts, unless otherwise determined by the Authorized Officer. On each purchase date, the amount of the account of each participant will be applied to the purchase of Shares (including fractional Shares) by such participant from the Company at the purchase price (described above). Any cash balance remaining in a participant's account after a purchase date will be repaid to the participant. Shares purchased under the Amended ESPP are delivered to and held in the custody of a custodian (the "Custodian"), which is an investment or financial firm appointed by the Authorized Officer. By appropriate instructions to the Custodian, a participant may from time to time sell all or part of the Shares held by the Custodian for the participant's account in the public market at the market price at the time the order is executed. Also by appropriate instructions, the participant may transfer all or part of the Shares held for that participant by the Custodian to the participant or to a regular individual brokerage account in the participant's own name, except that no Shares may be so transferred until two years after the offering date of the offering in which the Shares were purchased.

DIVIDENDS AND OTHER DISTRIBUTIONS; REINVESTMENT

Stock dividends and other distributions in Shares, with respect to Shares held by the Custodian, will be issued to the Custodian and held by it for the account of the respective participants entitled to such dividends or other distributions. Cash distributions other than dividends, if any, on Shares held by the Custodian will be paid currently to the participants entitled to such distributions. Cash dividends, if any, on Shares held by the Custodian may be reinvested in Shares on behalf of the participants entitled to such dividends. The Custodian will establish a separate account for each participant for the purpose of holding any Shares acquired through reinvestment of participants' dividends.

TERMINATION AND AMENDMENT

The Amended ESPP will terminate when all of the Shares reserved for purposes of the Amended ESPP have been purchased, provided that the Board or the Authorized Officer in their sole discretion may terminate the Amended ESPP at any time with respect to any participating subsidiary and the Board in its sole discretion may at any time terminate the Amended ESPP completely.

The Board or the Authorized Officer may at any time amend the Amended ESPP in any and all respects, except that only the Board may change (a) the number of Shares reserved for the Amended ESPP, (b) the maximum percentage of a participant's eligible compensation that may be deducted from a participant's paycheck during an offering, (c) the purchase price of Shares offered pursuant to the Amended ESPP, (d) the maximum number of Shares that any participant may purchase in any single offering or certain other purchase limitations, or (e) certain other terms of the Amended ESPP relating to the offering and purchase dates. Notwithstanding the foregoing, the Board may not without shareholder approval increase the number of Shares reserved for the Amended ESPP (except for certain capital adjustments, described above under "Shares Authorized for Issuance") or decrease the purchase price of Shares offered pursuant to the Amended ESPP.

FUTURE ESPP BENEFITS

Participation in the Amended ESPP is voluntary and dependent on each eligible employee's election to participate and his or her determination as to the level of payroll deductions. Further, the number of Shares that may be purchased under the Amended ESPP is determined, in part, by the price of our Shares on the first and last day of each offering. Accordingly, the actual number of Shares that may be purchased by any eligible individual in the future is not determinable.

SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a general summary under current law of the material U.S. federal income tax consequences to participants in the Amended ESPP. This summary deals with the general tax principles that apply and is provided only for general information. Certain types of taxes, such as state and local income taxes, are not discussed. Tax laws are complex and subject to change and may vary depending on individual circumstances and from locality to locality. The summary does not discuss all aspects of income taxation that may be relevant to a participant in light of his or her personal investment circumstances. This summarized tax information is not tax advice.

The Amended ESPP is intended to qualify as an "employee stock purchase plan" within the meaning of Section 423 of the Code. Under the Code, employees will not recognize taxable income or gain with respect to Shares purchased under the Amended ESPP either at the offering date or the purchase date of an offering. If an employee disposes of Shares purchased under the

Amended ESPP more than two years after the offering date, or in the event of the employee's death at any time, the employee or the employee's estate generally will be required to report as ordinary compensation income for the taxable year of disposition or death an amount equal to the lesser of (a) the excess of the fair market value of the Shares at the time of disposition or death over the applicable purchase price, or (b) 15 percent of the fair market value of the Shares on the offering date. In the case of such a disposition or death, the Company will not be entitled to any deduction from income. Any gain on the disposition in excess of the amount treated as ordinary compensation income generally will be capital gain.

If an employee disposes of Shares purchased under the Amended ESPP within two years after the offering date, the employee generally will be required to report the excess of the fair market value of the Shares on the purchase date over the applicable purchase price as ordinary compensation income for the year of disposition. If the disposition is by sale, any difference between the fair market value of the Shares on the purchase date and the disposition price generally will be capital gain or loss. In the event of a disposition within two years after the offering date, the Company generally will be entitled to a deduction (subject to applicable limits under the Code) from income in the year of such disposition equal to the amount the employee is required to report as ordinary compensation income.

PURCHASES UNDER THE ESPP

The table below provides information on the number of Shares purchased by the following employees and groups since the inception of the ESPP through July 8, 2022. Non-employee directors are not eligible for participation in the ESPP. No associate of a non-employee director, nominee for election as a director or executive officer has purchased shares under the ESPP and no participating employee has purchased five percent or more of the total amount of Shares purchased under the ESPP.

NAME AND POSITION	NUMBER OF SHARES PURCHASED
John Donahoe II President and Chief Executive Officer	—
Mark Parker Executive Chairman	—
Matthew Friend Executive Vice President and Chief Financial Officer	3,892
Andrew Campion Chief Operating Officer	4,523
Heidi O'Neill President, Consumer and Marketplace	5,823
All current executive officers as a group	23,780
All non-employee directors as a group	—
All employees (including all current officers who are not executive officers) as a group	46,933,242

SHAREHOLDER PROPOSAL

PROPOSAL 5

TO CONSIDER A SHAREHOLDER PROPOSAL REGARDING A POLICY ON CHINA SOURCING

The following shareholder proposal will be voted on at the Annual Meeting only if properly presented by or on behalf of the shareholder proponent. Domini Impact Equity Fund, 180 Maiden Lane, Suite 1302, New York, NY 10038, a beneficial owner of at least \$25,000 of Class B Stock, submitted the Proposal together with co-filer Vancity Investment Management Canadian Equity Fund (700 815 West Hastings Street, Vancouver, BC V6C 1B4, beneficial owner of 7,105 shares of Class B Stock). The Board of Directors recommends a vote **AGAINST** the proposal and asks shareholders to read through NIKE's response which follows the shareholder proposal.

SUPPORTING STATEMENT:

It has been reported that as many as 1.8 million Uyghur people, a Muslim ethnic minority group in China, have been arbitrarily detained and forced to endure severe human rights abuses, including forced labor, torture, and political indoctrination in the Xinjiang Uyghur Autonomous Region (Uyghur Region) since 2017 by the Government of the People's Republic of China. Reports indicate they have been subjected to forced labor at virtually all workplaces, including in the cotton supply chain.¹ The Uyghur Region produces approximately 85% of China's cotton, and Nike's manufacturing data suggests that about 30% of its materials were from Chinese factories.²

Traditional supply chain risk mitigation measures, such as worker interviews and third-party audits, are unreliable or not effective in this unique, high-risk, conflict affected context.³ International labor auditors that conduct site visits and audits have been threatened, had their offices raided and closed, or been forced to leave the region.⁴

Companies may face legal, regulatory, and business continuity risk associated with China and the Uyghur Region. Global leaders understand the urgency of this issue and are acting on it. For example, the Uyghur Forced Labor Prevention Act (UFLPA), prohibiting importation to the United States of goods produced in the Uyghur Region, will enter into force in June 2022. The UFLPA covers goods produced with forced labor in China, not limited to the Uyghur Region, showing that this risk extends beyond the region. The U.S. State Department and other agencies issued the Xinjiang Supply Chain Business Advisory ("Business Advisory") due to the severity and extent of forced labor and other human rights abuses, noting the risks to businesses that do not exit the region.⁵

Nike's long leadership in supply chain transparency is evidenced by its manufacturing map, robust policies, and industry collaboration. The company has acknowledged concerns regarding reports of forced labor in the Uyghur Region, stated it does not directly source from there and highlighted cotton traceability at the raw materials level as an area of focus.⁶ However, in this unique context, Nike's efforts are inadequate. Its supply chain transparency covers primarily its "Tier 1" direct suppliers, and forced labor risks extend to raw material sourcing and manufacturing at further tiers. Sourcing and manufacturing cotton from China, not limited solely to the Uyghur Region, exposes Nike to legal and reputational risk. Nike has been named in a criminal complaint filed in the Netherlands in 2021 and various reports relating to the issue.⁷ Other companies have not only stopped sourcing from the Uyghur Region, but eliminated cotton from China throughout their supply chain to fulfill supply chain commitments prohibiting forced labor.⁸ Nike's current actions leave shareholders concerned that cotton produced with forced labor may be in Nike's products.

Resolved: Shareholders request that Nike adopt a policy to pause sourcing of cotton and other raw materials from China until the U.S. government Business Advisory is lifted or rescinded.

OPPOSITION STATEMENT

The Board of Directors recommends that shareholders vote AGAINST this proposal because:

- NIKE does not directly source cotton or raw materials, and we are committed to responsibly and sustainably sourcing our products, including the materials used throughout our supply chain, in a manner that respects human rights and promotes sustainable innovation. That is why our sourcing approach focuses on foundational expectations; gender equity; health & safety; worker engagement and well-being; and environmental responsibility;
- The Corporate Responsibility, Sustainability & Governance Committee provides oversight of management's efforts to ensure that the Company's dedication to sustainability innovation (including environmental sustainability and human rights) is reflected in its business operations;
- NIKE runs our business in an ethical way, and that commitment extends to the contract manufacturers who make our products. We collaborate with suppliers who share our commitment to responsible manufacturing, as measured by compliance with the standards laid out in our Supplier Code of Conduct and Code Leadership Standards, which can be found on our website; and
- Our current initiatives, which are discussed further on our website, help to drive changes throughout NIKE's supply chain and promote human rights and responsible manufacturing. NIKE expects all our suppliers to share our commitment to respecting the rights of workers and advancing their welfare, with particular care for people with unique vulnerabilities such as women, migrants, and temporary workers. While we have worked hard to develop and implement policies and procedures that bring our commitment to life, we are always looking to evolve and improve. We believe that these efforts are a better approach to promoting human rights and sustainability than prohibiting sourcing with respect to any particular country.

NIKE is deeply committed to ethical and responsible manufacturing. NIKE's approach to sourcing begins with building long-term relationships with manufacturing suppliers who share our commitment to making products responsibly and sustainably. The majority of Nike footwear and branded apparel is made by supplier groups that we have worked with for over 15 years. NIKE's code of conduct for suppliers ("Supplier Code") and Code Leadership Standards ("CLS"), which are publicly available on our website and translated into 15 languages, set strong expectations for our manufacturing partners, as well as procedures for ensuring compliance with such expectations.

We monitor compliance with the Supplier Code and CLS through regular audits, both announced and unannounced, to track the environmental and social performance of our manufacturing partners against those expectations. In the event of noncompliance, we investigate immediately. If improvements are required, we take a collaborative approach to working with suppliers to verify corrective actions are taken, problems are remediated, and managers have onsite verification. Should a supplier fail to remediate issues identified by an audit, it is subject to review and sanctions, including potential termination of the supplier relationship.

NIKE's commitment to ethical practices in our own operations and our supply chain begins at the highest level. The Board's Corporate Responsibility, Sustainability & Governance Committee reviews and evaluates the Company's significant strategies, activities, policies, investments, and programs regarding corporate purpose, including corporate responsibility, sustainability, human rights, and global community and social impact, and provides oversight of management's efforts to ensure that the Company's dedication to sustainability (including environmental sustainability and human rights) is reflected in our business operations.

While NIKE does not directly source cotton or raw materials, traceability at the raw materials level is an area of ongoing focus and board oversight. We are working closely with our suppliers, industry associations, brands and other stakeholders to pilot traceability approaches and map material sources to more proactively manage risks and opportunities and better track our sustainability efforts.

NIKE continues to evolve and strengthen our expectations and practices. NIKE continues to refine its approach to supplier sustainability. We continue to adopt new strategies to ensure that our suppliers grow with our business in a sustainable and safe way. We develop five-year targets to enhance NIKE's sustainable sourcing practices, which are disclosed to shareholders in our Impact Report. Historically we have set an ambitious target of sourcing 100% from facilities that meet our foundational labor, health, safety, and environmental standards, focusing on finished goods manufacturing partners that we contract with directly. For our 2025 targets, we expanded the scope of this target to include key material suppliers (supplying approximately 90% of our footwear uppers and apparel materials) and focus distribution centers (representing at least 80% of volume). As of fiscal 2021, 85% of the facilities in our extended supply chain, including 100% of finished good suppliers, are in compliance with our foundational expectations. Our Impact Report includes a roadmap to get this number to 100% by 2025.

In addition, in fiscal year 2021, we updated our Supplier Code to better reflect our priorities across labor, health and safety and the environment, drive consistency across the NIKE supply chain and meet our 2025 targets. As part of these changes, we added a new requirement for suppliers to develop and share their own internal Code of Conduct. This supports our expectation that suppliers will fully integrate our standards into their own business practices and compliance policies. We also strengthened expectations on identifying and addressing forced labor, child labor and freedom of association by elevating key risks of forced labor beyond recruitment fees to include freedom of movement, debt bondage and building sufficient systems to manage employment relationship of vulnerable worker groups like foreign workers. We clarified examples of hazardous work to align with the minimum working age and elevated requirements around non-retaliation or interference/intimidation to prevent right to freely associate.

As always, we plan to support our suppliers as we work together to meet our aggressive targets and implement the changes in our Supplier Code. We have transitioned to common industry assessments on environment, labor, and health and safety to reduce duplication and audit fatigue for suppliers working with multiple brands, and to ensure that we work with others in the industry to drive impact with a unified voice. We have also enhanced supplier access to training and capacity building to improve management systems, adopt technical improvements in environmental, labor, health and safety standards, and to sustain those improvements.

NIKE is committed to sharing with our stakeholders how we manage social and environmental issues and impacts. At NIKE, we set open goals and implement transparent policies to promote human rights and ensure our products are ethically produced, while sharing our progress and learnings along the way. Our annual Impact Report contains robust disclosure regarding our foundational expectations and five-year targets. Each year's report highlights our progress towards our targets and describes the work undertaken to support that progress.

The Responsible Sourcing page of our website goes into further detail, including our updated Supplier Code, a description of the changes we made to our code in fiscal 2021, and our CLS, which specifies how contract manufacturers should implement the Supplier Code and articulates how we measure supplier compliance efforts and progress against our Supplier Code, including specific requirements on the management of key forced labor risks.

Finally, we published the NIKE, Inc. Statement on Forced Labor, Human Trafficking and Modern Slavery for Fiscal Year 2021 on our website. The statement describes NIKE's commitment to ethical and responsible manufacturing, our ongoing supplier diligence and monitoring to identify and assess potential forced labor risks, how we engage with suppliers to prioritize the well-being of their workers, and our partnerships with various organizations to drive collaborative efforts to address critical human rights risks, such as forced labor.

In summary, NIKE continues to work tirelessly to ensure that respect for people and the planet is integrated throughout NIKE's entire supply chain and to disclose our initiatives and policies around sustainable sourcing so our shareholders have meaningful insight into our progress in this area. We believe that our decades of commitment to these issues have led to more effective and impactful solutions than would be accomplished by prohibiting sourcing from any particular country. The Board of Directors believes that the Company's policies effectively articulate our long-standing support for, and continued commitment to, human rights and sustainable sourcing, rendering the proposal ineffective and unnecessary.

BOARD RECOMMENDATION

X The Board of Directors recommends that shareholders vote **AGAINST** the shareholder proposal.

STOCK OWNERSHIP INFORMATION

STOCK HOLDINGS OF CERTAIN OWNERS AND MANAGEMENT

The following table sets forth the number of shares of the classes of NIKE securities beneficially owned, as of June 30, 2022, after giving effect to any transactions that occurred on such date, by (1) each person known to the Company to be the beneficial owner of more than 5 percent of any class of the Company's securities, (2) each of the directors and nominees for director, (3) each executive officer listed in the Summary Compensation Table ("Named Executive Officers"), and (4) all directors, Named Executive Officers, and other executive officers as a group. Because Class A Stock is convertible into Class B Stock on a share-for-share basis, each beneficial owner of Class A Stock is deemed by the SEC to be a beneficial owner of the same number of shares of Class B Stock. Therefore, in indicating a person's beneficial ownership of shares of Class B Stock in the table, it has been assumed that such person has converted into Class B Stock all shares of Class A Stock of which such person is a beneficial owner. For these reasons the table contains substantial duplications in the numbers of shares and percentages of Class A and Class B Stock shown for Swoosh, LLC, Philip Knight, and the Travis A. Knight 2009 Irrevocable Trust II. In addition, unless otherwise indicated, all persons named below can be reached c/o Corporate Secretary, NIKE, Inc., One Bowerman Drive, Beaverton, Oregon 97005-6453.

(1) A person is considered to beneficially own any shares: (a) over which the person exercises sole or shared voting or investment power, or (b) of which the person has the right to acquire beneficial ownership at any time within 60 days (such as through conversion of securities or exercise of stock options). Unless otherwise indicated, voting and investment power relating to the above shares is exercised solely by the beneficial owner or shared by the owner and the owner's spouse or children.

(2) Omitted if less than 0.1 percent.

(3) These amounts include the right to acquire the following numbers of shares within 60 days after June 30, 2022 pursuant to the exercise of stock options: 14,000 shares for Mr. Cook, 788,117 shares for Mr. Donahoe, 1,866,930 shares for Mr. Parker, 347,080 shares for Mr. Campion, 164,589 shares for Mr. Friend, 122,356 shares for Ms. O'Neill, and 3,587,473 shares for the executive officer and director group.

(4) Named Executive Officer listed in the Summary Compensation Table.

(5) Includes shares held in accounts under the NIKE, Inc. 401(k) Savings and Profit Sharing Plan: 107 shares for Mr. Donahoe, 36,995 shares for Mr. Parker, and 51,533 shares for the executive officer and director group.

(6) Does not include 233,500,000 shares of Class A Stock that are owned by Swoosh, LLC. Mr. Travis Knight has disclaimed beneficial ownership of all such shares.

(7) Preferred Stock does not have general voting rights except as provided by law, and under certain circumstances as provided in the Company's Restated Articles of Incorporation, as amended.

(8) Does not include 521,792 shares of Class A Stock that are owned by Mr. Philip Knight's spouse. Mr. Philip Knight has disclaimed ownership of all such shares. Mr. Philip Knight holds the position Chairman Emeritus, and has a standing invitation to attend all meetings of the Board as a non-voting observer.

(9) Does not include: (a) 521,792 shares of Class A Stock that are owned by Mr. Philip Knight's spouse, and (b) 29,586,056 shares of Class B Stock held by the Knight Foundation, a charitable foundation in which Mr. Philip Knight and his spouse are directors. Mr. Philip Knight has disclaimed ownership of all such shares.

(10) Information provided as of July 17, 2020 in the Form 4 filed by the shareholder.

(11) Includes 21,863,989 shares of Class A Stock held directly by the Travis A. Knight 2009 Irrevocable Trust II (the "Trust") and 19,142,380 shares of Class A Stock held by an indirect subsidiary of the Trust. Mr. Travis Knight and members of his immediate family are among the beneficiaries of the Trust. Mr. Travis Knight disclaims beneficial ownership of the Company's securities held directly and indirectly by the Trust, except to the extent of his pecuniary interest therein.

(12) Information provided as of December 31, 2021 in Schedule 13G filed by the shareholder.

(13) Information provided as of December 31, 2021 in Schedule 13G filed by the shareholder.

TRANSACTIONS WITH RELATED PERSONS

Philip Knight, the father of NIKE director Travis Knight, serves as Chairman Emeritus, which provides a standing invitation for Philip Knight to attend meetings of the Board and its committees as a non-voting observer. In fiscal 2022, as Chairman Emeritus, Mr. Knight received an annual salary of \$500,000, and medical and dental insurance coverage generally available to employees.

The Company's written policy requires the Corporate Responsibility, Sustainability & Governance Committee to review any transaction or proposed transaction with a related person that would be required to be reported under Item 404(a) of Regulation S-K, and to determine whether to ratify or approve the transaction, with ratification or approval to occur only if the committee determines that the transaction is fair to the Company or that approval or ratification of the transaction is in the interest of the Company.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the Compensation Committee of the Board of Directors during fiscal 2022 were Timothy D. Cook, Cathleen A. Benko, and Elizabeth J. Comstock. The committee is composed solely of independent, non-employee directors. No member of the Compensation Committee has been an executive officer of the Company, and no member of the Compensation Committee had any relationships requiring disclosure by the Company under the SEC's rules requiring disclosure of certain relationships and related-party transactions. None of the Company's executive officers served as a director or member of a compensation committee (or other committee serving an equivalent function) of any other entity, the executive officers of which served as a director or member of the Compensation Committee of the Company during fiscal 2022.

OTHER MATTERS

As of the time this proxy statement was printed, management was unaware of any proposals to be presented for consideration at the Annual Meeting other than those set forth herein, but if other matters do properly come before the Annual Meeting, the persons named in the proxy will vote the shares represented by such proxy according to their best judgment.

SHAREHOLDER PROPOSALS

A shareholder proposal (other than a proxy access nomination) intended for inclusion in the Company's proxy statement and form of proxy for the 2023 annual meeting of shareholders must be received by the Corporate Secretary of NIKE, Inc. at shareholder.proposals@Nike.com on or before March 30, 2023. Rules under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), describe standards as to the submission of shareholder proposals. A shareholder proxy access nomination intended for inclusion in the Company's proxy statement and form of proxy for the 2023 annual meeting of shareholders must be received, along with the other information required by the Company's Bylaws, by the Corporate Secretary of NIKE, Inc. at One Bowerman Drive, Beaverton, Oregon 97005-6453, no earlier than February 28, 2023 and no later than March 30, 2023.

In addition, the Company's Bylaws require that any shareholder wishing to make a nomination for director or introduce a proposal or other business at a shareholder meeting must give the Company at least 60 days' advance written notice (which for the 2022 annual meeting of shareholders was July 11, 2022) and that notice must meet certain other requirements described in the Bylaws.

In addition to satisfying the foregoing requirements under the Company's Bylaws, to comply with the universal proxy rules, shareholders who intend to solicit proxies in support of director nominees other than the Company's nominees for the 2023 annual meeting of shareholders must provide notice that sets forth the information required by Rule 14a-19 under the Exchange Act no later than July 11, 2023.

For the Board of Directors,

Mary I. Hunter

Vice President, Corporate Secretary

EXHIBIT A

NIKE, INC.

EMPLOYEE STOCK PURCHASE PLAN

(As amended as of June 16, 2022)

1. **Purpose of the Plan.** NIKE, Inc. (the “**Company**”) believes that ownership of shares of its common stock by employees of the Company and its Participating Subsidiaries (as defined below) is desirable as an incentive to better performance and improvement of profits, and as a means by which employees may share in the rewards of growth and success. The purpose of the Company’s Employee Stock Purchase Plan (the “**Plan**”) is to provide a convenient means by which employees of the Company and Participating Subsidiaries may purchase the Company’s shares through payroll deductions and a method by which the Company may assist and encourage such employees to become share owners. The Company operates a Foreign Subsidiary Employee Stock Purchase Plan (as amended from time to time, the “**Foreign ESPP**”) pursuant to which selected groups of employees of the Company’s foreign subsidiaries (“**Foreign Subsidiaries**”) are provided a similar opportunity to purchase Company shares. Such groups of employees designated as participating groups for purposes of the Foreign ESPP are hereinafter referred to as “**Participating Foreign ESPP Groups**.”
2. **Shares Reserved for the Plan.** There are 62,000,000 shares of the Company’s authorized but unissued or reacquired Class B Common Stock reserved for purposes of the Plan. The number of shares reserved for the Plan is subject to adjustment in the event of any stock dividend, stock split, combination of shares, recapitalization or other change in the outstanding Class B Common Stock of the Company. The determination of whether an adjustment shall be made and the manner of any such adjustment shall be made by the Board of Directors of the Company (the “**Board**”), which determination shall be conclusive.
3. **Administration of the Plan.** The Board has delegated to the Vice President of Global Human Resources of the Company (or, if the officer who is the Company’s senior human resources executive shall have a title other than Vice President of Global Human Resources, then such other officer) all authority for administration of the Plan and, in connection with such delegation and unless otherwise determined by the Board, the Plan shall be administered by or under the direction of such officer (the “**Authorized Officer**”), who may delegate some or all of his or her duties and authority to one or more Company employees. The Authorized Officer may promulgate rules and regulations for the operation of the Plan, adopt forms for use in connection with the Plan, and decide any question of interpretation of the Plan or rights arising thereunder. The Authorized Officer may consult with counsel for the Company on any matter arising under the Plan. Unless otherwise determined by the Board, all determinations and decisions of the Authorized Officer or the Board shall be conclusive.
4. **Eligible Employees.** The Board hereby authorizes the purchase of shares of Class B Common Stock pursuant to the Plan by employees of the Company and of each corporate subsidiary of the Company, but has delegated to the Authorized Officer the authority to designate from time to time those subsidiaries which shall be participants in the Plan (each such participating subsidiary being hereinafter called a “**Participating Subsidiary**”). All Eligible Employees (as defined below) of the Company and all Eligible Employees of each Participating Subsidiary are eligible to participate in the Plan. An “**Eligible Employee**” is an employee of the Company or a Participating Subsidiary who has been employed by the Company or a Participating Subsidiary for at least one full month prior to the Offering Date (as defined below) excluding, however, (a) any employee whose customary employment is less than 20 hours per week and (b) any employee who would, after a purchase of shares under the Plan, own or be deemed (under Section 424(d) of the Internal Revenue Code of 1986, as amended (the “**Code**”)) to own stock (including stock subject to any outstanding options held by the employee) possessing 5 percent or more of the total combined voting power or value of all classes of stock of the Company or any parent or subsidiary of the Company. The Board and Authorized Officer shall have the sole discretion to determine whether an individual satisfies the definition of Eligible Employee under this Section 4 and any such determination shall be final and binding on all parties. Notwithstanding the foregoing, any individual retroactively determined to be an Eligible Employee by the Company, a court, or a governmental agency will be permitted to participate only prospectively from the date of such determination, unless it is determined that the Company’s decision was made in bad faith.
5. **Offerings.**
 - a. **Offering and Purchase Dates.** The plan shall be implemented by a series of six-month offerings (the “**Offerings**”), with a new Offering commencing on April 1 and October 1 of each year. Each Offering commencing on April 1 of any year shall end on September 30 of that year, and each Offering commencing on October 1 of each year of any

year shall end on March 31 of the following year. The first day of each Offering is the “**Offering Date**” for that Offering and the last day of each Offering is the “**Purchase Date**” for that Offering.

- b. **Grants; Limitations.** On each Offering Date, each Eligible Employee shall be granted an option under the Plan to purchase shares of Class B Common Stock on the Purchase Date for the Offering for the price determined under paragraph 7 of the Plan exclusively through payroll deductions authorized under paragraph 6 of the Plan; provided, however, that (i) no option shall permit the purchase of more than 500 shares, and (ii) no option may be granted under the Plan that would allow an employee's right to purchase shares under all stock purchase plans of the Company and its parents and subsidiaries to which Section 423 of the Code applies to accrue at a rate that exceeds \$25,000 of fair market value of shares (determined at the date of grant) in any calendar year.

6. **Participation in the Plan.**

- a. **Initiating Participation.** An Eligible Employee may participate in an Offering under the Plan by submitting to the Company or its agent a subscription and payroll deduction authorization in the form specified by the Company. The subscription and payroll deduction authorization must be submitted no later than the “**Subscription Deadline**,” which shall be a number of days prior to the Offering Date with the exact number of days being established from time to time by the Authorized Officer by written notice to Eligible Employees. Once submitted, a subscription and payroll deduction authorization shall remain in effect unless amended or terminated, and upon the expiration of an Offering the participants in that Offering will be automatically enrolled in the new Offering starting the following day. The payroll deduction authorization will authorize the employing corporation to make payroll deductions in an amount designated by the participant from each of the participant's paychecks during the Offering. The designated amount to be deducted from each paycheck must be a whole percentage of not less than one percent or more than 10 percent of the participant's Compensation (as defined below) for the period covered by the paycheck; provided, however, that the amount actually deducted from any paycheck shall not exceed the amount remaining after deduction of all other required or elective withholdings and deductions from that paycheck. If payroll deductions are made by a Participating Subsidiary, that corporation will promptly remit the amount of the deductions to the Company.
- b. **Definition of Compensation.** “**Compensation**” means amounts received by the participant from the Company or Participating Subsidiary to the extent that the amounts are subject to federal income tax withholding on wages under Section 3401(a) of the Code, determined without regard to any limitations based on the nature or location of the employment or the services performed, and adjusted as follows:
 - i. Before-tax contributions to a non-qualified deferred compensation arrangement, contributions to a plan qualified under Section 401(k) of the Code, and any amounts set aside by the participant from otherwise taxable pay under a welfare benefit plan qualified under Section 125 of the Code or for qualified transportation fringe benefits under Section 132 of the Code shall be included.
 - ii. Taxable expense reimbursements, any amount paid in lieu of unused paid-time off (before or after termination of employment), moving expenses, welfare benefits, payments from a nonqualified deferred compensation plan, amounts realized from the exercise of a stock option or lapse of restrictions on restricted property, payments made in any form under the Company's Long Term Incentive Plan (or similar long term incentive arrangements maintained by a Participating Subsidiary), and adjustments for overseas employment (other than any transfer premium) shall be excluded.
- c. **Amending Participation.** After a participant has begun participating in the Plan by initiating payroll deductions, the participant may amend the payroll deduction authorization (i) once during any Offering to decrease the amount of payroll deductions, and (ii) effective for the first paycheck of a new Offering to either increase or decrease the amount of payroll deductions. A request for a decrease in payroll deductions during an Offering must be submitted to the Company in the form specified by the Company no later than the Change Deadline (as defined below) for that Offering, and shall be effective for any paycheck only if the request is received by the Company at least 10 business days prior to the payday for that paycheck. A request for an increase or decrease in payroll deductions effective for the first paycheck of a new Offering must be submitted to the Company in the form specified by the Company no later than the Subscription Deadline for the new Offering. In addition, if the amount of payroll deductions from any participant during an Offering exceeds the maximum amount that can be applied to purchase shares in that Offering under the limitations set forth in paragraph 5(b) above, then (x) payroll deductions from the participant shall cease and all such excess amounts shall be refunded to the participant, and (y) payroll deductions from the participant shall restart as of the commencement of the next Offering at the rate set forth in the participant's then effective payroll deduction authorization.

- d. **Terminating Participation.** After a participant has begun participating in the Plan by initiating payroll deductions, the participant may terminate participation in the Plan by notice to the Company in the form specified by the Company. To be effective to terminate participation in an Offering, a notice of termination must be submitted no later than the “**Change Deadline**,” which shall be a number of days prior to the Purchase Date for that Offering with the exact number of days being established from time to time by the Authorized Officer by written notice to participants. Participation in the Plan shall also terminate when a participant ceases to be an Eligible Employee for any reason, including death or retirement. A participant may not reinstate participation in the Plan with respect to a particular Offering after once terminating participation in the Plan with respect to that Offering. Upon termination of a participant’s participation in the Plan, all amounts deducted from the participant’s Compensation and not previously used to purchase shares under the Plan shall be returned to the participant; provided, however, that, if an employee’s participation in the Plan terminates because he or she has become an employee in a Participating Foreign ESPP Group (and has therefore ceased to be an Eligible Employee), then, if such event occurs during an offering under the Foreign ESPP (but after the offering date for that offering), (i) such amounts shall not be returned to the participant, but shall instead be contributed and applied to the purchase of shares under the Foreign ESPP, subject to the terms and conditions of the Foreign ESPP, and (ii) the employee shall otherwise participate in the Foreign ESPP, subject to the terms and conditions of the Foreign ESPP.
7. **Option Price.** The price at which shares shall be purchased in an Offering shall be the lower of (a) 85% of the fair market value of a share of Class B Common Stock on the Offering Date of the Offering or (b) 85% of the fair market value of a share of Class B Common Stock on the Purchase Date of the Offering. The fair market value of a share of Class B Common Stock on any date shall be the closing price on the immediately preceding trading day of the Class B Common Stock on the New York Stock Exchange or, if the Class B Common Stock is not traded on the New York Stock Exchange, such other reported value of the Class B Common Stock as shall be specified by the Board.
8. **Purchase of Shares.** All amounts withheld from the Compensation of a participant shall be credited to his or her account under the Plan. No interest will be paid on such accounts, unless otherwise determined by the Authorized Officer. On each Purchase Date, the amount of the account of each participant will be applied to the purchase of shares (including fractional shares) by such participant from the Company at the price determined under paragraph 7 above. Any cash balance remaining in a participant’s account after a Purchase Date as a result of the limitations set forth in paragraph 5(b) above shall be repaid to the participant.
9. **Delivery and Custody of Shares.** Shares purchased by participants pursuant to the Plan will be delivered to and held in the custody of such investment or financial firm (the “**Custodian**”) as shall be appointed by the Authorized Officer. The Custodian may hold in nominee or street name certificates for shares purchased pursuant to the Plan, and may commingle shares in its custody pursuant to the Plan in a single account without identification as to individual participants. By appropriate instructions to the Custodian, a participant may from time to time sell all or part of the shares held by the Custodian for the participant’s account at the market price at the time the order is executed. If a participant desires to sell all of the shares in his or her account, the Custodian or the Company will purchase any fraction of a share in the account at the same price per share that the whole shares are sold on the market. By appropriate instructions to the Custodian, a participant may obtain (a) transfer into the participant’s own name of all or part of the whole shares held by the Custodian for the participant’s account and delivery of such whole shares to the participant, or (b) transfer of all or part of the whole shares held for the participant’s account by the Custodian to a regular individual brokerage account in the participant’s own name, either with the firm then acting as Custodian or with another firm; provided, however, that no shares may be transferred under (a) or (b) until two years after the Offering Date of the Offering in which the shares were purchased.
10. **Records and Statements.** The Custodian will maintain the records of the Plan. As soon as practicable after each Purchase Date each participant will receive a statement showing the activity of his or her account since the preceding Purchase Date and the balance on the Purchase Date as to both cash and shares. Participants will be furnished such other reports and statements, and at such intervals, as the Authorized Officer shall determine from time to time.
11. **Expense of the Plan.** The Company will pay all expenses incident to operation of the Plan, including costs of record keeping, accounting fees, legal fees, commissions and issue or transfer taxes on purchases pursuant to the Plan, on dividend reinvestments and on delivery of shares to a participant or into his or her brokerage account. Unless otherwise provided by the Board or the Authorized Officer in its discretion, the Company will not pay expenses, commissions or taxes incurred in connection with sales of shares by the Custodian at the request of a participant. Expenses to be paid by a participant will be deducted from the proceeds of sale prior to remittance.

12. **Rights Not Transferable.** The right to purchase shares under this Plan is not transferable by a participant, and such right is exercisable during the participant's lifetime only by the participant. Upon the death of a participant, any cash withheld and not previously applied to purchase shares, together with any shares held by the Custodian for the participant's account shall be transferred to the persons entitled thereto under the laws of the state of domicile of the participant upon a proper showing of authority.
13. **Dividends and Other Distributions; Reinvestment.** Stock dividends and other distributions in shares of Class B Common Stock of the Company on shares held by the Custodian shall be issued to the Custodian and held by it for the account of the respective participants entitled thereto. Cash distributions other than dividends, if any, on shares held by the Custodian will be paid currently to the participants entitled thereto. Cash dividends, if any, on shares held by the Custodian may be reinvested in Class B Common Stock on behalf of the participants entitled thereto. The Custodian shall establish a separate account for each participant for the purpose of holding any shares acquired through reinvestment of participants' dividends. On each dividend payment date, the Custodian shall receive from the Company the aggregate amount of dividends payable with respect to all shares held by the Custodian for participants' accounts under the Plan. As soon as practicable thereafter, the Custodian shall use such portion of the funds designated for reinvestment to purchase shares of Class B Common Stock in the public market, and shall then allocate such shares (including fractional shares) among the dividend reinvestment accounts of the participants pro rata based on the amount of dividends reinvested for such participants. For those participants receiving cash dividends, the Custodian shall allocate the remainder of such funds among the accounts of such participants pro rata based upon the amount of dividends received. A participant may sell or transfer shares in the participant's dividend reinvestment account in accordance with paragraph 9 above, except that there shall be no holding period required for a transfer from a dividend reinvestment account.
14. **Voting and Shareholder Communications.** In connection with voting on any matter submitted to the shareholders of the Company, the Custodian will cause the shares held by the Custodian for each participant's accounts to be voted in accordance with instructions from the participant or, if requested by a participant, furnish to the participant a proxy authorizing the participant to vote the shares held by the Custodian for his or her accounts. Copies of all general communications to shareholders of the Company will be sent to participants in the Plan.
15. **Tax Withholding.** Each participant who has purchased shares under the Plan shall immediately upon notification of the amount due, if any, pay to the Company in cash amounts necessary to satisfy any applicable federal, state and local tax withholding determined by the Company to be required. If the Company determines that additional withholding is required beyond any amount deposited at the time of purchase, the participant shall pay such amount to the Company on demand. If the participant fails to pay the amount demanded, the Company may withhold that amount from other amounts payable by the Company to the participant, including salary, subject to applicable law.
16. **Responsibility and Indemnity.** Neither the Company, the Board, the Custodian, any Participating Subsidiary, any Foreign Subsidiary, nor any member, officer, agent, or employee of any of them, shall be liable to any participant under the Plan for any mistake of judgment or for any omission or wrongful act unless resulting from gross negligence, willful misconduct or intentional misfeasance. The Company will indemnify and save harmless the Board, the Custodian and any such member, officer, agent or employee against any claim, loss, liability or expense arising out of the Plan, except such as may result from the gross negligence, willful misconduct or intentional misfeasance of such entity or person.
17. **Conditions and Approvals.** The obligations of the Company under the Plan shall be subject to compliance with all applicable state and federal laws and regulations, compliance with the rules of any stock exchange on which the Company's securities may be listed, and approval of such federal and state authorities or agencies as may have jurisdiction over the Plan or the Company. The Company will use its best effort to comply with such laws, regulations and rules and to obtain such approvals.
18. **Amendment of the Plan.** Unless otherwise determined by the Board, the Board or the Authorized Officer may from time to time amend the Plan in any and all respects; provided, however, that only the Board may change (a) the number of shares reserved for purposes of the Plan, (b) the purchase price of shares offered pursuant to the Plan, (c) the terms of paragraph 5 above, or (d) in paragraph 6(a) above the maximum percentage of a participant's Compensation that may be deducted from a participant's paycheck during an Offering. Notwithstanding the foregoing, the Board may not without the approval of the shareholders of the Company increase the number of shares reserved for purposes of the Plan (except for adjustments authorized in paragraph 2 above) or decrease the purchase price of shares offered pursuant to the Plan.
19. **Termination of the Plan.** The Plan shall terminate when all of the shares reserved for purposes of the Plan have been purchased, provided that (a) the Board or the Authorized Officer in their sole discretion may at any time terminate the

Plan with respect to any Participating Subsidiary, without any obligation on account of such termination, except as set forth in the following sentence, and (b) the Board in its sole discretion may at any time terminate the Plan completely, without any obligation on account of such termination, except as set forth in the following sentence. Upon any such termination, the cash and shares, if any, held in the accounts of each participant to whom the termination applies shall forthwith be distributed to the participant or to the participant's order, provided that if prior to such termination, the Board and shareholders of the Company shall have adopted and approved a substantially similar plan, the Board may in its discretion determine that the accounts of each participant under this Plan to whom the termination applies shall be carried forward and continued as the accounts of such participant under such other plan, subject to the right of any participant to request distribution of the cash and shares, if any, held for his or her accounts.

PART I

ITEM 1. BUSINESS

GENERAL

NIKE, Inc. was incorporated in 1967 under the laws of the State of Oregon. As used in this report, the terms “we,” “us,” “NIKE” and the “Company” refer to NIKE, Inc. and its predecessors, subsidiaries and affiliates, collectively, unless the context indicates otherwise. Our NIKE digital commerce website is located at www.nike.com. On our NIKE corporate website, located at investors.nike.com, we post the following filings as soon as reasonably practicable after they are electronically filed with, or furnished to, the United States Securities and Exchange Commission (the “SEC”): our annual report on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities and Exchange Act of 1934, as amended. Our definitive Proxy Statements are also posted on our corporate website. All such filings on our corporate website are available free of charge. Copies of these filings are also available on the SEC’s website (www.sec.gov). Also available on our corporate website are the charters of the committees of our Board of Directors, as well as our corporate governance guidelines and code of ethics; copies of any of these documents will be provided in print to any shareholder who submits a request in writing to NIKE Investor Relations, One Bowerman Drive, Beaverton, Oregon 97005-6453. Information contained on or accessible through our website is not incorporated into, and does not form a part of, this Annual Report or any other report or document we file with the SEC, and any references to our website are intended to be inactive textual references only.

Our principal business activity is the design, development and worldwide marketing and selling of athletic footwear, apparel, equipment, accessories and services. NIKE is the largest seller of athletic footwear and apparel in the world. We sell our products through NIKE Direct operations, which are comprised of both NIKE-owned retail stores and sales through our digital platforms (also referred to as “NIKE Brand Digital”), to retail accounts and to a mix of independent distributors, licensees and sales representatives in virtually all countries around the world. We also offer interactive consumer services and experiences through our digital platforms. Virtually all of our products are manufactured by independent contractors. Nearly all footwear and apparel products are manufactured outside the United States, while equipment products are manufactured both in the United States and abroad.

All references to fiscal 2022, 2021, 2020 and 2019 are to NIKE, Inc.’s fiscal years ended May 31, 2022, 2021, 2020 and 2019, respectively. Any references to other fiscal years refer to a fiscal year ending on May 31 of that year.

PRODUCTS

Our NIKE Brand product offerings are aligned around our consumer construct focused on Men’s, Women’s and Kids’. We also design products specifically for the Jordan Brand and Converse. We believe this approach allows us to create products that better meet individual consumer needs while accelerating our largest growth opportunities.

NIKE’s athletic footwear products are designed primarily for specific athletic use, although a large percentage of the products are worn for casual or leisure purposes. We place considerable emphasis on innovation and high-quality construction in the development and manufacturing of our products. Our Men’s, Women’s and Jordan Brand footwear products currently lead in footwear sales and we expect them to continue to do so.

We also sell sports apparel, which features the same trademarks and are sold predominantly through the same marketing and distribution channels as athletic footwear. Our sports apparel, similar to our athletic footwear products, is designed primarily for athletic use, although many of the products are worn for casual or leisure purposes, and demonstrates our commitment to innovation and high-quality construction. Our Men’s and Women’s apparel products currently lead in apparel sales and we expect them to continue to do so. We often market footwear, apparel and accessories in “collections” of similar use or by category. We also market apparel with licensed college and professional team and league logos.

We sell a line of performance equipment and accessories under the NIKE Brand name, including bags, socks, sport balls, eyewear, timepieces, digital devices, bats, gloves, protective equipment and other equipment designed for sports activities. We also sell small amounts of various plastic products to other manufacturers through our wholly-owned subsidiary, NIKE IHM, Inc., doing business as Air Manufacturing Innovation.

Our Jordan Brand designs, distributes and licenses athletic and casual footwear, apparel and accessories predominantly focused on basketball performance and culture using the Jumpman trademark. Sales and operating results for Jordan Brand products are reported within the respective NIKE Brand geographic operating segments.

Our wholly-owned subsidiary brand, Converse, headquartered in Boston, Massachusetts, designs, distributes and licenses casual sneakers, apparel and accessories under the Converse, Chuck Taylor, All Star, One Star, Star Chevron and Jack Purcell trademarks. Operating results of the Converse brand are reported on a stand-alone basis.

In addition to the products we sell to our wholesale customers and directly to consumers through our NIKE Direct operations, we have also entered into license agreements that permit unaffiliated parties to manufacture and sell, using NIKE-owned trademarks, certain apparel, digital devices and applications and other equipment designed for sports activities.

We also offer interactive consumer services and experiences as well as digital products through our digital platforms, including fitness and activity apps; sport, fitness and wellness content; and digital services and features in retail stores that enhance the consumer experience.

SALES AND MARKETING

We experience moderate fluctuations in aggregate sales volume during the year. Historically, revenues in the first and fourth fiscal quarters have slightly exceeded those in the second and third fiscal quarters. However, the mix of product sales may vary considerably as a result of changes in seasonal and geographic demand for particular types of footwear, apparel and equipment, as well as other macroeconomic, strategic, operating and logistics-related factors, as evidenced by the impact of the COVID-19 pandemic.

Because NIKE is a consumer products company, the relative popularity and availability of various sports and fitness activities, as well as changing design trends, affect the demand for our products. We must, therefore, respond to trends and shifts in consumer preferences by adjusting the mix of existing product offerings, developing new products, styles and categories and influencing sports and fitness preferences through extensive marketing. Failure to respond in a timely and adequate manner could have a material adverse effect on our sales and profitability. This is a continuing risk. Refer to Item 1A. Risk Factors.

OUR MARKETS

We report our NIKE Brand operations based on our internal geographic organization. Each NIKE Brand geographic segment operates predominantly in one industry: the design, development, marketing and selling of athletic footwear, apparel and equipment. The Company's reportable operating segments for the NIKE Brand are: North America; Europe, Middle East & Africa (EMEA); Greater China; and Asia Pacific & Latin America (APLA), and include results for the NIKE and Jordan brands. The Hurley brand results, prior to its divestiture in fiscal 2020, were included in North America. Sales through our NIKE Direct operations are managed within each geographic operating segment.

Converse is also a reportable operating segment and operates predominately in one industry: the design, marketing, licensing and selling of casual sneakers, apparel and accessories. Converse direct to consumer operations, including digital commerce, are reported within the Converse operating segment results.

UNITED STATES MARKET

For fiscal 2022, NIKE Brand and Converse sales in the United States accounted for approximately 40% of total revenues, compared to 39% for both fiscal 2021 and fiscal 2020. We sell our NIKE Brand, Jordan Brand and Converse products to thousands of retail accounts in the United States, including a mix of footwear stores, sporting goods stores, athletic specialty stores, department stores, skate, tennis and golf shops and other retail accounts. In the United States, we utilize NIKE sales offices to solicit such sales. During fiscal 2022, our three largest United States customers accounted for approximately 22% of sales in the United States.

Our NIKE Direct and Converse direct to consumer operations sell NIKE Brand, Jordan Brand and Converse products to consumers through various digital platforms. In addition, our NIKE Direct and Converse direct to consumer operations sell products through the following number of retail stores in the United States:

U.S. RETAIL STORES	NUMBER
NIKE Brand factory stores	209
NIKE Brand in-line stores (including employee-only stores)	48
Converse stores (including factory stores)	87
TOTAL	344

In the United States, NIKE has eight significant distribution centers. Five are located in or near Memphis, Tennessee, two of which are owned and three of which are leased. Two other distribution centers, one located in Indianapolis, Indiana and one located in Dayton, Tennessee, are leased and operated by third-party logistics providers. One distribution center for Converse is located in Ontario, California, which is leased. There are other smaller distribution facilities located in various parts of the United States, some of which are leased or operated by third parties.

INTERNATIONAL MARKETS

For fiscal 2022, non-U.S. NIKE Brand and Converse sales accounted for approximately 60% of total revenues, compared to 61% for fiscal 2021 and fiscal 2020. We sell our products to retail accounts through our own NIKE Direct operations and through a mix of independent distributors, licensees and sales representatives around the world. We sell to thousands of retail accounts and ship products from 72 distribution centers outside of the United States. During fiscal 2022, NIKE's three largest customers outside of the United States accounted for approximately 14% of total non-U.S. sales.

In addition to NIKE-owned and Converse-owned digital commerce platforms in over 45 countries, our NIKE Direct and Converse direct to consumer businesses operate the following number of retail stores outside the United States:

NON-U.S. RETAIL STORES	NUMBER
NIKE Brand factory stores	597
NIKE Brand in-line stores (including employee-only stores)	47
Converse stores (including factory stores)	58
TOTAL	702

International branch offices and subsidiaries of NIKE are located in Argentina, Australia, Austria, Belgium, Bermuda, Brazil, Canada, Chile, China, Croatia, the Czech Republic, Denmark, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Israel, Italy, Japan, Korea, Macau, Malaysia, Mexico, the Netherlands, New Zealand, Norway, the Philippines, Poland, Portugal, Russia, Singapore, Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Taiwan, Thailand, Turkey, the United Arab Emirates, the United Kingdom, Uruguay and Vietnam.

SIGNIFICANT CUSTOMER

No customer accounted for 10% or more of our consolidated net Revenues during fiscal 2022.

PRODUCT RESEARCH, DESIGN AND DEVELOPMENT

We believe our research, design and development efforts are key factors in our success. Technical innovation in the design and manufacturing process of footwear, apparel and athletic equipment receives continued emphasis as we strive to produce products that help to enhance athletic performance, reduce injury and maximize comfort, while decreasing our environmental impact.

In addition to our own staff of specialists in the areas of biomechanics, chemistry, exercise physiology, engineering, digital technologies, industrial design, sustainability and related fields, we also utilize research committees and advisory boards made up of athletes, coaches, trainers, equipment managers, orthopedists, podiatrists, physicians and other experts who consult with us and review certain designs, materials and concepts for product and manufacturing, design and other process improvements and compliance with product safety regulations around the world. Employee athletes, athletes engaged under sports marketing contracts and other athletes wear-test and evaluate products during the design and development process.

As we continue to develop new technologies, we are simultaneously focused on the design of innovative products and experiences incorporating such technologies throughout our product categories and consumer applications. Using market intelligence and research, our various design teams identify opportunities to leverage new technologies in existing categories to respond to consumer preferences. The proliferation of Nike Air, Zoom, Nike Free, Flywire, Dri-Fit, Flyknit, FlyEase, ZoomX, Air Max, Nike React and Nike Adapt technologies, among others, typifies our dedication to designing innovative products.

MANUFACTURING

Virtually all of our footwear and apparel products are manufactured outside the United States by independent manufacturers with whom we contract and refer to as "contract manufacturers." Many of these contract manufacturers operate multiple finished goods contract factories. We are also supplied, primarily indirectly, by a number of materials, or "Tier 2," suppliers, who provide the principal materials used in footwear and apparel finished goods products. As of May 31, 2022, we had 139 strategic Tier 2 suppliers.

As of May 31, 2022, we were supplied by 120 finished goods footwear contract factories located in 11 countries. For fiscal 2022, contract factories in Vietnam, Indonesia and China manufactured approximately 44%, 30% and 20% of total NIKE Brand footwear, respectively. The largest single footwear contract factory accounted for approximately 8% of total fiscal 2022 NIKE Brand footwear production. For fiscal 2022, four footwear contract manufacturers each accounted for greater than 10% of footwear production and in the aggregate accounted for approximately 58% of NIKE Brand footwear production.

As of May 31, 2022, we were supplied by 279 finished goods apparel contract factories located in 33 countries. For fiscal 2022, contract factories in Vietnam, China and Cambodia manufactured approximately 26%, 20% and 16% of total NIKE Brand apparel, respectively. The largest single apparel contract factory accounted for approximately 10% of total fiscal 2022 NIKE Brand apparel production. For fiscal 2022, two apparel contract manufacturers each accounted for more than 10% of apparel production, and the top five contract manufacturers in the aggregate accounted for approximately 54% of NIKE Brand apparel production.

NIKE's contract manufacturers buy raw materials for the manufacturing of our footwear, apparel and equipment products. Most raw materials are available and purchased by those contract manufacturers in the countries where manufacturing takes place.

The principal materials used in our footwear products are natural and synthetic rubber, plastic compounds, foam cushioning materials, natural and synthetic leather, nylon, polyester and natural fiber textiles, as well as polyurethane films used to make NIKE Air-Sole cushioning components. During fiscal 2022, Air Manufacturing Innovation, a wholly-owned subsidiary, with facilities near Beaverton, Oregon, in Dong Nai Province, Vietnam, and St. Charles, Missouri, as well as contract manufacturers in China and Vietnam, were our suppliers of NIKE Air-Sole cushioning components used in footwear.

The principal materials used in our apparel products are natural and synthetic fabrics, yarns and threads (both virgin and recycled); specialized performance fabrics designed to efficiently wick moisture away from the body, retain heat and repel rain and/or snow; and plastic and metal hardware.

In fiscal 2022, COVID-19 had impacts throughout our supply chain, including loss of production as well as production and transportation delays. However, COVID-19 has not materially impacted the number or concentration of finished goods factories, contract manufacturers, or Tier 2 suppliers in countries where we source footwear and apparel products. Despite competition for certain materials during fiscal 2022, contract manufacturers were able to source sufficient quantities of raw materials for use in our footwear and apparel products. Refer to Item 1A. Risk Factors, for additional discussion of the impact of COVID-19 and sourcing risks on our business.

Since 1972, Sojitz Corporation of America ("Sojitz America"), a large Japanese trading company and the sole owner of our redeemable preferred stock, has performed import-export financing services for us.

INTERNATIONAL OPERATIONS AND TRADE

Our international operations and sources of supply are subject to the usual risks of doing business abroad, such as the implementation of, or potential changes in, foreign and domestic trade policies, increases in import duties, anti-dumping measures, quotas, safeguard measures, trade restrictions, restrictions on the transfer of funds and, in certain parts of the world, political tensions, instability, conflicts, nationalism and terrorism, and resulting sanctions and other measures imposed in response to such issues. We have not, to date, been materially affected by any such risk but cannot predict the likelihood of such material effects occurring in the future.

In recent years, uncertain global and regional economic and political conditions have affected international trade and increased protectionist actions around the world. These trends are affecting many global manufacturing and service sectors, and the footwear and apparel industries, as a whole, are not immune. Companies in our industry are facing trade protectionism in many different regions, and, in nearly all cases, we are working together with industry groups to address trade issues and reduce the impact to the industry, while observing applicable competition laws. Notwithstanding our efforts, protectionist measures have resulted in increases in the cost of our products, and additional measures, if implemented, could adversely affect sales and/or profitability for NIKE, as well as the imported footwear and apparel industry as a whole.

We monitor protectionist trends and developments throughout the world that may materially impact our industry, and we engage in administrative and judicial processes to mitigate trade restrictions. We are actively monitoring actions that may result in additional anti-dumping measures and could affect our industry. We are also monitoring for and advocating against other impediments that may limit or delay customs clearance for imports of footwear, apparel and equipment. NIKE also advocates for trade liberalization for footwear and apparel in a number of regional and bilateral free trade agreements. Changes in, and responses to, U.S. trade policies, including the imposition of tariffs or penalties on imported goods or retaliatory measures by other countries, have negatively affected, and could in the future negatively affect, U.S. corporations, including NIKE, with business operations and/or consumer markets in those countries, which could also make it necessary for us to change the way we conduct business, either of which may have an adverse effect on our business, financial condition or our results of operations. In addition, with respect to proposed trade restrictions, we work with a broad coalition of global businesses and trade associations representing a wide variety of sectors to help ensure that any legislation enacted and implemented (i) addresses

legitimate and core concerns, (ii) is consistent with international trade rules and (iii) reflects and considers domestic economies and the important role they may play in the global economic community.

Where trade protection measures are implemented, we believe we have the ability to develop, over a period of time, adequate alternative sources of supply for the products obtained from our present suppliers. If events prevented us from acquiring products from our suppliers in a particular country, our operations could be temporarily disrupted and we could experience an adverse financial impact. However, we believe we could abate any such disruption, and that much of the adverse impact on supply would, therefore, be of a short-term nature, although alternate sources of supply might not be as cost-effective and could have an ongoing adverse impact on profitability.

Our international operations are also subject to compliance with the U.S. Foreign Corrupt Practices Act, or "FCPA", and other anti-bribery laws applicable to our operations. We source a significant portion of our products from, and have important consumer markets, outside of the United States. We have an ethics and compliance program to address compliance with the FCPA and similar laws by us, our employees, agents, suppliers and other partners. Refer to Item 1A. Risk Factors for additional information on risks relating to our international operations.

COMPETITION

The athletic footwear, apparel and equipment industry is highly competitive on a worldwide basis. We compete internationally with a significant number of athletic and leisure footwear companies, athletic and leisure apparel companies, sports equipment companies and large companies having diversified lines of athletic and leisure footwear, apparel and equipment, including adidas, Anta, ASICS, Li Ning, lululemon athletica, Puma, Under Armour and V.F. Corporation, among others. The intense competition and the rapid changes in technology and consumer preferences in the markets for athletic and leisure footwear and apparel and athletic equipment constitute significant risk factors in our operations. Refer to Item 1A. Risk Factors for additional information.

NIKE is the largest seller of athletic footwear and apparel in the world. Important aspects of competition in this industry are:

- Product attributes such as quality; performance and reliability; new product style, design, innovation and development; as well as consumer price/value.
- Consumer connection, engagement and affinity for brands and products, developed through marketing, promotion and digital experiences; social media interaction; customer support and service; identification with prominent and influential athletes, influencers, public figures, coaches, teams, colleges and sports leagues who endorse our brands and use our products and active engagement through sponsored sporting events and clinics.
- Effective sourcing and distribution of products, with attractive merchandising and presentation at retail, both in-store and on digital platforms.

We believe that we are competitive in all of these areas.

TRADEMARKS AND PATENTS

We believe that our intellectual property rights are important to our brand, our success and our competitive position. We strategically pursue available protections of these rights and vigorously protect them against third-party theft and infringement.

We use trademarks on nearly all of our products and packaging, and in our marketing materials, and believe having distinctive marks that are readily identifiable is an important factor in creating a market for our goods, in identifying our brands and the Company, and in distinguishing our goods from the goods of others. We consider our NIKE and Swoosh Design trademarks to be among our most valuable assets and we have registered these trademarks in over 190 jurisdictions worldwide. In addition, we own many other trademarks that we use in marketing our products. We own common law rights in the trade dress of several distinctive shoe designs and elements. For certain trade dress, we have sought and obtained trademark registrations.

We have copyright protection in our designs, graphics, software applications, digital goods and other original works. When appropriate, we also obtain registered copyrights.

We file for, own and maintain many U.S. and foreign utility and design patents protecting components, technologies, materials, manufacturing techniques, features, functionality, and industrial designs used in and for the manufacture of various athletic, performance, and leisure footwear and apparel, including physical and digital versions thereof, athletic equipment, and digital devices, and related software applications. These patents expire at various times.

We believe our success depends upon our capabilities in areas such as design, research and development, production and marketing and is supported and protected by our intellectual property rights, such as trademarks, utility and design patents, copyrights, and trade secrets, among others.

We have followed a policy of applying for and registering intellectual property rights in the United States and select foreign countries on trademarks, inventions, innovations and designs that we deem valuable. We also continue to vigorously protect our intellectual property, including trademarks, patents and trade secrets against third-party infringement and misappropriation.

HUMAN CAPITAL RESOURCES

At NIKE, we consider the strength and effective management of our workforce to be essential to the ongoing success of our business. We believe that it is important to attract, develop and retain a diverse and engaged workforce at all levels of our business and that such a workforce fosters creativity and accelerates innovation. We are focused on building an increasingly diverse talent pipeline that reflects our consumers, athletes and the communities we serve.

CULTURE

Each employee shapes NIKE's culture through behaviors and practices. This starts with our Maxims, which represent our core values and, along with our Code of Conduct, feature the fundamental behaviors that help anchor, inform and guide us and apply to all employees. Our mission is to bring inspiration and innovation to every athlete in the world, which includes the belief that if you have a body, you are an athlete. We aim to do this by creating groundbreaking sport innovations, making our products more sustainably, building a creative and diverse global team, supporting the well-being of our employees and making a positive impact in communities where we live and work. Our mission is aligned with our deep commitment to maintaining an environment where all NIKE employees have the opportunity to reach their full potential, to connect to our brands and to shape the culture in which they work. We believe providing for growth and retention of our employees is essential in fostering such a culture and are dedicated to giving access to training programs and career development opportunities, including trainings on NIKE's values, history and business, trainings on developing leadership skills at all levels, tools and resources for managers and qualified tuition reimbursement opportunities.

As part of our commitment to empowering our employees to help shape our culture, we source employee feedback through our Engagement Survey program. The program provides every employee throughout the globe an opportunity to provide confidential feedback on key areas known to drive employee engagement, including their satisfaction with their managers, their work and the Company generally. The program also measures our employees' emotional commitment to NIKE as well as NIKE's culture of diversity, equity and inclusion. NIKE also provides multiple points of contact for employees to speak up if they experience something that does not align with our values or otherwise violates our workplace policies, even if they are uncertain what they observed or heard is a violation of company policy.

As part of our commitment to make a positive impact on our communities, we maintain a goal of investing 2% of our prior fiscal year's pre-tax income into global communities, up from 1.5% in fiscal 2021. The focus of this investment continues to be inspiring kids to be active through play and sport as well as uniting and inspiring communities to create a better and more equitable future for all. Our community investments are an important part of our culture in that we also support employees in giving back to community organizations through donations and volunteering, which are matched by the NIKE Foundation where eligible.

EMPLOYEE BASE

As of May 31, 2022, we had approximately 79,100 employees worldwide, including retail and part-time employees. We also utilize independent contractors and temporary personnel to supplement our workforce.

None of our employees are represented by a union, except certain employees in the EMEA and APLA geographies are members of and/or represented by trade unions, as allowed or required by local law and/or collective bargaining agreements. Also, in some countries outside of the United States, local laws require employee representation by works councils (which may be entitled to information and consultation on certain subsidiary decisions) or by organizations similar to a union. In certain European countries, we are required by local law to enter into, and/or comply with, industry-wide or national collective bargaining agreements. NIKE has never experienced a material interruption of operations due to labor disagreements.

DIVERSITY, EQUITY AND INCLUSION (DE&I)

DE&I is a strategic priority for NIKE and we are committed to having an increasingly diverse team and culture. We aim to foster an inclusive workplace through recruitment, development and retention of diverse talent with the goal of expanding representation across all dimensions of diversity over the long term. We remain committed to the targets announced in fiscal 2021 for the Company to work toward by fiscal 2025, including increasing representation of women in our global corporate workforce and leadership positions, as well as increasing representation of U.S. racial and ethnic minorities in our U.S. corporate workforce and at the Director level and above.

We continue to enhance our efforts to recruit diverse talent through our traditional channels and have launched new initiatives, such as partnerships with athletes and sports-related organizations to create apprenticeship programs and new partnerships with

organizations, colleges and universities that serve diverse populations. Additionally, we are prioritizing DE&I education so that all NIKE employees and leaders have the cultural awareness and understanding to build diverse and inclusive teams. We also have Employee Networks, collectively known as NikeUNITED, representing various employee groups.

Our DE&I focus extends beyond our workforce and includes our communities, which we support in a number of ways. We have committed to investments that aim to address racial inequality and improve diversity and representation in our communities. We also are leveraging our global scale to accelerate business diversity, including investing in business training programs for women and increasing the proportion of services supplied by minority-owned businesses.

COMPENSATION AND BENEFITS

NIKE's total rewards are intended to be competitive and equitable, meet the diverse needs of our global teammates and reinforce our values. We are committed to providing comprehensive, competitive and equitable pay and benefits to our employees, and we have invested, and aim to continue to invest, in our employees through growth and development and well-being initiatives. Our initiatives in this area include:

- We are committed to competitive pay and to reviewing our pay and promotion practices annually.
- We have an annual company bonus plan and a retail-focused bonus plan applicable to all eligible employees. Both programs are focused on rewarding employees for company performance, which we believe reinforces our culture and rewards behaviors that support collaboration and teamwork.
- We provide comprehensive family care benefits in the U.S. and globally where practicable, including family planning coverage, backup care and child/elder care assistance as well as an income-based childcare subsidy for eligible employees.
- Our Military Leave benefit provides up to 12 weeks of paid time off every 12 months, and we enhanced our Military Leave benefit for employees called up to serve as part of the U.S. COVID-19 response.
- We offer free access to our Sport Centers at our World Headquarters (WHQ) for our full-time employees and North America store employees.
- We provide employees free access to mindfulness and meditation resources, including membership to Headspace as well as live classes through our Sport Centers.
- Our global Employee Assistance Program (EAP) provides free and confidential counseling to all global employees and their families.
- We provide transgender healthcare coverage for eligible employees covered on the U.S. Health Plan, including access to both restorative services and personal care.

COVID-19 RESPONSE

Since the start of the COVID-19 pandemic, the health and safety of our employees has remained a priority. We have continued to follow and communicate guidance provided by the Centers for Disease Control and Prevention (CDC) and local public health authorities, as well as mandates set by state and local law as a part of our continued response and focus on mitigating the spread of COVID-19. We developed a comprehensive risk assessment, infection control plans, and employee education campaigns. Our robust health and safety measures have included staffing a team of fully dedicated contact tracers, sourcing and distributing over 1 million NIKE face coverings to teammates worldwide, facilitating access to COVID-19 testing, and offering on-site vaccination clinics in collaboration with local public health agencies. As the pandemic continues, we continue to strongly encourage that all employees become fully vaccinated. We continue to support our employees by offering all eligible employees paid COVID-19 sick leave for two weeks, in addition to existing paid time off benefits and legally mandated sick leave programs, which covers physical health, mental and emotional well-being and care for a family member. We also provide the option for employees to utilize up to two weeks of paid time off in advance of accrued balances, if needed.

Additional information related to our human capital strategy can be found in our FY21 NIKE, Inc. Impact Report, which is available on the Impact section of our website. Information contained on or accessible through our websites is not incorporated into, and does not form a part of, this Annual Report or any other report or document we file with the SEC, and any references to our websites are intended to be inactive textual references only.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

The executive officers of NIKE, Inc. as of July 21, 2022, are as follows:

Mark G. Parker, Executive Chairman — Mr. Parker, 66, is Executive Chairman of the Board of Directors and served as President and Chief Executive Officer from 2006 - January 2020. He has been employed by NIKE since 1979 with primary responsibilities in product research, design and development, marketing and brand management. Mr. Parker was appointed divisional Vice President in charge of product development in 1987, corporate Vice President in 1989, General Manager in 1993, Vice President of Global Footwear in 1998 and President of the NIKE Brand in 2001.

John J. Donahoe II, President and Chief Executive Officer — Mr. Donahoe, 62, was appointed President and Chief Executive Officer in January 2020 and has been a director since 2014. He brings expertise in digital commerce, technology and global strategy. He previously served as President and Chief Executive Officer at ServiceNow, Inc. Prior to joining ServiceNow, Inc., he served as President and Chief Executive Officer of eBay, Inc. He also held leadership roles at Bain & Company for two decades.

Andrew Campion, Chief Operating Officer — Mr. Campion, 50, joined NIKE in 2007 as Vice President of Global Planning and Development, leading strategic and financial planning. He was appointed Chief Financial Officer of the NIKE Brand in 2010, responsible for leading all aspects of financial management for the Company's flagship brand. In 2014, he was appointed Senior Vice President, Strategy, Finance and Investor Relations. Mr. Campion assumed the role of Executive Vice President and Chief Financial Officer in August 2015. In April 2020, he was appointed Chief Operating Officer and leads NIKE's global technology and digital transformation, demand and supply management, manufacturing, distribution and logistics, sustainability, workplace design and connectivity, and procurement. Prior to joining NIKE, he held leadership roles in strategic planning, mergers and acquisitions, financial planning and analysis, operations and planning, investor relations and tax at The Walt Disney Company.

Matthew Friend, Executive Vice President and Chief Financial Officer — Mr. Friend, 44, joined NIKE in 2009 as Senior Director of Corporate Strategy and Development, and was appointed Chief Financial Officer of Emerging Markets in 2011. In 2014, Mr. Friend was appointed Chief Financial Officer of Global Categories, Product and Functions, and was subsequently appointed Chief Financial Officer of the NIKE Brand in 2016. He was also appointed Vice President of Investor Relations in 2019. Mr. Friend was appointed as Executive Vice President and Chief Financial Officer of NIKE, Inc. in April 2020. Prior to joining NIKE, he worked in the financial industry including roles as VP of investment banking and mergers and acquisitions at Goldman Sachs and Morgan Stanley.

Ann M. Miller, Executive Vice President, Chief Legal Officer — Ms. Miller, 48, joined NIKE in 2007 and serves as EVP, Chief Legal Officer for NIKE, Inc. In her capacity as Chief Legal Officer, she oversees all legal, compliance, government & public affairs, social community impact, security, resilience and investigation matters of the Company. For the past six years, she served as Vice President, Corporate Secretary and Chief Ethics & Compliance Officer. She previously served as Converse's General Counsel, and brings more than 20 years of legal and business expertise to her role. Prior to joining NIKE, Ms. Miller worked at the law firm Sullivan & Cromwell.

Monique S. Matheson, Executive Vice President, Chief Human Resources Officer — Ms. Matheson, 55, joined NIKE in 1998, with primary responsibilities in the human resources function. She was appointed as Vice President and Senior Business Partner in 2011 and Vice President, Chief Talent and Diversity Officer in 2012. Ms. Matheson was appointed Executive Vice President, Global Human Resources in 2017.

Heidi O'Neill, President of Consumer and Marketplace — Ms. O'Neill, 57, joined NIKE in 1998, and held a variety of leadership roles, including President of NIKE Direct, where she was responsible for NIKE's connection to its consumer globally through the Company's retail and digital-commerce business. She also led NIKE's women's business for seven years, growing it into a multi-billion dollar business, and leading the Company's North America apparel business as VP/GM. Ms. O'Neill was appointed as President of Consumer and Marketplace in April 2020 and is responsible for NIKE's Direct business, including all stores, e-commerce and apps globally.

ITEM 1A. RISK FACTORS

Special Note Regarding Forward-Looking Statements and Analyst Reports

Certain written and oral statements, other than purely historic information, including estimates, projections, statements relating to NIKE's business plans, objectives and expected operating or financial results and the assumptions upon which those statements are based, made or incorporated by reference from time to time by NIKE or its representatives in this report, other reports, filings with the SEC, press releases, conferences or otherwise, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words "believe," "anticipate," "expect," "estimate," "project," "will be," "will continue," "will likely result" or words or phrases of similar meaning. Forward-looking statements involve risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. The risks and uncertainties are detailed from time to time in reports filed by NIKE with the SEC, including reports filed on Forms 8-K, 10-Q and 10-K, and include, among others, the following: health epidemics, pandemics and similar outbreaks, including the COVID-19 pandemic; international, national and local political, civil, economic and market conditions; the size and growth of the overall athletic or leisure footwear, apparel and equipment markets; intense competition among designers, marketers, distributors and sellers of athletic or leisure footwear, apparel and equipment for consumers and endorsers; demographic changes; changes in consumer preferences; popularity of particular designs, categories of products and sports; seasonal and geographic demand for NIKE products; difficulties in anticipating or forecasting changes in consumer preferences, consumer demand for NIKE products and the various market factors described above; our ability to execute on our sustainability strategy and achieve our sustainability-related goals and targets, including sustainable product offerings; difficulties in implementing, operating and maintaining NIKE's increasingly complex information technology systems and controls, including, without limitation, the systems related to demand and supply planning and inventory control; interruptions in data and information technology systems; consumer data security; fluctuations and difficulty in forecasting operating results, including, without limitation, the fact that advance orders may not be indicative of future revenues due to changes in shipment timing, the changing mix of orders with shorter lead times, and discounts, order cancellations and returns; the ability of NIKE to sustain, manage or forecast its growth and inventories; the size, timing and mix of purchases of NIKE's products; increases in the cost of materials, labor and energy used to manufacture products; new product development and introduction; the ability to secure and protect trademarks, patents and other intellectual property; product performance and quality; customer service; adverse publicity and an inability to maintain NIKE's reputation and brand image, including without limitation, through social media or in connection with brand damaging events; the loss of significant customers or suppliers; dependence on distributors and licensees; business disruptions; increased costs of freight and transportation to meet delivery deadlines; increases in borrowing costs due to any decline in NIKE's debt ratings; changes in business strategy or development plans; general risks associated with doing business outside of the United States, including, without limitation, exchange rate fluctuations, inflation, import duties, tariffs, quotas, sanctions, political and economic instability, conflicts and terrorism; the potential impact of new and existing laws, regulations or policy, including, without limitation, tariffs, import/export, trade, wage and hour or labor and immigration regulations or policies; changes in government regulations; the impact of, including business and legal developments relating to, climate change, extreme weather conditions and natural disasters; litigation, regulatory proceedings, sanctions or any other claims asserted against NIKE; the ability to attract and retain qualified employees, and any negative public perception with respect to key personnel or our corporate culture, values or purpose; the effects of NIKE's decision to invest in or divest of businesses or capabilities and other factors referenced or incorporated by reference in this report and other reports.

Risk Factors

The risks included here are not exhaustive. Other sections of this report may include additional factors which could adversely affect NIKE's business and financial performance. Moreover, NIKE operates in a very competitive and rapidly changing environment. New risks emerge from time to time and it is not possible for management to predict all such risks, nor can it assess the impact of all such risks on NIKE's business or the extent to which any risk, or combination of risks, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Investors should also be aware that while NIKE does, from time to time, communicate with securities analysts, it is against NIKE's policy to disclose to them any material non-public information or other confidential commercial information. Accordingly, shareholders should not assume that NIKE agrees with any statement or report issued by any analyst irrespective of the content of the statement or report. Furthermore, NIKE has a policy against confirming financial forecasts or projections issued by others. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not the responsibility of NIKE.

Economic and Industry Risks

Global economic conditions could have a material adverse effect on our business, operating results and financial condition.

The uncertain state of the global economy continues to impact businesses around the world. If global economic and financial market conditions deteriorate, the following factors could have a material adverse effect on our business, operating results and financial condition:

- Our sales are impacted by discretionary spending by consumers. Declines in consumer spending have in the past and in the future may result in reduced demand for our products, increased inventories, reduced orders from retailers for our products, order cancellations, lower revenues, higher discounts and lower gross margins.
- In the future, we may be unable to access financing in the credit and capital markets at reasonable rates in the event we find it desirable to do so.
- We conduct transactions in various currencies, which creates exposure to fluctuations in foreign currency exchange rates relative to the U.S. Dollar. Continued volatility in the markets and exchange rates for foreign currencies and contracts in foreign currencies could have a significant impact on our reported operating results and financial condition.
- Continued volatility in the availability and prices for commodities and raw materials we use in our products and in our supply chain (such as cotton or petroleum derivatives) could have a material adverse effect on our costs, gross margins and profitability. In addition, supply chain issues caused by factors including the COVID-19 pandemic and geopolitical conflicts have impacted and may continue to impact the availability, pricing and timing for obtaining commodities and raw materials.
- If retailers of our products experience declining revenues or experience difficulty obtaining financing in the capital and credit markets to purchase our products, this could result in reduced orders for our products, order cancellations, late retailer payments, extended payment terms, higher accounts receivable, reduced cash flows, greater expense associated with collection efforts and increased bad debt expense.
- If retailers of our products experience severe financial difficulty, some may become insolvent and cease business operations, which could negatively impact the sale of our products to consumers. If contract manufacturers of our products or other participants in our supply chain experience difficulty obtaining financing in the capital and credit markets to purchase raw materials or to finance capital equipment and other general working capital needs, it may result in delays or non-delivery of shipments of our products.

Our financial condition and results of operations have been, and could in the future be, adversely affected by the COVID-19 pandemic.

A novel strain of coronavirus (COVID-19) was first identified in Wuhan, China in December 2019, and subsequently declared a pandemic by the World Health Organization. The COVID-19 pandemic and preventative measures taken to contain or mitigate the pandemic have caused, and may in the future cause, business slowdown or shutdown in affected areas and significant disruption in the financial markets, both globally and in the United States. These events have led to and could again lead to adverse impacts to our global supply chain, factory cancellation costs, store closures, and a decline in retail traffic and discretionary spending by consumers and, in turn, materially impact our business, sales, financial condition and results of operations as well as cause a volatile effective tax rate driven by changes in the mix of earnings across our jurisdictions. We cannot predict whether, and to what degree, our sales, operations and financial results could in the future be affected by the pandemic and preventative measures. Risks presented by the COVID-19 pandemic include, but are not limited to:

- Deterioration in economic conditions in the United States and globally, including the effect of prolonged periods of inflation on our consumers and vendors;
- Disruption to our distribution centers, contract manufacturers, finished goods contract factories and other vendors, through the effects of facility closures, increased operating costs, reductions in operating hours, labor shortages, and real time changes in operating procedures, such as additional cleaning and disinfection procedures, which have had, and could in the future again have, a significant impact on our planned inventory production and distribution, including higher inventory levels or inventory shortages in various markets;
- Impacts to our distribution and logistics providers' ability to operate, including labor and container shortages, and increases in their operating costs. These supply chain effects have had, and could in the future have, an adverse effect on our ability to meet consumer demand, including digital demand, and have in the past resulted in and could in the future result in extended inventory transit times and an increase in our costs of production and distribution, including increased freight and logistics costs and other expenses;
- Decreased retail traffic as a result of store closures, reduced operating hours, social distancing restrictions and/or changes in consumer behavior;

- Reduced consumer demand for our products if consumers seek to reduce or delay discretionary spending in response to the impacts of COVID-19, including as a result of a rise in unemployment rates, higher costs of borrowing, inflation and diminished consumer confidence;
- Cancellation or postponement of sports seasons and sporting events in multiple countries, including in the United States, and bans on large public gatherings, which have reduced consumer spending on our products and could impact the effectiveness of our arrangements with key endorsers;
- The risk that any safety protocols in NIKE-owned or affiliated facilities, including our offices, will not be effective or not be perceived as effective, or that any virus-related illnesses will be linked or alleged to be linked to such facilities, whether accurate or not;
- Incremental costs resulting from the adoption of preventative measures and compliance with regulatory requirements, including providing facial coverings and hand sanitizer, rearranging operations to follow social distancing protocols, conducting temperature checks, COVID-19 testing and undertaking regular and thorough disinfecting of surfaces;
- Bankruptcies or other financial difficulties facing our wholesale customers, which could cause them to be unable to make or delay making payments to us, or result in revised payment terms, cancellation or reduction of their orders;
- Operational risk, including but not limited to cybersecurity risks, as a result of continued workforce remote work arrangements, and restrictions on employee travel; and
- Significant disruption of and volatility in global financial markets, which could have a negative impact on our ability to access capital in the future.

We continue to monitor the latest developments regarding the pandemic and have made certain assumptions regarding the pandemic for purposes of our operating, financial and tax planning projections, including assumptions regarding the duration and severity of the pandemic and the global macroeconomic impacts of the pandemic. However, we are unable to accurately predict the extent of the impact of the pandemic on our business, operations and financial condition due to the uncertainty of future developments. In particular, we believe the ultimate impacts on our business, results of operations, cash flows and financial condition will depend on, among other things, the further spread and duration of COVID-19, including emerging variant strains of COVID-19, the requirements to take action to help limit the spread of the illness, the impact of the easing of restrictions in various regions, the availability, widespread distribution and acceptance, as well as the safety and efficacy of vaccines for COVID-19 and the economic impacts of the pandemic. Even in those regions where we have experienced business recovery, should those regions fail to fully contain COVID-19 or suffer a COVID-19 relapse, those markets may not recover as quickly or at all, which could have a material adverse effect on our business, results of operations and financial condition. Additionally, COVID-19 related disruptions are making it more challenging to compare our performance, including our revenue growth and overall profitability, across quarters and fiscal years. The pandemic may also affect our business, results of operations or financial condition in a manner that is not presently known to us or that we currently do not consider to present significant risks.

In addition, the impact of COVID-19 may also exacerbate, or occur concurrently with, other risks discussed in this Item 1A. Risk Factors, any of which could have a material effect on us.

Our products, services and experiences face intense competition.

NIKE is a consumer products company and the relative popularity of various sports and fitness activities and changing design trends affect the demand for our products, services and experiences. The athletic footwear, apparel and equipment industry is highly competitive both in the United States and worldwide. We compete internationally with a significant number of athletic and leisure footwear companies, athletic and leisure apparel companies, sports equipment companies, private labels and large companies that have diversified lines of athletic and leisure footwear, apparel and equipment. We also compete with other companies for the production capacity of contract manufacturers that produce our products. In addition, we and our contract manufacturers compete with other companies and industries for raw materials used in our products. Our NIKE Direct operations, both through our digital commerce operations and retail stores, also compete with multi-brand retailers, which sell our products through their digital platforms and physical stores, and with digital commerce platforms. In addition, we compete with respect to the digital services and experiences we are able to offer our consumers, including fitness and activity apps; sport, fitness and wellness content and services; and digital services and features in retail stores that enhance the consumer experience.

Product offerings, technologies, marketing expenditures (including expenditures for advertising and endorsements), pricing, costs of production, customer service, digital commerce platforms, digital services and experiences and social media presence are areas of intense competition. These, in addition to ongoing rapid changes in technology, a reduction in barriers to the creation of new footwear and apparel companies and consumer preferences in the markets for athletic and leisure footwear, apparel, and equipment, services and experiences, constitute significant risk factors in our operations. In addition, the competitive nature of retail, including shifts in the ways in which consumers shop, and the continued proliferation of digital commerce, constitutes a risk factor implicating our NIKE Direct and wholesale operations. If we do not adequately and timely anticipate and respond to our

competitors, our costs may increase, demand for our products may decline, possibly significantly, or we may need to reduce wholesale or suggested retail prices for our products.

Economic factors beyond our control, and changes in the global economic environment, including fluctuations in inflation and currency exchange rates, could result in lower revenues, higher costs and decreased margins and earnings.

A majority of our products are manufactured and sold outside of the United States, and we conduct purchase and sale transactions in various currencies, which creates exposure to the volatility of global economic conditions, including fluctuations in inflation and foreign currency exchange rates. Central banks may deploy various strategies to combat inflation, including increasing interest rates, which may impact our borrowing costs. Additionally, there has been, and may continue to be, volatility in currency exchange rates including as a result of U.S. policy changes and the Russia and Ukraine conflict that impact the U.S. Dollar value relative to other international currencies. Our international revenues and expenses generally are derived from sales and operations in foreign currencies, and these revenues and expenses could be affected by currency fluctuations, specifically amounts recorded in foreign currencies and translated into U.S. Dollars for consolidated financial reporting, as weakening of foreign currencies relative to the U.S. Dollar adversely affects the U.S. Dollar value of the Company's foreign currency-denominated sales and earnings. Currency exchange rate fluctuations could also disrupt the business of the independent manufacturers that produce our products by making their purchases of raw materials more expensive and more difficult to finance. Foreign currency fluctuations have adversely affected and could continue to have an adverse effect on our results of operations and financial condition.

We may hedge certain foreign currency exposures to lessen and delay, but not to completely eliminate, the effects of foreign currency fluctuations on our financial results. Since the hedging activities are designed to lessen volatility, they not only reduce the negative impact of a stronger U.S. Dollar or other trading currency, but they also reduce the positive impact of a weaker U.S. Dollar or other trading currency. Our future financial results could be significantly affected by the value of the U.S. Dollar in relation to the foreign currencies in which we conduct business. The degree to which our financial results are affected for any given time period will depend in part upon our hedging activities.

We may be adversely affected by the financial health of our customers.

We extend credit to our customers based on an assessment of a customer's financial condition, generally without requiring collateral. To assist in the scheduling of production and the shipping of our products, we offer certain customers the opportunity to place orders five to six months ahead of delivery under our futures ordering program. These advance orders may be canceled under certain conditions, and the risk of cancellation may increase when dealing with financially unstable retailers or retailers struggling with economic uncertainty. In the past, some customers have experienced financial difficulties up to and including bankruptcies, which have had an adverse effect on our sales, our ability to collect on receivables and our financial condition. When the retail economy weakens or as consumer behavior shifts, retailers may be more cautious with orders. A slowing or changing economy in our key markets could adversely affect the financial health of our customers, which in turn could have an adverse effect on our results of operations and financial condition. In addition, product sales are dependent in part on high quality merchandising and an appealing retail environment to attract consumers, which requires continuing investments by retailers. Retailers that experience financial difficulties may fail to make such investments or delay them, resulting in lower sales and orders for our products. The ongoing financial uncertainty surrounding COVID-19, particularly for retailers, could also have an effect on our sales, our ability to collect on receivables and our financial condition.

Climate change and other sustainability-related matters, or legal, regulatory or market responses thereto, may have an adverse impact on our business and results of operations.

There are concerns that increased levels of carbon dioxide and other greenhouse gases in the atmosphere have caused, and may continue to cause, potentially at a growing rate, increases in global temperatures, changes in weather patterns and increasingly frequent and/or prolonged extreme weather and climate events. Climate change may also exacerbate challenges relating to the availability and quality of water and raw materials, including those used in the production of our products, and may result in changes in regulations or consumer preferences, which could in turn affect our business, operating results and financial condition. For example, there has been increased focus by governmental and non-governmental organizations, consumers, customers, employees and other stakeholders on products that are sustainably made and other sustainability matters, including responsible sourcing and deforestation, the use of plastic, energy and water, the recyclability or recoverability of packaging and materials transparency, any of which may require us to incur increased costs for additional transparency, due diligence and reporting. In addition, federal, state or local governmental authorities in various countries have proposed, and are likely to continue to propose, legislative and regulatory initiatives to reduce or mitigate the impacts of climate change on the environment. Various countries and regions are following different approaches to the regulation of climate change, which could increase the complexity of, and potential cost related to complying with, such regulations. Any of the foregoing may require us to make additional investments in facilities and equipment, may impact the availability and cost of key raw materials used in the production of our products or the demand for our products, and, in turn, may adversely impact our business, operating results and financial condition.

Although we have announced sustainability-related goals and targets, there can be no assurance that our stakeholders will agree with our strategies, and any perception, whether or not valid, that we have failed to achieve, or to act responsibly with respect to, such matters or to effectively respond to new or additional legal or regulatory requirements regarding climate change, could result in adverse publicity and adversely affect our business and reputation. Execution of these strategies and achievement of our goals is subject to risks and uncertainties, many of which are outside of our control. These risks and uncertainties include, but are not limited to, our ability to execute our strategies and achieve our goals within the currently projected costs and the expected timeframes; the availability and cost of raw materials and renewable energy; unforeseen production, design, operational and technological difficulties; the outcome of research efforts and future technology developments, including the ability to scale projects and technologies on a commercially competitive basis such as carbon sequestration and/or other related processes; compliance with, and changes or additions to, global and regional regulations, taxes, charges, mandates or requirements relating to greenhouse gas emissions, carbon costs or climate-related goals; adapting products to customer preferences and customer acceptance of sustainable supply chain solutions; and the actions of competitors and competitive pressures. As a result, there is no assurance that we will be able to successfully execute our strategies and achieve our sustainability-related goals, which could damage our reputation and customer and other stakeholder relationships and have an adverse effect on our business, results of operations and financial condition.

Extreme weather conditions and natural disasters could negatively impact our operating results and financial condition.

Given the broad and global scope of our operations, we are particularly vulnerable to the physical risks of climate change, such as shifts in weather patterns. Extreme weather conditions in the areas in which our retail stores, suppliers, manufacturers, customers, distribution centers, offices, headquarters and vendors are located could adversely affect our operating results and financial condition. Moreover, natural disasters such as earthquakes, hurricanes, wildfires and tsunamis, whether occurring in the United States or abroad, and their related consequences and effects, including energy shortages and public health issues, have in the past temporarily disrupted, and could in the future disrupt, our operations, the operations of our vendors, manufacturers and other suppliers or have in the past resulted in, and in the future could result in, economic instability that may negatively impact our operating results and financial condition. In particular, if a natural disaster or severe weather event were to occur in an area in which we or our suppliers, manufacturers, employees, customers, distribution centers and vendors are located, our continued success would depend, in part, on the safety and availability of the relevant personnel and facilities and proper functioning of our or third parties' computer, network, telecommunication and other systems and operations. In addition, a natural disaster or severe weather event could negatively impact retail traffic to our stores or stores that carry our products and could have an adverse impact on consumer spending, any of which could in turn result in negative point-of-sale trends for our merchandise. Further, climate change may increase both the frequency and severity of extreme weather conditions and natural disasters, which may affect our business operations, either in a particular region or globally, as well as the activities of our third-party vendors and other suppliers, manufacturers and customers. We believe the diversity of locations in which we operate, our operational size, disaster recovery and business continuity planning and our information technology systems and networks, including the Internet and third-party services ("Information Technology Systems") position us well, but may not be sufficient for all or for concurrent eventualities. If we were to experience a local or regional disaster or other business continuity event or concurrent events, we could still experience operational challenges, in particular depending upon how a local or regional event may affect our human capital across our operations or with regard to particular aspects of our operations, such as key executive officers or personnel. For example, our World Headquarters are located in an active seismic zone, which is at a higher risk for earthquakes and the related consequences or effects. Further, if we are unable to find alternative suppliers, replace capacity at key manufacturing or distribution locations or quickly repair damage to our Information Technology Systems or supply systems, we could be late in delivering, or be unable to deliver, products to our customers. These events could result in reputational damage, lost sales, cancellation charges or markdowns, all of which could have an adverse effect on our business, results of operations and financial condition.

Business and Operational Risks

Failure to maintain our reputation, brand image and culture could negatively impact our business.

Our iconic brands have worldwide recognition, and our success depends on our ability to maintain and enhance our brand image and reputation. Maintaining, promoting and growing our brands will depend on our design and marketing efforts, including advertising and consumer campaigns, product innovation and product quality. Our commitment to product innovation, quality and sustainability, and our continuing investment in design (including materials), marketing and sustainability measures may not have the desired impact on our brand image and reputation. In addition, our success in maintaining, extending and expanding our brand image depends on our ability to adapt to a rapidly changing media and digital environment, including our increasing reliance on social media and digital dissemination of advertising campaigns on our digital platforms and through our digital experiences and products. We could be adversely impacted if we fail to achieve any of these objectives.

Our brand value also depends on our ability to maintain a positive consumer perception of our corporate integrity, purpose and brand culture. Negative claims or publicity involving us, our culture and values, our products, services and experiences, consumer data, or any of our key employees, endorsers, sponsors or suppliers could seriously damage our reputation and brand image, regardless of whether such claims are accurate. For example, while we require our suppliers of our products to operate

their business in compliance with applicable laws and regulations, we do not control their practices. Negative publicity relating to a violation or an alleged violation of policies or laws by such suppliers could damage our brand image and diminish consumer trust in our brand. Further, our reputation and brand image could be damaged as a result of our support of, association with or lack of support or disapproval of certain social causes, as well as any decisions we make to continue to conduct, or change, certain of our activities in response to such considerations. Social media, which accelerates and potentially amplifies the scope of negative publicity, can increase the challenges of responding to negative claims. Adverse publicity about regulatory or legal action against us, or by us, could also damage our reputation and brand image, undermine consumer confidence in us and reduce long-term demand for our products, even if the regulatory or legal action is unfounded or not material to our operations. If the reputation, culture or image of any of our brands is tarnished or if we receive negative publicity, then our sales, financial condition and results of operations could be materially and adversely affected.

Our business is affected by seasonality, which could result in fluctuations in our operating results.

We experience moderate fluctuations in aggregate sales volume during the year. Historically, revenues in the first and fourth fiscal quarters have slightly exceeded those in the second and third fiscal quarters. However, the mix of product sales may vary considerably from time to time or in the future as a result of strategic shifts in our business, changes in COVID-19 related cancellations or postponements and seasonal or geographic demand for particular types of footwear, apparel and equipment and in connection with the timing, cancellation or postponement of significant sporting events, such as the NBA Finals, Olympics or the World Cup, among others. In addition, our customers may cancel orders, change delivery schedules or change the mix of products ordered with minimal notice. As a result, we may not be able to accurately predict our quarterly sales. Accordingly, our results of operations are likely to fluctuate significantly from period to period. This seasonality, along with other factors that are beyond our control, including economic conditions, changes in consumer preferences, weather conditions, outbreaks of disease, social or political unrest, availability of import quotas, transportation disruptions and currency exchange rate fluctuations, could adversely affect our business and cause our results of operations to fluctuate. Our operating margins are also sensitive to a number of additional factors that are beyond our control, including manufacturing and transportation costs, shifts in product sales mix and geographic sales trends, all of which we expect to continue. Results of operations in any period should not be considered indicative of the results to be expected for any future period.

If we are unable to anticipate consumer preferences and develop new products, we may not be able to maintain or increase our revenues and profits.

Our success depends on our ability to identify, originate and define product trends as well as to anticipate, gauge and react to changing consumer demands in a timely manner. However, lead times for many of our products may make it more difficult for us to respond rapidly to new or changing product trends or consumer preferences. All of our products are subject to changing consumer preferences that cannot be predicted with certainty. Our new products may not receive consumer acceptance as consumer preferences could shift rapidly to different types of performance products or away from these types of products altogether, and our future success depends in part on our ability to anticipate and respond to these changes. If we fail to anticipate accurately and respond to trends and shifts in consumer preferences by adjusting the mix of existing product offerings, developing new products, designs, styles and categories, and influencing sports and fitness preferences through extensive marketing, we could experience lower sales, excess inventories or lower profit margins, any of which could have an adverse effect on our results of operations and financial condition. In addition, we market our products globally through a diverse spectrum of advertising and promotional programs and campaigns, including social media, mobile applications and online advertising. If we do not successfully market our products or if advertising and promotional costs increase, these factors could have an adverse effect on our business, financial condition and results of operations.

We rely on technical innovation and high-quality products to compete in the market for our products.

Technical innovation and quality control in the design and manufacturing processes of footwear, apparel, equipment and other products and services are essential to the commercial success of our products and development of new products. Research and development play a key role in technical innovation. We rely upon specialists in the fields of biomechanics, chemistry, exercise physiology, engineering, digital technologies, industrial design, sustainability and related fields, as well as research committees and advisory boards made up of athletes, coaches, trainers, equipment managers, orthopedists, podiatrists and other experts to develop and test cutting-edge performance products. While we strive to produce products that help to enhance athletic performance and reduce injury and maximize comfort, if we fail to introduce technical innovation in our products, consumer demand for our products could decline, and if we experience problems with the quality of our products, we may incur substantial expense to remedy the problems and loss of consumer confidence.

Failure to continue to obtain or maintain high-quality endorsers of our products could harm our business.

We establish relationships with professional athletes, sports teams and leagues, as well as other public figures, including artists, designers and influencers, to develop, evaluate and promote our products, as well as establish product authenticity with consumers. However, as competition in our industry has increased, the costs associated with establishing and retaining such sponsorships and other relationships have increased. If we are unable to maintain our current associations with professional athletes, sports teams and leagues, or other public figures, or to do so at a reasonable cost, we could lose the high visibility or

on-field authenticity associated with our products, and we may be required to modify and substantially increase our marketing investments. As a result, our brands, net revenues, expenses and profitability could be harmed.

Furthermore, if certain endorsers were to stop using our products contrary to their endorsement agreements, our business could be adversely affected. In addition, actions taken or statements made by athletes, teams or leagues, or other endorsers, associated with our products or brand that harm the reputations of those athletes, teams or leagues, or endorsers, could also seriously harm our brand image with consumers and, as a result, could have an adverse effect on our sales and financial condition. In addition, poor or non-performance by our endorsers, a failure to continue to correctly identify promising athletes, public figures or sports organizations, to use and endorse our products and brand or a failure to enter into cost-effective endorsement arrangements with prominent athletes, public figures and sports organizations could adversely affect our brand, sales and profitability.

Failure to accurately forecast consumer demand could lead to excess inventories or inventory shortages, which could result in decreased operating margins, reduced cash flows and harm to our business.

To meet anticipated demand for our products, we purchase products from manufacturers outside of our futures ordering program and in advance of customer orders, which we hold in inventory and resell to customers. There is a risk we may be unable to sell excess products ordered from manufacturers. Inventory levels in excess of customer demand may result in inventory write-downs, and the sale of excess inventory at discounted prices could significantly impair our brand image and have an adverse effect on our operating results, financial condition and cash flows. Conversely, if we underestimate consumer demand for our products or if our manufacturers fail to supply products we require at the time we need them, we may experience inventory shortages. Inventory shortages could delay shipments to customers, negatively impact retailer, distributor and consumer relationships and diminish brand loyalty. The difficulty in forecasting demand also makes it difficult to estimate our future results of operations, financial condition and cash flows from period to period. A failure to accurately predict the level of demand for our products could adversely affect our net revenues and net income, and we are unlikely to forecast such effects with any certainty in advance.

Our NIKE Direct operations have required and will continue to require a substantial investment and commitment of resources and are subject to numerous risks and uncertainties.

Our NIKE Direct operations, including our retail stores and digital platforms, have required and will continue to require significant investment. Our NIKE Direct stores have required and will continue to require substantial fixed investment in equipment and leasehold improvements and personnel. We have entered into substantial operating lease commitments for retail space. Certain stores have been designed and built to serve as high-profile venues to promote brand awareness and marketing activities and to integrate with our digital platforms. Because of their unique design and technological elements, locations and size, these stores require substantially more investment than other stores. Due to the high fixed-cost structure associated with our NIKE Direct retail stores, a decline in sales, a shift in consumer behavior away from brick-and-mortar retail, or the closure, temporary or otherwise, or poor performance of individual or multiple stores could result in significant lease termination costs, write-offs of equipment and leasehold improvements and employee-related costs.

Many factors unique to retail operations, some of which are beyond our control, pose risks and uncertainties. Risks include, but are not limited to: credit card fraud; mismanagement of existing retail channel partners; and inability to manage costs associated with store construction and operation.

In addition, we have made significant investments in digital technologies and information systems for the digital aspect of our NIKE Direct operations, and our digital offerings will require continued investment in the development and upgrading of our technology platforms. In order to deliver high-quality digital experiences, our digital platforms must be designed effectively and work well with a range of other technologies, systems, networks, and standards that we do not control. We may not be successful in developing platforms that operate effectively with these technologies, systems, networks or standards. A growing portion of consumers access our NIKE Direct digital platforms, but in the event that it is more difficult for consumers to access and use our digital platforms, consumers find that our digital platforms do not effectively meet their needs or expectations or consumers choose not to access or use our digital platforms or use devices that do not offer access to our platforms, the success of our NIKE Direct operations could be adversely impacted. Our competitors may develop, or have already developed, digital experiences, features, content, services or technologies that are similar to ours or that achieve greater acceptance.

We may not realize a satisfactory return on our investment in our NIKE Direct operations and management's attention from our other business opportunities could be diverted, which could have an adverse effect on our business, financial condition or results of operations.

If the technology-based systems that give our consumers the ability to shop or interact with us online do not function effectively, our operating results, as well as our ability to grow our digital commerce business globally or to retain our customer base, could be materially adversely affected.

Many of our consumers shop with us through our digital platforms. Increasingly, consumers are using mobile-based devices and applications to shop online with us and with our competitors, and to do comparison shopping, as well as to engage with us and our competitors through digital services and experiences that are offered on mobile platforms. We are increasingly using social

media and proprietary mobile applications to interact with our consumers and as a means to enhance their shopping experience. Any failure on our part to provide attractive, effective, reliable, secure, user-friendly digital commerce platforms that offer a wide assortment of merchandise with rapid delivery options and that continually meet the changing expectations of online shoppers or any failure to provide attractive digital experiences to our customers could place us at a competitive disadvantage, result in the loss of digital commerce and other sales, harm our reputation with consumers, have a material adverse impact on the growth of our digital commerce business globally and have a material adverse impact on our business and results of operations. In addition, as use of our digital platforms continues to grow, we will need an increasing amount of technical infrastructure to continue to satisfy our consumers' needs. If we fail to continue to effectively scale and adapt our digital platforms to accommodate increased consumer demand, our business may be subject to interruptions, delays or failures and consumer demand for our products and digital experiences could decline.

Risks specific to our digital commerce business also include diversion of sales from our and our retailers' brick and mortar stores, difficulty in recreating the in-store experience through direct channels and liability for online content. Our failure to successfully respond to these risks might adversely affect sales in our digital commerce business, as well as damage our reputation and brands.

We rely significantly on information technology to operate our business, including our supply chain and retail operations, and any failure, inadequacy or interruption of that technology could harm our ability to effectively operate our business.

We are heavily dependent on Information Technology Systems, across our supply chain, including product design, production, forecasting, ordering, manufacturing, transportation, sales and distribution, as well as for processing financial information for external and internal reporting purposes, retail operations and other business activities. Information Technology Systems are critical to many of our operating activities and our business processes and may be negatively impacted by any service interruption or shutdown. For example, our ability to effectively manage and maintain our inventory and to ship products to customers on a timely basis depends significantly on the reliability of these Information Technology Systems. Over a number of years, we have implemented Information Technology Systems in all of the geographical regions in which we operate. Our work to integrate, secure and enhance these systems and related processes in our global operations is ongoing and NIKE will continue to invest in these efforts. We cannot provide assurance, however, that the measures we take to secure and enhance these systems will be sufficient to protect our Information Technology Systems and prevent cyber-attacks, system failures or data or information loss. The failure of these systems to operate effectively, including as a result of security breaches, viruses, hackers, malware, natural disasters, vendor business interruptions or other causes, failure to properly maintain, protect, repair or upgrade systems, or problems with transitioning to upgraded or replacement systems could cause delays in product fulfillment and reduced efficiency of our operations, could require significant capital investments to remediate the problem which may not be sufficient to cover all eventualities, and may have an adverse effect on our reputation, results of operations and financial condition. In addition, the increased use of employee-owned devices for communications as well as work-from-home arrangements, such as those implemented in response to the COVID-19 pandemic, present additional operational risks to our Information Technology Systems, including, but not limited to, increased risks of cyber-attacks. Further, like other companies in the retail industry, we have in the past experienced, and we expect to continue to experience, cyber-attacks, including phishing, and other attempts to breach, or gain unauthorized access to, our systems. To date, these attacks have not had a material impact on our operations, but we cannot provide assurance that they will not have an impact in the future.

We also use Information Technology Systems to process financial information and results of operations for internal reporting purposes and to comply with regulatory financial reporting, legal and tax requirements. If Information Technology Systems suffer severe damage, disruption or shutdown and our business continuity plans, or those of our vendors, do not effectively resolve the issues in a timely manner, we could experience delays in reporting our financial results, which could result in lost revenues and profits, as well as reputational damage. Furthermore, we depend on Information Technology Systems and personal data collection for digital marketing, digital commerce, consumer engagement and the marketing and use of our digital products and services. We also rely on our ability to engage in electronic communications throughout the world between and among our employees as well as with other third parties, including customers, suppliers, vendors and consumers. Any interruption in Information Technology Systems may impede our ability to engage in the digital space and result in lost revenues, damage to our reputation, and loss of users.

We are subject to the risk our licensees may not generate expected sales or maintain the value of our brands.

We currently license, and expect to continue licensing, certain of our proprietary rights, such as trademarks or copyrighted material, to third parties. If our licensees fail to successfully market and sell licensed products, or fail to obtain sufficient capital or effectively manage their business operations, customer relationships, labor relationships, supplier relationships or credit risks, it could adversely affect our revenues, both directly from reduced royalties received and indirectly from reduced sales of our other products.

We also rely on our licensees to help preserve the value of our brands. Although we attempt to protect our brands through approval rights over the design, production processes, quality, packaging, merchandising, distribution, advertising and promotion

of our licensed products, we cannot completely control the use of our licensed brands by our licensees. The misuse of a brand by or negative publicity involving a licensee could have a material adverse effect on that brand and on us.

Consolidation of retailers or concentration of retail market share among a few retailers may increase and concentrate our credit risk and impair our ability to sell products.

The athletic footwear, apparel and equipment retail markets in some countries are dominated by a few large athletic footwear, apparel and equipment retailers with many stores and accelerating digital commerce capabilities. The market shares of these retailers may increase through acquisitions and construction of additional stores and investments in digital capacity, and as a result of attrition as struggling retailers exit the market. Consolidation of our retailers will concentrate our credit risk with a smaller set of retailers, any of whom may experience declining sales or a shortage of liquidity, including as a result of the COVID-19 pandemic. In addition, increasing market share concentration among a few retailers in a particular country or region increases the risk that if any one of them substantially reduces their purchases of our products, we may be unable to find sufficient retail outlets for our products to sustain the same level of sales and revenues.

If one or more of our counterparty financial institutions default on their obligations to us or fail, we may incur significant losses.

As part of our hedging activities, we enter into transactions involving derivative financial instruments, which may include forward contracts, commodity futures contracts, option contracts, collars and swaps with various financial institutions. In addition, we have significant amounts of cash, cash equivalents and other investments on deposit or in accounts with banks or other financial institutions in the United States and abroad. As a result, we are exposed to the risk of default by or failure of counterparty financial institutions. The risk of counterparty default or failure may be heightened during economic downturns and periods of uncertainty in the financial markets. If one of our counterparties were to become insolvent or file for bankruptcy, our ability to recover losses incurred as a result of default, or our assets deposited or held in accounts with such counterparty, may be limited by the counterparty's liquidity or the applicable laws governing the insolvency or bankruptcy proceedings. In the event of default or failure of one or more of our counterparties, we could incur significant losses, which could negatively impact our results of operations and financial condition.

We rely on a concentrated source base of contract manufacturers to supply a significant portion of our footwear products.

As of May 31, 2022, we were supplied by 120 finished goods footwear contract factories located in 11 countries. We rely upon contract manufacturers, which we do not own or operate, to manufacture all of the footwear products we sell. For fiscal 2022, four footwear contract manufacturers each accounted for greater than 10% of footwear production and in the aggregate accounted for approximately 58% of NIKE Brand footwear production. Our ability to meet our customers' needs depends on our ability to maintain a steady supply of products from our contract manufacturers. If one or more of our significant suppliers were to sever their relationship with us or significantly alter the terms of our relationship, including due to changes in applicable trade policies, or be unable to perform, including as a result of the COVID-19 pandemic, we may not be able to obtain replacement products in a timely manner, which could have a material adverse effect on our business operations, sales, financial condition or results of operations. Additionally, if any of our primary footwear contract manufacturers fail to make timely shipments, do not meet our quality standards or otherwise fail to deliver us product in accordance with our plans, there could be a material adverse effect on our results of operations.

Certain of our footwear contract manufacturers are highly specialized and only produce a specific type of product. Such contract manufacturers may go out of business if consumer preferences or market conditions change such that there is no longer sufficient demand for the types of products they produce. If, in the future, the relevant products are again in demand and the specialized contract manufacturers no longer exist, we may not be able to locate replacement facilities to manufacture certain footwear products in a timely manner or at all, which could have a material adverse effect on our sales, financial condition or results of operations.

The market for prime real estate is competitive.

Our ability to effectively obtain real estate to open new retail stores and otherwise conduct our operations, both domestically and internationally, depends on the availability of real estate that meets our criteria for traffic, square footage, co-tenancies, lease economics, demographics and other factors. We also must be able to effectively renew our existing real estate leases. In addition, from time to time, we seek to downsize, consolidate, reposition or close some of our real estate locations, which may require modification of an existing lease. Failure to secure adequate new locations or successfully modify leases for existing locations, or failure to effectively manage the profitability of our existing fleet of retail stores, could have an adverse effect on our operating results and financial condition.

Additionally, the economic environment may make it difficult to determine the fair market rent of real estate properties domestically and internationally. This could impact the quality of our decisions to exercise lease options at previously negotiated rents and to renew expiring leases at negotiated rents. Any adverse effect on the quality of these decisions could impact our ability to retain real estate locations adequate to meet our targets or efficiently manage the profitability of our existing fleet of stores, which could have an adverse effect on our operating results and financial condition.

The success of our business depends, in part, on high-quality employees, including key personnel as well as our ability to maintain our workplace culture and values.

Our success depends in part on the continued service of high-quality employees, including key executive officers and personnel. The loss of the services of key individuals, or any negative perception with respect to these individuals, or our workplace culture or values, could harm our business. Our success also depends on our ability to recruit, retain and engage our personnel sufficiently, both to maintain our current business and to execute our strategic initiatives. Competition for employees in our industry is intense and we may not be successful in attracting and retaining such personnel. Changes to our current and future office environments or adoption of a new work model that expects employees to work on-site for a specified number of days with some flexibility to work remotely on other days, may not meet the needs or expectations of our employees or may not be perceived as favorable compared to other companies' policies, which could negatively impact our ability to attract, hire and retain our employees. In addition, shifts in U.S. immigration policy could negatively impact our ability to attract, hire and retain highly skilled employees who are from outside the United States. We also believe that our corporate culture has been a key driver of our success, and we have invested substantial time and resources in building, maintaining and evolving our culture. Any failure to preserve and evolve our culture could negatively affect our future success, including our ability to retain and recruit employees.

Our business operations and financial performance could be adversely affected by changes in our relationship with our workforce or changes to United States or foreign employment regulations.

We have significant exposure to changes in domestic and foreign laws governing our relationships with our workforce, including wage and hour laws and regulations, fair labor standards, minimum wage requirements, overtime pay, unemployment tax rates, workers' compensation rates, citizenship requirements and payroll taxes, which could have a direct impact on our operating costs. A significant increase in minimum wage or overtime rates in countries where we have workforce could have a significant impact on our operating costs and may require that we relocate those operations or take other steps to mitigate such increases, all of which may cause us to incur additional costs. There is also a risk of potential claims that we have violated laws related to discrimination and harassment, health and safety, wage and hour laws, criminal activity, personal injury and other claims. In addition, if there were a significant increase in the number of members of our workforce who are members of labor organizations or become parties to collective bargaining agreements, we could be vulnerable to a strike, work stoppage or other labor action, which could have an adverse effect on our business.

Risks Related to Operating a Global Business

Our international operations involve inherent risks which could result in harm to our business.

Virtually all of our athletic footwear and apparel is manufactured outside of the United States, and the majority of our products are sold outside of the United States. Accordingly, we are subject to the risks generally associated with global trade and doing business abroad, which include foreign laws and regulations, varying consumer preferences across geographic regions, political tensions, unrest, disruptions or delays in cross-border shipments and changes in economic conditions in countries in which our products are manufactured or where we sell products. Changes in the U.S. government's import and export policies, including trade restrictions, sanctions and countersanctions, increased tariffs or quotas, embargoes, safeguards or customs restrictions, could require us to change the way we conduct business and adversely affect our results of operations.

In addition, disease outbreaks, including the recent COVID-19 pandemic, terrorist acts and military conflict have increased the risks of doing business abroad. These factors, among others, could affect our ability to manufacture products or procure materials, or our costs for manufacturing and procuring materials, our ability to import products, our ability to sell products in international markets and our cost of doing business. If any of these or other factors make the conduct of business in a particular country undesirable or impractical, our business could be adversely affected. In addition, many of our imported products are subject to duties, tariffs or quotas that affect the cost and quantity of various types of goods imported into the United States and other countries. Any country in which our products are produced or sold may eliminate, adjust or impose new quotas, duties, tariffs, safeguard measures, anti-dumping duties, cargo restrictions to prevent terrorism, restrictions on the transfer of currency, climate change legislation, product safety regulations or other charges or restrictions, any of which could have an adverse effect on our results of operations and financial condition.

Furthermore, we are subject to the U.S. Foreign Corrupt Practices Act as well as the anti-corruption laws of other countries in which we operate. Although we implement policies and procedures designed to promote compliance with these laws, our employees, independent contractors, contract manufacturers, suppliers and agents, as well as those companies to which we outsource certain of our business operations, may take actions in violation of our policies. Any such violation could result in sanctions or other penalties and have an adverse effect on our business, reputation and operating results.

Our products are subject to risks associated with overseas sourcing, manufacturing and financing.

The principal materials used in our footwear products — natural and synthetic rubber, plastic compounds, foam cushioning materials, natural and synthetic leather, nylon, polyester and natural fiber textiles and polyurethane films — are locally available to manufacturers. The principal materials used in our apparel products — natural and synthetic fabrics, yarns and threads (both virgin and recycled), specialized performance fabrics designed to efficiently wick moisture away from the body, retain heat and repel rain and/or snow as well as plastic and metal hardware — are also available in countries where our manufacturing takes

place. Both our apparel and footwear products are dependent upon the ability of our contract manufacturers to locate, train, employ and retain adequate personnel. NIKE contract manufacturers and materials suppliers buy raw materials and are subject to wage rates and other labor standards that are oftentimes regulated by the governments of the countries in which our products are manufactured.

There could be a significant disruption in the supply of fabrics or raw materials from current sources or, in the event of a disruption or heightened competition for such materials, our contract manufacturers might not be able to locate alternative suppliers of materials of comparable quality at an acceptable price or at all. Further, our contract manufacturers have experienced and may continue to experience in the future, unexpected closures, unexpected increases in work wages or other changes in labor standards, whether government mandated or otherwise, and increases in compliance costs due to governmental regulation concerning certain metals, fabrics or raw materials used in the manufacturing of our products. In addition, we cannot be certain that manufacturers that we do not contract and that we refer to as "unaffiliated manufacturers" will be able to fill our orders in a timely manner. If we experience significant increases in demand, or reductions in the availability of materials, or need to replace an existing contract manufacturer or materials supplier, there can be no assurance additional supplies of fabrics or raw materials or additional manufacturing capacity will be available when required on terms acceptable to us, or at all, or that any contract manufacturer, unaffiliated manufacturer, or any materials supplier would allocate sufficient capacity to us in order to meet our requirements. In addition, even if we are able to expand existing or find new manufacturing capacity or sources of materials, we may encounter delays in production and added costs as a result of the time it takes to train suppliers and manufacturers in our methods, products, quality control standards and labor, health and safety standards. Any delays, interruption or increased costs in labor or wages, in the supply of materials or in the manufacturing of our products could have an adverse effect on our ability to meet retail customer and consumer demand for our products and result in lower revenues and net income both in the short- and long-term.

Because contract manufacturers make a majority of our products outside of our principal sales markets, our products must be transported by third parties over large geographic distances. Delays in the shipment or delivery of our products due to the availability of transportation, container shortages, labor shortages, including work stoppages or port strikes, infrastructure and port congestion or other factors, and costs and delays associated with consolidating or transitioning between manufacturers, have adversely impacted, and could in the future adversely impact the availability of our products and, in turn, our financial performance. In addition, delays in the shipment or delivery of our products, manufacturing delays or unexpected demand for our products have required us, and may in the future require us to use faster, but more expensive, transportation methods such as air freight, which could adversely affect our profit margins. The cost of oil is a significant component in manufacturing and transportation costs, so increases in the price of petroleum products can adversely affect our profit margins. Changes in U.S. trade policies, including modifications to import tariffs and existing trade policies and agreements, have also had, and could continue to have a significant impact on our activities in foreign jurisdictions, and could adversely affect our reputation or results of operations.

Our success depends on our global distribution facilities.

We distribute our products to customers directly from the factory and through distribution centers located throughout the world. Our ability to meet customer expectations, manage inventory, complete sales and achieve objectives for operating efficiencies and growth, particularly in emerging markets, depends on the proper operation of our distribution facilities, the development or expansion of additional distribution capabilities and the timely performance of services by third parties (including those involved in shipping product to and from our distribution facilities). Our distribution facilities have in the past and could be interrupted by information technology problems, disasters such as earthquakes or fires or outbreaks of disease or government actions taken to mitigate their spread. Any significant failure in our distribution facilities could result in an adverse effect on our business. We maintain business interruption insurance, but it may not adequately protect us from adverse effects caused by significant disruptions in our distribution facilities.

Legal, Regulatory, and Compliance Risks

We are subject to a complex array of laws and regulations and litigation and other legal and regulatory proceedings, which could have an adverse effect on our business, financial condition and results of operations.

As a multinational corporation with operations and distribution channels throughout the world, we are subject to and must comply with extensive laws and regulations in the United States and other jurisdictions in which we have operations and distribution channels. If we or our employees, agents, suppliers, and other partners fail to comply with any of these laws or regulations, such failure could subject us to fines, sanctions or other penalties that could negatively affect our reputation, business, financial condition and results of operations. Furthermore, laws, regulations and policies and the interpretation of such, can conflict among jurisdictions and compliance in one jurisdiction may result in legal or reputational risks in another jurisdiction. We are involved in various types of claims, lawsuits, regulatory proceedings and government investigations relating to our business, our products and the actions of our employees and representatives, including contractual and employment relationships, product liability, antitrust, trademark rights and a variety of other matters. It is not possible to predict with certainty the outcome of any such legal or regulatory proceedings or investigations, and we could in the future incur judgments, fines or penalties, or enter into settlements of lawsuits and claims that could have a material adverse effect on our business, financial condition and results of

operations and negatively impact our reputation. The global nature of our business means legal and compliance risks, such as anti-bribery, anti-corruption, fraud, trade, environmental, competition, privacy and other regulatory matters, will continue to exist and additional legal proceedings and other contingencies have and will continue to arise from time to time, which could adversely affect us. In addition, the adoption of new laws or regulations, or changes in the interpretation of existing laws or regulations, may result in significant unanticipated legal and reputational risks. Moreover, the regulation of certain transactions we engage in, including those involving non-fungible tokens ("NFTs") and cryptocurrencies, remains in an early stage and subject to significant uncertainty. As a result, we are required to exercise our judgment as to whether or how certain laws or regulations apply, or may in the future apply, and it is possible that legislators, regulators and courts may disagree with our conclusions. Any current or future legal or regulatory proceedings could divert management's attention from our operations and result in substantial legal fees.

Changes to U.S. or other countries' trade policies and tariff and import/export regulations or our failure to comply with such regulations may have a material adverse effect on our reputation, business, financial condition and results of operations.

Changes in U.S. or international social, political, regulatory and economic conditions could impact our business, reputation, financial condition and results of operations. In particular, political and economic instability, geopolitical conflicts, political unrest, civil strife, terrorist activity, acts of war, public corruption, expropriation, nationalism and other economic or political uncertainties in the United States or internationally could interrupt and negatively affect the sale of our products or other business operations. Any negative sentiment toward the United States as a result of any such changes could also adversely affect our business.

In addition, changes in laws and policies governing foreign trade, manufacturing, development and investment in the territories or countries where we currently sell our products or conduct our business could adversely affect our business. U.S. presidential administrations have instituted or proposed changes in trade policies that include the negotiation or termination of trade agreements, the imposition of higher tariffs on imports into the U.S., economic sanctions on individuals, corporations or countries, and other government regulations affecting trade between the U.S. and other countries where we conduct our business. It may be time-consuming and expensive for us to alter our business operations in order to adapt to or comply with any such changes.

Changes or proposed changes in U.S. or other countries' trade policies may result in restrictions and economic disincentives on international trade. Tariffs and other changes in U.S. trade policy have in the past and could in the future trigger retaliatory actions by affected countries, and certain foreign governments have instituted or are considering imposing retaliatory measures on certain U.S. goods. Further, any emerging protectionist or nationalist trends either in the United States or in other countries could affect the trade environment. The Company, similar to many other multinational corporations, does a significant amount of business that would be impacted by changes to the trade policies of the United States and foreign countries (including governmental action related to tariffs, international trade agreements, or economic sanctions). Such changes have the potential to adversely impact the U.S. economy or certain sectors thereof or the economy of another country in which we conduct operations, our industry and the global demand for our products, and as a result, could have a material adverse effect on our business, financial condition and results of operations.

Failure to adequately protect or enforce our intellectual property rights could adversely affect our business.

We periodically discover counterfeit reproductions of our products or products that otherwise infringe our intellectual property rights. If we are unsuccessful in enforcing our intellectual property rights, continued sales of these products could adversely affect our sales and our brand and could result in a shift of consumer preference away from our products.

The actions we take to establish and protect our intellectual property rights may not be adequate to prevent imitation of our products by others. We also may be unable to prevent others from seeking to block sales of our products as violations of proprietary rights.

We may be subject to liability if third parties successfully claim we infringe their intellectual property rights. Defending infringement claims could be expensive and time-consuming and might result in our entering into costly license agreements. We also may be subject to significant damages or injunctions against development, manufacturing, use, importation and/or sale of certain products.

We take various actions to prevent the unauthorized use and/or disclosure of our confidential information and intellectual property rights. These actions include contractual measures such as entering into non-disclosure and non-compete agreements and agreements relating to our collaborations with third parties and providing confidential information awareness training. Our controls and efforts to prevent unauthorized use and/or disclosure of confidential information and intellectual property rights might not always be effective. For example, confidential information related to business strategy, innovations, new technologies, mergers and acquisitions, unpublished financial results or personal data could be prematurely, inadvertently, or improperly used and/or disclosed, resulting in a loss of reputation, loss of intellectual property rights, a decline in our stock price and/or a negative impact on our market position, and could lead to damages, fines, penalties or injunctions. In addition, new products we offer, such as NFTs, may raise various novel intellectual property law considerations, including adequacy and scope of assignment, licensing, transfer, copyright and other right-of-use issues.

In addition, the laws of certain countries may not protect or allow enforcement of intellectual property rights to the same extent as the laws of the United States. We may face significant expenses and liability in connection with the protection of our intellectual property rights, including outside the United States, and if we are unable to successfully protect our rights or resolve intellectual property conflicts with others, our business or financial condition may be adversely affected.

We are subject to data security and privacy risks that could negatively affect our results, operations or reputation.

In addition to our own sensitive and proprietary business information, we handle transactional and personal information about our wholesale customers and consumers and users of our digital experiences, which include online distribution channels and product engagement, adaptive products and personal fitness applications. Hackers and data thieves are increasingly sophisticated and operate social engineering, such as phishing, and large-scale, complex automated attacks that can evade detection for long periods of time. Any breach of our or our service providers' networks, or other vendor systems, may result in the loss of confidential business and financial data, misappropriation of our consumers', users' or employees' personal information or a disruption of our business. Any of these outcomes could have a material adverse effect on our business, including unwanted media attention, impairment of our consumer and customer relationships, damage to our reputation; resulting in lost sales and consumers, fines, lawsuits, or significant legal and remediation expenses. We also may need to expend significant resources to protect against, respond to and/or redress problems caused by any breach.

In addition, we must comply with increasingly complex and rigorous, and sometimes conflicting, regulatory standards enacted to protect business and personal data in the United States, Europe and elsewhere. For example, the European Union adopted the General Data Protection Regulation (the "GDPR"), which became effective on May 25, 2018; five states in the United States (California, Virginia, Colorado, Utah, and Connecticut) passed data privacy laws in 2020 and 2021; China enacted the Data Security Law and Personal Information Protection Law, which became effective on September 1, 2021 and November 1, 2021, respectively, and additional jurisdictions have adopted or are considering proposing or adopting similar regulations. These laws impose additional obligations on companies regarding the handling of personal data and provide certain individual privacy rights to persons whose data is stored. Compliance with existing, proposed and recently enacted laws and regulations (including implementation of the privacy and process enhancements called for under laws in the European Union, United States and China) can be costly and time consuming, and any failure to comply with these regulatory standards could subject us to legal and reputational risks. Misuse of or failure to secure personal information could also result in violation of data privacy laws and regulations, proceedings against the Company by governmental entities or others, imposition of fines by governmental authorities and damage to our reputation and credibility and could have a negative impact on revenues and profits.

We could be subject to changes in tax rates, adoption of new tax laws, additional tax liabilities or increased volatility in our effective tax rate.

We earn a substantial portion of our income in foreign countries and, as such, we are subject to the tax laws in the United States and numerous foreign jurisdictions. Current economic and political conditions make tax laws and regulations, or their interpretation and application, in any jurisdiction subject to significant change.

Proposals to reform U.S. and foreign tax laws could significantly impact how U.S. multinational corporations are taxed on foreign earnings and could increase the U.S. corporate tax rate. Although we cannot predict whether or in what form these proposals will pass, several of the proposals considered, if enacted into law, could have an adverse impact on our effective tax rate, income tax expense and cash flows.

Portions of our operations are subject to a reduced tax rate or are under various tax holidays. We also utilize tax rulings and other agreements to obtain certainty in treatment of certain tax matters. These holidays expire from time to time and may be extended when certain conditions are met, or terminated if certain conditions are not met. The impact of any changes in conditions would be the loss of certainty in treatment thus potentially impacting our effective income tax rate. For example, in January 2019, the European Commission opened a formal investigation to examine whether the Netherlands has breached State Aid rules when granting certain tax rulings to the Company. If this matter is adversely resolved, the Netherlands may be required to assess additional amounts with respect to prior periods, and the Company's income taxes related to prior periods in the Netherlands could increase.

We are also subject to the examination of our tax returns by the United States Internal Revenue Service ("IRS") and other tax authorities. We regularly assess the likelihood of an adverse outcome resulting from these examinations to determine the adequacy of its provision for income taxes. Although we believe our tax provisions are adequate, the final determination of tax audits and any related disputes could be materially different from our historical income tax provisions and accruals. The results of audits or related disputes could have an adverse effect on our financial statements for the period or periods for which the applicable final determinations are made. For example, we and our subsidiaries are also engaged in a number of intercompany transactions across multiple tax jurisdictions. Although we believe we have clearly reflected the economics of these transactions and the proper local transfer pricing documentation is in place, tax authorities may propose and sustain adjustments that could result in changes that may impact our mix of earnings in countries with differing statutory tax rates.

Failure of our contractors or our licensees' contractors to comply with our code of conduct, local laws and other standards could harm our business.

We have license agreements that permit independent parties to manufacture or contract for the manufacture of products using our intellectual property. We require the contractors that directly manufacture our products and our licensees that make products using our intellectual property (including, indirectly, their contract manufacturers) to comply with a code of conduct and other environmental, human rights, health and safety standards for the benefit of workers. We also require our contract manufacturers and the contractors of our licensees to comply with applicable standards for product safety. Notwithstanding their contractual obligations, from time to time contractors may not comply with such standards or applicable local law or our licensees may fail to enforce such standards or applicable local law on their contractors. If one or more of our direct or indirect contractors violates or fails to comply with, or is accused of violating or failing to comply with, such standards and laws, this could harm our reputation or result in a product recall and, as a result, could have an adverse effect on our sales and financial condition. Negative publicity regarding production methods, alleged unethical or illegal practices or workplace or related conditions of any of our suppliers, manufacturers or licensees could adversely affect our brand image and sales, force us to locate alternative suppliers, manufacturers or licenses or result in the imposition of additional regulations, including new or additional quotas, tariffs, sanctions, product safety regulations or other regulatory measures, by governmental authorities.

Risks Related to Our Securities, Investments and Liquidity**Our financial results may be adversely affected if substantial investments in businesses and operations fail to produce expected returns.**

From time to time, we may invest in technology, business infrastructure, new businesses or capabilities, product offering and manufacturing innovation and expansion of existing businesses, such as our NIKE Direct operations, which require substantial cash investments and management attention. We believe cost-effective investments are essential to business growth and profitability; however, significant investments are subject to typical risks and uncertainties inherent in developing a new business or expanding an existing business. The failure of any significant investment to provide expected returns or profitability could have a material adverse effect on our financial results and divert management attention from more profitable business operations. See also *"Our NIKE Direct operations have required and will continue to require a substantial investment and commitment of resources and are subject to numerous risks and uncertainties."*

The sale of a large number of shares of common stock by our principal stockholder could depress the market price of our common stock.

As of June 30, 2022, Swoosh, LLC beneficially owned approximately 77% of our Class A Common Stock. If, on June 30, 2022, all of these shares were converted into Class B Common Stock, the commensurate ownership percentage of our Class B Common Stock would be approximately 16%. The shares are available for resale, subject to the requirements of the U.S. securities laws and the terms of the limited liability company agreement governing Swoosh, LLC. The sale or prospect of a sale of a substantial number of these shares could have an adverse effect on the market price of our common stock. Swoosh, LLC was formed by Philip H. Knight, our Chairman Emeritus, to hold the majority of his shares of Class A Common Stock. Mr. Knight does not have voting rights with respect to Swoosh, LLC, although Travis Knight, his son and a NIKE director, has a significant role in the management of the Class A Common Stock owned by Swoosh, LLC.

Changes in our credit ratings or macroeconomic conditions may affect our liquidity, increasing borrowing costs and limiting our financing options.

Our long-term debt is currently rated Investment Grade by Standard & Poor's and Moody's Investors Service. If our credit ratings are lowered, borrowing costs for our existing facilities or for future long-term debt or short-term credit facilities may increase and our financing options, including our access to credit or capital markets, could be adversely affected. We may also be subject to restrictive covenants that would reduce our flexibility to, among other things, incur additional indebtedness, make restricted payments, pledge assets as security, make investments, loans, advances, guarantees and acquisitions, undergo fundamental changes and enter into transactions with affiliates. Failure to comply with such covenants could result in a default, and as a result, the commitments of our lenders under our credit agreements may be terminated and the maturity of amounts owed may be accelerated. In addition, macroeconomic conditions, such as increased volatility or disruption in the credit markets, could adversely affect our ability to refinance existing debt.

If our internal controls are ineffective, our operating results could be adversely affected.

Our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls or fraud. Even effective internal controls can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. If we fail to maintain the adequacy of our internal controls, including any failure to implement required new or improved controls, or if we experience difficulties in their implementation, our business and operating results could be harmed and we could fail to meet our financial reporting obligations.

If our estimates or judgments relating to our critical accounting estimates prove to be incorrect, our operating results could be adversely affected.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances, as provided in "Management's Discussion and Analysis of Financial Condition and Results of Operations." The results of these estimates form the basis for making judgments about the carrying values of assets, liabilities and equity, and the amount of revenues and expenses that are not readily apparent from other sources. Significant assumptions and estimates used in preparing our consolidated financial statements include those related to revenue recognition, inventory reserves, contingent payments under endorsement contracts, accounting for property, plant and equipment and definite-lived assets, hedge accounting for derivatives, income taxes and other contingencies. Our operating results may be adversely affected if our assumptions change or if actual circumstances differ from those in our assumptions, which could cause our operating results to fall below the expectations of securities analysts and investors, resulting in a decline in the price of our Class B Common Stock.

Anti-takeover provisions may impair an acquisition of the Company or reduce the price of our common stock.

There are provisions within our articles of incorporation and Oregon law intended to protect shareholder interests by providing the Board of Directors a means to attempt to deny coercive takeover attempts or to negotiate with a potential acquirer in order to obtain more favorable terms. Such provisions include a control share acquisition statute, a freeze-out statute, two classes of stock that vote separately on certain issues, and the fact that holders of Class A Common Stock elect three-quarters of the Board of Directors rounded down to the next whole number. However, such provisions could discourage, delay or prevent an unsolicited merger, acquisition or other change in control of our company that some shareholders might believe to be in their best interests or in which shareholders might receive a premium for their common stock over the prevailing market price. These provisions could also discourage proxy contests for control of the Company.

We may fail to meet market expectations, which could cause the price of our stock to decline.

Our Class B Common Stock is traded publicly, and at any given time various securities analysts follow our financial results and issue reports on us. These reports include information about our historical financial results as well as analysts' opinions of our future performance, which may, in part, be based upon any guidance we have provided. Analysts' estimates are often different from our estimates or expectations. If our operating results are below the estimates or expectations of public market analysts and investors, our stock price could decline. In the past, securities class action litigation has been brought against NIKE and other companies following a decline in the market price of their securities. If our stock price is volatile for any reason, we may become involved in this type of litigation in the future. Any litigation could result in reputational damage, substantial costs and a diversion of management's attention and resources needed to successfully run our business.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The following is a summary of principal properties owned or leased by NIKE:

The NIKE World Campus, owned by NIKE and located near Beaverton, Oregon, USA, is an approximately 400-acre site consisting of over 40 buildings which, together with adjacent leased properties, functions as our world headquarters and is occupied by approximately 11,200 employees engaged in management, research, design, development, marketing, finance and other administrative functions serving nearly all of our segments. We lease a similar, but smaller, administrative facility in Hilversum, the Netherlands, which serves as the headquarters for our Europe, Middle East & Africa geography and management of certain brand functions for our non-U.S. operations. We also lease an office complex in Shanghai, China, our headquarters for our Greater China geography, occupied by employees focused on implementing our wholesale, NIKE Direct and merchandising strategies in the region, among other functions.

In the United States, NIKE has eight significant distribution centers. Five are located in or near Memphis, Tennessee, two of which are owned and three of which are leased. Two other distribution centers, one located in Indianapolis, Indiana and one located in Dayton, Tennessee, are leased and operated by third-party logistics providers. One distribution center for Converse is located in Ontario, California, which is leased. NIKE has a number of distribution facilities outside the United States, some of which are leased and operated by third-party logistics providers. The most significant distribution facilities outside the United States are located in Laakdal, Belgium; Taicang, China; Tomisato, Japan and Icheon, Korea, all of which we own, as well as in Suzhou, China, which is leased and operated by a third-party logistics provider.

Air Manufacturing Innovation manufactures cushioning components used in footwear at NIKE-owned and leased facilities located near Beaverton, Oregon, and in Dong Nai Province, Vietnam, as well as at NIKE-owned facilities in St. Charles, Missouri.

Aside from the principal properties described above, we lease many offices worldwide for sales and administrative purposes. We lease approximately 1,041 retail stores worldwide, which primarily consist of factory stores. See "United States Market" and "International Markets" for additional information regarding our retail stores. Our leases expire at various dates through the fiscal year 2043.

ITEM 3. LEGAL PROCEEDINGS

We do not believe there are any material pending legal proceedings, other than ordinary routine litigation incidental to our business, to which we are a party or of which any of our property is the subject. Refer to Note 18 — Commitments and Contingencies in the accompanying Notes to the Consolidated Financial Statements for further information.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

NIKE's Class B Common Stock is listed on the New York Stock Exchange and trades under the symbol NKE. At July 8, 2022, there were 22,214 holders of record of NIKE's Class B Common Stock and 15 holders of record of NIKE's Class A Common Stock. These figures do not include beneficial owners who hold shares in nominee name. The Class A Common Stock is not publicly traded, but each share is convertible upon request of the holder into one share of Class B Common Stock. Refer to our Consolidated Statements of Shareholders' Equity for dividends declared on the Class A and Class B Common Stock.

In June 2018, the Board of Directors approved a four-year, \$15 billion share repurchase program. As of May 31, 2022, the Company had repurchased a total of 77.4 million shares at an average price of \$111.98 per share for a total approximate cost of \$8.7 billion under this program.

In June 2022, the Board of Directors authorized a new four-year, \$18 billion program to repurchase shares of the Company's Class B common stock. The Company's new program will replace the current \$15 billion share repurchase program, which will be terminated in fiscal 2023. Repurchases under the Company's new program will be made in open market or privately negotiated transactions in compliance with the Securities and Exchange Commission Rule 10b-18, subject to market conditions, applicable legal requirements and other relevant factors. The new share repurchase program does not obligate the Company to acquire any particular amount of common stock, and it may be suspended at any time at the Company's discretion.

All share repurchases were made under NIKE's publicly announced program, and there are no other programs under which the Company repurchases shares. The following table presents a summary of share repurchases made during the quarter ended May 31, 2022:

PERIOD	TOTAL NUMBER OF SHARES PURCHASED	AVERAGE PRICE PAID PER SHARE	APPROXIMATE DOLLAR VALUE OF SHARES THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS (IN MILLIONS)
March 1 — March 31, 2022	3,729,125	\$ 129.76	\$ 6,915
April 1 — April 30, 2022	2,645,732	\$ 129.85	\$ 6,571
May 1 — May 31, 2022	2,078,150	\$ 112.74	\$ 6,337
	8,453,007	\$ 125.61	

PERFORMANCE GRAPH

The following graph demonstrates a five-year comparison of cumulative total returns for NIKE's Class B Common Stock; the Standard & Poor's 500 Stock Index; the Dow Jones U.S. Footwear Index; and the Standard & Poor's Apparel, Accessories & Luxury Goods Index. The graph assumes an investment of \$100 on May 31, 2017, in each of the indices and our Class B Common Stock. Each of the indices assumes that all dividends were reinvested on the day of issuance.

COMPARISON OF 5-YEAR CUMULATIVE TOTAL RETURN AMONG NIKE, INC.; S&P 500 INDEX; THE DOW JONES U.S. FOOTWEAR INDEX; AND S&P APPAREL, ACCESSORIES & LUXURY GOODS INDEX

The Dow Jones U.S. Footwear Index consists of NIKE, Crocs Inc., Deckers Outdoor Corporation and Skechers U.S.A., Inc. Because NIKE is part of the Dow Jones U.S. Footwear Index, the price and returns of NIKE stock have a substantial effect on this index. The Standard & Poor's Apparel, Accessories & Luxury Goods Index consists of PVH Corporation, Ralph Lauren Corporation, Tapestry, Inc., Under Armour, Inc. and V.F. Corporation. The Dow Jones U.S. Footwear Index and the Standard & Poor's Apparel, Accessories & Luxury Goods Index include companies in two major lines of business in which the Company competes. The indices do not encompass all of the Company's competitors, nor all product categories and lines of business in which the Company is engaged.

The stock performance shown on the performance graph above is not necessarily indicative of future performance. The Company will not make or endorse any predictions as to future stock performance.

The performance graph above is being furnished solely to accompany this Report pursuant to Item 201(e) of Regulation S-K, is not being filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not to be incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

ITEM 6. SELECTED FINANCIAL DATA

Not applicable.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NIKE designs, develops, markets and sells athletic footwear, apparel, equipment, accessories and services worldwide. We are the largest seller of athletic footwear and apparel in the world. We sell our products through NIKE Direct operations, which is comprised of both NIKE-owned retail stores and sales through our digital platforms (also referred to as "NIKE Brand Digital"), to retail accounts and to a mix of independent distributors, licensees and sales representatives in virtually all countries around the world. Our goal is to deliver value to our shareholders by building a profitable global portfolio of branded footwear, apparel, equipment and accessories businesses. Our strategy is to achieve long-term revenue growth by creating innovative, "must-have" products, building deep personal consumer connections with our brands and delivering compelling consumer experiences through digital platforms and at retail.

Through the Consumer Direct Acceleration, we are focusing on creating the marketplace of the future through more premium, consistent and seamless consumer experiences, leading with digital and our owned stores, as well as select wholesale partners that share our marketplace vision. Over the last several years, as we have executed against the Consumer Direct Acceleration, we have grown our NIKE Direct business to be approximately 42% of total NIKE Brand revenues for fiscal 2022, and we have reduced the number of wholesale accounts globally. Additionally, we have aligned our product creation and category organizations around a new consumer construct focused on Men's, Women's and Kids' and continue to invest in data and analytics, demand sensing, insight gathering, inventory management and other areas to create an end-to-end technology foundation, which we expect will further accelerate our digital transformation. We believe this unified approach will accelerate growth and unlock more efficiency for our business, while driving speed and responsiveness as we serve consumers globally.

During fiscal 2021, we substantially completed a series of leadership and operating model changes to streamline and speed up the strategic execution of the Consumer Direct Acceleration. These changes resulted in a net reduction of our global workforce and during fiscal 2021, we incurred pre-tax charges of \$294 million, which relate to employee termination costs and, to a lesser extent, stock-based compensation expense. For fiscal 2022, we recognized an immaterial amount of related employee termination costs and, to a lesser extent, stock-based compensation expense. We expect future annual wage-related savings will be reinvested to execute against this next phase of our strategy. For more information related to our organizational realignment and related costs, see Note 21 — Restructuring within the accompanying Notes to the Consolidated Financial Statements.

COVID-19 AND MARKET DYNAMICS UPDATE

The COVID-19 pandemic and its impacts on the global supply chain created volatility in our fiscal 2022 business results and operations globally. Despite these challenges, we achieved record Revenues for fiscal 2022, which increased 5% compared to the prior fiscal year with gross margin expansion of 120 basis points. Our NIKE Direct business continued its momentum, growing 14% and 15% on a reported and currency-neutral basis, respectively, led by North America, APLA and EMEA, partially offset by declines in Greater China due to a COVID-19 resurgence in the third and fourth quarters of fiscal 2022 as well as marketplace dynamics. During fiscal 2022, nearly all of our owned stores remained open across North America, EMEA and APLA. In Greater China however, due to a COVID-19 resurgence, we experienced a higher level of temporary store closures, with some operating on reduced hours, as well as lower physical traffic compared to pre-pandemic levels.

During the first quarter of fiscal 2022, the majority of NIKE Brand and Converse contract manufacturers in Vietnam and Indonesia were subject to government mandated shutdowns due to COVID-19. As a result of these closures, we lost approximately three months of production, impacting available product supply throughout fiscal 2022. Globally, nearly all of our supplier base is currently operational without restrictions and with factory production exceeding pre-closure production levels. In addition, our supply of available inventory continued to be impacted in the fourth quarter of fiscal 2022 as extended inventory transit times drove elevated levels of in-transit inventory. These supply chain impacts and a COVID-19 resurgence in Greater China, combined with other factors, caused Inventories to grow to \$8.4 billion, an increase of 23% compared to fiscal 2021.

We also experienced elevated transportation, logistics and fulfillment costs as a result of this dynamic environment, which partially offset gross margin expansion in fiscal 2022.

Inventory transit times as well as logistics and fulfillment costs are expected to remain elevated. We also expect product costs to remain elevated due to higher input costs. In the first quarter of fiscal 2023, we expect gross margin could be negatively impacted by increased promotional activity to sell seasonal product arriving late due to the combination of temporary factory closures at the beginning of fiscal 2022 and continued elevated transit times. To mitigate the impact across our business, our teams are continuing to leverage our operational playbook and taking actions where we can, including balancing inventory across our geographies, pricing actions and employing a seasonless approach to products. Despite these short-term dynamics, we believe our Consumer Direct Acceleration strategy continues to drive our business towards our long-term financial goals.

During fiscal 2022, we continued to invest in our digital transformation and brand campaigns as the world returned to sport, and we expect to maintain our multi-year investment plans in order to transform our business of the future.

We expect the operating environment could remain volatile in fiscal 2023 as there remains risk that COVID-19 variants may continue to cause disruption to our operations and could have a material adverse impact on future revenue growth as well as overall profitability.

For more information refer to Item 1A. Risk Factors, within Part I, Item 1. Business.

FISCAL 2022 OVERVIEW

In fiscal 2022, NIKE, Inc. achieved record Revenues of \$46.7 billion, which increased 5% and 6% on a reported and currency-neutral basis, respectively, driven by higher revenues in EMEA, North America and APLA, partially offset by declines in Greater China. The NIKE Brand, which represents over 90% of NIKE, Inc. Revenues, increased 5% and 6% on a reported and currency-neutral basis, respectively, compared to fiscal 2021. NIKE Direct grew 14% and 15%, on a reported and currency-neutral basis, respectively, driven by an increase of 18% in NIKE Brand Digital, as growth in North America, APLA and EMEA was partially offset by a decline in Greater China. Wholesale revenues declined 1% as declines in North America and Greater China were partially offset by growth in EMEA and APLA. Revenues for Converse increased 6% and 7%, on a reported and currency-neutral basis, respectively, led by double-digit growth in our direct to consumer business, partially offset by lower wholesale revenues.

Income before income taxes remained flat for fiscal 2022, as higher revenues and gross margin expansion were offset by higher selling and administrative expense. NIKE, Inc. gross margin increased 120 basis points, led by margin expansion in our NIKE Direct business, a higher mix of full-price sales and favorable changes in net foreign currency exchange rates, including hedges, partially offset by elevated freight and logistics costs and higher inventory obsolescence reserves primarily recognized in Greater China in the fourth quarter of fiscal 2022. Selling and administrative expense increased due to higher Operating overhead and Demand creation expense. Operating overhead expense increased primarily due to higher strategic technology investments as well as increases in wage-related expenses and NIKE Direct variable costs. This activity was partially offset by higher restructuring-related costs in the prior year related to our organizational realignment. For more information, see Note 21 — Restructuring within the accompanying Notes to the Consolidated Financial Statements. Demand creation expense increased primarily due to normalization of spend against brand campaigns and continued investments in digital marketing to support heightened digital demand. ROIC as of May 31, 2022 was 46.5% compared to 48.8% as of May 31, 2021. ROIC is considered a non-GAAP financial measure, see "Use of Non-GAAP Financial Measures" for further information.

During the fourth quarter of fiscal 2022, we entered into separate definitive agreements to sell our legal entities in Argentina and Uruguay as well as our legal entity in Chile to third-party distributors. The assets and liabilities of these entities will remain classified as held-for-sale on our Consolidated Balance Sheets until the transactions close, which is expected to occur prior to the end of the third quarter of fiscal 2023. For more information related to our planned distributor partnership transition within APLA, see Note 20 — Acquisitions and Divestitures within the accompanying Notes to the Consolidated Financial Statements. In future quarters, as we shift from a wholesale and direct to consumer operating model to a distributor operating model within these countries, we expect consolidated NIKE, Inc. and APLA revenue growth will be reduced due to differences in commercial terms. However, over time we expect the future operating model to have a favorable impact on our overall profitability as we reduce selling and administrative expenses, as well as lessen exposure to foreign exchange rate volatility.

Economic sanctions imposed on Russia during the fourth quarter of fiscal 2022, impacted our local business and a reduction in the Ruble liquidity affected our ability to manage operational impact and related foreign currency risk. As a result, we deconsolidated our Russian legal entities, the net revenues of which were less than one percent of consolidated net Revenues for fiscal 2021. The deconsolidation of our Russian legal entities resulted in a one-time, pre-tax charge of \$96 million recognized within Other (income) expense, net, classified within Corporate. Subsequent to the end of fiscal 2022, we made the decision to leave the Russian marketplace.

While foreign currency markets remain volatile, in part due to geopolitical dynamics which have led to a stronger U.S. Dollar, we continue to see opportunities to drive future growth and profitability. We remain committed to effectively managing our business and mitigating financial market risks to achieve our financial goals over the long-term by executing against the operational strategies outlined above.

For discussion related to the results of operations and changes in financial condition for fiscal 2021 compared to fiscal 2020 refer to Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our fiscal 2021 Form 10-K, which was filed with the United States Securities and Exchange Commission on July 20, 2021.

USE OF NON-GAAP FINANCIAL MEASURES

Throughout this Annual Report on Form 10-K, we discuss non-GAAP financial measures, including references to wholesale equivalent revenues, currency-neutral revenues, Total NIKE Brand earnings before interest and taxes (EBIT) and Total NIKE, Inc. EBIT, as well as EBIT Margin and ROIC, which should be considered in addition to, and not in lieu of, the financial measures calculated and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). References to wholesale equivalent revenues are intended to provide context as to the total size of our NIKE Brand market footprint if we had no NIKE Direct operations. NIKE Brand wholesale equivalent revenues consist of (1) sales to external wholesale customers and (2) internal sales from our wholesale operations to our NIKE Direct operations, which are charged at prices comparable to those charged to external wholesale customers. Additionally, currency-neutral revenues are calculated

using actual exchange rates in use during the comparative prior year period to enhance the visibility of the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations. EBIT is calculated as Net Income before Interest expense (income), net and Income tax expense in the Consolidated Statements of Income. EBIT Margin is calculated as EBIT divided by total NIKE, Inc. Revenues. ROIC represents a performance measure that management believes is useful information in understanding the Company's ability to effectively manage invested capital, see the table below for how the Company calculates this measure.

Management uses these non-GAAP financial measures when evaluating the Company's performance, including when making financial and operating decisions. Additionally, management believes these non-GAAP financial measures provide investors with additional financial information that should be considered when assessing our underlying business performance and trends. However, references to wholesale equivalent revenues, currency-neutral revenues, ROIC, EBIT and EBIT margin should not be considered in isolation or as a substitute for other financial measures calculated and presented in accordance with U.S. GAAP and may not be comparable to similarly titled non-GAAP measures used by other companies.

Our ROIC calculation as of May 31, 2022 and 2021 is as follows:

(Dollars in millions)	FOR THE TRAILING FOUR QUARTERS ENDED	
	MAY 31, 2022	MAY 31, 2021
Numerator		
Net income	\$ 6,046	\$ 5,727
Add: Interest expense (income), net	205	262
Add: Income tax expense	605	934
Earnings before interest and taxes	6,856	6,923
Income tax adjustment ⁽¹⁾	(624)	(970)
Earnings before interest and after taxes	\$ 6,232	\$ 5,953
	AVERAGE FOR THE TRAILING FIVE QUARTERS ENDED	
	MAY 31, 2022	MAY 31, 2021
Denominator		
Total debt ⁽²⁾	\$ 12,722	\$ 12,890
Add: Shareholders' equity	14,425	10,523
Less: Cash and equivalents and Short-term investments	13,748	11,217
Total invested capital	\$ 13,399	\$ 12,196
RETURN ON INVESTED CAPITAL	46.5 %	48.8 %

(1) Equals Earnings before interest and taxes multiplied by the effective tax rate as of the respective quarter end.

(2) Total debt includes the following: 1) Current portion of long-term debt, 2) Notes Payable, 3) Current portion of operating lease liabilities, 4) Long-term debt and 5) Operating lease liabilities.

(1) The percent change excluding currency changes and the presentation of wholesale equivalent revenues represent non-GAAP financial measures. See "Use of Non-GAAP Financial Measures" for further information.

(2) Global Brand Divisions revenues include NIKE Brand licensing and other miscellaneous revenues that are not part of a geographic operating segment.

(3) Corporate revenues primarily consist of foreign currency hedge gains and losses related to revenues generated by entities within the NIKE Brand geographic operating segments and Converse, but managed through our central foreign exchange risk management program.

(4) As a result of the Consumer Direct Acceleration strategy, announced in fiscal 2021, the Company is now organized around a new consumer construct of Men's, Women's and Kids'. Beginning in the first quarter of fiscal 2022, unisex products are classified within Men's, and Jordan Brand revenues are separately reported. Certain prior year amounts have been reclassified to conform to fiscal 2022 presentation. These changes had no impact on previously reported consolidated results of operations or shareholders' equity. For additional information about the Consumer Direct Acceleration refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations within the Company's Annual Report on Form 10-K for the fiscal year ended May 31, 2021.

(5) Others include products not allocated to Men's, Women's, NIKE Kids' and Jordan Brand, as well as certain adjustments that are not allocated to products designated by consumer.

FISCAL 2022 NIKE BRAND REVENUE HIGHLIGHTS

The following tables present NIKE Brand revenues disaggregated by reportable operating segment, distribution channel and major product line:

**FISCAL 2022 COMPARED TO FISCAL 2021**

On a currency-neutral basis, NIKE, Inc. Revenues increased 6% for fiscal 2022, driven by higher revenues in EMEA, North America and APLA, partially offset by lower revenues in Greater China. Higher revenues in EMEA and North America each contributed approximately 3 percentage points to NIKE, Inc. Revenues, and APLA contributed approximately 2 percentage points, while lower revenues in Greater China reduced NIKE, Inc. Revenues by approximately 2 percentage points.

On a currency-neutral basis, NIKE Brand footwear revenues increased 4% for fiscal 2022, driven by growth in NIKE Direct, partially offset by a decline in our wholesale business. Unit sales of footwear decreased 3%, while higher average selling price (ASP) per pair contributed approximately 7 percentage points of footwear revenue growth. Higher ASP per pair was primarily due to higher NIKE Direct ASP, the favorable impact of growth in our NIKE Direct business, higher full-price ASP, net of discounts, on a wholesale equivalent basis, and a higher mix of full-price sales.

Currency-neutral NIKE Brand apparel revenues increased 6% for fiscal 2022, driven primarily by growth in Men's. Unit sales of apparel remained flat, and higher ASP per unit contributed approximately 6 percentage points of apparel revenue growth. Higher ASP per unit was primarily due to higher full-price and NIKE Direct ASPs.

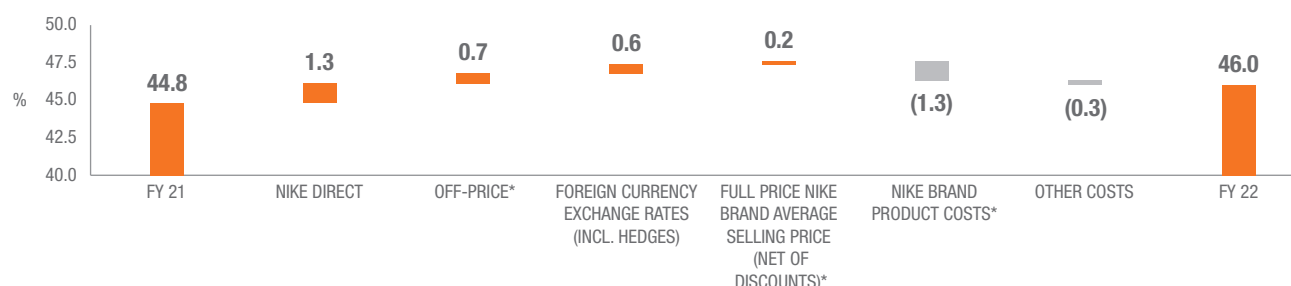

On a reported basis, NIKE Direct revenues represented approximately 42% of our total NIKE Brand revenues for fiscal 2022 compared to 39% for fiscal 2021. NIKE Brand Digital sales were \$10.7 billion for fiscal 2022 compared to \$9.1 billion for fiscal 2021. On a currency-neutral basis, NIKE Direct revenues increased 15% for fiscal 2022, driven by NIKE Brand Digital sales growth of 18%, comparable store sales growth of 10%, in part due to improved physical retail traffic, and the addition of new stores. Comparable store sales, which exclude NIKE Brand Digital sales, comprises revenues from NIKE-owned in-line and factory stores for which all three of the following requirements have been met: (1) the store has been open at least one year, (2) square footage has not changed by more than 15% within the past year and (3) the store has not been permanently repositioned within the past year. Comparable store sales includes revenues from stores that were temporarily closed during the period as a result of COVID-19. Comparable store sales represents a performance measure that we believe is useful information for management and investors in understanding the performance of our established NIKE-owned in-line and factory stores. Management considers this metric when making financial and operating decisions. The method of calculating comparable store sales varies across the retail industry. As a result, our calculation of this metric may not be comparable to similarly titled measures used by other companies.

On a currency-neutral basis, fiscal 2022 NIKE Brand revenue growth of 6% was primarily driven by increases in Men's and the Jordan Brand, which grew 3% and 7%, respectively.

GROSS MARGIN

FISCAL 2022 COMPARED TO FISCAL 2021

For fiscal 2022, our consolidated gross profit increased 8% to \$21,479 million compared to \$19,962 million for fiscal 2021. Gross margin increased 120 basis points to 46.0% for fiscal 2022 compared to 44.8% for fiscal 2021 due to the following:

*Wholesale equivalent

The increase in gross margin for fiscal 2022 was primarily due to higher margin in our NIKE Direct business, a higher mix of full-price sales on a wholesale equivalent basis and favorable changes in net foreign currency exchange rates, including hedges. This activity was partially offset by higher product costs on a wholesale equivalent basis, largely due to elevated freight and logistics costs as well as an increase in other costs primarily due to higher inventory obsolescence reserves recognized in Greater China in the fourth quarter of fiscal 2022.

TOTAL SELLING AND ADMINISTRATIVE EXPENSE

(Dollars in millions)	FISCAL 2022	FISCAL 2021	% CHANGE	FISCAL 2020	% CHANGE
Demand creation expense ⁽¹⁾	\$ 3,850	\$ 3,114	24%	\$ 3,592	-13%
Operating overhead expense	10,954	9,911	11%	9,534	4%
Total selling and administrative expense	\$ 14,804	\$ 13,025	14%	\$ 13,126	-1%
% of revenues	31.7%	29.2%	250 bps	35.1%	(590) bps

(1) Demand creation expense consists of advertising and promotion costs, including costs of endorsement contracts, complimentary product, television, digital and print advertising and media costs, brand events and retail brand presentation.

FISCAL 2022 COMPARED TO FISCAL 2021

Demand creation expense increased 24% for fiscal 2022, primarily due to higher advertising and marketing spend against brand campaigns as we experienced marketplace closures in the prior year due to COVID-19, as well as continued investments in digital marketing to support heightened digital demand. Changes in foreign currency exchange rates decreased Demand creation expense by approximately 1 percentage point.

Operating overhead expense increased 11% for fiscal 2022, primarily due to higher strategic technology investments and increases in wage-related expenses and NIKE Direct variable costs. This activity was partially offset by higher restructuring-related costs in the prior year related to our organizational realignment. For more information, see Note 21 — Restructuring within the accompanying Notes to the Consolidated Financial Statements. Changes in foreign currency exchange rates had an insignificant impact on Operating overhead expense.

OTHER (INCOME) EXPENSE, NET

(Dollars in millions)	FISCAL 2022	FISCAL 2021	FISCAL 2020
Other (income) expense, net	\$ (181)	\$ 14	\$ 139

Other (income) expense, net comprises foreign currency conversion gains and losses from the remeasurement of monetary assets and liabilities denominated in non-functional currencies and the impact of certain foreign currency derivative instruments, as well as unusual or non-operating transactions that are outside the normal course of business.

FISCAL 2022 COMPARED TO FISCAL 2021

Other (income) expense, net changed from \$14 million of other expense, net in fiscal 2021 to \$181 million of other income, net in the current year, primarily due to a \$219 million net favorable change in foreign currency conversion gains and losses, including hedges, as well as a net favorable impact related to our strategic distributor partnership transition within APLA, partially offset by the one-time charge related to the deconsolidation of our Russian operations.

For more information related to our distributor partnership transition within APLA, see Note 20 — Acquisitions and Divestitures within the accompanying Notes to the Consolidated Financial Statements.

We estimate the combination of the translation of foreign currency-denominated profits from our international businesses, and the year-over-year change in foreign currency-related gains and losses included in Other (income) expense, net had a favorable impact on our Income before income taxes of \$132 million for fiscal 2022.

INCOME TAXES

	FISCAL 2022	FISCAL 2021	% CHANGE	FISCAL 2020	% CHANGE
Effective tax rate	9.1%	14.0%	(490) bps	12.1%	190 bps

FISCAL 2022 COMPARED TO FISCAL 2021

Our effective tax rate was 9.1% for fiscal 2022, compared to 14.0% for fiscal 2021, primarily due to a shift in our earnings mix and recognition of a non-cash, one-time benefit related to the onshoring of certain non-U.S. intangible property ownership rights in the fourth quarter of fiscal 2022.

OPERATING SEGMENTS

Our operating segments are evidence of the structure of the Company's internal organization. The NIKE Brand segments are defined by geographic regions for operations participating in NIKE Brand sales activity.

Each NIKE Brand geographic segment operates predominantly in one industry: the design, development, marketing and selling of athletic footwear, apparel and equipment. The Company's reportable operating segments for the NIKE Brand are: North America; Europe, Middle East & Africa (EMEA); Greater China; and Asia Pacific & Latin America (APLA), and include results for the NIKE and Jordan brands. The Company's NIKE Direct operations are managed within each geographic operating segment. Converse is also a reportable operating segment for the Company and operates predominately in one industry: the design, marketing, licensing and selling of athletic lifestyle sneakers, apparel and accessories.

As part of our centrally managed foreign exchange risk management program, standard foreign currency exchange rates are assigned twice per year to each NIKE Brand entity in our geographic operating segments and Converse. These rates are set approximately nine and twelve months in advance of the future selling seasons to which they relate (specifically, for each currency, one standard rate applies to the fall and holiday selling seasons and one standard rate applies to the spring and summer selling seasons) based on average market spot rates in the calendar month preceding the date they are established. Inventories and Cost of sales for geographic operating segments and Converse reflect the use of these standard rates to record non-functional currency product purchases into the entity's functional currency. Differences between assigned standard foreign currency exchange rates and actual market rates are included in Corporate, together with foreign currency hedge gains and losses generated from our centrally managed foreign exchange risk management program and other conversion gains and losses.

The breakdown of Revenues is as follows:

(Dollars in millions)	FISCAL 2022	FISCAL 2021	% CHANGE	% CHANGE EXCLUDING CURRENCY CHANGES ⁽¹⁾	FISCAL 2020	% CHANGE	% CHANGE EXCLUDING CURRENCY CHANGES ⁽¹⁾
North America	\$ 18,353	\$ 17,179	7%	7%	\$ 14,484	19%	19%
Europe, Middle East & Africa	12,479	11,456	9%	12%	9,347	23%	17%

Corporate ⁽⁴⁾	(72)	40	—	—	(11)	—	—
TOTAL NIKE, INC. REVENUES	\$ 46,710	\$ 44,538	5%	6%	\$ 37,403	19%	17%

(1) The percent change excluding currency changes represents a non-GAAP financial measure. See "Use of Non-GAAP Financial Measures" for further information.

(2) Refer to Note 20 — Acquisitions and Divestitures within the accompanying Notes to the Consolidated Financial Statements for additional information on the transition of our NIKE Brand business in Brazil to a third-party distributor.

(3) Global Brand Divisions revenues include NIKE Brand licensing and other miscellaneous revenues that are not part of a geographic operating segment.

(4) Corporate revenues primarily consist of foreign currency hedge gains and losses related to revenues generated by entities within the NIKE Brand geographic operating segments and Converse, but managed through our central foreign exchange risk management program.

The primary financial measure used by the Company to evaluate performance of individual operating segments is EBIT, which represents Net income before Interest expense (income), net and Income tax expense in the Consolidated Statements of Income. As discussed in Note 17 — Operating Segments and Related Information in the accompanying Notes to the Consolidated Financial Statements, certain corporate costs are not included in EBIT of our operating segments.

The breakdown of earnings before interest and taxes is as follows:

(Dollars in millions)	FISCAL 2022	FISCAL 2021	% CHANGE	FISCAL 2020	% CHANGE

EARNINGS BEFORE INTEREST AND TAXES	\$ 5,114	\$ 5,089	0%		\$ 2,899	76%	

FISCAL 2022 COMPARED TO FISCAL 2021

On a currency-neutral basis, North America revenues increased 7%, due primarily to higher revenues in Men's and the Jordan Brand. NIKE Direct revenues increased 25%, driven by strong digital sales growth of 30%, comparable store sales growth of 17% and the addition of new stores.

Footwear revenues increased 5% on a currency-neutral basis, driven by growth in NIKE Direct, partially offset by a decline in our wholesale business. Unit sales of footwear decreased 4%, while higher ASP per pair contributed approximately 9 percentage points of footwear revenue growth. Higher ASP per pair was primarily due to higher NIKE Direct ASP, the favorable impact of growth in our NIKE Direct business and a higher mix of full-price sales.

On a currency-neutral basis, apparel revenues increased 9%, driven primarily by higher revenues in Men's. Unit sales of apparel decreased 2%, while higher ASP per unit contributed approximately 11 percentage points of apparel revenue growth. The increase in ASP per unit was primarily driven by higher full-price and NIKE Direct ASPs as well as a higher mix of full-price sales.

Reported EBIT remained flat as higher revenues were offset by higher selling and administrative expense and gross margin contraction. Gross margin decreased approximately 10 basis points, largely due to higher product and other costs, partially offset by higher margins and the favorable impact of growth in our NIKE Direct business, a higher mix of full-price sales and higher full-price ASP, net of discounts, primarily due to strategic pricing actions. Higher product and other costs were primarily due to increased freight, logistics and warehousing costs. Selling and administrative expense increased due to higher demand creation and operating overhead expense. Demand creation expense increased primarily as a result of higher advertising and marketing expense, as well as higher digital marketing investments. The increase in operating overhead expense reflected higher wage-related costs as well as an increase in NIKE Direct variable costs.

FISCAL 2022 COMPARED TO FISCAL 2021

On a currency-neutral basis, EMEA revenues for fiscal 2022 grew 12%, due primarily to higher revenues in Men's, the Jordan Brand and Women's. NIKE Direct revenues increased 15%, primarily due to comparable store sales growth of 30% due to improved physical retail traffic, in part resulting from temporary store closures and safety-related measures in response to COVID-19 in the prior year, as well as digital sales growth of 8%.

Currency-neutral footwear revenues increased 9%, driven by higher revenues in the Jordan Brand and Men's. Unit sales of footwear decreased 1%, while higher ASP per pair contributed approximately 10 percentage points of footwear revenue growth. Higher ASP per pair was primarily due to higher NIKE Direct and full-price ASPs as well as a higher mix of full-price sales.

Currency-neutral apparel revenues increased 16% due primarily to higher revenues in Men's and Women's. Unit sales of apparel increased 9%, while higher ASP per unit contributed approximately 7 percentage points of apparel revenue growth, primarily due to higher full-price and NIKE Direct ASPs.

Reported EBIT increased 35% as gross margin expansion and higher revenues more than offset higher selling and administrative expense. Gross margin increased approximately 570 basis points primarily due to higher NIKE Direct margins, favorable changes in standard foreign currency exchange rates, a higher mix of full-price sales and higher full-price ASP, net of discounts, partially offset by higher product costs. Higher full-price ASP, net of discounts, was largely due to strategic pricing actions, while higher product costs were primarily due to increased freight and logistics costs. Selling and administrative expense increased due to higher demand creation and operating overhead expense. Higher demand creation expense was driven by higher advertising and marketing expense. Higher operating overhead expense was primarily due to increases in wage-related expenses and professional services.

FISCAL 2022 COMPARED TO FISCAL 2021

On a currency-neutral basis, Greater China revenues for fiscal 2022 decreased 13%, reflecting impacts from supply chain constraints, government restrictions due to COVID-19 as well as marketplace dynamics. The decrease in revenues was primarily due to lower revenues in Men's and Women's. NIKE Direct revenues decreased 12% due to digital sales declines of 15% and comparable store sales declines of 14%, in part due to reduced physical retail traffic as a result of government restrictions due to COVID-19 as well as ongoing marketplace dynamics, partially offset by the addition of new stores.

Currency-neutral footwear revenues decreased 10%, driven primarily by lower revenues in Men's and Women's. Unit sales of footwear decreased 7%, while lower ASP per pair reduced footwear revenues by approximately 3 percentage points, driven by lower NIKE Direct and full-price ASPs, reflecting higher discounts.

Currency-neutral apparel revenues decreased 21%, due primarily to lower revenues in Men's and Women's. Unit sales of apparel decreased 15%, while lower ASP per unit reduced apparel revenues by approximately 6 percentage points, primarily due to lower NIKE Direct and full-price ASPs, reflecting higher discounts.

Reported EBIT decreased 27% due to lower revenues, gross margin contraction and higher selling and administrative expense. Gross margin decreased approximately 390 basis points, reflecting impacts from COVID-19 related government restrictions which reduced physical retail traffic and led to higher inventory obsolescence reserves recognized primarily in the fourth quarter of fiscal 2022. The decrease in gross margin was also largely due to higher product costs and lower NIKE Direct margins. This activity was partially offset by favorable changes in standard foreign currency exchange rates. Selling and administrative expense increased due to higher demand creation and operating overhead expense. Growth in demand creation expense was primarily due to higher advertising and marketing expense. Operating overhead expense increased largely due to higher wage-related costs and higher strategic technology investments.

As discussed previously, our NIKE Brand business in Brazil transitioned to a distributor operating model during fiscal 2021. During the fourth quarter of fiscal 2022, we signed separate definitive agreements to sell our legal entities in Argentina and Uruguay as well as our legal entity in Chile to third-party distributors. The assets and liabilities of our legal entities in Argentina, Chile and Uruguay will remain classified as held-for-sale on the Consolidated Balance Sheets until the transactions close, which is expected to occur prior to the end of the third quarter of fiscal 2023. The impacts of closing the Brazil transaction as well as classifying the Argentina, Chile, and Uruguay entities as held-for-sale in fiscal 2020 are included within Corporate and are not reflected in the APLA operating segment results. For more information see Note 20 — Acquisitions and Divestitures within the accompanying Notes to the Consolidated Financial Statements.

FISCAL 2022 COMPARED TO FISCAL 2021

On a currency-neutral basis, APLA revenues increased 16% for fiscal 2022. The increase was due to higher revenues across nearly all territories, driven by SOCO (which comprises Argentina, Chile and Uruguay), Mexico and Korea, which increased 58%, 35% and 16%, respectively. Revenues increased primarily due to higher revenues in Men's and Women's. NIKE Direct revenues increased 30%, primarily due to digital sales growth of 51% and comparable store sales growth of 13%, in part due to improved physical retail traffic, partially offset by store closures.

Currency-neutral footwear revenues increased 17% for fiscal 2022 in part due to higher revenues in Women's and Men's. Unit sales of footwear increased 2%, while higher ASP per pair contributed approximately 15 percentage points of footwear revenue growth. Higher ASP per pair was driven by higher NIKE Direct ASP, higher full-price ASP, reflecting lower discounts, higher off-price ASP and a higher mix of full-price sales. Higher ASPs, in part, reflect inflationary conditions in our SOCO territory.

Currency-neutral apparel revenues increased 12% for fiscal 2022 due primarily to higher revenues in Men's. Unit sales of apparel increased 3%, while higher ASP per unit contributed approximately 9 percentage points of apparel revenue growth, driven by higher full-price ASP, reflecting lower discounts, as well as higher NIKE Direct and off-price ASPs. Higher ASPs, in part, reflect inflationary conditions in our SOCO territory.

Reported EBIT increased 24% for fiscal 2022, as higher revenues and gross margin expansion more than offset higher selling and administrative expense. Gross margin increased approximately 400 basis points primarily due to higher margins and the favorable impact of growth in our NIKE Direct business, higher full-price ASP largely due to lower discounts, favorable changes in standard foreign currency exchange rates, lower other costs as well as a higher mix of full-price sales. The decrease in other costs was primarily due to lower warehousing costs. Selling and administrative expense increased due to higher demand creation and operating overhead expense. Higher demand creation expense was primarily due to higher digital marketing investments to support heightened digital demand. The increase in operating overhead expense was primarily due to an increase in NIKE Direct variable expenses as well as higher bad debt expense.

GLOBAL BRAND DIVISIONS

(Dollars in millions)	FISCAL 2022	FISCAL 2021	% CHANGE	% CHANGE EXCLUDING CURRENCY CHANGES	FISCAL 2020	% CHANGE	% CHANGE EXCLUDING CURRENCY CHANGES
Revenues	\$ 102	\$ 25	308%	302%	\$ 30	-17%	-17%
Earnings (Loss) Before Interest and Taxes	\$ (4,262)	\$ (3,656)	-17%		\$ (3,468)	-5%	

Global Brand Divisions primarily represent demand creation and operating overhead expense, including product creation and design expenses that are centrally managed for the NIKE Brand, as well as costs associated with NIKE Direct global digital operations and enterprise technology. Global Brand Divisions revenues include NIKE Brand licensing and other miscellaneous revenues that are not part of a geographic operating segment.

FISCAL 2022 COMPARED TO FISCAL 2021

Global Brand Divisions' loss before interest and taxes increased 17% for fiscal 2022 due to higher total selling and administrative expense, driven by higher operating overhead and demand creation expense. Higher operating overhead expense was primarily due to an increase in strategic technology investments, continued investment in digital capabilities and higher wage-related expenses. Higher demand creation expense was primarily due to higher advertising and marketing expense and higher sports marketing costs.

CONVERSE

(1) Other revenues consist of territories serviced by third-party licensees who pay royalties to Converse for the use of its registered trademarks and other intellectual property rights. We do not own the Converse trademarks in Japan and accordingly do not earn revenues in Japan.

FISCAL 2022 COMPARED TO FISCAL 2021

On a currency-neutral basis, Converse revenues increased 7% for fiscal 2022 due to revenue growth in North America, Western Europe and licensee markets, partially offset by declines in Asia. Direct to consumer revenues increased 22%, led by strong digital demand. Wholesale revenues decreased 4%, primarily due to ongoing marketplace dynamics in China as well as global supply chain constraints. Combined unit sales within the wholesale and direct to consumer channels decreased 6%, while ASP increased 12%, driven by growth in direct to consumer.

Reported EBIT increased 23%, driven by gross margin expansion and higher revenues, partially offset by higher selling and administrative expense. Gross margin increased approximately 360 basis points as higher margins in direct to consumer, growth in licensee revenues, favorable changes in standard foreign currency exchange rates, and higher full-price ASP, net of discounts, were partially offset by higher product costs due to increased freight, duty and logistics costs. Selling and administrative expense increased due to higher demand creation and operating overhead expense. Demand creation expense increased primarily due to higher advertising and marketing expense, while operating overhead increased primarily due to higher professional services costs.

CORPORATE

<i>(Dollars in millions)</i>	FISCAL 2022	FISCAL 2021	% CHANGE	FISCAL 2020	% CHANGE
Revenues	\$ (72)	\$ 40	—	\$ (11)	—
Earnings (Loss) Before Interest and Taxes	\$ (2,219)	\$ (2,261)	2%	\$ (1,967)	-15%

Corporate revenues primarily consist of foreign currency hedge gains and losses related to revenues generated by entities within the NIKE Brand geographic operating segments and Converse, but managed through our central foreign exchange risk management program.

The Corporate loss before interest and taxes primarily consists of unallocated general and administrative expenses, including expenses associated with centrally managed departments; depreciation and amortization related to our corporate headquarters; unallocated insurance, benefit and compensation programs, including stock-based compensation; and certain foreign currency gains and losses.

In addition to the foreign currency gains and losses recognized in Corporate revenues, foreign currency results in Corporate include gains and losses resulting from the difference between actual foreign currency exchange rates and standard rates used to record non-functional currency denominated product purchases within the NIKE Brand geographic operating segments and Converse; related foreign currency hedge results; conversion gains and losses arising from remeasurement of monetary assets and liabilities in non-functional currencies; and certain other foreign currency derivative instruments.

FISCAL 2022 COMPARED TO FISCAL 2021

Corporate's loss before interest and taxes decreased \$42 million during fiscal 2022, primarily due to the following:

- a favorable change in net foreign currency gains and losses of \$219 million related to the remeasurement of monetary assets and liabilities denominated in non-functional currencies and the impact of certain foreign currency derivative instruments, reported as a component of consolidated Other (income) expense, net;
- an unfavorable change of \$190 million related to the difference between actual foreign currency exchange rates and standard foreign currency exchange rates assigned to the NIKE Brand geographic operating segments and Converse, net of hedge gains and losses; these results are reported as a component of consolidated gross margin; and
- a favorable change of \$13 million largely due to higher restructuring-related costs associated with our organizational realignment in the prior year and, to a lesser extent, a net favorable impact related to our strategic distributor partnership transition within APLA in the current year, partially offset by the one-time charge related to the deconsolidation of our Russian operations and higher administrative and wage-related expenses in fiscal 2022.

FOREIGN CURRENCY EXPOSURES AND HEDGING PRACTICES

OVERVIEW

As a global company with significant operations outside the United States, in the normal course of business we are exposed to risk arising from changes in currency exchange rates. Our primary foreign currency exposures arise from the recording of transactions denominated in non-functional currencies and the translation of foreign currency denominated results of operations, financial position and cash flows into U.S. Dollars.

Our foreign exchange risk management program is intended to lessen both the positive and negative effects of currency fluctuations on our consolidated results of operations, financial position and cash flows. We manage global foreign exchange risk centrally on a portfolio basis to address those risks material to NIKE, Inc. We manage these exposures by taking advantage of natural offsets and currency correlations existing within the portfolio and, where practical and material, by hedging a portion of the remaining exposures using derivative instruments such as forward contracts and options. As described below, the implementation of the NIKE Trading Company (NTC) and our foreign currency adjustment program enhanced our ability to manage our foreign exchange risk by increasing the natural offsets and currency correlation benefits existing within our portfolio of foreign exchange exposures. Our hedging policy is designed to partially or entirely offset the impact of exchange rate changes on the underlying net exposures being hedged. Where exposures are hedged, our program has the effect of delaying the impact of exchange rate movements on our Consolidated Financial Statements; the length of the delay is dependent upon hedge horizons. We do not hold or issue derivative instruments for trading or speculative purposes.

Refer to Note 6 — Fair Value Measurements and Note 14 — Risk Management and Derivatives in the accompanying Notes to the Consolidated Financial Statements for additional description of outstanding derivatives at each reported period end.

TRANSACTIONAL EXPOSURES

We conduct business in various currencies and have transactions which subject us to foreign currency risk. Our most significant transactional foreign currency exposures are:

- **Product Costs** — NIKE's product costs are exposed to fluctuations in foreign currencies in the following ways:
 1. **Product purchases** denominated in currencies other than the functional currency of the transacting entity:
 - a. Certain NIKE entities purchase product from the NTC, a wholly-owned sourcing hub that buys NIKE branded products from third-party factories, predominantly in U.S. Dollars. The NTC, whose functional currency is the U.S. Dollar, then sells the products to NIKE entities in their respective functional currencies. NTC sales to a NIKE entity with a different functional currency results in a foreign currency exposure for the NTC.
 - b. Other NIKE entities purchase product directly from third-party factories in U.S. Dollars. These purchases generate a foreign currency exposure for those NIKE entities with a functional currency other than the U.S. Dollar.

In both purchasing scenarios, a weaker U.S. Dollar reduces inventory costs incurred by NIKE whereas a stronger U.S. Dollar increases its cost.

2. **Factory input costs:** NIKE operates a foreign currency adjustment program with certain factories. The program is designed to more effectively manage foreign currency risk by assuming certain of the factories' foreign currency exposures, some of which are natural offsets to our existing foreign currency exposures. Under this program, our payments to these factories are adjusted for rate fluctuations in the basket of currencies ("factory currency exposure index") in which the labor, materials and overhead costs incurred by the factories in the production of NIKE branded products ("factory input costs") are denominated.

For the currency within the factory currency exposure indices that is the local or functional currency of the factory, the currency rate fluctuation affecting the product cost is recorded within Inventories and is recognized in Cost of sales when the related product is sold to a third-party. All currencies within the indices, excluding the U.S. Dollar and the local or functional currency of the factory, are recognized as embedded derivative contracts and are recorded at fair value through Other (income) expense, net. Refer to Note 14 — Risk Management and Derivatives in the accompanying Notes to the Consolidated Financial Statements for additional detail.

As an offset to the impacts of the fluctuating U.S. Dollar on our non-functional currency denominated product purchases described above, a strengthening U.S. Dollar against the foreign currencies within the factory currency exposure indices reduces NIKE's U.S. Dollar inventory cost. Conversely, a weakening U.S. Dollar against the indexed foreign currencies increases our inventory cost.

- **Non-Functional Currency Denominated External Sales** — A portion of our NIKE Brand and Converse revenues associated with European operations are earned in currencies other than the Euro (e.g., the British Pound) but are recognized at a subsidiary that uses the Euro as its functional currency. These sales generate a foreign currency exposure.
- **Other Costs** — Non-functional currency denominated costs, such as endorsement contracts, also generate foreign currency risk, though to a lesser extent. In certain cases, the Company has entered into contractual agreements which have payments indexed to foreign currencies that create embedded derivative contracts recorded at fair value through Other (income) expense, net. Refer to Note 14 — Risk Management and Derivatives in the accompanying Notes to the Consolidated Financial Statements for additional detail.
- **Non-Functional Currency Denominated Monetary Assets and Liabilities** — Our global subsidiaries have various assets and liabilities, primarily receivables and payables, including intercompany receivables and payables, denominated in currencies other than their functional currencies. These balance sheet items are subject to remeasurement which may create fluctuations in Other (income) expense, net within our consolidated results of operations.

MANAGING TRANSACTIONAL EXPOSURES

Transactional exposures are managed on a portfolio basis within our foreign currency risk management program. We manage these exposures by taking advantage of natural offsets and currency correlations that exist within the portfolio and may also elect to use currency forward and option contracts to hedge the remaining effect of exchange rate fluctuations on probable forecasted future cash flows, including certain product cost exposures, non-functional currency denominated external sales and other costs described above. Generally, these are accounted for as cash flow hedges, except for hedges of the embedded derivative components of the product cost exposures and other contractual agreements.

Certain currency forward contracts used to manage the foreign exchange exposure of non-functional currency denominated monetary assets and liabilities subject to remeasurement, and embedded derivative contracts are not formally designated as hedging instruments. Accordingly, changes in fair value of these instruments are recognized in Other (income) expense, net and are intended to offset the foreign currency impact of the remeasurement of the related non-functional currency denominated asset or liability or the embedded derivative contract being hedged.

TRANSLATIONAL EXPOSURES

Many of our foreign subsidiaries operate in functional currencies other than the U.S. Dollar. Fluctuations in currency exchange rates create volatility in our reported results as we are required to translate the balance sheets, operational results and cash flows of these subsidiaries into U.S. Dollars for consolidated reporting. The translation of foreign subsidiaries' non-U.S. Dollar denominated balance sheets into U.S. Dollars for consolidated reporting results in a cumulative translation adjustment to Accumulated other comprehensive income (loss) within Shareholders' equity. In the translation of our Consolidated Statements of Income, a weaker U.S. Dollar in relation to foreign functional currencies benefits our consolidated earnings whereas a stronger U.S. Dollar reduces our consolidated earnings. The impact of foreign exchange rate fluctuations on the translation of our consolidated Revenues was a detriment of approximately \$295 million, a benefit of approximately \$893 million and a detriment of approximately \$867 million for the years ended May 31, 2022, 2021 and 2020, respectively. The impact of foreign exchange rate fluctuations on the translation of our Income before income taxes was a detriment of approximately \$87 million, a benefit of approximately \$260 million and a detriment of approximately \$212 million for the years ended May 31, 2022, 2021 and 2020, respectively.

Management generally identifies hyper-inflationary markets as those markets whose cumulative inflation rate over a three-year period exceeds 100%. Management has concluded our Argentina subsidiary within our APLA operating segment is operating in a hyper-inflationary market. As a result, beginning in the second quarter of fiscal 2019, the functional currency of our Argentina subsidiary changed from the local currency to the U.S. Dollar. As of and for the period ended May 31, 2022, this change did not have a material impact on our results of operations or financial condition, and we do not anticipate it will have a material impact in future periods based on current rates.

MANAGING TRANSLATIONAL EXPOSURES

To minimize the impact of translating foreign currency denominated revenues and expenses into U.S. Dollars for consolidated reporting, certain foreign subsidiaries use excess cash to purchase U.S. Dollar denominated available-for-sale investments. The variable future cash flows associated with the purchase and subsequent sale of these U.S. Dollar denominated investments at non-U.S. Dollar functional currency subsidiaries creates a foreign currency exposure that qualifies for hedge accounting under U.S. GAAP. We utilize forward contracts and/or options to mitigate the variability of the forecasted future purchases and sales of these U.S. Dollar investments. The combination of the purchase and sale of the U.S. Dollar investment and the hedging instrument has the effect of partially offsetting the year-over-year foreign currency translation impact on net earnings in the period the investments are sold. Hedges of the purchase of U.S. Dollar denominated available-for-sale investments are accounted for as cash flow hedges.

We estimate the combination of translation of foreign currency-denominated profits from our international businesses and the year-over-year change in foreign currency related gains and losses included in Other (income) expense, net had favorable impacts of approximately \$132 million and \$19 million and an unfavorable impact of approximately \$91 million on our Income before income taxes for the years ended May 31, 2022, 2021 and 2020, respectively.

NET INVESTMENTS IN FOREIGN SUBSIDIARIES

We are also exposed to the impact of foreign exchange fluctuations on our investments in wholly-owned foreign subsidiaries denominated in a currency other than the U.S. Dollar, which could adversely impact the U.S. Dollar value of these investments and therefore the value of future repatriated earnings. We have, in the past, hedged and may, in the future, hedge net investment positions in certain foreign subsidiaries to mitigate the effects of foreign exchange fluctuations on these net investments. These hedges are accounted for as net investment hedges in accordance with U.S. GAAP. There were no outstanding net investment hedges as of May 31, 2022 and 2021. There were no cash flows from net investment hedge settlements for the years ended May 31, 2022, 2021 and 2020.

LIQUIDITY AND CAPITAL RESOURCES

CASH FLOW ACTIVITY

Cash provided (used) by operations was an inflow of \$5,188 million for fiscal 2022 compared to \$6,657 million for fiscal 2021. Net income, adjusted for non-cash items, generated \$6,848 million of operating cash inflow for fiscal 2022 compared to \$6,612 million for fiscal 2021. The net change in working capital and other assets and liabilities resulted in a decrease to Cash provided (used) by operations of \$1,660 million for fiscal 2022, compared to an increase of \$45 million for fiscal 2021. The net change in working capital was unfavorably impacted by a \$2,183 million increase in Inventories, partially offset by a favorable impact from a \$1,102 million decrease in Accounts receivable. These changes were, in part, due to supply chain constraints, which caused higher levels of in-transit inventory and therefore a lower supply of available inventory to meet consumer demand.

Cash provided (used) by investing activities was an outflow of \$1,524 million for fiscal 2022, compared to an outflow of \$3,800 million for fiscal 2021, primarily driven by the net change in short-term investments. During fiscal 2022, the net change in short-term investments (including sales, maturities and purchases) resulted in a cash outflow of \$747 million compared to a cash outflow of \$3,276 million in fiscal 2021. Additionally, during fiscal 2022, we continued investing in our infrastructure to support future growth, specifically focused around digital capabilities, our end-to-end technology foundation, our corporate facilities and improvements across our supply chain. In future periods, we expect to make annual capital expenditures of approximately 3% of annual revenues.

Cash provided (used) by financing activities was an outflow of \$4,836 million for fiscal 2022 compared to an outflow of \$1,459 million for fiscal 2021. This change was driven by our resumption of the share repurchase program in the fourth quarter of fiscal 2021, resulting in \$4,014 million of share repurchases during fiscal 2022 compared to \$608 million during fiscal 2021.

In fiscal 2022, we purchased 27.3 million shares of NIKE's Class B Common Stock for \$3,994 million (an average price of \$146.11 per share) under the four-year, \$15 billion share repurchase program approved by the Board of Directors in June 2018. As of May 31, 2022, we had repurchased 77.4 million shares at a cost of \$8,663 million (an average price of \$111.98 per share) under this program. In June 2022, the Board of Directors authorized a new four-year, \$18 billion program to repurchase shares of the Company's Class B common stock. The new program will replace the current \$15 billion share repurchase program, which will be terminated in fiscal 2023. Repurchases under the new program will be made in open market or privately negotiated transactions in compliance with the Securities and Exchange Commission Rule 10b-18, subject to market conditions, applicable legal requirements and other relevant factors. The new share repurchase program does not obligate the Company to acquire any particular amount of common stock, and it may be suspended at any time at our discretion. We continue to expect funding of share repurchases will come from operating cash flows and excess cash. The timing and the amount of share repurchases will be dictated by our capital needs and stock market conditions.

CAPITAL RESOURCES

On July 23, 2019, we filed a shelf registration statement (the "Shelf") with the U.S. Securities and Exchange Commission (SEC) which permits us to issue an unlimited amount of debt securities from time to time. The Shelf expires on July 23, 2022, and we plan to file a new shelf registration statement with the SEC in July 2022.

On March 11, 2022, we entered into a 364-day committed credit facility agreement with a syndicate of banks which provides for up to \$1 billion of borrowings, with the option to increase borrowings up to \$1.5 billion in total with lender approval. The facility matures on March 10, 2023, with an option to extend the maturity date an additional 364 days. This facility replaces the prior \$1 billion 364-day credit facility agreement entered into on March 15, 2021, which would have matured on March 14, 2022. Refer to Note 7 — Short-Term Borrowings and Credit Lines for additional information.

On March 11, 2022, we also entered into a five-year committed credit facility agreement with a syndicate of banks which provides for up to \$2 billion of borrowings, with the option to increase borrowings up to \$3 billion in total with lender approval. The facility matures on March 11, 2027, with options to extend the maturity date up to an additional two years. This facility replaces the prior \$2 billion five-year credit facility agreement entered into on August 16, 2019, which would have matured on August 16, 2024. Refer to Note 7 — Short-Term Borrowings and Credit Lines for additional information.

We currently have long-term debt ratings of AA- and A1 from Standard and Poor's Corporation and Moody's Investor Services, respectively. As it relates to our committed credit facilities entered into on March 11, 2022, if our long-term debt ratings were to decline, the facility fees and interest rates would increase. Conversely, if our long-term debt ratings were to improve, the facility fees and interest rates would decrease. Changes in our long-term debt ratings would not trigger acceleration of maturity of any then-outstanding borrowings or any future borrowings under the committed credit facilities. Under these facilities, we have agreed to various covenants. These covenants include limits on our disposal of assets and the amount of debt secured by liens we may incur. In the event we were to have any borrowings outstanding under these facilities, failed to meet any covenant and were unable to obtain a waiver from a majority of the banks in the syndicate, any borrowings would become immediately due and

payable. As of May 31, 2022, we were in full compliance with each of these covenants and believe it is unlikely we will fail to meet any of these covenants in the foreseeable future.

Liquidity is also provided by our \$3 billion commercial paper program. As of and for the fiscal year ended May 31, 2022, we did not have any borrowings outstanding under our \$3 billion program. As of May 31, 2021, we had no commercial paper outstanding.

We may continue to issue commercial paper or other debt securities depending on general corporate needs.

To date, we have not experienced difficulty accessing the credit markets; however, future volatility in the capital markets may increase costs associated with issuing commercial paper or other debt instruments or affect our ability to access those markets.

As of May 31, 2022, we had cash, cash equivalents and short-term investments totaling \$13.0 billion, primarily consisting of commercial paper, corporate notes, deposits held at major banks, money market funds, U.S. government sponsored enterprise obligations, U.S. Treasury obligations and other investment grade fixed-income securities. Our fixed-income investments are exposed to both credit and interest rate risk. All of our investments are investment grade to minimize our credit risk. While individual securities have varying durations, as of May 31, 2022, the weighted-average days to maturity of our cash equivalents and short-term investments portfolio was 113 days.

We believe that existing cash, cash equivalents, short-term investments and cash generated by operations, together with access to external sources of funds as described above, will be sufficient to meet our domestic and foreign capital needs in the foreseeable future.

Our material cash requirements as of May 31, 2022, were as follows:

- Debt Obligations — Refer to Note 7 — Short-Term Borrowings and Credit Lines and Note 8 — Long-Term Debt in the accompanying Notes to the Consolidated Financial Statements for further information.
- Operating Leases — Refer to Note 19 — Leases in the accompanying Notes to the Consolidated Financial Statements for further information.
- Endorsement Contracts — As of May 31, 2022, we had endorsement contract obligations of \$7.6 billion, with \$1.3 billion payable within 12 months, representing approximate amounts of base compensation and minimum guaranteed royalty fees we are obligated to pay athlete, public figure, sport team and league endorsers of our products. Actual payments under some contracts may be higher than these amounts as these contracts provide for bonuses to be paid to the endorsers based upon athletic achievements and/or royalties on product sales in future periods. Actual payments under some contracts may also be lower as these contracts include provisions for reduced payments if athletic performance declines in future periods. In addition to the cash payments, we are obligated to furnish our endorsers with NIKE product for their use. It is not possible to determine how much we will spend on this product on an annual basis as the amount of product provided to the endorsers will depend on many factors and the contracts generally do not stipulate a minimum amount of cash to be spent on the product.
- Product Purchase Obligations — As of May 31, 2022, we had product purchase obligations of \$6.6 billion, all of which are payable within the next 12 months. Product purchase obligations represent agreements (including open purchase orders) to purchase products in the ordinary course of business that are enforceable and legally binding and specify all significant terms. We generally order product at least four to five months in advance of sale based primarily on advanced orders received from external wholesale customers and internal orders from our direct to consumer operations. In some cases, prices are subject to change throughout the production process.
- Other Purchase Obligations — As of May 31, 2022, we had \$3.1 billion of other purchase obligations, with \$1.7 billion payable within the next 12 months. Other purchase obligations primarily include technology investments, construction, service and marketing commitments, including marketing commitments associated with endorsement contracts, made in the ordinary course of business. The amounts represent the minimum payments required by legally binding contracts and agreements that specify all significant terms, and may include open purchase orders for non-product purchases.

In addition to the above, we have long-term obligations for uncertain tax positions and various post-retirement benefits for which we are not able to reasonably estimate when cash payments will occur. Refer to Note 9 — Income Taxes and Note 13 — Benefit Plans in the accompanying Notes to the Consolidated Financial Statements for further information related to uncertain tax positions and post-retirement benefits, respectively.

As a part of the transition tax related to the Tax Cuts and Jobs Act, as of May 31, 2022, we had \$730 million in estimated future cash payments, with \$86 million payable within the next 12 months. These amounts represent the transition tax on deemed repatriation of undistributed earnings of foreign subsidiaries, which are reflected net of foreign tax credits we utilized. Refer to Part II, Item 8. Financial Statements and Supplementary Data, Note 9 - Income Taxes, in our fiscal 2020 Form 10-K, which was filed with the United States Securities and Exchange Commission on July 24, 2020, for additional information.

Refer to Note 18 — Commitments and Contingencies in the accompanying Notes to the Consolidated Financial Statements for further information related to our off-balance sheet arrangements, bank guarantees and letters of credit.

OFF-BALANCE SHEET ARRANGEMENTS

In connection with various contracts and agreements, we routinely provide indemnification relating to the enforceability of intellectual property rights, coverage for legal issues that arise and other items where we are acting as the guarantor. Currently, we have several such agreements in place. Based on our historical experience and the estimated probability of future loss, we have determined that the fair value of such indemnification is not material to our financial position or results of operations.

NEW ACCOUNTING PRONOUNCEMENTS

We do not expect that any recently issued accounting pronouncements will have a material effect on our Consolidated Financial Statements.

CRITICAL ACCOUNTING ESTIMATES

Our previous discussion and analysis of our financial condition and results of operations are based upon our Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Note 1 — Summary of Significant Accounting Policies in the accompanying Notes to the Consolidated Financial Statements describes the significant accounting policies and methods used in the preparation of our Consolidated Financial Statements.

We believe the assumptions and judgments involved in the accounting estimates described below have the greatest potential impact on our Consolidated Financial Statements, so we consider these to be our critical accounting estimates. Management has reviewed and discussed these critical accounting estimates with the Audit & Finance Committee of the Board of Directors.

These policies require that we make estimates in the preparation of our Consolidated Financial Statements as of a given date. Because of the uncertainty inherent in these matters, actual results could differ from the estimates we use in applying the critical accounting estimates. Within the context of these critical accounting estimates, we are not currently aware of any reasonably likely events or circumstances that would result in materially different amounts being reported.

REVENUE RECOGNITION

Revenue is recognized when transfer of control to the customer has occurred, which is either upon shipment or upon receipt, depending on the terms of sale. The transaction price is determined based upon the invoiced sales price, less anticipated sales returns, discounts and miscellaneous claims from customers.

The provision for anticipated sales returns consists of both contractual return rights and discretionary authorized returns. Provisions for post-invoice sales discounts consist of both contractual programs and discretionary discounts that are expected to be granted at a later date.

Estimates of discretionary authorized returns, discounts and claims are based on (1) historical rates, (2) specific identification of outstanding returns not yet received from customers and outstanding discounts and claims and (3) estimated returns, discounts and claims expected but not yet finalized with customers. Actual returns, discounts and claims in any future period are inherently uncertain and may differ from estimates recorded. If actual or expected future returns, discounts or claims were significantly different than reserves established, a reduction or increase to net revenues would be recorded in the period in which such determination was made.

Refer also to Note 1 — Summary of Significant Accounting Policies and Note 16 — Revenues in the accompanying Notes to the Consolidated Financial Statements for additional information.

INVENTORY RESERVES

We make ongoing estimates relating to the net realizable value of inventories based upon our assumptions about future demand and market conditions. If we estimate the net realizable value of our inventory is less than the cost of the inventory recorded on our books, we record a reserve equal to the difference between the cost of the inventory and the estimated net realizable value. This reserve is recorded as a charge to Cost of sales. If changes in market conditions result in reductions to the estimated net realizable value of our inventory below our previous estimate, we would increase our reserve in the period in which we made such a determination.

CONTINGENT PAYMENTS UNDER ENDORSEMENT CONTRACTS

A significant amount of our Demand creation expense relates to payments under endorsement contracts. In general, endorsement payments are expensed on a straight-line basis over the term of the contract. However, certain contract elements may be accounted for differently based upon the facts and circumstances of each individual contract.

Certain contracts provide for contingent payments to endorsers based upon specific achievements in their sports (e.g., winning a championship). We record Demand creation expense for these amounts when the endorser achieves the specific goal.

Certain contracts provide for variable payments based upon endorsers maintaining a level of performance in their sport over an extended period of time (e.g., maintaining a specified ranking in a sport for a year). When we determine payments are probable, the amounts are reported in Demand creation expense ratably over the contract period based on our best estimate of the endorser's performance. In these instances, to the extent actual payments to the endorser differ from our estimate due to changes in the endorser's performance, adjustments to Demand creation expense may be recorded in a future period.

Certain contracts provide for royalty payments to endorsers based upon a predetermined percent of sales of particular products, which we record in Cost of sales as the related sales occur. For contracts containing minimum guaranteed royalty payments, we record the amount of any guaranteed payment in excess of that earned through sales of product within Demand creation expense.

PROPERTY, PLANT AND EQUIPMENT AND DEFINITE-LIVED ASSETS

We review the carrying value of long-lived assets or asset groups to be used in operations whenever events or changes in circumstances indicate the carrying amount of the assets might not be recoverable. Factors that would necessitate an impairment assessment include a significant adverse change in the extent or manner in which an asset is used, a significant adverse change in legal factors or the business climate that could affect the value of the asset or a significant decline in the observable market value of an asset, among others. If such facts indicate a potential impairment, we would assess the recoverability of an asset group by determining if the carrying value of the asset group exceeds the sum of the projected undiscounted cash flows expected to result from the use and eventual disposition of the assets over the remaining economic life of the primary asset in the asset group. If the recoverability test indicates the carrying value of the asset group is not recoverable, we will estimate the fair value of the asset group using appropriate valuation methodologies that would typically include an estimate of discounted cash flows. Any impairment would be measured as the difference between the asset group's carrying amount and its estimated fair value.

HEDGE ACCOUNTING FOR DERIVATIVES

We use derivative contracts to hedge certain anticipated foreign currency and interest rate transactions as well as certain non-functional currency monetary assets and liabilities. When the specific criteria to qualify for hedge accounting has been met, changes in the fair value of contracts hedging probable forecasted future cash flows are recorded in Accumulated other comprehensive income (loss), rather than Net income, until the underlying hedged transaction affects Net income. In most cases, this results in gains and losses on hedge derivatives being released from Accumulated other comprehensive income (loss) into Net income sometime after the maturity of the derivative. One of the criteria for this accounting treatment is that the notional value of these derivative contracts should not be in excess of the designated amount of anticipated transactions. By their very nature, our estimates of anticipated transactions may fluctuate over time and may ultimately vary from actual transactions. When the designated amount of anticipated or actual transactions decline below hedged levels, or if it is no longer probable a forecasted transaction will occur by the end of the originally specified time period or within an additional two-month period of time thereafter, we are required to reclassify the cumulative change in fair value of the over-hedged portion of the related hedge contract from Accumulated other comprehensive income (loss) to Other (income) expense, net during the quarter in which the decrease occurs. In rare circumstances, the additional period of time may exceed two months due to extenuating circumstances related to the nature of the forecasted transaction that are outside our control or influence.

INCOME TAXES

We are subject to taxation in the United States, as well as various state and foreign jurisdictions. The determination of our provision for income taxes requires significant judgment, the use of estimates and the interpretation and application of complex tax laws. On an interim basis, we estimate our effective tax rate for the full fiscal year. This estimated annual effective tax rate is then applied to the year-to-date Income before income taxes excluding infrequently occurring or unusual items, to determine the year-to-date Income tax expense. The income tax effects of infrequent or unusual items are recognized in the interim period in which they occur. As the fiscal year progresses, we continually refine our estimate based upon actual events and earnings by jurisdiction during the year. This continual estimation process periodically results in a change to our expected effective tax rate for the fiscal year. When this occurs, we adjust the income tax provision during the quarter in which the change in estimate occurs.

We record valuation allowances against our deferred tax assets, when necessary. Realization of deferred tax assets (such as net operating loss carry-forwards) is dependent on future taxable earnings and is therefore uncertain. At least quarterly, we assess the likelihood that our deferred tax asset balance will be recovered from future taxable income. To the extent we believe that recovery is not likely, we establish a valuation allowance against our net deferred tax asset, which increases our Income tax expense in the period when such determination is made.

We historically had not provided for deferred income taxes on the undistributed earnings of certain foreign subsidiaries as they were considered indefinitely reinvested outside the U.S. During the fourth quarter of fiscal 2022, in connection with a change in our legal entity structure that reduced the withholding tax consequences of a decision to remit undistributed earnings in the Netherlands, we changed our assertion regarding our ability and intent to indefinitely reinvest undistributed earnings of certain foreign subsidiaries. We have evaluated our historic indefinite reinvestment assertion as a result of the legal entity restructuring and determined that any historical or future undistributed earnings of foreign subsidiaries are no longer considered to be indefinitely reinvested. There is no deferred tax liability associated with those earnings.

On a quarterly basis, we evaluate the probability a tax position will be effectively sustained and the appropriateness of the amount recognized for uncertain tax positions based on factors including changes in facts or circumstances, changes in tax law, settled audit issues and new audit activity. Changes in our assessment may result in the recognition of a tax benefit or an additional charge to the tax provision in the period our assessment changes. We recognize interest and penalties related to income tax matters in Income tax expense.

Refer to Note 9 — Income Taxes in the accompanying Notes to the Consolidated Financial Statements for additional information.

OTHER CONTINGENCIES

In the ordinary course of business, we are involved in legal proceedings regarding contractual and employment relationships, product liability claims, trademark rights and a variety of other matters. We record contingent liabilities resulting from claims against us when a loss is assessed to be probable and the amount of the loss is reasonably estimable. Assessing probability of loss and estimating probable losses requires analysis of multiple factors, including in some cases judgments about the potential actions of third-party claimants and courts. Recorded contingent liabilities are based on the best information available and actual losses in any future period are inherently uncertain. If future adjustments to estimated probable future losses or actual losses exceed our recorded liability for such claims, we would record additional charges during the period in which the actual loss or change in estimate occurred. In addition to contingent liabilities recorded for probable losses, we disclose contingent liabilities when there is a reasonable possibility the ultimate loss will materially exceed the recorded liability.

Refer to Note 18 — Commitments and Contingencies in the accompanying Notes to the Consolidated Financial Statements for additional information.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business and consistent with established policies and procedures, we employ a variety of financial instruments to manage exposure to fluctuations in the value of foreign currencies and interest rates. It is our policy to utilize these financial instruments only where necessary to finance our business and manage such exposures; we do not enter into these transactions for trading or speculative purposes.

We are exposed to foreign currency fluctuations, primarily as a result of our international sales, product sourcing and funding activities. Our foreign exchange risk management program is intended to lessen both the positive and negative effects of currency fluctuations on our consolidated results of operations, financial position and cash flows. We use forward and option contracts to hedge certain anticipated, but not yet firmly committed, transactions as well as certain firm commitments and the related receivables and payables, including third-party and intercompany transactions. We have, in the past, and may in the future, also use forward or options contracts to hedge our investment in the net assets of certain international subsidiaries to offset foreign currency translation adjustments related to our net investment in those subsidiaries. Where exposures are hedged, our program has the effect of delaying the impact of exchange rate movements on our Consolidated Financial Statements.

The timing for hedging exposures, as well as the type and duration of the hedge instruments employed, are guided by our hedging policies and determined based upon the nature of the exposure and prevailing market conditions. Typically, the Company may enter into hedge contracts starting up to 12 to 24 months in advance of the forecasted transaction and may place incremental hedges up to 100% of the exposure by the time the forecasted transaction occurs. The majority of derivatives outstanding as of May 31, 2022, are designated as foreign currency cash flow hedges, primarily for Euro/U.S. Dollar, British Pound/Euro, Chinese Yuan/U.S. Dollar, and Japanese Yen/U.S. Dollar currency pairs. Refer to Note 14 — Risk Management and Derivatives in the accompanying Notes to the Consolidated Financial Statements for additional information.

Our earnings are also exposed to movements in short- and long-term market interest rates. Our objective in managing this interest rate exposure is to limit the impact of interest rate changes on earnings and cash flows and to reduce overall borrowing costs. To achieve these objectives, we maintain a mix of commercial paper, bank loans, and fixed-rate debt of varying maturities.

MARKET RISK MEASUREMENT

We monitor foreign exchange risk, interest rate risk and related derivatives using a variety of techniques including a review of market value, sensitivity analysis and Value-at-Risk (“VaR”). Our market-sensitive derivative and other financial instruments are foreign currency forward contracts, foreign currency option contracts, intercompany loans denominated in non-functional currencies and fixed interest rate U.S. Dollar denominated debt.

We use VaR to monitor the foreign exchange risk of our foreign currency forward and foreign currency option derivative instruments only. The VaR determines the maximum potential one-day loss in the fair value of these foreign exchange rate-sensitive financial instruments. The VaR model estimates assume normal market conditions and a 95% confidence level. There are various modeling techniques that can be used in the VaR computation. Our computations are based on interrelationships between currencies and interest rates (a “variance/co-variance” technique). These interrelationships are a function of foreign exchange currency market changes and interest rate changes over the preceding one-year period. The value of foreign currency options does not change on a one-to-one basis with changes in the underlying currency rate. We adjust the potential loss in option value for the estimated sensitivity (the “delta” and “gamma”) to changes in the underlying currency rate. This calculation reflects the impact of foreign currency rate fluctuations on the derivative instruments only and does not include the impact of such rate fluctuations on non-functional currency transactions (such as anticipated transactions, firm commitments, cash balances and accounts and loans receivable and payable), including those which are hedged by these instruments.

The VaR model is a risk analysis tool and does not purport to represent actual losses in fair value we will incur nor does it consider the potential effect of favorable changes in market rates. It also does not represent the full extent of the possible loss that may occur. Actual future gains and losses will differ from those estimated because of changes or differences in market rates and interrelationships, hedging instruments and hedge percentages, timing and other factors.

The estimated maximum one-day loss in fair value on our foreign currency sensitive derivative financial instruments, derived using the VaR model, was \$99 million and \$92 million as of May 31, 2022 and 2021, respectively. The VaR increased year-over-year as a result of an increase in foreign currency volatilities as of May 31, 2022. Such a hypothetical loss in the fair value of our derivatives would be offset by increases in the value of the underlying transactions being hedged. The average monthly change in the fair values of foreign currency forward and foreign currency option derivative instruments was \$170 million and \$184 million during fiscal 2022 and fiscal 2021, respectively.

The instruments not included in the VaR are intercompany loans denominated in non-functional currencies and fixed interest rate U.S. Dollar denominated debt. Intercompany loans and related interest amounts are eliminated in consolidation. Furthermore, our non-functional currency intercompany loans are substantially hedged against foreign exchange risk through the use of forward contracts, which are included in the VaR calculation above. Therefore, we consider the interest rate and foreign currency market risks associated with our non-functional currency intercompany loans to be immaterial to our consolidated financial position, results of operations and cash flows.

Details of third-party debt are provided in the table below. The table presents principal cash flows and related weighted average interest rates by expected maturity dates.

	EXPECTED MATURITY DATE YEAR ENDING MAY 31,							
(Dollars in millions)	2023	2024	2025	2026	2027	THEREAFTER	TOTAL	FAIR VALUE
Interest Rate Risk								
Long-term U.S. Dollar debt — Fixed rate								
Principal payments	\$ 500	\$ —	\$1,000	\$ —	\$2,000	\$ 6,000	\$ 9,500	\$ 8,933
Average interest rate	2.3 %	0.0 %	2.4 %	0.0 %	2.6 %	3.3 %	3.0 %	

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Management of NIKE, Inc. is responsible for the information and representations contained in this report. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include certain amounts based on our best estimates and judgments. Other financial information in this report is consistent with these financial statements.

Our accounting systems include controls designed to reasonably assure assets are safeguarded from unauthorized use or disposition and provide for the preparation of financial statements in conformity with U.S. GAAP. These systems are supplemented by the selection and training of qualified financial personnel and an organizational structure providing for appropriate segregation of duties.

An internal corporate audit department reviews the results of its work with the Audit & Finance Committee of the Board of Directors, presently comprised of three outside, independent directors. The Audit & Finance Committee is responsible for the appointment of the independent registered public accounting firm and reviews, with the independent registered public accounting firm, management and the internal corporate audit staff, the scope and the results of the annual audit, the effectiveness of the accounting control system and other matters relating to the financial affairs of NIKE as the Audit & Finance Committee deems appropriate. The independent registered public accounting firm and the internal corporate auditors have full access to the Audit & Finance Committee, with and without the presence of management, to discuss any appropriate matters.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13(a) - 15(f) and Rule 15(d) - 15(f) of the Securities Exchange Act of 1934, as amended. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets of the Company that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based upon the framework in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on the results of our evaluation, our management concluded that our internal control over financial reporting was effective as of May 31, 2022.

PricewaterhouseCoopers LLP, an independent registered public accounting firm, has audited (1) the Consolidated Financial Statements and (2) the effectiveness of our internal control over financial reporting as of May 31, 2022, as stated in their report herein.

John J. Donahoe II

President and Chief Executive Officer

Matthew Friend

Executive Vice President and Chief Financial Officer

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of NIKE, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of NIKE, Inc. and its subsidiaries (the “Company”) as of May 31, 2022 and 2021, and the related consolidated statements of income, of comprehensive income, of shareholders' equity and of cash flows for each of the three years in the period ended May 31, 2022, including the related notes and financial statement schedule listed in the index appearing under Item 15(a)(2) (collectively referred to as the “consolidated financial statements”). We also have audited the Company's internal control over financial reporting as of May 31, 2022, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of May 31, 2022 and 2021, and the results of its operations and its cash flows for each of the three years in the period ended May 31, 2022 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of May 31, 2022, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, the Company changed the manner in which it accounts for leases as of June 1, 2019.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Accounting for Income Taxes

As described in Notes 1 and 9 to the consolidated financial statements, the Company recorded income tax expense of \$605 million for the year ended May 31, 2022, and has net deferred tax assets of \$1,665 million, including a valuation allowance of \$19 million, and total gross unrecognized tax benefits, excluding related interest and penalties, of \$848 million as of May 31, 2022, \$626 million of which would affect the Company's effective tax rate if recognized in future periods. The realization of deferred tax assets is dependent on future taxable earnings. Management assesses the scheduled reversal of deferred tax liabilities, projected future taxable income and available tax planning strategies and considers foreign tax credit utilization in making this assessment of realization. A valuation allowance is established against the net deferred tax asset to the extent that recovery is not likely. The Company is subject to taxation in the United States, as well as various state and foreign jurisdictions. As disclosed by management, the use of significant judgment and estimates, as well as the interpretation and application of complex tax laws is required by management to determine the Company's provision for income taxes.

The principal considerations for our determination that performing procedures relating to the accounting for income taxes is a critical audit matter are a high degree of auditor judgment, subjectivity and effort in performing procedures and evaluating audit evidence relating to (i) management's assessment of complex tax laws and regulations as it relates to determining the provision for income taxes and (ii) management's assessment of the realizability of deferred tax assets, specifically related to available tax planning strategies. In addition, the audit effort involved the use of professionals with specialized skill and knowledge.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to income taxes, including controls over management's assessment of the realizability of deferred tax assets. These procedures also included, among others, evaluating the effect on the Company's tax provision of changes in its legal entity structure, evaluating changes in and compliance with tax laws, and testing the calculation of the provision of income taxes, including assessing management's tax planning strategies for the utilization of deferred tax assets. Professionals with specialized skill and knowledge were used to assist in evaluating changes in and compliance with the tax laws and regulations and the provision for income taxes.

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

DESCRIPTION OF BUSINESS

NIKE, Inc. is a worldwide leader in the design, development and worldwide marketing and selling of athletic footwear, apparel, equipment, accessories and services. NIKE, Inc. portfolio brands include the NIKE Brand, Jordan Brand, Hurley, prior to its divestiture in fiscal 2020, and Converse. The NIKE Brand is focused on performance athletic footwear, apparel, equipment, accessories and services across Men's, Women's and Kids', amplified with sport-inspired lifestyle products carrying the Swoosh trademark, as well as other NIKE Brand trademarks. The Jordan Brand is focused on athletic and casual footwear, apparel and accessories using the Jumpman trademark. Sales and operating results of Jordan Brand products are reported within the respective NIKE Brand geographic operating segments. Sales and operating results of Hurley brand products, prior to its divestiture in fiscal 2020, were reported within the NIKE Brand's North America geographic operating segment. Refer to Note 20 — Acquisitions and Divestitures for information regarding the divestiture of the Company's wholly-owned subsidiary, Hurley. Converse designs, distributes, licenses and sells casual sneakers, apparel and accessories under the Converse, Chuck Taylor, All Star, One Star, Star Chevron and Jack Purcell trademarks. In some markets outside the U.S., these trademarks are licensed to third parties who design, distribute, market and sell similar products. Operating results of the Converse brand are reported on a stand-alone basis.

BASIS OF CONSOLIDATION

The Consolidated Financial Statements include the accounts of NIKE, Inc. and its subsidiaries (the "Company" or "NIKE"). All significant intercompany transactions and balances have been eliminated.

Economic sanctions imposed on Russia during the fourth quarter of fiscal 2022, impacted the Company's local business and a reduction in the Ruble liquidity affected the Company's ability to manage operational impact and related foreign currency risk. As a result, the Company deconsolidated its Russian legal entities, which resulted in a one-time, pre-tax charge of \$96 million recognized within Other (income) expense, net, classified within Corporate. Subsequent to the end of fiscal 2022, the Company made the decision to leave the Russian marketplace.

REVENUE RECOGNITION

Revenue transactions associated with the sale of NIKE Brand footwear, apparel and equipment, as well as Converse products, comprise a single performance obligation, which consists of the sale of products to customers either through wholesale or direct to consumer channels. The Company satisfies the performance obligation and records revenues when transfer of control to the customer has occurred, based on the terms of sale. A customer is considered to have control once they are able to direct the use and receive substantially all of the benefits of the product.

Control is transferred to wholesale customers upon shipment or upon receipt depending on the country of the sale and the agreement with the customer. Control transfers to retail store customers at the time of sale and to substantially all digital commerce customers upon shipment. The transaction price is determined based upon the invoiced sales price, less anticipated sales returns, discounts and miscellaneous claims from customers. Payment terms for wholesale transactions depend on the country of sale or agreement with the customer and payment is generally required within 90 days or less of shipment to or receipt by the wholesale customer. Payment is due at the time of sale for retail store and digital commerce transactions.

Consideration for trademark licensing contracts is earned through sales-based or usage-based royalty arrangements, and the associated revenues are recognized over the license period.

Taxes assessed by governmental authorities that are both imposed on and concurrent with a specific revenue-producing transaction, and are collected by the Company from a customer, are excluded from Revenues and Cost of sales in the Consolidated Statements of Income. Shipping and handling costs associated with outbound freight after control over a product has transferred to a customer are accounted for as fulfillment costs and are included in Cost of sales when the related revenues are recognized.

SALES-RELATED RESERVES

Consideration promised in the Company's contracts with customers is variable due to anticipated reductions, such as sales returns, discounts and miscellaneous claims from customers. The Company estimates the most likely amount it will be entitled to receive and records an anticipated reduction against Revenues, with an offsetting increase to Accrued liabilities at the time revenues are recognized. The estimated cost of inventory for product returns is recorded in Prepaid expenses and other current assets on the Consolidated Balance Sheets.

The provision for anticipated sales returns consists of both contractual return rights and discretionary authorized returns. Provisions for post-invoice sales discounts consist of both contractual programs and discretionary discounts that are expected to be granted at a later date.

Estimates of discretionary authorized returns, discounts and claims are based on (1) historical rates, (2) specific identification of outstanding returns not yet received from customers and outstanding discounts and claims and (3) estimated returns, discounts and claims expected but not yet finalized with customers. Actual returns, discounts and claims in any future period are inherently uncertain and thus may differ from estimates recorded. If actual or expected future returns, discounts or claims are significantly greater or lower than the reserves established, a reduction or increase to net Revenues is recorded in the period in which such determination is made.

COST OF SALES

Cost of sales consists primarily of inventory costs, as well as warehousing costs (including the cost of warehouse labor), third-party royalties, certain foreign currency hedge gains and losses and product design costs. Shipping and handling costs are expensed as incurred and included in Cost of sales.

DEMAND CREATION EXPENSE

Demand creation expense consists of advertising and promotion costs, including costs of endorsement contracts, complimentary products, television, digital and print advertising as well as media costs, brand events and retail brand presentation. Advertising production costs are expensed the first time an advertisement is run. Advertising media costs are expensed when the advertisement appears. Costs related to brand events are expensed when the event occurs. Costs related to retail brand presentation are expensed when the presentation is complete and delivered.

A significant amount of the Company's promotional expenses result from payments under endorsement contracts. In general, endorsement payments are expensed on a straight-line basis over the term of the contract. However, certain contracts contain elements that may be accounted for differently based upon the facts and circumstances of each individual contract. Prepayments made under contracts are included in Prepaid expenses and other current assets or Deferred income taxes and other assets depending on the period to which the prepayment applies.

Certain contracts provide for contingent payments to endorsers based upon specific achievements in their sport (e.g., winning a championship). The Company records Demand creation expense for these amounts when the endorser achieves the specific goal.

Certain contracts provide for variable payments based upon endorsers maintaining a level of performance in their sport over an extended period of time (e.g., maintaining a specified ranking in a sport for a year). When the Company determines payments are probable, the amounts are reported in Demand creation expense ratably over the contract period based on the Company's best estimate of the endorser's performance. In these instances, to the extent actual payments to the endorser differ from the Company's estimate due to changes in the endorser's performance, adjustments to Demand creation expense may be recorded in a future period.

Certain contracts provide for royalty payments to endorsers based upon a predetermined percent of sales of particular products, which the Company records in Cost of sales as the related sales occur. For contracts containing minimum guaranteed royalty payments, the Company records the amount of any guaranteed payment in excess of that earned through sales of product within Demand creation expense.

Through cooperative advertising programs, the Company reimburses its wholesale customers for certain costs of advertising the Company's products. To the extent the Company receives a distinct good or service in exchange for consideration paid to the customer does not exceed the fair value of that good or service, the amounts reimbursed are recorded in Demand creation expense.

Total advertising and promotion expenses, which the Company refers to as Demand creation expense, were \$3,850 million, \$3,114 million and \$3,592 million for the years ended May 31, 2022, 2021 and 2020, respectively. Prepaid advertising and promotion expenses totaled \$773 million and \$630 million at May 31, 2022 and 2021, respectively, of which \$329 million and \$338 million, respectively, were recorded in Prepaid expenses and other current assets, and \$444 million and \$292 million, respectively, were recorded in Deferred income taxes and other assets, depending on the period to which the prepayment applied.

OPERATING OVERHEAD EXPENSE

Operating overhead expense consists primarily of wage and benefit-related expenses, research and development costs, bad debt expense as well as other administrative expenses such as rent, depreciation and amortization, professional services, certain technology investments, meetings and travel.

CASH AND EQUIVALENTS

Cash and equivalents represent cash and short-term, highly liquid investments, that are both readily convertible to known amounts of cash and so near their maturity they present insignificant risk of changes in value because of changes in interest rates, with maturities three months or less at the date of purchase.

SHORT-TERM INVESTMENTS

Short-term investments consist of highly liquid investments with maturities over 90 days at the date of purchase. At May 31, 2022 and 2021, Short-term investments consisted of available-for-sale debt securities, which are recorded at fair value with unrealized gains and losses reported, net of tax, in Accumulated other comprehensive income (loss), unless unrealized losses are determined to be unrecoverable. Realized gains and losses on the sale of securities are determined by specific identification. The Company considers all available-for-sale debt securities, including those with maturity dates beyond 12 months, as available to support current operational liquidity needs and, therefore, classifies all securities with maturity dates beyond three months at the date of purchase as current assets within Short-term investments on the Consolidated Balance Sheets.

Refer to Note 6 — Fair Value Measurements for more information on the Company's Short-term investments.

ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS RECEIVABLE

Accounts receivable, net consist primarily of amounts due from customers. The Company makes ongoing estimates relating to the collectability of its accounts receivable and maintains an allowance for expected losses resulting from the inability of its customers to make required payments. In addition to judgments about the creditworthiness of significant customers based on ongoing credit evaluations, the Company considers historical levels of credit losses, as well as macroeconomic and industry trends to determine the amount of the allowance. Accounts receivable with anticipated collection dates greater than 12 months from the balance sheet date and related allowances are considered non-current and recorded in Deferred income taxes and other assets. The allowance for uncollectible accounts receivable was \$34 million and \$93 million as of May 31, 2022 and 2021, respectively.

INVENTORY VALUATION

Inventories are stated at lower of cost and net realizable value and valued on either an average or a specific identification cost basis. In some instances, the Company ships products directly from its suppliers to the customer, with the related inventory and cost of sales recognized on a specific identification basis. Inventory costs primarily consist of product cost from the Company's suppliers, as well as inbound freight, import duties, taxes, insurance, logistics and other handling fees.

PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION

Property, plant and equipment are recorded at cost. Depreciation is determined on a straight-line basis for land improvements, buildings and leasehold improvements over 2 to 40 years and for machinery and equipment over 2 to 15 years.

Depreciation and amortization of assets used in manufacturing, warehousing and product distribution are recorded in Cost of sales. Depreciation and amortization of all other assets are recorded in Operating overhead expense.

SOFTWARE DEVELOPMENT COSTS

Expenditures for major software purchases and software developed for internal use are capitalized and amortized over 2 to 12 years on a straight-line basis. The Company's policy provides for the capitalization of external direct costs associated with developing or obtaining internal use computer software. The Company also capitalizes certain payroll and payroll-related costs for employees who are directly associated with internal use computer software projects. The amount of capitalizable payroll costs with respect to these employees is limited to the time directly spent on such projects. Costs associated with preliminary project stage activities, training, maintenance and all other post-implementation stage activities are expensed as incurred.

Development costs of computer software to be sold, leased or otherwise marketed as an integral part of a product are subject to capitalization beginning when a product's technological feasibility has been established and ending when a product is available for general release to customers. In most instances, the Company's products are released soon after technological feasibility has been established; therefore, software development costs incurred subsequent to achievement of technological feasibility are usually not significant, and generally, most software development costs have been expensed as incurred.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews the carrying value of long-lived assets or asset groups to be used in operations whenever events or changes in circumstances indicate the carrying amount of the assets might not be recoverable. Factors that would necessitate an impairment assessment include a significant adverse change in the extent or manner in which an asset is used, a significant adverse change in legal factors or the business climate that could affect the value of the asset or a significant decline in the observable market value of an asset, among others. If such facts indicate a potential impairment, the Company would assess the recoverability of an asset group by determining if the carrying value of the asset group exceeds the sum of the projected undiscounted cash flows expected to result from the use and eventual disposition of the assets over the remaining economic life of the primary asset in the asset group. If the recoverability test indicates that the carrying value of the asset group is not recoverable, the Company will estimate the fair value of the asset group using appropriate valuation methodologies, which would typically include an estimate of discounted cash flows. Any impairment would be measured as the difference between the asset group's carrying amount and its estimated fair value.

GOODWILL AND INDEFINITE-LIVED INTANGIBLE ASSETS

The Company performs annual impairment tests on goodwill and intangible assets with indefinite lives in the fourth quarter of each fiscal year or when events occur or circumstances change that would, more likely than not, reduce the fair value of a reporting unit or an intangible asset with an indefinite life below its carrying value. Events or changes in circumstances that may trigger interim impairment reviews include significant changes in business climate, operating results, planned investments in the reporting unit, planned divestitures or an expectation that the carrying amount may not be recoverable, among other factors.

For purposes of testing goodwill for impairment, the Company allocates goodwill across its reporting units, which are considered the Company's operating segments. The Company may first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events and circumstances, the Company determines it is more likely than not that the fair value of the reporting unit is greater than its carrying amount, an impairment test is unnecessary. If an impairment test is necessary, the Company will estimate the fair value of its related reporting units. If the carrying value of a reporting unit exceeds its fair value, the goodwill of that reporting unit is determined to be impaired and the Company will proceed with recording an impairment charge equal to the excess of the carrying value over the related fair value.

Indefinite-lived intangible assets primarily consist of acquired trade names and trademarks. The Company may first perform a qualitative assessment to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. If, after assessing the totality of events and circumstances, the Company determines it is more likely than not that the indefinite-lived intangible asset is not impaired, no quantitative fair value measurement is necessary. If a quantitative fair value measurement calculation is required for these intangible assets, the Company primarily utilizes the relief-from-royalty method. This method assumes trade names and trademarks have value to the extent their owner is relieved of the obligation to pay royalties for the benefits received from them. This method requires the Company to estimate the future revenues for the related brands, the appropriate royalty rate and the weighted average cost of capital. If the carrying value of the indefinite-lived intangible exceeds its fair value, the asset is determined to be impaired, and the Company will proceed with recording an impairment charge equal to the excess of the carrying value over the related fair value.

OPERATING LEASES

Beginning in fiscal 2020, the Company adopted Accounting Standards Update (ASU) No. 2016-02, *Leases (Topic 842)*. The Company's lease recognition policies under Topic 842 are described in the following paragraphs.

The Company primarily leases retail store space, certain distribution and warehouse facilities, office space, equipment and other non-real estate assets. The Company determines if an arrangement is a lease at inception and begins recording lease activity at the commencement date, which is generally the date in which the Company takes possession of or controls the physical use of the asset. Lease components are not separated from non-lease components for real estate leases within the Company's lease portfolio. Right-of-use (ROU) assets and lease liabilities are recognized based on the present value of lease payments over the lease term with lease expense recognized on a straight-line basis. The Company's incremental borrowing rate is used to determine the present value of future lease payments unless the implicit rate is readily determinable.

Lease agreements may contain rent escalation clauses, renewal or termination options, rent holidays or certain landlord incentives, including tenant improvement allowances. ROU assets include amounts for scheduled rent increases and are reduced by the amount of lease incentives. The lease term includes the non-cancelable period of the lease and options to extend or terminate the lease when it is reasonably certain the Company will exercise those options. The Company does not record leases with an initial term of 12 months or less on the Consolidated Balance Sheets and recognizes related lease payments in the Consolidated Statements of Income on a straight-line basis over the lease term. Certain lease agreements include variable lease

payments, which are based on a percent of retail sales over specified levels or adjust periodically for inflation as a result of changes in a published index, primarily the Consumer Price Index, and are expensed as incurred.

FAIR VALUE MEASUREMENTS

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including derivatives, equity securities and available-for-sale debt securities. Fair value is the price the Company would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. The Company uses a three-level hierarchy that prioritizes fair value measurements based on the types of inputs used, as follows:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs with little or no market data available, which require the reporting entity to develop its own assumptions.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Financial assets and liabilities are classified in their entirety based on the most conservative level of input that is significant to the fair value measurement.

Pricing vendors are utilized for a majority of Level 1 and Level 2 investments. These vendors either provide a quoted market price in an active market or use observable inputs without applying significant adjustments in their pricing. Observable inputs include broker quotes, interest rates and yield curves observable at commonly quoted intervals, volatilities and credit risks. The fair value of derivative contracts is determined using observable market inputs such as the daily market foreign currency rates, forward pricing curves, currency volatilities, currency correlations and interest rates and considers nonperformance risk of the Company and its counterparties.

The Company's fair value measurement process includes comparing fair values to another independent pricing vendor to ensure appropriate fair values are recorded.

Refer to Note 6 — Fair Value Measurements for additional information.

FOREIGN CURRENCY TRANSLATION AND FOREIGN CURRENCY TRANSACTIONS

Adjustments resulting from translating foreign functional currency financial statements into U.S. Dollars are included in the foreign currency translation adjustment, a component of Accumulated other comprehensive income (loss) in Total shareholders' equity.

The Company's global subsidiaries have various monetary assets and liabilities, primarily receivables and payables, which are denominated in currencies other than their functional currency. These balance sheet items are subject to remeasurement, the impact of which is recorded in Other (income) expense, net, within the Consolidated Statements of Income.

ACCOUNTING FOR DERIVATIVES AND HEDGING ACTIVITIES

The Company uses derivative financial instruments to reduce its exposure to changes in foreign currency exchange rates and interest rates. All derivatives are recorded at fair value on the Consolidated Balance Sheets and changes in the fair value of derivative financial instruments are either recognized in Accumulated other comprehensive income (loss) (a component of Total shareholders' equity), Long-term debt or Net income depending on the nature of the underlying exposure, whether the derivative is formally designated as a hedge and, if designated, the extent to which the hedge is effective. The Company classifies the cash flows at settlement from derivatives in the same category as the cash flows from the related hedged items. For undesignated hedges and designated cash flow hedges, this is primarily within the Cash provided by operations component of the Consolidated Statements of Cash Flows. For designated net investment hedges, this is within the Cash used by investing activities component of the Consolidated Statements of Cash Flows. For the Company's fair value hedges, which are interest rate swaps used to mitigate the change in fair value of its fixed-rate debt attributable to changes in interest rates, the related cash flows from periodic interest payments are reflected within the Cash provided by operations component of the Consolidated Statements of Cash Flows.

Refer to Note 14 — Risk Management and Derivatives for additional information on the Company's risk management program and derivatives.

STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation by estimating the fair value, net of estimated forfeitures, of equity awards and recognizing the related expense as Cost of sales or Operating overhead expense, as applicable, in the Consolidated Statements of Income on a straight-line basis over the vesting period. Substantially all awards vest ratably over four years of continued employment, with stock options expiring 10 years from the date of grant. Performance-based restricted stock units vest based on the Company's achievement of certain performance criteria throughout the three-year performance period and continued employment through the vesting date. The fair value of options, stock appreciation rights and employees' purchase rights under the employee stock purchase plans (ESPPs) is determined using the Black-Scholes option pricing model. The fair value of restricted stock and time-vesting restricted stock units is established by the market price on the date of grant. The fair value of performance-based restricted stock units is estimated as of the grant date using a Monte Carlo simulation.

Refer to Note 11 — Common Stock and Stock-Based Compensation for additional information on the Company's stock-based compensation programs.

INCOME TAXES

The Company accounts for income taxes using the asset and liability method. This approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of assets and liabilities. The Company records a valuation allowance to reduce deferred tax assets to the amount management believes is more likely than not to be realized. Realization of deferred tax assets is dependent on future taxable earnings and is therefore uncertain. At least quarterly, the Company assesses taxable income in prior carryback periods, the scheduled reversal of deferred tax liabilities, projected future taxable income and available tax planning strategies. The Company uses forecasts of taxable income and considers foreign tax credit utilization in making this assessment of realization, which are inherently uncertain and can result in significant variation between estimated and actual results. To the extent the Company believes that recovery is not likely, a valuation allowance is established against the net deferred tax asset, which increases the Company's income tax expense in the period when such determination is made.

The Company recognizes a tax benefit from uncertain tax positions in the financial statements only when it is more likely than not the position will be sustained upon examination by relevant tax authorities. The Company recognizes interest and penalties related to income tax matters in Income tax expense.

Refer to Note 9 — Income Taxes for further discussion.

EARNINGS PER SHARE

Basic earnings per common share is calculated by dividing Net income by the weighted average number of common shares outstanding during the year. Diluted earnings per common share is calculated by adjusting weighted average outstanding shares, assuming conversion of all potentially dilutive stock options and awards.

Refer to Note 12 — Earnings Per Share for further discussion.

MANAGEMENT ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates, including estimates relating to assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Additionally, the extent to which the evolving COVID-19 pandemic impacts the Company's financial statements will depend on a number of factors, including the further spread and duration of COVID-19 and the economic impacts of the pandemic. There remains risk that COVID-19 could have a material, adverse impact on future revenue growth as well as overall profitability.

NOTE 2 — INVENTORIES

Inventory balances of \$8,420 million and \$6,854 million as of May 31, 2022 and 2021, respectively, were substantially all finished goods.

NOTE 3 — PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, net included the following:

(Dollars in millions)	MAY 31,	
	2022	2021
Land and improvements	\$ 330	\$ 363
Buildings	3,170	3,365
Machinery and equipment	2,870	3,023
Internal-use software	1,616	1,391
Leasehold improvements	1,712	1,608
Construction in process	399	311
Total property, plant and equipment, gross	10,097	10,061
Less accumulated depreciation	5,306	5,157
TOTAL PROPERTY, PLANT AND EQUIPMENT, NET	\$ 4,791	\$ 4,904

Capitalized interest was not material for the fiscal years ended May 31, 2022, 2021 and 2020.

NOTE 4 — IDENTIFIABLE INTANGIBLE ASSETS AND GOODWILL

Identifiable intangible assets, net consist of indefinite-lived trademarks, acquired trademarks and other intangible assets. The following table summarizes the Company's Identifiable intangible assets, net balances:

(Dollars in millions)	MAY 31,					
	2022			2021		
	GROSS CARRYING AMOUNT	ACCUMULATED AMORTIZATION	NET CARRYING AMOUNT	GROSS CARRYING AMOUNT	ACCUMULATED AMORTIZATION	NET CARRYING AMOUNT
Indefinite-lived trademarks	\$ 259	\$ —	\$ 259	\$ 246	\$ —	\$ 246
Acquired trademarks and other	66	39	27	50	27	23
IDENTIFIABLE INTANGIBLE ASSETS, NET	\$ 325	\$ 39	\$ 286	\$ 296	\$ 27	\$ 269

Goodwill was \$284 million and \$242 million as of May 31, 2022 and 2021, respectively, and there were no accumulated impairment losses as of May 31, 2022 and 2021. Additionally, the impact to Goodwill during fiscal 2022 and 2021 as a result of acquisitions and divestitures was not material.

NOTE 5 — ACCRUED LIABILITIES

Accrued liabilities included the following:

(Dollars in millions)	MAY 31,	
	2022	2021
Compensation and benefits, excluding taxes	\$ 1,297	\$ 1,472
Sales-related reserves	1,015	1,077
Allowance for expected loss on sale ⁽¹⁾	397	358
Other	3,511	3,156
TOTAL ACCRUED LIABILITIES	\$ 6,220	\$ 6,063

(1) Refer to Note 20 — Acquisitions and Divestitures for additional information.

NOTE 6 — FAIR VALUE MEASUREMENTS

The following tables present information about the Company's financial assets measured at fair value on a recurring basis as of May 31, 2022 and 2021, and indicate the level in the fair value hierarchy in which the Company classifies the fair value measurement. Refer to Note 1 — Summary of Significant Accounting Policies for additional detail regarding the Company's fair value measurement methodology.

	MAY 31, 2022		
(Dollars in millions)	ASSETS AT FAIR VALUE	CASH AND EQUIVALENTS	SHORT-TERM INVESTMENTS

TOTAL	\$ 13,476	\$ 9,889	\$ 3,587

As of May 31, 2022, the Company held \$2,617 million of available-for-sale debt securities with maturity dates within one year and \$1,806 million with maturity dates over one year and less than five years in Short-term investments on the Consolidated Balance Sheets. The fair value of the Company's available-for-sale debt securities approximates their amortized cost.

Included in Interest expense (income), net was interest income related to the Company's investment portfolio of \$94 million, \$34 million and \$62 million for the years ended May 31, 2022, 2021 and 2020, respectively.

The Company records the assets and liabilities of its derivative financial instruments on a gross basis on the Consolidated Balance Sheets. The Company's derivative financial instruments are subject to master netting arrangements that allow for the offset of assets and liabilities in the event of default or early termination of the contract. Any amounts of cash collateral received related to these instruments associated with the Company's credit-related contingent features are recorded in Cash and equivalents and Accrued liabilities, the latter of which would further offset against the Company's derivative asset balance. Any amounts of cash collateral posted related to these instruments associated with the Company's credit-related contingent features are recorded in Prepaid expenses and other current assets, which would further offset against the Company's derivative liability balance. Cash collateral received or posted related to the Company's credit-related contingent features is presented in the Cash provided by operations component of the Consolidated Statements of Cash Flows. The Company does not recognize amounts of non-cash collateral received, such as securities, on the Consolidated Balance Sheets. For further information related to credit risk, refer to Note 14 — Risk Management and Derivatives.

The following tables present information about the Company's derivative assets and liabilities measured at fair value on a recurring basis and indicate the level in the fair value hierarchy in which the Company classifies the fair value measurement:

(Dollars in millions)	MAY 31, 2022					
	DERIVATIVE ASSETS			DERIVATIVE LIABILITIES		
	ASSETS AT FAIR VALUE	OTHER CURRENT ASSETS	OTHER LONG-TERM ASSETS	LIABILITIES AT FAIR VALUE	ACCRUED LIABILITIES	OTHER LONG-TERM LIABILITIES
Level 2:						
Foreign exchange forwards and options ⁽¹⁾	\$ 875	\$ 669	\$ 206	\$ 76	\$ 65	\$ 11
Embedded derivatives	5	5	—	1	1	—
TOTAL	\$ 880	\$ 674	\$ 206	\$ 77	\$ 66	\$ 11

(1) If the foreign exchange derivative instruments had been netted on the Consolidated Balance Sheets, the asset and liability positions each would have been reduced by \$76 million as of May 31, 2022. As of that date, the Company received \$486 million of cash collateral from counterparties related to foreign exchange derivative instruments. No amount of collateral was posted on the derivative liability balance as of May 31, 2022.

(Dollars in millions)	MAY 31, 2021					
	DERIVATIVE ASSETS			DERIVATIVE LIABILITIES		
	ASSETS AT FAIR VALUE	OTHER CURRENT ASSETS	OTHER LONG-TERM ASSETS	LIABILITIES AT FAIR VALUE	ACCRUED LIABILITIES	OTHER LONG-TERM LIABILITIES
Level 2:						
Foreign exchange forwards and options ⁽¹⁾	\$ 92	\$ 76	\$ 16	\$ 456	\$ 415	\$ 41
Embedded derivatives	—	—	—	1	1	—
TOTAL	\$ 92	\$ 76	\$ 16	\$ 457	\$ 416	\$ 41

(1) If the foreign exchange derivative instruments had been netted on the Consolidated Balance Sheets, the asset and liability positions each would have been reduced by \$93 million as of May 31, 2021. As of that date, the Company had posted \$39 million of cash collateral to various counterparties related to foreign exchange derivative instruments. No amount of collateral was received on the Company's derivative asset balance as of May 31, 2021.

For additional information related to the Company's derivative financial instruments, refer to Note 14 — Risk Management and Derivatives. For fair value information regarding Notes payable and Long-term debt, refer to Note 7 — Short-Term Borrowings and Credit Lines and Note 8 — Long-Term Debt, respectively.

The carrying amounts of other current financial assets and other current financial liabilities approximate fair value.

NON-RECURRING FAIR VALUE MEASUREMENTS

As further discussed in Note 20 — Acquisitions and Divestitures, during fiscal 2020, the Company met the criteria to recognize the related assets and liabilities of its Brazil, Argentina, Chile and Uruguay entities as held-for-sale. This required the Company to remeasure the disposal groups at fair value, less costs to sell, which is considered a Level 3 fair value measurement and was based on each transaction's estimated consideration. During fiscal 2022, the Company continued to use estimated consideration to measure the fair value of each disposal group.

All other assets or liabilities required to be measured at fair value on a non-recurring basis as of May 31, 2022 and 2021 were immaterial.

NOTE 7 — SHORT-TERM BORROWINGS AND CREDIT LINES

Notes payable as of May 31, 2022 and 2021, are summarized below:

(Dollars in millions)	MAY 31,			
	2022		2021	
	BORROWINGS	INTEREST RATE	BORROWINGS	INTEREST RATE
Notes payable:				
U.S. operations	\$ —	0.00%	—	0.00 %
Non-U.S. operations	\$ 10	19.80% ⁽¹⁾	\$ 2	17.80 % ⁽¹⁾
TOTAL NOTES PAYABLE	\$ 10		\$ 2	

(1) Weighted average interest rate includes non-interest bearing overdrafts.

The carrying amounts reflected in the Consolidated Balance Sheets for Notes payable approximate fair value.

On March 11, 2022, the Company entered into a 364-day committed credit facility agreement with a syndicate of banks, which provides for up to \$1 billion of borrowings, with an option to increase borrowings up to \$1.5 billion in total with lender approval. The facility matures on March 10, 2023, with an option to extend the maturity date an additional 364 days. This facility replaces the prior \$1 billion 364-day credit facility agreement entered into on March 15, 2021, which would have matured on March 14, 2022. Based on the Company's current long-term senior unsecured debt ratings of AA- and A1 from Standard and Poor's Corporation and Moody's Investor Services, respectively, the interest rate charged on any outstanding borrowings would be the prevailing Term Secured Overnight Financing Rate (Term SOFR) for the applicable interest period plus 0.60%. The facility fee is 0.02% of the total undrawn commitment.

On March 11, 2022, the Company also entered into a five-year committed credit facility agreement with a syndicate of banks which provides for up to \$2 billion of borrowings, with the option to increase borrowings up to \$3 billion in total with lender approval. The facility matures on March 11, 2027, with options to extend the maturity date up to an additional two years. This facility replaces the prior \$2 billion five-year credit facility agreement entered into on August 16, 2019, which would have matured on August 16, 2024. Based on the Company's current long-term senior unsecured debt ratings of AA- and A1 from Standard and Poor's Corporation and Moody's Investor Services, respectively, the interest rate charged on any outstanding borrowings would be the prevailing Term SOFR for the applicable interest period plus 0.60%. The facility fee is 0.04% of the total undrawn commitment.

As of and for the periods ended May 31, 2022 and 2021, no amounts were outstanding under any of the Company's committed credit facilities.

NOTE 8 — LONG-TERM DEBT

Long-term debt, net of unamortized premiums, discounts and debt issuance costs, comprises the following:

Scheduled Maturity (Dollars in millions)	ORIGINAL PRINCIPAL	INTEREST RATE	INTEREST PAYMENTS	BOOK VALUE OUTSTANDING AS OF MAY 31,	
				2022	2021
Corporate Term Debt: ⁽¹⁾⁽²⁾					
May 1, 2023	\$ 500	2.25 %	Semi-Annually	\$ 500	\$ 499
March 27, 2025	1,000	2.40 %	Semi-Annually	996	995
November 1, 2026	1,000	2.38 %	Semi-Annually	997	996
March 27, 2027	1,000	2.75 %	Semi-Annually	996	995
March 27, 2030	1,500	2.85 %	Semi-Annually	1,491	1,490
March 27, 2040	1,000	3.25 %	Semi-Annually	986	986
May 1, 2043	500	3.63 %	Semi-Annually	496	496
November 1, 2045	1,000	3.88 %	Semi-Annually	985	984
November 1, 2046	500	3.38 %	Semi-Annually	492	491
March 27, 2050	1,500	3.38 %	Semi-Annually	1,481	1,481
Total				9,420	9,413
Less Current Portion of Long-Term Debt				500	—
TOTAL LONG-TERM DEBT				\$ 8,920	\$ 9,413

(1) These senior unsecured obligations rank equally with the Company's other unsecured and unsubordinated indebtedness.

(2) The bonds are redeemable at the Company's option at a price equal to the greater of (i) 100% of the aggregate principal amount of the notes to be redeemed or (ii) the sum of the present values of the remaining scheduled payments, plus in each case, accrued and unpaid interest. However, the bonds also feature a par call provision, which allows for the bonds to be redeemed at a price equal to 100% of the aggregate principal amount of the notes being redeemed, plus accrued and unpaid interest on or after the Par Call Date, as defined in the respective notes.

The scheduled maturity of Long-term debt in each of the years ending May 31, 2023 through 2027, are \$500 million, \$0 million, \$1,000 million, \$0 million and \$2,000 million, respectively, at face value.

The Company's Long-term debt is recorded at adjusted cost, net of unamortized premiums, discounts and debt issuance costs. The fair value of long-term debt is estimated based upon quoted prices for similar instruments or quoted prices for identical instruments in inactive markets (Level 2). The fair value of the Company's Long-term debt, including the current portion, was approximately \$8,933 million and \$10,275 million as of May 31, 2022 and 2021, respectively.

NOTE 9 — INCOME TAXES

Income before income taxes is as follows:

(Dollars in millions)	YEAR ENDED MAY 31,		
	2022	2021	2020
Income before income taxes:			
United States	\$ 6,020	\$ 5,723	\$ 2,954
Foreign	631	938	(67)
TOTAL INCOME BEFORE INCOME TAXES	\$ 6,651	\$ 6,661	\$ 2,887

The provision for income taxes is as follows:

(Dollars in millions)	YEAR ENDED MAY 31,		
	2022	2021	2020
Current:			
United States			
Federal	\$ 231	\$ 328	\$ (109)
State	98	134	81
Foreign	926	857	756
Total Current	1,255	1,319	728
Deferred:			
United States			
Federal	(522)	(371)	(231)
State	(16)	(34)	(47)
Foreign	(112)	20	(102)
Total Deferred	(650)	(385)	(380)
TOTAL INCOME TAX EXPENSE	\$ 605	\$ 934	\$ 348

A reconciliation from the U.S. statutory federal income tax rate to the effective income tax rate is as follows:

	YEAR ENDED MAY 31,		
	2022	2021	2020
Federal income tax rate	21.0%	21.0%	21.0%
State taxes, net of federal benefit	1.4%	1.3%	0.8%
Foreign earnings	-1.8%	0.2%	5.9%
Subpart F deferred tax benefit	-4.7%	0.0%	0.0%
Foreign-derived intangible income benefit	-4.1%	-3.7%	-8.1%
Excess tax benefits from share-based compensation	-4.9%	-4.5%	-7.2%
Income tax audits and contingency reserves	1.5%	1.5%	-1.4%
U.S. research and development tax credit	-1.0%	-0.9%	-1.8%
Other, net	1.7%	-0.9%	2.9%
EFFECTIVE INCOME TAX RATE	9.1%	14.0%	12.1%

On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act (the "Tax Act"), which significantly changed U.S. tax law and included a provision to tax global intangible low-taxed income (GILTI) of foreign subsidiaries. The Company recognizes taxes due under the GILTI provision as a current period expense.

The effective tax rate for the fiscal year ended May 31, 2022 was lower than the effective tax rate for the fiscal year ended May 31, 2021. The decrease was primarily due to a shift in the Company's earnings mix and recognition of a non-cash, one-time benefit related to the onshoring of the Company's non-U.S. intangible property. During the fourth quarter of fiscal 2022, the Company onshored certain non-U.S. intangible property ownership rights and implemented changes in the Company's legal entity structure. The tax restructuring increases the possibility that foreign earnings in future periods will be subject to tax in the U.S. due to Subpart F of the Internal Revenue Code. The Company recognized a deferred tax asset and corresponding non-cash deferred income tax benefit of 4.7%, to establish the deferred tax deduction that is expected to reduce taxable income in future periods.

The effective tax rate for the fiscal year ended May 31, 2021 was higher than the effective tax rate for the fiscal year ended May 31, 2020, due to a change in the proportion of earnings taxed in the U.S., related to the recovery from the impact of the COVID-19 pandemic and less favorable impacts from discrete items such as stock-based compensation. Income tax audit and contingency reserves for the fiscal year ended May 31, 2021, reflects recognition of a reserve of 1.2% related to *Altera Corp. v. Commissioner*, where the taxpayer was denied a hearing before the U.S. Supreme Court on June 22, 2020, thereby ratifying the Ninth Circuit Court's decision and requiring the inclusion of stock-based compensation in intercompany cost-sharing arrangements, and other matters of 0.3%.

Deferred tax assets and liabilities comprise the following as of:

(Dollars in millions)	MAY 31,	
	2022	2021
Deferred tax assets:		
Inventories ⁽¹⁾	\$ 136	\$ 78
Sales return reserves ⁽¹⁾	109	100
Deferred compensation ⁽¹⁾	313	350
Stock-based compensation	195	175
Reserves and accrued liabilities ⁽¹⁾	145	96
Operating lease liabilities	508	499
Intangibles	275	187
Capitalized research and development expenditures	353	349
Net operating loss carry-forwards	8	15
Subpart F deferred tax	313	—
Foreign tax credit carry-forward	103	—
Other ⁽¹⁾	148	178
Total deferred tax assets	2,606	2,027
Valuation allowance	(19)	(12)
Total deferred tax assets after valuation allowance	2,587	2,015
Deferred tax liabilities:		
Foreign withholding tax on undistributed earnings of foreign subsidiaries	(146)	(182)
Property, plant and equipment ⁽¹⁾	(247)	(255)
Right-of-use assets	(437)	(431)
Other ⁽¹⁾	(92)	(14)
Total deferred tax liabilities	(922)	(882)
NET DEFERRED TAX ASSET	\$ 1,665	\$ 1,133

(1) The above amounts exclude deferred taxes held-for-sale as of May 31, 2022 and 2021. See Note 20 — Acquisitions and Divestitures for additional information.

The following is a reconciliation of the changes in the gross balance of unrecognized tax benefits as of:

(Dollars in millions)	MAY 31,		
	2022	2021	2020
Unrecognized tax benefits, beginning of the period	\$ 896	\$ 771	\$ 808
Gross increases related to prior period tax positions	71	77	181
Gross decreases related to prior period tax positions	(145)	(22)	(171)
Gross increases related to current period tax positions	62	59	50
Settlements	(17)	(5)	(58)
Lapse of statute of limitations	(10)	(6)	(28)
Changes due to currency translation	(9)	22	(11)
UNRECOGNIZED TAX BENEFITS, END OF THE PERIOD	\$ 848	\$ 896	\$ 771

As of May 31, 2022, total gross unrecognized tax benefits, excluding related interest and penalties, were \$848 million, of which \$626 million would affect the Company's effective tax rate if recognized in future periods. The majority of the total gross unrecognized tax benefits are long-term in nature and included within Deferred income taxes and other liabilities on the Consolidated Balance Sheets.

The Company recognizes interest and penalties related to income tax matters in Income tax expense. The liability for payment of interest and penalties increased by \$45 million during the fiscal year ended May 31, 2022, increased by \$45 million during the fiscal year ended May 31, 2021, and decreased by \$16 million during the fiscal year ended May 31, 2020. As of May 31, 2022 and 2021, accrued interest and penalties related to uncertain tax positions were \$248 million and \$203 million, respectively (excluding federal benefit) and included within Deferred income taxes and other liabilities on the Consolidated Balance Sheets.

As of May 31, 2022 and 2021, long-term income taxes payable were \$535 million and \$640 million, respectively, and were included within Deferred income taxes and other liabilities on the Consolidated Balance Sheets.

The Company is subject to taxation in the U.S., as well as various state and foreign jurisdictions. The Company is currently under audit by the U.S. IRS for fiscal years 2017 through 2019. The Company has closed all U.S. federal income tax matters through fiscal 2016, with the exception of certain transfer pricing adjustments. Tax years after 2011 remain open in certain major foreign jurisdictions. Although the timing of resolution of audits is not certain, the Company evaluates all domestic and foreign audit issues in the aggregate, along with the expiration of applicable statutes of limitations, and estimates that it is reasonably possible the total gross unrecognized tax benefits could decrease by up to \$20 million within the next 12 months. In January 2019, the European Commission opened a formal investigation to examine whether the Netherlands has breached State Aid rules when granting certain tax rulings to the Company. The Company believes the investigation is without merit. If this matter is adversely resolved, the Netherlands may be required to assess additional amounts with respect to prior periods, and the Company's income taxes related to prior periods in the Netherlands could increase.

The Company historically had not provided for deferred income taxes on the undistributed earnings of certain foreign subsidiaries as they were considered indefinitely reinvested outside the U.S. During the fourth quarter of fiscal 2022, in connection with a change in the Company's legal entity structure that reduced the withholding tax consequences of a decision to remit undistributed earnings in the Netherlands, the Company changed its assertion regarding its ability and intent to indefinitely reinvest undistributed earnings of certain foreign subsidiaries. The Company has evaluated its historic indefinite reinvestment assertion as a result of the legal entity restructuring and determined that any historical or future undistributed earnings of foreign subsidiaries are no longer considered to be indefinitely reinvested. There is no deferred tax liability associated with those earnings.

A portion of the Company's foreign operations benefit from a tax holiday, which is set to expire in 2031. This tax holiday may be extended when certain conditions are met or may be terminated early if certain conditions are not met. The tax benefit attributable to this tax holiday, before taking into consideration other U.S. indirect tax provisions, was \$221 million, \$238 million and \$238 million for the fiscal years ended May 31, 2022, 2021 and 2020, respectively. The benefit of the tax holiday on diluted earnings per common share was \$0.14, \$0.15 and \$0.15 for the fiscal years ended May 31, 2022, 2021 and 2020, respectively.

Deferred tax assets as of May 31, 2022 and 2021, were reduced by a valuation allowance. For the fiscal year ended May 31, 2022, a valuation allowance was provided for U.S. capital loss carryforwards and on tax benefits generated by certain entities with operating losses. For the fiscal year ended May 31, 2021, a valuation allowance was provided for U.S. capital loss carryforwards and on tax benefits generated by certain entities with operating losses. There was a \$7 million net increase in the valuation allowance for the fiscal year ended May 31, 2022, compared to a \$14 million net decrease for the fiscal year ended May 31, 2021, and \$62 million net decrease for the fiscal year ended May 31, 2020.

The Company has recorded deferred tax assets of \$103 million as of May 31, 2022 for U.S. foreign tax credit carry-forwards which will begin to expire in 2032.

The Company has available domestic and foreign loss carry-forwards of \$44 million as of May 31, 2022. If not utilized, such losses will expire as follows:

(Dollars in millions)	YEAR ENDING MAY 31,						
	2023	2024	2025	2026	2027-2042	INDEFINITE	TOTAL
Net operating losses	\$ —	\$ —	\$ —	\$ —	\$ 7	\$ 37	\$ 44

NOTE 10 — REDEEMABLE PREFERRED STOCK

Sojitz America is the sole owner of the Company's authorized redeemable preferred stock, \$1 par value, which is redeemable at the option of Sojitz America or the Company at par value aggregating \$0.3 million. A cumulative dividend of \$0.10 per share is payable annually on May 31, and no dividends may be declared or paid on the common stock of the Company unless dividends on the redeemable preferred stock have been declared and paid in full. There have been no changes in the redeemable preferred stock in the fiscal years ended May 31, 2022, 2021 and 2020. As the holder of the redeemable preferred stock, Sojitz America does not have general voting rights but does have the right to vote as a separate class on the sale of all or substantially all of the assets of the Company and its subsidiaries; on merger, consolidation, liquidation or dissolution of the Company; or on the sale or assignment of the NIKE trademark for athletic footwear sold in the United States. The redeemable preferred stock has been fully issued to Sojitz America and is not blank check preferred stock. The Company's articles of incorporation do not permit the issuance of additional preferred stock.

NOTE 11 — COMMON STOCK AND STOCK-BASED COMPENSATION

COMMON STOCK

The authorized number of shares of Class A Common Stock, no par value, and Class B Common Stock, no par value, are 400 million and 2,400 million, respectively. Each share of Class A Common Stock is convertible into one share of Class B Common Stock. Voting rights of Class B Common Stock are limited in certain circumstances with respect to the election of directors. There are no differences in the dividend and liquidation preferences or participation rights of the holders of Class A and Class B Common Stock. From time to time, the Company's Board of Directors authorizes share repurchase programs for the repurchase of Class B Common Stock. The value of repurchased shares is deducted from Total shareholders' equity through allocation to Capital in excess of stated value and Retained earnings.

STOCK-BASED COMPENSATION

The NIKE, Inc. Stock Incentive Plan (the "Stock Incentive Plan") provides for the issuance of up to 798 million previously unissued shares of Class B Common Stock in connection with equity awards granted under the Stock Incentive Plan. The Stock Incentive Plan authorizes the grant of non-statutory stock options, incentive stock options, stock appreciation rights, and stock awards, including restricted stock and restricted stock units. Restricted stock units include both time-vesting restricted stock units (RSUs) as well as performance-based restricted stock units (PSUs). A committee of the Board of Directors administers the Stock Incentive Plan and has the authority to determine the employees to whom awards will be made, the amount of the awards and the other terms and conditions of the awards. The Company generally grants stock options, restricted stock and restricted stock units on an annual basis. The exercise price for stock options and stock appreciation rights may not be less than the fair market value of the underlying shares on the date of grant. Substantially all awards under the Stock Incentive Plan vest ratably over 4 years of continued employment, with stock options expiring 10 years from the date of grant. During the fiscal year ended May 31, 2022, under the Stock Incentive Plan, the Company granted PSUs which replaced cash-based long-term incentive awards historically granted under the Company's Long-Term Incentive Plan. The impact of granting PSUs during the fiscal year ended May 31, 2022, was not material to the Company's Consolidated Financial Statements.

The following table summarizes the Company's total stock-based compensation expense recognized in Cost of sales or Operating overhead expense, as applicable:

(Dollars in millions)	YEAR ENDED MAY 31,		
	2022	2021	2020
Stock options ⁽¹⁾	\$ 297	\$ 323	\$ 237
ESPPs	60	63	53
Restricted stock and restricted stock units ⁽¹⁾⁽²⁾	281	225	139
TOTAL STOCK-BASED COMPENSATION EXPENSE	\$ 638	\$ 611	\$ 429

(1) Expense for stock options includes the expense associated with stock appreciation rights. Accelerated stock option expense is primarily recorded for employees meeting certain retirement eligibility requirements and was \$57 million, \$67 million and \$53 million for the fiscal years ended May 31, 2022, 2021 and 2020, respectively. During fiscal 2022 and 2021, an immaterial amount of accelerated stock option and restricted stock unit expense was also recorded for certain employees impacted by the Company's organizational realignment. For more information, see Note 21 — Restructuring.

(2) Restricted stock units includes RSUs and PSUs.

The income tax benefit related to stock-based compensation expense was \$327 million, \$297 million and \$207 million for the fiscal years ended May 31, 2022, 2021 and 2020, respectively, and reported within Income tax expense.

STOCK OPTIONS

The weighted average fair value per share of the options granted during the years ended May 31, 2022, 2021 and 2020, computed as of the grant date using the Black-Scholes pricing model, was \$37.53, \$26.75 and \$18.71, respectively. The weighted average assumptions used to estimate these fair values were as follows:

	YEAR ENDED MAY 31,		
	2022	2021	2020
Dividend yield	0.8 %	0.9 %	1.0 %
Expected volatility	24.9 %	27.3 %	23.0 %
Weighted average expected life (in years)	5.8	6.0	6.0
Risk-free interest rate	0.9 %	0.4 %	1.5 %

Expected volatilities are based on an analysis of the historical volatility of the Company's common stock, the implied volatility in market traded options on the Company's common stock with a term greater than one year, as well as other factors. The weighted average expected life of options is based on an analysis of historical and expected future exercise patterns. The interest rate is based on the U.S. Treasury (constant maturity) risk-free rate in effect at the date of grant for periods corresponding with the expected term of the options.

The following summarizes the stock option transactions under the plan discussed above:

	SHARES ⁽¹⁾ (In millions)	WEIGHTED AVERAGE OPTION PRICE
Options outstanding as of May 31, 2021	78.3	\$ 72.88
Exercised	(17.1)	54.32
Forfeited	(2.5)	114.89
Granted	9.3	164.91
Options outstanding as of May 31, 2022	68.0	\$ 88.66

(1) Includes stock appreciation rights transactions.

Options exercisable as of May 31, 2022 were 40.3 million and had a weighted average option price of \$68.15 per share. The aggregate intrinsic value for options outstanding and exercisable as of May 31, 2022 was \$2,456 million and \$2,045 million, respectively. The total intrinsic value of the options exercised during the years ended May 31, 2022, 2021 and 2020 was \$1,742 million, \$1,571 million and \$1,161 million, respectively. The intrinsic value is the amount by which the market value of the underlying stock exceeds the exercise price of the options. The weighted average contractual life remaining for options outstanding and options exercisable as of May 31, 2022 was 6.0 years and 4.6 years, respectively. As of May 31, 2022, the Company had \$405 million of unrecognized compensation costs from stock options, net of estimated forfeitures, to be recognized in Cost of sales or Operating overhead expense, as applicable, over a weighted average remaining period of 2.5 years.

EMPLOYEE STOCK PURCHASE PLANS

In addition to the Stock Incentive Plan, the Company gives employees the right to purchase shares at a discount from the market price under employee stock purchase plans (ESPPs). Subject to the annual statutory limit, employees are eligible to participate through payroll deductions of up to 10% of their compensation. At the end of each six-month offering period, shares are purchased by the participants at 85% of the lower of the fair market value at the beginning or the end of the offering period. Employees purchased 2.0 million, 2.5 million and 2.7 million shares during each of the fiscal years ended May 31, 2022, 2021 and 2020, respectively.

RESTRICTED STOCK AND RESTRICTED STOCK UNITS

Recipients of restricted stock are entitled to cash dividends and to vote their respective shares throughout the period of restriction. Recipients of restricted stock units, which includes RSUs and PSUs, are entitled to dividend equivalent cash payments upon vesting. The number of shares of restricted stock and restricted stock units vested includes shares of common stock withheld by the Company on behalf of employees to satisfy the minimum statutory tax withholding requirements.

PSUs provide the right to receive shares of the Company's common stock based on the Company's achievement of certain performance criteria throughout the three-year performance period and continued employment through the vesting date. As such, the number of shares issued at the end of the performance period may range between 0% and 200% of the original target award amount (100%).

The following summarizes the restricted stock and restricted stock unit activity under the plan discussed above:

	SHARES	WEIGHTED AVERAGE GRANT DATE FAIR VALUE
	(In millions)	
Nonvested as of May 31, 2021	6.6 \$	99.70
Vested	(2.3)	93.70
Forfeited	(0.7)	123.54
Granted ⁽¹⁾	3.1	168.04
Nonvested as of May 31, 2022	6.7 \$	130.88

(1) Includes 0.5 million PSUs, which are presented assuming issuance at the original target award amount (100%).

The weighted average fair value per share of restricted stock and RSUs granted for the fiscal years ended May 31, 2022, 2021 and 2020, computed as of the grant date, was \$153.63, \$113.84 and \$88.26, respectively. During the fiscal years ended May 31, 2022, 2021 and 2020, the aggregate fair value of vested restricted stock and RSUs was \$354 million, \$310 million and \$98 million, respectively, computed as of the date of vesting.

The weighted average fair value per share of PSUs granted for the fiscal year ended May 31, 2022, computed as of the grant date was \$239.38. The fair value of PSUs is estimated on the grant date using a Monte Carlo simulation assuming a weighted average expected volatility of 27.1% and weighted average risk-free interest rate of 0.5%. Expected volatilities are based on an analysis of the historical volatility of the Company's common stock at the date of grant for periods corresponding with the vesting period of the PSU. The interest rate is based on the U.S. Treasury (constant maturity) risk-free rate in effect at the date of grant for periods corresponding with the vesting period of the PSU. No PSUs vested during the fiscal year ended May 31, 2022.

As of May 31, 2022, the Company had \$587 million of unrecognized compensation costs from restricted stock and restricted stock units, net of estimated forfeitures, to be recognized in Cost of sales or Operating overhead expense, as applicable, over a weighted average remaining period of 2.4 years.

NOTE 12 — EARNINGS PER SHARE

The following is a reconciliation from basic earnings per common share to diluted earnings per common share. The computations of diluted earnings per common share excluded restricted stock, restricted stock units and options, including shares under ESPPs, to purchase an estimated additional 9.4 million, 11.3 million and 30.6 million shares of common stock outstanding for the fiscal years ended May 31, 2022, 2021 and 2020, respectively, because the awards were assumed to be anti-dilutive.

	YEAR ENDED MAY 31,		
(In millions, except per share data)	2022	2021	2020
Net income available to common stockholders	\$ 6,046	\$ 5,727	\$ 2,539
Determination of shares:			
Weighted average common shares outstanding	1,578.8	1,573.0	1,558.8
Assumed conversion of dilutive stock options and awards	32.0	36.4	32.8
DILUTED WEIGHTED AVERAGE COMMON SHARES OUTSTANDING	1,610.8	1,609.4	1,591.6
Earnings per common share:			
Basic	\$ 3.83	\$ 3.64	\$ 1.63
Diluted	\$ 3.75	\$ 3.56	\$ 1.60

NOTE 13 — BENEFIT PLANS

The Company has a qualified 401(k) Savings and Profit Sharing Plan, in which all U.S. employees are able to participate. The Company matches a portion of employee contributions to the savings plan. Company contributions to the savings plan were \$126 million, \$110 million and \$107 million and included in Cost of sales or Operating overhead expense, as applicable, for the years ended May 31, 2022, 2021 and 2020, respectively. The terms of the plan also allow for annual discretionary profit sharing contributions, as recommended by senior management and approved by the Board of Directors, to the accounts of eligible U.S. employees who work at least 1,000 hours in a year. There were no profit sharing contributions made to the plan for the fiscal years ended May 31, 2022, 2021 and 2020.

The Company also has a Long-Term Incentive Plan (LTIP) adopted by the Board of Directors and approved by shareholders in September 1997, which has been amended from time to time. The Company recognized \$16 million, \$78 million and \$66 million of Operating overhead expense related to cash awards under the LTIP during the years ended May 31, 2022, 2021 and 2020, respectively. During the fiscal year ended May 31, 2022, under the Stock Incentive Plan, the Company granted PSUs which replaced cash-based long-term incentive awards historically granted under the Company's LTIP. Refer to Note 11 — Common Stock and Stock-Based Compensation for further information related to PSUs.

The Company allows certain highly compensated employees and non-employee directors of the Company to defer compensation under a nonqualified deferred compensation plan. A rabbi trust was established to fund the Company's nonqualified deferred compensation plan obligation. The assets in the rabbi trust of approximately \$876 million and \$945 million as of May 31, 2022 and 2021, respectively, primarily consist of company owned life insurance policies recorded at their cash surrender value and are classified in Deferred income taxes and other assets on the Consolidated Balance Sheets. Deferred compensation plan liabilities were \$890 million and \$944 million as of May 31, 2022 and 2021, respectively, and primarily classified in Deferred income taxes and other liabilities on the Consolidated Balance Sheets.

The Company has pension plans in various countries worldwide. The pension plans are only available to local employees and are generally government mandated. The liability related to the unfunded pension liabilities of the plans was \$30 million and \$64 million as of May 31, 2022 and 2021, respectively, and primarily classified as non-current in Deferred income taxes and other liabilities on the Consolidated Balance Sheets.

NOTE 14 — RISK MANAGEMENT AND DERIVATIVES

The Company is exposed to global market risks, including the effect of changes in foreign currency exchange rates and interest rates, and uses derivatives to manage financial exposures that occur in the normal course of business. The Company does not hold or issue derivatives for trading or speculative purposes.

The Company may elect to designate certain derivatives as hedging instruments under U.S. GAAP. The Company formally documents all relationships between designated hedging instruments and hedged items as well as its risk management objectives and strategies for undertaking hedge transactions. This process includes linking all derivatives designated as hedges to either recognized assets or liabilities or forecasted transactions and assessing, both at inception and on an ongoing basis, the effectiveness of the hedging relationships.

The majority of derivatives outstanding as of May 31, 2022, are designated as foreign currency cash flow hedges, primarily for Euro/U.S. Dollar, British Pound/Euro, Chinese Yuan/U.S. Dollar and Japanese Yen/U.S. Dollar currency pairs. All derivatives are recognized on the Consolidated Balance Sheets at fair value and classified based on the instrument's maturity date.

The following tables present the fair values of derivative instruments included within the Consolidated Balance Sheets:

DERIVATIVE ASSETS			
(Dollars in millions)	BALANCE SHEET LOCATION	MAY 31,	
		2022	2021
Derivatives formally designated as hedging instruments:			
Foreign exchange forwards and options	Prepaid expenses and other current assets	\$ 639	\$ 42
Foreign exchange forwards and options	Deferred income taxes and other assets	206	16
Total derivatives formally designated as hedging instruments		845	58
Derivatives not designated as hedging instruments:			
Foreign exchange forwards and options	Prepaid expenses and other current assets	30	34
Embedded derivatives	Prepaid expenses and other current assets	5	—
Total derivatives not designated as hedging instruments		35	34
TOTAL DERIVATIVE ASSETS		\$ 880	\$ 92

DERIVATIVE LIABILITIES			
(Dollars in millions)	BALANCE SHEET LOCATION	MAY 31,	
		2022	2021
Derivatives formally designated as hedging instruments:			
Foreign exchange forwards and options	Accrued liabilities	\$ 37	\$ 385
Foreign exchange forwards and options	Deferred income taxes and other liabilities	11	41
Total derivatives formally designated as hedging instruments		48	426
Derivatives not designated as hedging instruments:			
Foreign exchange forwards and options	Accrued liabilities	28	30
Embedded derivatives	Accrued liabilities	1	1
Total derivatives not designated as hedging instruments		29	31
TOTAL DERIVATIVE LIABILITIES		\$ 77	\$ 457

The following table presents the amounts in the Consolidated Statements of Income in which the effects of cash flow hedges are recorded and the effects of cash flow hedge activity on these line items for the fiscal years ended May 31, 2022, 2021 and 2020:

(Dollars in millions)	YEAR ENDED MAY 31,					
	2022		2021		2020	
	TOTAL	AMOUNT OF GAIN (LOSS) ON CASH FLOW HEDGE ACTIVITY	TOTAL	AMOUNT OF GAIN (LOSS) ON CASH FLOW HEDGE ACTIVITY	TOTAL	AMOUNT OF GAIN (LOSS) ON CASH FLOW HEDGE ACTIVITY
Revenues	\$ 46,710	\$ (82)	\$ 44,538	\$ 45	\$ 37,403	\$ (17)
Cost of sales	25,231	(23)	24,576	51	21,162	364
Demand creation expense	3,850	1	3,114	3	3,592	(2)

(1) For the fiscal years ended May 31, 2022, 2021 and 2020, the amounts recorded in Other (income) expense, net as a result of the discontinuance of cash flow hedges because the forecasted transactions were no longer probable of occurring were immaterial.

(2) Gains and losses associated with terminated interest rate swaps, which were previously designated as cash flow hedges and recorded in Accumulated other comprehensive income (loss), will be released through Interest expense (income), net over the term of the issued debt.

(Dollars in millions)	AMOUNT OF GAIN (LOSS) RECOGNIZED IN INCOME ON DERIVATIVES			LOCATION OF GAIN (LOSS) RECOGNIZED IN INCOME ON DERIVATIVES
	YEAR ENDED MAY 31,			
	2022	2021	2020	
Derivatives not designated as hedging instruments:				
Foreign exchange forwards and options	\$ 40	\$ (150)	\$ 76	Other (income) expense, net
Embedded derivatives	(2)	(17)	(1)	Other (income) expense, net

CASH FLOW HEDGES

All changes in fair value of derivatives designated as cash flow hedge instruments are recorded in Accumulated other comprehensive income (loss) until Net income is affected by the variability of cash flows of the hedged transaction. Effective hedge results are classified in the Consolidated Statements of Income in the same manner as the underlying exposure. When it is no longer probable the forecasted hedged transaction will occur in the initially identified time period, hedge accounting is discontinued and the Company accounts for the associated derivative as an undesignated instrument as discussed below. Additionally, the gains and losses associated with derivatives no longer designated as cash flow hedge instruments in Accumulated other comprehensive income (loss) are recognized immediately in Other (income) expense, net, if it is probable the forecasted hedged transaction will not occur by the end of the initially identified time period or within an additional two-month period thereafter. In rare circumstances, the additional period of time may exceed two months due to extenuating circumstances related to the nature of the forecasted transaction that are outside the control or influence of the Company.

The purpose of the Company's foreign exchange risk management program is to lessen both the positive and negative effects of currency fluctuations on the Company's consolidated results of operations, financial position and cash flows. Foreign currency exposures the Company may elect to hedge in this manner include product costs, non-functional currency denominated revenues, intercompany revenues, demand creation expenses, investments in U.S. Dollar denominated available-for-sale debt securities and certain other intercompany transactions.

Product cost foreign currency exposures are primarily generated through non-functional currency denominated product purchases and the foreign currency adjustment program described below. NIKE entities primarily purchase product in two ways: (1) Certain NIKE entities purchase product from the NIKE Trading Company (NTC), a wholly-owned sourcing hub that buys NIKE branded products from third party factories, predominantly in U.S. Dollars. The NTC, whose functional currency is the U.S. Dollar, then sells the product to NIKE entities in their respective functional currencies. NTC sales to a NIKE entity with a different

functional currency result in a foreign currency exposure for the NTC. (2) Other NIKE entities purchase product directly from third party factories in U.S. Dollars. These purchases generate a foreign currency exposure for those NIKE entities with a functional currency other than the U.S. Dollar.

The Company operates a foreign currency adjustment program with certain factories. The program is designed to more effectively manage foreign currency risk by assuming certain of the factories' foreign currency exposures, some of which are natural offsets to the Company's existing foreign currency exposures. Under this program, the Company's payments to these factories are adjusted for rate fluctuations in the basket of currencies ("factory currency exposure index") in which the labor, materials and overhead costs incurred by the factories in the production of NIKE branded products ("factory input costs") are denominated. For the portion of the indices denominated in the local or functional currency of the factory, the Company may elect to place formally designated cash flow hedges. For all currencies within the indices, excluding the U.S. Dollar and the local or functional currency of the factory, an embedded derivative contract is created upon the factory's acceptance of NIKE's purchase order. Embedded derivative contracts are separated from the related purchase order, as further described within the Embedded Derivatives section below.

The Company's policy permits the utilization of derivatives to reduce its foreign currency exposures where internal netting or other strategies cannot be effectively employed. Typically, the Company may enter into hedge contracts starting up to 12 to 24 months in advance of the forecasted transaction and may place incremental hedges up to 100% of the exposure by the time the forecasted transaction occurs. The total notional amount of outstanding foreign currency derivatives designated as cash flow hedges was \$18.5 billion as of May 31, 2022.

As of May 31, 2022, approximately \$607 million of deferred net gains (net of tax) on both outstanding and matured derivatives in Accumulated other comprehensive income (loss) are expected to be reclassified to Net income during the next 12 months concurrent with the underlying hedged transactions also being recorded in Net income. Actual amounts ultimately reclassified to Net income are dependent on the exchange rates in effect when derivative contracts currently outstanding mature. As of May 31, 2022, the maximum term over which the Company hedges exposures to the variability of cash flows for its forecasted transactions was 24 months.

FAIR VALUE HEDGES

The Company has, in the past, been exposed to the risk of changes in the fair value of certain fixed-rate debt attributable to changes in interest rates. Derivatives used by the Company to hedge this risk are receive-fixed, pay-variable interest rate swaps. The Company had no interest rate swaps designated as fair value hedges as of May 31, 2022.

NET INVESTMENT HEDGES

The Company has, in the past, hedged and may, in the future, hedge the risk of variability in foreign currency-denominated net investments in wholly-owned international operations. All changes in fair value of the derivatives designated as net investment hedges are reported in Accumulated other comprehensive income (loss) along with the foreign currency translation adjustments on those investments. The Company had no outstanding net investment hedges as of May 31, 2022.

UNDESIGNATED DERIVATIVE INSTRUMENTS

The Company may elect to enter into foreign exchange forwards to mitigate the change in fair value of specific assets and liabilities on the Consolidated Balance Sheets and/or embedded derivative contracts. These undesignated instruments are recorded at fair value as a derivative asset or liability on the Consolidated Balance Sheets with their corresponding change in fair value recognized in Other (income) expense, net, together with the remeasurement gain or loss from the hedged balance sheet position and/or embedded derivative contract. The total notional amount of outstanding undesignated derivative instruments was \$3 billion as of May 31, 2022.

EMBEDDED DERIVATIVES

As part of the foreign currency adjustment program described above, an embedded derivative contract is created upon the factory's acceptance of NIKE's purchase order for currencies within the factory currency exposure indices that are neither the U.S. Dollar nor the local or functional currency of the factory. In addition, embedded derivative contracts are created when the Company enters into certain other contractual agreements which have payments that are indexed to currencies that are not the functional currency of either substantial party to the contracts. Embedded derivative contracts are treated as foreign currency forward contracts that are bifurcated from the related contract and recorded at fair value as a derivative asset or liability on the Consolidated Balance Sheets with their corresponding change in fair value recognized in Other (income) expense, net, through the date the foreign currency fluctuations cease to exist.

As of May 31, 2022, the total notional amount of embedded derivatives outstanding was approximately \$584 million.

CREDIT RISK

The Company is exposed to credit-related losses in the event of nonperformance by counterparties to hedging instruments. The counterparties to all derivative transactions are major financial institutions with investment grade credit ratings; however, this does not eliminate the Company's exposure to credit risk with these institutions. This credit risk is limited to the unrealized gains in such contracts should any of these counterparties fail to perform as contracted. To manage this risk, the Company has established strict counterparty credit guidelines that are continually monitored.

The Company's derivative contracts contain credit risk-related contingent features designed to protect against significant deterioration in counterparties' creditworthiness and their ultimate ability to settle outstanding derivative contracts in the normal course of business. The Company's bilateral credit-related contingent features generally require the owing entity, either the Company or the derivative counterparty, to post collateral for the portion of the fair value in excess of \$50 million should the fair value of outstanding derivatives per counterparty be greater than \$50 million. Additionally, a certain level of decline in credit rating of either the Company or the counterparty could trigger collateral requirements. As of May 31, 2022, the Company was in compliance with all credit risk-related contingent features, and no derivative instruments with such features were in a net liability position. Accordingly, the Company posted no cash collateral as a result of these contingent features. Further, as of May 31, 2022, the Company had received \$486 million in cash collateral from various counterparties to its derivative contracts. The Company considers the impact of the risk of counterparty default to be immaterial.

For additional information related to the Company's derivative financial instruments and collateral, refer to Note 6 — Fair Value Measurements.

NOTE 15 — ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The changes in Accumulated other comprehensive income (loss), net of tax, were as follows:

(Dollars in millions)	FOREIGN CURRENCY TRANSLATION ADJUSTMENT ⁽¹⁾	CASH FLOW HEDGES	NET INVESTMENT HEDGES ⁽¹⁾	OTHER	TOTAL
Balance at May 31, 2021	\$ 2	\$ (435)	\$ 115	\$ (62)	\$ (380)
Other comprehensive income (loss):					
Other comprehensive gains (losses) before reclassifications ⁽²⁾	(522)	1,222	—	28	728
Reclassifications to net income of previously deferred (gains) losses ⁽³⁾	—	(8)	—	(22)	(30)
Total other comprehensive income (loss)	(522)	1,214	—	6	698
Balance at May 31, 2022	\$ (520)	\$ 779	\$ 115	\$ (56)	\$ 318

(1) The accumulated foreign currency translation adjustment and net investment hedge gains/losses related to an investment in a foreign subsidiary are reclassified to Net income upon sale or upon complete or substantially complete liquidation of the respective entity.

(2) Net of tax benefit (expense) of \$0 million, \$(114) million, \$0 million, \$(9) million and \$(123) million, respectively.

(3) Net of tax (benefit) expense of \$0 million, \$11 million, \$0 million, \$9 million and \$20 million, respectively.

(Dollars in millions)	FOREIGN CURRENCY TRANSLATION ADJUSTMENT ⁽¹⁾	CASH FLOW HEDGES	NET INVESTMENT HEDGES ⁽¹⁾	OTHER	TOTAL
Balance at May 31, 2020	\$ (494)	\$ 390	\$ 115	\$ (67)	\$ (56)
Other comprehensive income (loss):					
Other comprehensive gains (losses) before reclassifications ⁽²⁾	499	(788)	—	(8)	(297)
Reclassifications to net income of previously deferred (gains) losses ⁽³⁾	(3)	(37)	—	13	(27)
Total other comprehensive income (loss)	496	(825)	—	5	(324)
Balance at May 31, 2021	\$ 2	\$ (435)	\$ 115	\$ (62)	\$ (380)

(1) The accumulated foreign currency translation adjustment and net investment hedge gains/losses related to an investment in a foreign subsidiary are reclassified to Net income upon sale or upon complete or substantially complete liquidation of the respective entity.

(2) Net of tax benefit (expense) of \$0 million, \$(6) million, \$0 million, \$(1) million and \$(7) million, respectively.

(3) Net of tax (benefit) expense of \$0 million, \$8 million, \$0 million, \$0 million and \$8 million, respectively.

The following table summarizes the reclassifications from Accumulated other comprehensive income (loss) to the Consolidated Statements of Income:

	AMOUNT OF GAIN (LOSS) RECLASSIFIED FROM ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS) INTO INCOME		LOCATION OF GAIN (LOSS) RECLASSIFIED FROM ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS) INTO INCOME

For the fiscal years ended May 31, 2022, 2021 and 2020, Global Brand Divisions revenues include NIKE Brand licensing and other miscellaneous revenues that are not part of a geographic operating segment. Converse Other revenues were primarily attributable to licensing businesses. Corporate revenues primarily consisted of foreign currency hedge gains and losses related to revenues generated by entities within the NIKE Brand geographic operating segments and Converse but managed through the Company's central foreign exchange risk management program.

As of May 31, 2022 and 2021, the Company did not have any contract assets and had an immaterial amount of contract liabilities recorded in Accrued liabilities on the Consolidated Balance Sheets.

SALES-RELATED RESERVES

As of May 31, 2022 and 2021, the Company's sales-related reserve balance, which includes returns, post-invoice sales discounts and miscellaneous claims, was \$1,015 million and \$1,077 million, respectively, recorded in Accrued liabilities on the Consolidated Balance Sheets. The estimated cost of inventory for expected product returns was \$194 million and \$269 million as of May 31, 2022 and 2021, respectively, and was recorded in Prepaid expenses and other current assets on the Consolidated Balance Sheets.

MAJOR CUSTOMERS

No customer accounted for 10% or more of the Company's consolidated net Revenues during the fiscal years ended May 31, 2022, 2021 and 2020.

NOTE 17 — OPERATING SEGMENTS AND RELATED INFORMATION

The Company's operating segments are evidence of the structure of the Company's internal organization. The NIKE Brand segments are defined by geographic regions for operations participating in NIKE Brand sales activity.

Each NIKE Brand geographic segment operates predominantly in one industry: the design, development, marketing and selling of athletic footwear, apparel and equipment. The Company's reportable operating segments for the NIKE Brand are: North America; Europe, Middle East & Africa (EMEA); Greater China; and Asia Pacific & Latin America (APLA), and include results for the NIKE and Jordan brands, results for the Hurley brand, prior to its divestiture in fiscal 2020, were included in North America. Refer to Note 20 — Acquisitions and Divestitures for information regarding the fiscal 2020 divestiture of the Company's wholly-owned subsidiary, Hurley, and the planned transition of NIKE Brand businesses in certain countries within APLA to third-party distributors.

The Company's NIKE Direct operations are managed within each NIKE Brand geographic operating segment. Converse is also a reportable segment for the Company and operates in one industry: the design, marketing, licensing and selling of athletic lifestyle sneakers, apparel and accessories.

Global Brand Divisions is included within the NIKE Brand for presentation purposes to align with the way management views the Company. Global Brand Divisions revenues include NIKE Brand licensing and other miscellaneous revenues that are not part of a

geographic operating segment. Global Brand Divisions costs represent demand creation and operating overhead expense that include product creation and design expenses centrally managed for the NIKE Brand, as well as costs associated with NIKE Direct global digital operations and enterprise technology.

Corporate consists primarily of unallocated general and administrative expenses, including expenses associated with centrally managed departments; depreciation and amortization related to the Company's headquarters; unallocated insurance, benefit and compensation programs, including stock-based compensation; and certain foreign currency gains and losses, including certain hedge gains and losses. For the fiscal year ended May 31, 2020, Corporate included a non-recurring impairment charge, recognized as a result of the Company's decision to transition certain NIKE Brand businesses within APLA to a third-party distributor. This charge primarily reflected the anticipated release of associated non-cash cumulative foreign currency translation losses. For more information regarding this charge, refer to Note 20 — Acquisitions and Divestitures.

The primary financial measure used by the Company to evaluate performance of individual operating segments is earnings before interest and taxes (EBIT), which represents Net income before Interest expense (income), net and Income tax expense in the Consolidated Statements of Income.

As part of the Company's centrally managed foreign exchange risk management program, standard foreign currency rates are assigned twice per year to each NIKE Brand entity in the Company's geographic operating segments and to Converse. These rates are set approximately nine and twelve months in advance of the future selling seasons to which they relate (specifically, for each currency, one standard rate applies to the fall and holiday selling seasons, and one standard rate applies to the spring and summer selling seasons) based on average market spot rates in the calendar month preceding the date they are established. Inventories and Cost of sales for geographic operating segments and Converse reflect the use of these standard rates to record non-functional currency product purchases in the entity's functional currency. Differences between assigned standard foreign currency rates and actual market rates are included in Corporate, together with foreign currency hedge gains and losses generated from the Company's centrally managed foreign exchange risk management program and other conversion gains and losses.

Accounts receivable, net, Inventories and Property, plant and equipment, net for operating segments are regularly reviewed by management and are therefore provided below.

REVENUES AND LONG-LIVED ASSETS BY GEOGRAPHIC AREA

After allocation of revenues for Global Brand Divisions, Converse and Corporate to geographical areas based on the location where the sales originated, revenues by geographical area are essentially the same as reported above for the NIKE Brand operating segments with the exception of the United States. Revenues derived in the United States were \$18,749 million, \$17,363 million and \$14,625 million for the fiscal years ended May 31, 2022, 2021 and 2020, respectively.

The Company's largest concentrations of long-lived assets primarily consist of the Company's corporate headquarters, retail locations and distribution facilities in the United States and China, as well as distribution facilities in Belgium. Long-lived assets attributable to operations in these countries, which consist of property, plant and equipment, net and operating lease ROU assets, net, were as follows:

(Dollars in millions)	MAY 31,	
	2022	2021
United States	\$ 4,916	\$ 4,927
Belgium	646	676
China	538	518

NOTE 18 — COMMITMENTS AND CONTINGENCIES

As of May 31, 2022 and 2021, the Company had bank guarantees and letters of credit outstanding totaling \$289 million and \$275 million, respectively, issued primarily for real estate agreements, self-insurance programs and other general business obligations.

In connection with various contracts and agreements, the Company provides routine indemnification relating to the enforceability of intellectual property rights, coverage for legal issues that arise and other items where the Company is acting as the guarantor. Currently, the Company has several such agreements in place. However, based on the Company's historical experience and the estimated probability of future loss, the Company has determined the fair value of such indemnification is not material to the Company's financial position or results of operations.

In the ordinary course of business, the Company is subject to various legal proceedings, claims and government investigations relating to its business, products and actions of its employees and representatives, including contractual and employment relationships, product liability, antitrust, customs, intellectual property and other matters. The outcome of these legal matters is inherently uncertain, and the Company cannot predict the eventual outcome of currently pending matters, the timing of their ultimate resolution or the eventual losses, fines, penalties or consequences relating to those matters. When a loss related to a legal proceeding or claim is probable and reasonably estimable, the Company accrues its best estimate for the ultimate resolution of the matter. If one or more legal matters were to be resolved against the Company in a reporting period for amounts above management's expectations, the Company's financial position, operating results and cash flows for that reporting period could be materially adversely affected. In the opinion of management, based on its current knowledge and after consultation with counsel, the Company does not believe any currently pending legal matters will have a material adverse impact on the Company's results of operations, financial position or cash flows, except as described below.

BELGIAN CUSTOMS CLAIM

The Company has received claims for certain years from the Belgian Customs Authorities for alleged underpaid duties related to products imported beginning in fiscal 2018. The Company disputes these claims and plans to appeal. At this time, the Company is unable to estimate the range of loss and cannot predict the final outcome as it could take several years to reach a resolution on this matter. If this matter is ultimately resolved against the Company, the amounts owed, including fines, penalties and other consequences relating to the matter, could have a material adverse effect on the Company's results of operations, financial position and cash flows.

NOTE 19 — LEASES

Lease expense is recognized in Cost of sales or Operating overhead expense within the Consolidated Statements of Income, based on the underlying nature of the leased asset. For the fiscal years ended May 31, 2022, 2021 and 2020, lease expense primarily consisted of operating lease costs of \$593 million, \$589 million and \$569 million, respectively. Lease expense also consisted of \$366 million, \$347 million and \$337 million for fiscal years ended May 31, 2022, 2021 and 2020, respectively, primarily related to variable lease costs, which includes an immaterial amount of short-term lease costs. As of and for the fiscal years ended May 31, 2022 and 2021 and 2020, finance leases were not a material component of the Company's lease portfolio.

The undiscounted cash flows for future maturities of the Company's operating lease liabilities and the reconciliation to the Operating lease liabilities recognized in the Company's Consolidated Balance Sheets are as follows:

<i>(Dollars in millions)</i>	AS OF MAY 31, 2022⁽¹⁾
Fiscal 2023	\$ 491
Fiscal 2024	543
Fiscal 2025	490
Fiscal 2026	405
Fiscal 2027	350
Thereafter	1,250
Total undiscounted future cash flows related to lease payments	\$ 3,529
Less interest	332
Present value of lease liabilities	\$ 3,197

(1) Excludes \$175 million as of May 31, 2022, of future operating lease payments for lease agreements signed but not yet commenced.

The following table includes supplemental information used to calculate the present value of Operating lease liabilities:

	AS OF MAY 31,	
	2022	2021
Weighted-average remaining lease term (in years)	7.8	8.3
Weighted-average discount rate	2.3 %	2.3 %

The following table includes supplemental cash and non-cash information related to operating leases:

(Dollars in millions)	YEAR ENDED MAY 31,		
	2022	2021	2020
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows from operating leases	\$ 589	\$ 583	\$ 532
Operating lease right-of-use assets obtained in exchange for new operating lease liabilities	\$ 537	\$ 489	\$ 705 ⁽¹⁾

(1) Excludes the amount initially capitalized in conjunction with the adoption of Topic 842.

NOTE 20 — ACQUISITIONS AND DIVESTITURES

ACQUISITIONS

During fiscal 2022, 2021 and 2020, the Company made multiple acquisitions focused on gaining new capabilities to fuel its Consumer Direct Offense strategy, serving consumers personally at a global scale. The impact of acquisitions, individually and in aggregate, was not considered material to the Company's Consolidated Financial Statements.

DIVESTITURES

During fiscal 2020, as a result of the Company's decision to transition its wholesale and direct to consumer operating model in certain countries within its APLA operating segment to third-party distributors, the related assets and liabilities of these entities were classified as held-for-sale within Prepaid expenses and other current assets and Accrued liabilities, respectively, on the Consolidated Balance Sheets.

During the fourth quarter of fiscal 2022, the Company entered into separate definitive agreements to sell its entities in Argentina and Uruguay as well as its entity in Chile to third-party distributors. The assets and liabilities of these entities will remain classified as held-for-sale on the Consolidated Balance Sheets until the transactions close, which is expected to occur prior to the end of the third quarter of fiscal 2023.

As of May 31, 2022, held-for-sale assets were \$182 million, primarily consisting of \$73 million of Accounts receivable, net and \$59 million of Inventories; held-for-sale liabilities were \$58 million, primarily consisting of \$26 million of Accrued liabilities and \$20 million of Accounts payable.

As of May 31, 2021, held-for-sale assets were \$175 million, primarily consisting of \$76 million of Inventories and \$59 million of Accounts receivable, net; held-for-sale liabilities were \$72 million, primarily consisting of \$25 million of Accounts payable and \$22 million of Accrued liabilities.

The Company has recognized total expected net losses of \$397 million as of May 31, 2022, related to the Argentina, Uruguay and Chile transactions within Other (income) expense, net, classified within Corporate, and a corresponding allowance within Accrued liabilities on the Consolidated Balance Sheets. The initial expected loss of \$405 million recognized in fiscal 2020 was largely due to the anticipated release of the cumulative net foreign currency translation losses and subsequently adjusted for changes in fair value. These losses will be reclassified from Accumulated other comprehensive income (loss) to Net income upon sale of the legal entities. At the completion of the sale of the Argentina and Uruguay entities, the Company expects to recognize future losses, in part due to changes in foreign currency exchange rates. The losses are not expected to be material to the Company's Consolidated Financial Statements. For more information see Note 6 — Fair Value Measurements.

OTHER DIVESTITURES

During fiscal 2020, the Company entered into a definitive agreement to sell substantially all of its NIKE Brand operations in Brazil and shift to a distributor operating model. During fiscal 2021, the transaction closed and the Company recognized a loss of approximately \$50 million within Other (income) expense, net classified within Corporate, on the Consolidated Statements of Income. Cash proceeds received were reflected within Other investing activities on the Consolidated Statements of Cash Flows.

On October 29, 2019, the Company signed a definitive agreement to sell the assets and liabilities of its wholly-owned subsidiary brand, Hurley. The transaction closed on December 6, 2019, and the impacts of the divestiture were not considered material to the Company's Consolidated Financial Statements.

NOTE 21 — RESTRUCTURING

In fiscal 2021, the Company announced a new digitally empowered phase of its Consumer Direct Offense strategy: Consumer Direct Acceleration. During fiscal 2021, the Company substantially completed a series of leadership and operating model changes to streamline and speed up the strategic execution of the Consumer Direct Acceleration.

For the fiscal year ended May 31, 2021, the Company recognized employee termination costs of \$214 million and \$35 million within Operating overhead expense and Cost of sales, respectively, and made cash payments of \$212 million. Additionally, the related stock-based compensation expense recorded within Operating overhead expense and Cost of sales was \$41 million and \$4 million, respectively, for the fiscal year ended May 31, 2021.

For the fiscal year ended May 31, 2022, the Company recognized an immaterial amount of related employee termination costs and, to a lesser extent, stock-based compensation expense.

For all periods presented these costs were classified within Corporate.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There has been no change of accountants nor any disagreements with accountants on any matter of accounting principles or practices or financial statement disclosure required to be reported under this Item.

ITEM 9A. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Securities Exchange Act of 1934, as amended (the "Exchange Act") reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carry out a variety of ongoing procedures, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of May 31, 2022.

"Management's Annual Report on Internal Control Over Financial Reporting" is included in Item 8 of this Report.

We are continuing several transformation initiatives to centralize and simplify our business processes and systems. These are long-term initiatives, which we believe will enhance our internal control over financial reporting due to increased automation and further integration of related processes. We will continue to monitor our internal control over financial reporting for effectiveness throughout these transformation initiatives.

There have not been any changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

No disclosure is required under this item.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by Item 401 of Regulation S-K regarding directors is included under “Corporate Governance — NIKE, Inc. Board of Directors” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference. The information required by Item 401 of Regulation S-K regarding executive officers is included under “Information about our Executive Officers” in Item 1 of this Report. The information required by Item 406 of Regulation S-K is included under “Corporate Governance — Board Structure and Responsibilities — Code of Conduct” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference. The information required by Items 407(d)(4) and (d)(5) of Regulation S-K regarding the Audit & Finance Committee of the Board of Directors is included under “Corporate Governance — Board Structure and Responsibilities — Board Committees” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

The information required by Items 402, 407(e)(4) and 407(e)(5) of Regulation S-K regarding executive compensation is included under “Corporate Governance — Director Compensation for Fiscal 2022,” “Compensation Discussion and Analysis,” “Executive Compensation Tables,” and “Stock Ownership Information — Transactions with Related Persons — Compensation Committee Interlocks and Insider Participation,” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by Item 201(d) of Regulation S-K is included under “Executive Compensation Tables — Equity Compensation Plan Information” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference. The information required by Item 403 of Regulation S-K is included under “Stock Ownership Information — Stock Holdings of Certain Owners and Management” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required by Items 404 and 407(a) of Regulation S-K is included under “Stock Ownership Information — Transactions with Related Persons” and “Corporate Governance — Individual Board Skills Matrix — Director Independence” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by Item 9(e) of Schedule 14A is included under “Audit Matters — Ratification of Appointment of Independent Registered Public Accounting Firm” in the definitive Proxy Statement for our 2022 Annual Meeting of Shareholders and is incorporated herein by reference.

PART IV

* *Management contract or compensatory plan or arrangement.*

The Exhibits filed herewith do not include certain instruments with respect to long-term debt of NIKE and its subsidiaries, inasmuch as the total amount of debt authorized under any such instrument does not exceed 10 percent of the total assets of NIKE and its subsidiaries on a consolidated basis. NIKE agrees, pursuant to Item 601(b)(4)(iii) of Regulation S-K, that it will furnish a copy of any such instrument to the SEC upon request.

SCHEDULE II — VALUATION AND QUALIFYING ACCOUNTS

<i>(Dollars in millions)</i>	BALANCE AT BEGINNING OF PERIOD	CHARGED TO COSTS AND EXPENSES	CHARGED TO OTHER ACCOUNTS ⁽¹⁾	WRITE-OFFS, NET	BALANCE AT END OF PERIOD
Sales returns reserve					
For the fiscal year ended May 31, 2020 ⁽²⁾	\$ 843	\$ 2,263	\$ (31)	\$ (2,393)	\$ 682
For the fiscal year ended May 31, 2021 ⁽²⁾	682	2,617	41	(2,745)	595
For the fiscal year ended May 31, 2022	595	2,573	(31)	(2,612)	525

(1) Amounts included in this column primarily relate to foreign currency translation.

(2) During the fourth quarter of fiscal 2022, management identified misstatements related to the amounts disclosed within Charged to Costs and Expenses and Write-offs, net. Specifically, Charged to Costs and Expenses was understated by \$46 million for fiscal 2021 and \$36 million for fiscal 2020 with a corresponding understatement of Write-offs, net. Additionally, during the fourth quarter of fiscal 2021, management identified misstatements related to the amounts disclosed within Charged to Costs and Expenses and Write-offs, net. Specifically, Charged to Costs and Expenses was understated by \$286 million for fiscal 2020 with a corresponding understatement of Write-offs, net. The Company assessed the materiality of these misstatements on prior period financial statements in accordance with U.S. Securities and Exchange Commission Staff Accounting Bulletin No. 99, Materiality, codified in ASC 250, Presentation of Financial Statements, and concluded these misstatements were not material to any prior period. As such, the Company has revised the amounts disclosed within Charged to Costs and Expenses and Write-offs, net for fiscal year 2021 and 2020. These misstatements did not impact the Consolidated Balance Sheets, Consolidated Statements of Income, or Consolidated Statements of Cash Flows.

ITEM 16. FORM 10-K SUMMARY

None.

Consent of Independent Registered Public Accounting Firm
